To the Friends of the Friendless.

As I have not forgotten my own early disadvantages and impediments, and know that there are many poor but deserving boys who would make good accountants and excellent citizens, I will receive twenty such from this county, prior to September 15th, 1874, for the complete business course, at $10 each, which is barely sufficient to cover expenses, allowing nothing for my services. As this will be their last chance, I most respectfully request you to call their attention to the matter, and give me such information as will lead to the speedy admission of the truly deserving.

Yours truly,

Sociable.

The young ladies of Mr. Beach's class will give a sociable this (Thursday) evening in the lecture room of the Fifth street Methodist Church. Refreshments, consisting of ice cream, lemonade, cake, etc, will be provided in abundance. Let all come and spend a pleasant evening in the pleasantest of places. Admittance free; refreshments cheap. COMMITTEE.

The Lake Club.

There was a pleasant gathering at Fredericksburg last evening. The party consisted of Father Frederich, Christ Mast, Col. John Pinger, Capt. Joseph Schmitz, Col. G. H. Koch, Theo. H. Borngesser, J. L. Bittinger, Maj. H. R. W. Hartwig, G. Frey, Capt. Phil Arnholt, Capt. Charles F. Ernst, and Ernst Hartwig, Jr. After a refreshing bath in the lake, the company were served with an elegant supper, wine, cigars, etc.

Merchant Tailor.

Mr. Jacob Marohn has received a part of his fall stock, and is prepared to fill orders in the most satisfactory manner. He is a first-class merchant tailor, and we cheerfully insert the following testimonial from one who knows his ability, being himself one of the most competent cutters ever in St. Joseph:

NOTICE.

The undersigned would most respectfully recommend to his former friends and patrons Mr. Jacob Marohn, merchant tailor, as a gentleman fully competent in every branch of his profession, to render entire satisfaction to all who may favor him with their patronage, Francis street, between Fourth and Fifth.

Yours, respectfully,
FRANK CLARK.

Lake Contrary.

For capital fare, good attention and gentlemanly treatment, commend us to "mine host," E. J. Dunford, of the Lake Shore House, Lake Contrary. Mr. Dunford knows just how to do it; his house is entirely new, rooms airy and well ventilated, beds clean and comfortable, and his table is always bountifully supplied. He is well fixed for entertaining parties or individuals, and it is just a delightful ride to his house. Drive out and see him. Plenty of boats and fishing tackle for those who want them.

To Purchasers and Dealers in O. K. Whisky.

NOTICE—Whereas, We learn that J. D. McNeely, of St. Joseph, Mo., is selling a whisky bearing a brand similar to our patented trade-mark brands and is purchasing at Cincinnati, Ohio, or elsewhere, a whisky made in imitation of our well known O. K. Whisky. We hereby notify him and the public that we have instructed our attorneys at St. Louis to bring suit for the maintenance of our *trade-mark rights*, and for the collection of damage sustained by us through the violation of such rights, and we hereby give notice to whisky dealers and retailers in the West having in their possession whisky bearing imitations of our trade marks in violation of the State law, which makes such possession a penal offence punishable with fine and imprisonment, that we shall have them prosecuted to the fullest extent by law allowed.

Camp Meeting Notice.

The St. Joseph Camp Meeting Association of the M. E. Church, will hold their annual meeting on their camp ground, six and a half miles southwest of Maryville, Nodaway county, Mo., west of the White Cloud, commencing August 20th, and continuing ten days. We respectfully invite all who are interested in any sense in the success of Christ's cause, to camp with us. There will be a boarding tent on the ground as usual, for the accommodation of all those who do not wish to board themselves. Board $3 50 per week; $1 per day. Arrangements will also be made for the feeding of horses at reasonable prices. A new well, in addition to what we had, makes our water supplies abundant.

Public conveyance, at moderate rates, from the railroad to the ground.

Positively no huckstering will be allowed on the ground.

For further particulars address Rev. S. W. Thornton, Maryville, Superintendent of Arrangements.

Z. S. WELLER, President of Association.

P. S.—Tent-holders are expected to let their tents stand until the meeting closes.

Personal.

—Mrs. L. M. Black and family left yesterday noon for Montana.

—Hon. E. F. Horton, of Grundy county, a leading Republican in the last General Assembly, is in the city.

—Mr. John Alexander, one of the most portly and genial citizens of Seneca, Kansas, was interviewing his many friends in this city yesterday.

—Mr. Jacob Madinger is at home once more, after a visit of several weeks to his friends in Cincinnati. He reports the crops in southern Ohio cut short by the drouth, although in the past few days some localities have been visited by refreshing showers. Mr. Madinger is one of our most substantial citizens, and has done as much as any man to build up the horticultural interests of Buchanan county.

—The MORNING HERALD office was favored yesterday with a call from Mr. John Martin, the traveling representative of the house of James M. O'Donnell *& Bros., a firm that has acquired a* world-wide celebrity as the proprietors of the finest distilleries in the United States. We welcome Mr. Martin, not so much as a representative man as a gentleman. Companionable and versatile, he has the happy faculty of making friends wherever he goes. If the Messrs. O'Donnell desire to captivate the denizens of the Missouri Valley, they need send out here no more perfect gentleman.

—The people are excited. The *rush continues*, and 10 per cent. saved by buying *Boots and Shoes* of Marlow.

THE SOCIABLE

At the Fifth Street M. E. Church To-night.

To-night the young ladies of the Fifth Street M. E. Church hold a sociable in the lecture room of the church building. What they intend to say or do we won't undertake to predict; but we can say this much, that there will be an abundance of refreshments, and the prettiest girls in the city; and young men who wish to "go West" and settle down and grow up with the country will find the Fifth Street Church an excellent starting point.

THE SCHUTZENVEREIN.

Its Consolidation with the St. Joseph Turnverein.

On Tuesday evening the members of the St. Joseph Schutzenverein met at Turner Hall for the purpose of considering the proposition to consolidate with the Turnverein. The committee appointed for that purpose reported in favor of a consolidation of the two societies, on the basis proposed by the Schutzenverein, that the latter should constitute an independent section of the former.

A committee was appointed to revise the by-laws of the Schutzenverein, to correspond with the new arrangement, and the meeting adjourned.

FATAL ACCIDENT.

Result of a Coal Oil Lamp Explosion.

