OFFICE OF SECRETARY OF STATE

COMMISSIONS

PARDONS, 1836-

Abstract: Pardons (1836-2021), restorations of citizenship, and commutations for Missouri convicts.

Extent: 66 cubic ft. (165 legal-size Hollinger boxes)

Physical Description: Paper

Location: MSA Stacks

ADMINISTRATIVE INFORMATION

Alternative Formats: Microfilm (S95-S123) of the Pardon Papers, 1837-1909, was made before additions, interfiles, and merging of the series. Most of the unmicrofilmed material will be found from 1854-1876 (pardon certificates and presidential pardons from an unprocessed box) and 1892-1909 (formerly restorations of citizenship). Also, stray records found in the Senior Reference Archivist's office from 1836-1920 in Box 164 and interfiles (bulk 1860) from 2 Hollinger boxes found in the stacks, a portion of which are in Box 164.

Access Restrictions: Applications or petitions listing the social security numbers of living people are confidential and must be provided to patrons in an alternative format. At the discretion of the Senior Reference Archivist, some records from the Board of Probation and Parole may be restricted per RSMo 549.500.

Publication Restrictions: Copyright is in the public domain.

Preferred Citation: [Name], [Date], [Box and Folder]; Pardons, 1836- ; Commissions; Office of Secretary of State, Record Group 5; Missouri State Archives, Jefferson City.

Acquisition Information: Agency transfer.

Processing Information: Processing done by various staff members and completed by Mary Kay Coker on October 30, 2007. Combined the series *Pardon Papers* and *Restorations of Citizenship* because the latter, especially in later years, contained a large proportion of pardons. The two series were split at 1910 but a later addition overlapped from 1892 to 1909 and these records were left in their respective boxes but listed chronologically in the finding aid. Commissions now uses the series title *Pardons* for all pardons, restorations of citizenship, and commutations. Added or interfiled one unprocessed Hollinger box of pardons dated 1854-1876. Another dated 1836-1920 on June 4, 2010. On August 9, 2010, added two Hollinger boxes of mostly 1860 pardon papers found in the stacks.

Accession 2009-0025 processed on July 29, 2009; 2012-0055 on June 8, 2012; 2015-0055 on October 20, 2015; 2018-0013 on February 6, 2018; 2018-0132 on June 7, 2018; 2021-0166 on November 2, 2021; 2022-0029 on March 15, 2022.

HISTORICAL AND BIOGRAPHICAL NOTES

The Missouri Constitution states: "The governor shall have power to grant reprieves, commutations and pardons, after conviction, for all offenses except treason and cases of impeachment, upon such conditions and with such restrictions and limitations as he may deem proper, subject to provisions of law as to the manner of applying for pardons" (Article IV, Section 7). The Missouri Revised Statutes (RSMo 217.800) require that all applications for pardons, commutations, and reprieves be referred to the Board of Probation and Parole for investigation; the board then submits a report and non-binding recommendation to the governor. Early pardons, however, were handled entirely within the governor's office. Approved files are sent to the Office of the Secretary of State for a certificate to be issued. After 1993, the board no longer sent supporting documentation and only the certificate was filed.

Although the distinction is sometimes blurred, there are basically three types of pardons: commutations of sentence, restorations of citizenship, and pardons. Commutations of sentence, which reduce the original sentence whether it was from hanging to life or reduced the number of years imprisoned, was its own series from 1847 to 1985; from thereon out, commutations are found intermingled with the pardons. Restorations of citizenship primarily impact suffrage but the right to vote is now automatic after the convict is released from prison and is no longer on probation or parole (RSMo 115.133). A pardon itself is normally considered an expungement of the original conviction and in most cases is awarded for good behavior after the prisoner has been released, but in a few cases it has been awarded for proven or perceived innocence of the original charge. For instance, Johnny Lee Wilson was pardoned by Governor Mel Carnahan in what his staff determined to be a false confession made by a man with diminished mental capacity.

Pardons were granted for crimes ranging from speeding to capital murder. Those pardons granted for minor infractions are often so that the applicant may seek employment in professions such as police or the military that bar convictions. For instance, a rash of

pardon requests in the late 1960s were for traffic violations so the applicant could become a highway patrolman. Another reason for seeking a pardon, such as the case of Antonino Mormino in 1972, was to avoid deportation. In one unusual case in 1968, a pardon was granted to a deceased man, Harry Jack Hoefeler, Jr., to lessen the grief of his parents and remove the stain on the family honor.

The number of pardons issued by governors for all states, including Missouri, plunged in the latter part of the 20th century, in part after it became a hot political issue in the 1988 presidential election after a furloughed prisoner from Massachusetts went on a murderous rampage. What once was a routine action of the executive branch as a check and balance on the judicial system is now considered a rare occurrence.

ADDITIONAL DESCRIPTIVE INFORMATION

Related Material

A related series called *Record of Pardons Issued* consists of eight volumes dated 1873-1936 that have been microfilmed (S50-S53). Also, there is one volume of bound *Applications for Pardons* dated 1893-1898 and a one-volume *Register of Restoration of Citizenship* dated 1911-1971. *Commutations of Sentence* can be found from 1847-1985 (bulk from 1891) as its own series.

PARDONS, 1836-2021

Arrangement: Chronologically by date filed

Scope and Content

Each pardon file usually includes an application giving details of the offense and personal information about the applicant. Petitions and correspondence evaluate the applicant's character and health and may describe mitigating factors in the case. Trial transcripts and affidavits and depositions concerning the advisability of clemency may be included. Files may also contain reports and recommendations from the warden, the Prison Board, or the Board of Probation and Parole.

For certain pardons in 1980 and from 1993, the file includes only the certificate without any supporting documentation. Gaps in the series are found between 1876 and 1891, between 1852 and 1857, and for the year 1964. A few stray pardons from these years are found in a later addition (Box 164). In the mid-19th century, there are some presidential pardons for prisoners housed in the Missouri penitentiary. Some commutations and at least one extradition can also be found in these papers.