Mr. Hugh Stout of Doniphan county, Kansas, who was in the city last evening, gives us the particulars of a fatal accident that occurred in the northeast part of that county, on Tuesday morning last. Sallie Bevens, aged twelve years, a daughter of Willis Bevens, had arisen in the morning before her parents, and started to light a fire in the cooking stove for the purpose of preparing breakfast. She placed some kindling in the stove, saturated it with coal oil, placed the oil can on the top of the stove, lighted a match and proceeded to apply it to the kindling. In stooping down, however, the flame from the match was communicated to the can, and an explosion instantly followed. The parents, alarmed by the noise, hastened to the kitchen only to find the room partly in flames, and their daughter lying upon the floor screaming in agony. The father sprang to the relief of the child, and dragged her to the door, while the remainder of the family succeeded in extinguishing the fire with a few buckets of water.

The little girl was burned to a crisp about the head and breast, and had evidently inhaled the fire. There was no physician in the immediate neighborhood, and the family were compelled to use such remedies as they had in the house, although it was evident that no remedy could do any possible good. In three-quarters of an hour after the accident occurred the little girl breathed her last.

This is another warning against carelessness in the use of coal oil.

O. K. WHISKY.

To Whom it May Concern.

Whereas, We are informed that our whisky known as "O. K.," a title made famous through the individual energy of James M. O'Donnell, who has during a long series of years applied it to his own whisky of the most superior quality, and acquired for it the highest reputation and consequent great value, thus attracting counterfeiters and imitators, who, unable to make an equally meritorious whisky, endeavor to palm off on the trade and public inferior and spurious whiskies, by branding barrels with counterfeits, more or less exact, of the trade-mark "O. K.," by which our famous whisky is commonly known;

Now, be it known, that we, the James M. O'Donnell O. K. Distilling Company of New York and Kentucky, purchasers and owners of the "O. K." trade-marks, registered in the patent office of the United States, by James M. O'Donnell, for the security of purchasers and the guidance of the trade have established agencies in the principal cities throughout the United States, whereat may be procured the only genuine "O'Donnell's O. K.," No. One White Wheat Bourbon, sometimes called "O'Donnell's O. K.," and commonly known as "O. K. Whisky," the genuineness of which is amply evidenced by the brand "O. K.," with the *fac simile* of James M. O'Donnell's signature and our government stamp.

COUNTY COURT.

Proceedings of the Third Day.

The County Court met yesterday. Present; the same judges as the day before.

Wm. S. Gunn, Overseer of Road District No. 36, made a report of the bridge across a farm on the road from St. Joseph to Smithville. Ordered that Lem Peters, Bridge Commissioner, examine the same.

Ordered that the securities on the bond of Jas. M. Dunning, Road Overseer, be notified that said Jas. M. Dunning has never made settlement with the court as Overseer of District 14, for the year ending May 1st, 1874.

The Road Commissioner made a report in the case of the petition of Hamilton Kent for change of road. Ordered that the change be made, and that as soon as it is shown to the satisfaction of the court that the new road is opened, the old road shall be abandoned.

Ordered that John DeClue, contractor of the new Court House building, put the glass in the windows of said building, and furnish ready for occupancy such rooms as the County Court may determine, on or before the 1st day of January next, in consideration of which the court agree to insure the building, and take the risk of all breakage of glass, after the same is placed in the building.

The petition of G. W. Rector, et al., for a road came up, and the road commissioner made his report, which was received. It was further ordered that the prayer of the petition be granted, and the road established, the petitioner to pay all costs.

J. R. Bell, et al, presented a petition to straighten the Rochester road. Referred to Lem Peters, road commissioner.

EXPOSITION.

GRAND TOURNAMENT ON THE TWENTIETH OF AUGUST.

To End with a Soiree Dansantee or a Grand Dance.

At the Directors' meeting, held yesterday afternoon, it was decided to ceil the Fine Art Hall in order to protect the pictures and articles of value which will be placed there at the time of the Exposition. This will render it the finest hall in the whole building, and will enable the Superintendent to gather a fine collection of paintings from our citizens, who can now be assured of their entire safety.

Mr. Abell, of the committee on the Tournament, reported that they had fixed on Thursday, August 20, at 10 o'clock A. M., to hold the grand tournament, when the contestants are to strive for the following prizes:

First prize—A pair of gold spurs.
Second prize—A fine riding saddle.
Third prize—A handsome bridle and martingal.
Fourth prize—A pair of silver spurs.

The winner of the first prize is to have the honor of crowning the maiden of his choice the Queen of Love and Beauty, and the winners of the second, third and fourth prizes are to select the maids of honor to wait on her Majesty. They are then to march in procession to the Fine Art Hall, where a floor is to be laid for dancing, and the Queen, with her maids of honor and victorious knights, are to inaugurate the grand ball to last the rest of the day. As this will be a great event especial arrangements will be made for it.

Five hundred posters are to be placarded in the adjoining towns, and it is expected there will be a large number of people present. To accommodate these there must be restaurants and saloons. The Committee on Finance, Messrs. Wyeth, Adler and Pinger, will rent out these privileges for that day to parties applying to them for the same. The sale of restaurants and other ground privileges for the week of the Fair will take place on Saturday.

Mr. Jennison's brother-in-law writes from Leavenworth that Col. Jennison will be on hand in September.

Herr H. Acosta Kresken writes from Cincinnati: "St. Joe is my old home, and I mean to be at your Exposition."

F. W. Poneson writes from Pawnee City: "Send me premium list. I have some articles to exhibit."

S. B. Lucket, of Corydon, Indiana, writes: "I will be in attendance at your Exposition with some fine cattle."

Joe Lesneur writes: "Several stock men of this county have requested me to write you for some premium lists. They want to show their stock at your Exposition."

THE POST OFFICE.

Its Removal to Second Street.

Yesterday there were a hundred rumors in reference to the removal of the Post Office to Second street. Where it originated, how it originated, no one can tell. On hearing it, however, a HERALD reporter was immediately sent out to ascertain the facts; and, after passing three hours in investigating the case, returned as wise as he was before.

Reporters sometimes miss the mark, however; and sometimes the local editor steps in to let them know what they don't know. It is so in this instance. The sharp-nosed gentlemen have been completely outwitted, and, if they talked at all, could only talk in parables. We shall speak right out in meeting, and our statement will be like this:

Yesterday afternoon an order came from the First Assistant Postmaster General to the Postmaster in this city, directing him to at once conclude the contract for the lease of the building on the corner of Second and Francis streets with the administrators of P. L. McLaughlin's estate, for four years, at a nominal rate of $12 per year, and to remove the office to this building as speedily as possible, the date of removal to not be prolonged beyond September 1st.

How this order got here we are not at liberty to say. We only know that it is an order from the Postoffice Department, and that it is irrevocable. It only remains for the Postmaster to sign the lease, and this he must do under the instructions of the department.

In reference to this change, the MORNING HERALD has not said a single word. It is of course a very desirable one to us, but we feel a delicacy in alluding to it. Special agents of the Department have visited the city several times in reference to the matter, and they have been left perfectly free to select the best location. The Second street people subscribed the money to pay the office rent for the next four years, and this probably influenced the Department in making the change.

If a saving of $5,000 could be made in the rent of the post office at St. Joseph, it was certainly an object of importance. It now remains for the citizens of Second street to show that they are worthy of the prize they have unexpectedly drawn. There are a number of old rickety buildings on the street that should be torn down, and vacant lots that should be built upon. If these deficiencies are supplied in the next four years the postoffice will remain where it has been ordered; if not it will be removed again.

—The fullest and best stock of Ladies' and Gents' Kid Gloves in the city is now at A. E. McKINNEY'S.

—Marlow's is now the *best* place to buy your Boots and Shoes; by so doing you save 10 *per cent.*

—Prof. H. B. Younger's opening ball, at the new City Hall, comes off on the evening of the 14th inst.

—We received yesterday a postal card that contains more real intelligence for the (m)asses than any that has ever come to this office. It is brief and comprehensive.

—Hon. Henry M. Vories says that in his neighborhood they had the usual rain yesterday morning—six drops, with two divided for fear the country would be flooded.

—It is rumored on the streets that Col. James N. Burnes has been offered the position of pastor of Plymouth Church in case of the resignation of Rev. Henry Ward Beecher.

—Sportsmen inform us that prairie chickens are not very plenty in Kansas this season. The drouth seems to affect them (that is the chickens, not the sportsmen), as well as the crops.

—A boy residing on Fifteenth street had a few ounces of flesh taken from the calf of his leg by a dog yesterday. He has the consolation of knowing that it was a registered dog that did the work, although the wound does smart a little.

—Yesterday Mr. Sam Dougherty, who was required to give bail on charge of stealing a mule belonging to Elkana Bush, was taken before Judge Grubb, on a writ of *habeas corpus*, and discharged from custody, the Judge holding that there was no testimony to support the charge. Thomas & Strong for the State; Zimmerman & Ellis for defendant.

—Think of it! Fresh oysters on the 6th of August! And yet it's so. This morning Armstrong & Bro. will receive a case of fresh oysters direct from Baltimore, and will continue to receive them semi-weekly until the weather grows cooler. We may add likewise that Geo. Bedee, of the Sense, intends to fill all orders for fries, stews or broils (except family broils) to-day. This is two weeks earlier than the Messrs. Armstrong received fresh oysters last year.

SPRINGFIELD, Mass., May 27, 1871.—We, the proprietors of the Steam Laundry and Springfield Dye-house (both the largest in Western Massachusetts), have tried many starches in our established business, and cheerfully recommend yours as superior to them all. Truly has the name of "Duryeas' Starch" become familiar as household words. Whilst the noted excellency of our laundry work and its superiority of finish is attributable in a great measure to the perfect purity of your goods, we use it and want no other. Very truly yours,

The Truth.

In the whole United States there is not a Baking Powder or Flavoring Extract that is so valuable, so positive, so effectual in producing the most elegant and healthful bread and biscuits, the most delicious, desirable and delicate flavored cakes, pastry, ice cream, etc., as Dr. Price's justly celebrated Cream Baking Powder and Special Flavorings, Almond, Lemon and aromatic flavors. Try them and you will be delighted with their true qualities, and find that they are far superior to anything in their line. aug5-eod&w

Ague Conqueror;

No Quinine, Arsenic or Poisons. This is strong language, as physicians and chemists have for years tried to compound a preparation that would entirely cure fever and ague without the use of strong medicines such as quinine, arsenic and other poisons injurious to the system. There is no case of fever and Ague, intermittent or bilious fevers, congestive chills, night sweats, liver complaints, etc., that this remedy will not cure at once and permanently. It purifies the blood, liver, spleens, and all secretory organs so effectually that the chills will not return during the season, even when persons have had them for years. Sold by H. H. NOTICES.

Go East by Way of St. Louis.

In these days of railroad competition the wise traveler selects his route before leaving home. In almost every instance he desires to reach his destination as speedily as possible, and for the accomplishment of that purpose the *Missouri Pacific Through Line* from the West to the East, *via Kansas City and St. Louis*, offers inducements unsurpassed by any other line in the country. Everything connected with the *Missouri Pacific Railroad is first-class*, and the adoption of the Miller Platform and Westinghouse Air Brake, together with its Pullman Sleepers, and Reclining Chair Coaches, render a trip over the line perfectly safe and pleasant. Passengers from all parts of the West by taking the Express Trains at Kansas City, Leavenworth, Atchison and other prominent cities, are landed in St. Louis at seasonable hours morning and evening, and in ample time to make direct connection with all railroads for every point North, East and South. Particular information with maps, time tables, etc., may be had at the various "Through Ticket" offices in the West, or upon personal or written application to G. H. Baxter, Western Passenger Agent, Kansas City, Mo., or E. A. Ford, General Passenger Agent, St. Louis, Mo. jan15-eodtf

The Route is Now Fixed

By which passengers from St. Joseph and other points in the West can reach St. Louis and all points East by way of St. Louis more comfortably and speedily than ever before.

THE MISSOURI PACIFIC THROUGH LINE has completed arrangements with the Kansas City, St. Joseph & Council Bluffs Railroad, whereby a train is run from St. Joseph to St. Louis without break or impediment, and without subjecting its patrons to the annoyance of a single change of cars. *No other line can furnish such inducements to the traveling public.* Everything connected with this Through Line is *first-class*, and the adoption of the Miller Platform and Westinghouse Air Brake, together with its Pullman Sleepers, and Reclining Chair Coaches render a trip over the line perfectly safe and pleasant. Passengers from all parts of the West by taking its Express Trains are landed in St. Louis at seasonable hours morning and evening, and in ample time to make direct connection with all railroads for every point in the North, East and South. Particular information with maps, time tables, etc., may be had at the various "Through Ticket" offices in the West, or upon personal or written application to G. H. Baxter, Western Passenger Agent, Kansas City, Mo., or E. A. Ford, General Passenger Agent, St. Louis, Mo.

HASKINS & THOMSON, Ticket Agents, St. Joseph, Mo.

The East.

Passengers going East should see that their tickets read via the "Old Reliable" Hannibal & St. Joseph Railroad. Two through express passenger trains leave Kansas City, Atchison and St. Joseph daily, upon the arrival of trains from the South and West, running *through cars* to Quincy, Galesburg, Chicago, Jacksonville, Springfield, Decatur, Indianapolis and Cincinnati *without change.*

Every passenger train is supplied with the Westinghouse Air Brake and Miller Platform and Coupler, while the cars, from Smoker to Pullman, are the very perfection of comfort.

The track is in the very best of condition, a large portion of it having been recently relaid with *Steel Rails.* Iron and stone bridges have taken the place of wood, and all other improvements conducive to the safety and comfort of its patrons have been adopted. Baggage checked through to all the principal cities and towns in the East. For further information address Fred. Harvey, Western Passenger Agent, Leavenworth, Kan., or T. Penfield, General Passenger Agent, Hannibal, Mo. jnl2

Are You Going East?

The reason we ask the question is, that if you are, we may inform you that *the* place to obtain tickets is at the corner office, under the Pacific Hotel, where Milner & Laughlin, ticket agents of the "Old Reliable" Hannibal & St. Joseph Railroad, are to be found at all seasonable hours of the day or night. They can check you through to Boston, New York, Baltimore, Washington, Richmond, Charleston, New Orleans or San Francisco, as well as to all intermediate points, and you can always rely upon their statements as to time, accommodations, connections, etc., etc. Messrs. Milner & Laughlin are popular both in a social and business sense, and are not sharpers who inveigle the unwary into their meshes and ship them "around by Robin Hood's barn" to their destination, caring for nothing but their money. Their object is to give truthful information and recommend the best route. m24-tf

Something About Going East.

The shortest possible route between the great West and the East, North and South, is over the St. Louis, Kansas City & Northern Short Line. This road has gained surprising importance by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in improvements of roadway, in relaying their line with best quality of new steel and iron rails, on broad new ties, and by substituting for ordinary cars, new reclining chair coaches, elegantly carpeted and fitted, with dressing rooms with toilet conveniences for ladies, gentlemen and families traveling with children, WITHOUT EXTRA CHARGE. This line runs six fast express trains between the Missouri and Mississippi rivers, two more than any other road, and connects with all the great through lines East, West, North and South. It is remarkably exempt from accidents, by reason of adopting every modern appliance for comfort, speed and safety, including night and day watchmen, who inspect the road before and after the passage of each train to see that everything is secure. We recommend those contemplating a trip East to take the St. Louis, Kansas City & Northern Short Line, either through St. Louis, the great metropolis of over 450,000 inhabitants, or through Chicago, via the Chicago & Alton Short Line, over the Louisiana bridge, now open for passage of through trains. Ticket agents of connecting roads selling through tickets to the East, North or South, will furnish tickets by this excellent line. For map, circulars, time cards, and information relative to rates, etc., apply to or address Lyman McCarty, Kansas City, Mo., or P. B. Groat, St. Louis, Mo. jan10-tf

HAVING PURCHASED THE RIGHT FOR Buchanan county, of Munro's Patent Medicated Vapor Baths, I have established myself at No. 404 Francis street, and near the corner of Fourth, and fitted up several bath rooms for the accommodation of the public.

With this process no medicine is given, or applied except in the form of vapor, which is received through the pores of the skin, and thus through the blood, which becomes purified by it. It also removes the effects of poisonous matters, such as

MERCURY, ARSENIC, LEAD, ETC.,

from the system. Persons suffering from

Can be relieved by applying at

THE BATH ROOMS.

If you have a liver or kidney disease, these baths are an effectual remedy.

If you have dropsy, they will cure it.

If you have erysipelas, they will cure it.

If you have inflammation of bladder, these baths afford relief, where all means fail.

Scrofula, scurvy, saltrheum, tetter, sore eyes, etc., are cured by these baths.

The Topeka Convention.

A Conclave of Ex-Democrats and Rusty Politicians.

Candidates as Plenty as Grasshoppers---A Clear Majority for Governor.

No Nominations Yet.

Special to the MORNING HERALD.

CONVENED.

TOPEKA, KAS., August 5.—The convention met at 2 o'clock. John Davis was called to the chair, and Nelson Abbott and A. H. Albn were appointed secretaries. Committees on credentials and permanent organization were appointed, and the time (nearly 5 o'clock) was spent in

SPEECH MAKING.

Fiery, the liquor man, Nelson Abbott, Sam Riggs, John Davis, Scroggs, Ike Sharpe and Parrot furnished most of the chin music.

The committee reported fifty-four districts represented. John Boyd, of Montgomery, is permanent chairman; J. H. Watson, Vice President; Nelson Abbott and A. Alford, Secretaries.

A COMMITTEE ON RESOLUTIONS,

consisting of Jno. Davis, Nelson Abbott, Ike Eaton, Haller, H. C. McComas, W. H. Clark, M. J. Fiery, J. R. Dean, and Peter Bell, was appointed.

A motion was then made that the delegation make an informal nomination for the various State offices and take a recess till 7 o'clock. About a dozen names were mentioned, about half of them for the office of Governor.

A STRONG DEMOCRATIC SMELL.

The formation of the committee on resolutions shows the character of the convention. More than half of them are old Democratic politicians. Nearly the entire Democratic party of Kansas and some from Missouri are here, and the Hall of Representatives is well filled. The committee on resolutions did not report till after 10 o'clock.

A MINORITY REPORT

was made on the currency question and the evening session was used up in discussing the financial problem.

A STRANGE MIXTURE

The resolutions are a strange medly of the declaration of independence, State rights, Gen. Jackson, Stephen A. Douglas and Brick Pomeroy, condemn the Administration in strong terms. They bear the marks of Ike Eaton.

It is not likely that any nomination will be made to-night.

JUDGE RILEY DISMISSES THE CASE.

NEW YORK, August 5.—The suit brought by William J. Gaynor, against Theodore Tilton for libel upon Henry Ward Beecher, was disposed of to-day by Judge Riley. Neither Tilton nor his counsel were present and only a few persons besides the regular attendants were in the court room when the case was called. Mr. Gaynor made a short address, in which he said:

"I have heard that the case was to be taken to a higher court. Truth, justice and the well defined law of the commonwealth were my only motives in bringing this case to trial, and as there would be full satisfaction before a higher tribunal, I therefore withdraw the complaint."

Judge Riley then said the complaint being withdrawn, the case was dismissed.

BEECHER'S RECENT LETTERS TO MOULTON.

NEW YORK, August 5.—The following are the letters written by Mr. Beecher to Moulton:

BROOKLYN, July 28.—My Dear Friend—The committee of investigation are waiting mainly for you before closing their labors. I too, earnestly wish that you would come and clear your mind and memory of everything that can bear on my case. I pray you also to bring all letters and papers relating to it which will throw any light upon it, and bring to a result this protracted case. I trust that Mrs. M. has been invigorated, and that her need of your care will not be so great as to detain you.

Truly yours, H. W. BEECHER.
To F. D. MOULTON.

A SECOND APPEAL.

BROOKLYN, August 4.—F. D. Moulton. Dear Sir: Your letter bearing date August 4, 1874, is this moment received. Allow me to express my regret and astonishment that you refused me permission ever to see certain letters and papers in your possession relating to the charges made against me by Theodore Tilton, and at the reasons gven for refusal. On your solemn and repeated assurances of personal friendship, and in the unquestioned confidence which you inspired of your honor and fidelity, I placed in your hands, for safe keeping, various letters addressed to me from my brothers, my sisters, and various other parties; also, memoranda of affairs not immediately connected with the Tilton matters. I also, from time to time, addressed you confidential notes relating to my own self as one friend would write to another. These papers were never placed in your hands to be held for two parties nor to be used in any way. They were subject to the risk of loss or scattering from my careless habits in the matter of preserving documents. They were to be held for me. As far as these papers were concerned you were only a friendly trustee, holding the papers subject to my wishes.

Mr. Tilton has made a deadly assault upon me, and has used letters and fragments of letters purporting to be copies of these papers. Are these extracts genuine? are they garbled? What, if anything, has been left out, and what put in? You refuse my demand for these papers on various pleas: That if I speak truth in my statement I do not need them; that if I make a successful use of them it will be an injury to Mr. Tilton, and that you, as a friend of both parties, are bound not to aid either in any act that shall injure the other. But I do not desire to injure any one, but to repel an injury attempted upon me by the use of the papers committed sacredly to your care. These documents have been seen and copied; they have been hawked for sale in New York newspaper offices; what purport to be my confidential notes to you are on the market, but when I demand a sight of the originals, of the papers of which you are only a trustee that I may defend myself you refuse because you are a friend of both parties. Mr. Tilton has access to your depository for materials with which to strike me, but I am not permitted there in defending myself. I do not ask you to place before the committee any papers which Mr. Tilton may have given you, but I do demand that you forthwith place before the committee every paper which I have written or deposited with you.

Yours truly, H. W. BEECHER.

Moulton says he has answered the above letters and expresses surprise that his answer is not given to the public as well as the letters of Mr. Beecher. Moulton stated this afternoon that he should go before the committee this evening.

GEN. BUTLER

has been telegraphed for and will be in Brooklyn to-night. He will probably act as Tilton's counsel.

KANSAS REFORMERS IN CONVENTION.

TOPEKA, KAS., August 5.—The Independent State Convention met here at two o'clock this afternoon. John Davis was appointed temporary chairman and Nelson Abbott, temporary secretary. Committees on credentials and permanent organization were appointed. The committee on credentials reported about 100 delegates present, representing most of the counties of the State.

The following permanent officers were elected: John Boyd, of Montgomery, President; J. H. Watson, of Lyon, and W. Kilpocker, of Washington, Vice Presidents; Nelson Abbott, of Atchison, Secretary; T. A. Alford, of Davis, and Peter Bell, of Coffey, Assistant Secretaries.

The most of the afternoon was spent in hearing reports from different parts of the State concerning the condition and prospects of the reform movement, and after the appointment of a committee to prepare a platform, the convention adjourned to 7 o'clock P. M.

TALKED OF FOR GOVERNOR.

The candidates for Governor most talked of are M. E. Hudson, Wilson Shannon, Alfred Taylor, J. D. Casey and A. H. Boyd.

EVENING SESSION.

TOPEKA, KS., August 5.—At the evening session of the State Reform Convention, the following declaration of principles was presented by the committee.

The committee on resolutions reported the following:

Resolved, That we, the delegates and representatives of the people of Kansas, favorable to the organization of an independent political party, laying aside past difference of opinion, and earnestly uniting in a common purpose to secure needed reforms in the administration of public affairs, cordially unite in submitting these declarations:

First. That all political power is inherent in the people; that no government is worthy of preservation, or should be upheld, which does not derive its powers from the consent of the governed; that by equal and just laws the rights of life, liberty and the pursuit of happiness shall be secured to all men without distinction of race, color, or nationality; that the maintenance of these principles is essential to the perpetuity of our Republican institutions, and that to this end, the Federal constitution, with all its amendments, the rights of States and the union of the States must be preserved.

Second. That the maintenance inviolate of the rights of the States and especially of the right of each State to control and order its own institutions according to its judgment exclusively, is indispensable to that balance of power on which the perfection and endurance of our political fabric depends.

Third. That the conduct of the present administration, in its bold defiance of public sentiment and disregard of the public good; in its prodigality and wasteful extravagance; in the innumerable frauds perpetrated under its authority; in its disgraceful partiality for, and reward of, unworthy favorites; in its reckless and unstable financial policy, and in its incapacity to meet the vital questions of the day and provide for the general welfare stands without a parallel in our national history, and the highest considerations of duty require the American people, in the exercise of their inherent sovereignty, to correct the accumulations of evil and bring the government back to its ancient land marks of patriotism and economy.

Fourth. That the faith of the nation must be retained inviolate; that the public debt, of whatever kind, should be paid in strict accordance with the law under which it was contracted.

Fifth. That we demand the repeal of the National banking law, and that the government shall issue a legal tender currency direct from the Treasury, interchangable for government bonds bearing the lowest possible rate of interest, and which currency shall be receivable both for public and private dues.

Sixth. That we favor the repeal of the tariff on lumber, and that the tariff on the necessities of common life be abolished or reduced to the lowest possible figure and that the tax on incomes be restored.

Seventh. That the act of the Legislature of Kansas of March 1st, 1866, by which the five thousand acres of land dedicated forever to the school fund, by section three, article eight, of our State Constitution was divided among, and appropriated to four railroad corporations, is unconstitutional and void. This land still in right and equity belongs to the State school fund, and the next Legislature ought to pass an act repealing the act of March 1st, 1866, and directing the Attorney General of the State to commence suit in the proper courts to cancel all patents and other conveyances made to said land under the authority of said act.

Eighth. That we hereby extend our sympathy to the settlers on the Osage lands and to homestead settlers whose titles are contested by railroad companies, and we hereby declare that the Reform party of Kansas will use every honest means to aid these people in their struggle for their homes.

Ninth. That railroad corporations should be made subservient to the public good; that while we shall discountenance any action calculated to retard the progress of railroad enterprises, or work injury to these invaluable auxiliaries to commerce and civilization; yet we demand such constitutional legislation upon this subject, both State and Federal, as will effectually secure the industrial and producing interests of the country against all forms of corporate monopoly and extortion.

Tenth. That we denounce the passage of the act of the last Congress vesting certain powers in the courts of the District of Columbia as an outrage tending to destroy the freedom of the press, the liberty of the citizen, and the sovereignty of the States. We demand that our Senators and Representatives in Congress, at the next session, vote for its unconditional repeal.

Eleventh. That in view of the widespread corruption that has permeated Kansas in every department of its government since its organization as a State we will support no man for office merely because he is the nominee of a party, but to obtain our votes in every instance he must possess the Jeffersonian standard of fitness—honesty, capacity and fidelity to the constitution.

Twelth. That the frequent cases of malfeasance in office which have been developed within the last four years upon the part of State and county officials, and the losses sustained by the people through the defalcations of county treasurers imperatively demand such legislation as will give security to the tax payers for all funds paid into the State and county treasuries, and all interest accruing therein, and we denounce it as an act of criminal neglect in the Legislature, having failed to provide for the speedy removal of defaulting treasurers from office, and their punishment for malfeasance therein.

Thirteenth. That we enter our protest against the Indian policy as now administered, subjecting as it does, our citizens to butchery, and all the horrors of savage warfare.

Fourteenth. That we are in favor of the election of President and Vice President and U. S. Senators by direct vote of the people.

Burning of the Steamer Pat Rogers, on the Ohio.

Twenty Lives Probably Lost.

Shipwreck on Walling's Island.

STEAMSHIP CITY OF GUATAMALA GOES ASHORE.

NEW YORK, August 5.—A dispatch received in this city announces the total loss of the Pacific mail steamship City of Guatamala, which went ashore on Walling's Island several days ago. No particulars received concerning the cargo. The net loss to the company is $80,000.

BURNING OF A STEAMBOAT—GREAT LOSS OF LIFE.

CINCINNATI, August 5.—The steamer Pat Rogers burned early this morning, just below Aurora, Ind. About twenty lives are said to be lost, most of them ladies. Mr. Holmes, engineer of the boat, arrived here at noon and gives the following account of the disaster:

"It was about six o'clock, when opposite Langhery creek that flows into the Ohio river two miles below Aurora, that I noticed a bright light among some bales of cotton in the after part of the boat. I hastened to the spot and found a bale of cotton burning rapidly, and beyond any possibility of immediately extinguishing it. I hastened to the hurricane deck and gave the alarm to the pilot that the boat was burning, and told him to run ashore. The pilot at once turned the boat's head to the shore, and immediately she became unmanageable. The pilot stated that he could turn the wheel, but the steamer would not answer to her helm. He thinks the tiller rope had been cut, and from this it is thought the fire was the work of an incendiary. Another theory is that one of the deck passengers, while smoking, dropped sparks from his pipe into the cotton. When the boat became unmanageable. She drifted on to a sand bar and grounded. The flames, instead of spreading along the lower deck, at once shot up to the cabin and pilot house, and then swept across the hurricane deck. The passengers were all aroused and the boats lowered. Many were carried to the shore, but others, in their fright, jumped into the water, and those who were not drowned reached a safe landing place after drifting a long time with the current.

There were nearly 100 people on board, but what proportion of this number was actually lost is not known at this time.

The boat and cargo, the latter consisting of cattle, sheep and hogs, are a total loss. The passenger register and all the books were lost. The boat was valued at $60,000; insured in Cincinnati for $32,000 and Louisville for $6,000. The value of the cargo has not been ascertained.

THE NAMES OF THE LOST,

as far as ascertained, are J. R. Stuart and Mrs. Smith, of Madison, Ind; W. C. Brown, of Cincinnati; C. A. Dittman, pilot; S. Snyder and Jacob Light of the crew. The following persons are missing and are supposed to be drowned: Chas. Reezenger, Minor Muntz Barber, Mrs. Tuttle and child, of Harrison, Ohio, and several lady passengers whose names are unknown. Those known to be saved are D. S. Jones, Wm. Hall, Henry Faust, D. M. White, C. B. Plato, G. C. Buchanan, Miss L. J. Williams, Mrs. Eastman, Mrs. Sturges and A. M. Perrine.

CINCINNATI, August 4.—Thirty-seven of the forty-five saved passengers came to Cincinnati. Some of the most seriously injured are cared for at Aurora. The citizens of that place are doing all they can for the distressed. To-morrow the river will be dragged to recover the bodies of the lost.

DESTRUCTION OF CROPS IN MINNESOTA BY HAIL.

ST. PAUL, August 5.—The northwestern part of the State was visited yesterday afternoon by a violent hail storm, which did a great amount of damage to the crops in Meeker county. A dispatch says the destruction of crops is total in the line of the storm. At Fon du Lac, on the lake, a Baptist church was struck by lightning and destroyed.

STARTLING FORGERY IN ST. LOUIS.

ST. LOUIS, August 5.—The members of the Merchants and Cotton Exchange were thrown into considerable excitement this noon by the report that Alexander, Dorman & Co., cotton factors and commission merchants, had forged cotton warehouse receipts to the extent of over $100,000. All the members of the firm, Bethel C. Alexander, Wylie Dorman, Jno. T. Butler and Henry Goden, were arrested, but after an examination, all except Alexander were released, it being clearly shown that the other members of the firm knew nothing whatever of Alexander's transactions.

It appears, and mainly on Alexander's own statement, that he has been forging cotton receipts on Christian Peppers' warehouse for the past six months. How many has been issued is not yet known, but it is believed that over $100,000 worth are out, of which the German Savings Institution hold $24,000, the Fourth National bank about $20,000, and the Third National bank about $40,000. The Bank of the West and the Bank of St. Louis, amount not known. One or two business firms are also believed involved in smaller amounts. A package of $5,000 and a check for $8,000 was found at Alexander's residence after his arrest, the $5,000 package being identified by the cashier of the Bank of St. Louis as having been paid to Alexander yesterday. It was returned to him and warrants issued this afternoon and the sheriff took possession of the store and effects of the firm. He also levied on 210 bales of cotton in Peppers' warehouse. Other means have also been taken to make the creditors good in the way of garnisheeing parties who owe the delinquent firm.

Alexander says he forged these receipts as a temporary relief, not for the purpose of fraud, and that had they not been detected he would have been able to take them all up in fifteen days and should have done so. He says the firm has assets enough to cover all losses. The firm began business here one year ago, the gentlemen comprising it coming from Louisiana and Texas, and has done an extensive trade.

Alexander says one of his clerks named C. K. Shepard did the forging at his instigation, but Shepard denies it promptly.

ST. LOUIS.

Preliminary Steps for a New Bridge.

ST. LOUIS, August 5.—A board of engineers, consisting of Col. J. W. Simonson, Col. W. E. Sutler, Col. W. E. Merrill, appointed by the Secretary of War, to consider and report plans for the St. Clair and Carondelet approaches for a bridge across the Mississippi river at South St. Louis, convened here to-day, and had a consultation with the committee appointed by the Merchants' Exchange, a number of river men, directors of the Bridge Co. and prominent citizens. Three plans were presented and the peculiarities of three different bridges examined, and written reports thereon are to be submitted to the board to-morrow. The bridge to be built is to have two railroads over the highway tracks, to be 100 feet above low water mark, with two spans 500 feet wide over the channel.

Signals of Distress.

When the eyes have become dull and heavy the nervous system morbidly sensitive, the muscles flaccid, the complexion sallow, the body languid, the mind listless, and the fire and energy which should characterize health have wholly or measurably disappeared, the individual exhibiting these symptoms may take it for granted that his stomach is diseased, his liver disordered, his blood impure or impoverished, and his constitutional stamina and vitality impaired. What his case requires is immediate and judicious medical treatment. He need not, however, put himself to the expense of consulting a physician. It is as clear as the sun in a cloudless sky that he is dyspeptic, and it is as certain as any demonstrated fact can be that Hostetter's Stomach Bitters will cure dyspepsia and all the brood of bodily and mental ills of which it is parent. Let him commence a course of the remedy at once, and following the directions faithfully, continue to take it until every disagreeable symptom shall have disappeared. If it be a case of long standing, the cure will not be sudden and immediate. The great tonic and corrective, potent as it is, does not work miracles; but surely, though gradually, it will restore the sufferer to perfect health. From day to day his eye will become brighter, his nerves firmer, his muscles more elastic, his complexion fresher and clearer, his spirits brisker. In due time he will be once more in a fit condition to fight the battle of life vigorously and effectively, and will admit that, if dyspepsia is our national disease, we have in Hostetter's Bitters a national specific equal to the emergency. eod&w

THE NEW YORK TOMBS!
A second edition of 5000 now ready. Subscribers who have changed their residence may obtain their copies at once, by calling or sending present address to the publishers. No copies will be placed on sale at the book stores, as the work is entirely in the hands of our canvassing agents. The price—$3 50 in cloth and $4 25 in law sheep—will, in all cases, be maintained. The book contains 672 pages, illustrated. The subscription list embraces the best citizens of the city. In the book, Warden Hubbel, of Sing Sing, has expressed his views on Prison Discipline and Reformation. Edward S. Stokes makes a statement of his case under date of February 24, 1874. Miss Linda Gilbert's Prison Library Work—The Ring Trials—Sharkey's and Genet's Escapes—Colt's case—The Helen Jewett Tragedy—Richardson-McFarland Trial—Calhoun Letters—Astor Place Riots—Stanwix Hall Tragedy—Early Prison History, &c., &c., make this a book of absorbing interest, as well as a great moral reformer.

DR. WHITTIER,
617 St. Charles street, St. Louis, Mo.
Has been longer engaged in the special treatment of all Venereal, Sexual and Chronic Diseases than any other Physician in St. Louis, as city papers show.
Syphilis, Gonorrhœa, Gleet, Stricture, Orchitis, Hernia, or Rupture, all Urinary Diseases and syphilitic or mercurial affections of the throat, skin or bones, are treated with unparalleled success, on latest scientific principles.
Spermatorrhœa, Sexual Debility and Impotency, as the result of self-abuse in youth, sexual excesses in maturer years, or other causes, and which produce some of the following effects: nervousness, seminal emissions, debility, dimness of sight, defective memory, pimples on the face, physical decay, aversion to society of females, confusion of ideas, loss of sexual power, etc., rendering marriage improper or unhappy, are permanently cured. Pamphlet (36 pages) relating to the above, sent in sealed envelope, for two postage stamps.
Diseases peculiar to women, such as Amenorrhœa, Dysmenorrhœa, Menorrhagia, Leucorrhœa, or whites, Chlorosis, Diseases and displacements of the womb, Sterility, etc., successfully treated. Descriptive pamphlet sent sealed for two stamps. Age with experience can be relied upon. It is self evident that a Physician treating thousands of cases every year acquires great skill. Physicians knowing this frequently recommend persons to my care. Confidential consultation, personally or by letter, free and invited. When it is inconvenient to visit the city for treatment, medicines can be sent by express or mail everywhere. [illegible] guaranteed, where doubt exists it is frankly stated. Office hours [illegible] P. M. Sundays, 12 M. to 1 P. M. Persons arriving in the city at any hour, may come direct to the office. If at night ring the Door Bell.
The establishment [a whole house of twelve rooms] is the most extensive in the country, embracing Reception and Consultation rooms, Boarding and sleeping apartments; Medicated and Vapor Baths; a comprehensive Laboratory where all medicines used in the establishment are prepared; and most important of all the Library, where the old and latest standard works of all the schools of medicine are found, also Anatomical Plates, life size and colored to life, illustrating diseased conditions, which have been procured from Paris, France, regardless of expense, and not to be found in any other Library in the city. The Library is thrown wide open to all callers. Address as above.

A BOOK FOR THE MILLION.
Marriage Guide.
A Private Counselor to the Married, or those about to marry, on the physiological myteries and revelations of the sexual system, with the latest discoveries in the science of reproduction, preserving the complexion, &c.
This is an interesting work of two hundred and sixty pages, with numerous engravings, and contains valuable information for those who are married or contemplate marriage; still it is a book that ought to be kept under lock and key, and not left carelessly about the house.
It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the entire globe. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.
Sent to any one (free of postage) for Fifty Cents. Address Dr. Butts' Dispensary, No. 12 N. Eighth street, St. Louis Mo.

OFFICIAL PAPER OF THE CITY.

THURSDAY, AUGUST 6, 1874.

PARTIES who have business in the Supreme Court of this State will find something of interest in our columns this morning.

SOME critics are finding fault with undertaker Seidenfaden's hurried and rather indecent burial of the body of L. Reed Thompson, who committed suicide the other evening. These carpers forget that Mr. Seidenfaden is a member of the City Council.

WHAT do those friends of Beecher in St. Joseph think now? We mean those who have been telling us from the street and the pulpit that Mr. Beecher has urged and implored Frank Moulton to come forward and speak.

It turns out now that Mr. Moulton was never invited by Beecher to testify. Beecher's friends are decidedly queer.

THE Beecher-Tilton affair in America has almost a counterpart in Germany, which is occupying the German newspapers, under the heading "Kapff-Straub." The excitement in the German Church scandal has reached greater lengths, however, than has the American; for in the former the alleged victim to a pastor's infinity has his reached apartments in the insane asylum.

WE are informed that one of our divines proposes preaching on next Sabbath on the subject, "Mrs. Tilton—she hath chosen that good part," etc. We hope he will read selections from that good woman's last recital before this impartial investigating committee, a verse or two from Catharine Gaunt's confession to her husband, and wind up with a commendation of Solomon, who, like Beecher, was a very wise man, but——

THERE is a prominent citizen of Buchanan county, given to politics slightly, and just now a vehement Granger, who is opposed to the People's Movement this fall. Wherever he goes he tells the farmers that "the old Democratic party is the only organization from which farmers can secure their rights."

Keep your eye on that "Granger." He is laboring with might and main to secure a Legislature which will send Silas Woodson to the United States Senate.

WE understand that Col. Colman, Democratic applicant for the Governorship, is talking long and loud against the Republicans of Missouri, and charges a radical legislature with selling us all out to the railroad corporations.

Look a little out, Colonel! You were in that General Assembly, and the sell-out proposition had no more zealous friend than yourself. Senator Spaunhorst, who is also talked of by the Democracy for Lieutenant Governor, worked, talked and voted for those bills precisely as did Col. Colman.

GOVERNOR Woodson has issued a proclamation for the apprehension of James Dickey and Harvey Jones, who are charged with the murder of James O. Manning, in Scott City, McDonald county, Missouri, July 20. A reward of $300 for the arrest of each of the fugitives and delivery of their bodies to the sheriff of McDonald county is offered.

What a hero our governor would be, if proclamations constituted heroism. He has issued more during his administration than all the governors in the Union, and has accomplished less than any one of them.

TWO PARTIES CONTRASTED.

The Democratic party is out of power in the nation, and is struggling to regain it. It is the Opposition and attempts to seize upon every popular discontent, and to avail itself of every local passion to injure the Republican party. It presents no policy for the administration of the Government, and makes no attempt to preserve consistency. It feels it liberty to profess in one locality what it denies in another, and to take any position in one State to strike the Republican party a blow, without regard to the ground which it occupies upon the same question in other States. It does not hesitate to use any weapon of assault, knowing that there is little responsibility attached to those who are struggling to gain power as compared with those who are in possession of it and who are responsible for its exercise.

As an illustration of this we may refer to the fact that in the State of Maine the Democratic party has just declared for absolute free trade and for raising the revenue by direct taxation. In Pennsylvania it declares in favor of a protective tariff, while in Indiana it affirms its belief in a revenue tariff, to be so adjusted and framed with such nice discrimination as to afford no protection to American industry.

On the temperance question the Democratic position is as varied as the circumstances surrounding it in the different States and Territories, with this qualification, however, that there is a general leaning to the side of intemperance. It may be said, generally, to go as far in favor of the unrestrained traffic in intoxicating liquors as it can, not to wholly forfeit the respect and friendship of those who are inclined to the side of temperance. If the temperance men are for prohibition, the Democracy are for a license liquor law, always striking lower and making it *not* the the support of those who traffic in intoxicating liquors. If the temperance men asked only for a license law, there the Democracy would put the license very low, or have no license at all, still offering inducements for the support of that class of men. Whatever measure may be proposed in any State or Territory whereby to diminish the evils of intemperance, for some reason it is sure to come short of receiving Democratic support; and they never fail to find some excuse for opposing it, although they may deal in glittering generalities in favor of temperance and reform. It is to the general tendency and proclivity of the Democratic party against the temperance reform to which we call attention.

Resolutions against corruption are the cheap clap-trap of parties. All parties profess to be opposed to corruption, and are ready enough to expose and prosecute it in other parties. The true test of an honest party is in its self-examination, and the exposure and punishment of corruption in its own ranks, in its continued vigilance for self-purification in doctrine and practice. Tried by this test the Republican party is distinguished above every other in the history of this country. Nearly all that is known of corruption in the Republican party has been shown by its own diligent self-examination and the prompt exposure of every official delinquent who has been discovered. Nobody believes that the Democratic party is particularly sensitive about corruption. In fact, when it was in power it was noted for the industry and skill with which it covered up the peculations of its own members. Committees to investigate the official conduct of its own members were so rarely appointed by Democratic majorities in Congress as not to be remembered. The Democratic and Republican parties seem to have proceeded upon different principles for self-defense and preservation. The Democratic party sought to protect itself against public opinion by concealing the delinquencies of its members; while the Republican party has proceeded upon the principle that self-examination and the exposure and punishment of its delinquent members was the best guarantee of its continuance in power.

There are good and badmen in all parties and in all human organizations, and the bad men will ultimately corrupt and take possession of all organizations unless they are repressed and brought to punishment. The detection and exposure of the Credit Mobilier, Sanborn and District of Columbia transactions were the voluntary and earnest work of the Republican party; and while it may show, here and there, a diseased member, yet it clearly reveals the healthy tone, vigor and condition of the mass.

The principles and Constitution of the Republican party put it naturally upon the side of temperance as against intemperance, of freedom as against slavery, of the people as against monopoly of labor, free schools, intellectual and moral progress. It is a progressive party, and whenever it ceases to be so and becomes conservative, then you may begin to talk about its mission being performed. It is qualified to grapple with every new issue that is presented, has its face to the future, and holds that the work of reform is its normal and necessary condition.

For years to come, the contest in the nation will be between the Republican and Democratic parties, and between them there is no room for a third party, and everyone that is organized will be feeble and ephemeral. These parties represent different ideas, tendencies and modes of thought which are in irrepressible conflict.

The case is widely different in a State. Here, issues are local and involve only the question of local self government and economy in the administration of State affairs. The people of the State can, therefore, well afford to lay aside all party prejudices and support only honest men for office—men in whom they have perfect confidence. This we believe the people of Missouri intend to do this fall, not only in State, but in county affairs.

—A Democratic paper in Connecticut considers it a "remarkable circumstance" that no member of the Legislature was seen drunk at the State House during the late session. Perhaps—considering the political complexion of that body.—*Pittsburg Commercial.*

A Clergyman in Comical Trouble.

From the Reading, (Pa.) Eagle.

At the annual meeting of the Presbytery of Chester, held at Phœnixville on Monday, the Rev. Joseph Porter, pastor of the Presbyterian Church of that place, was tried. It appears that Peter called on Sister Spare frequently, and sometimes remained for dinner. Now, the female is known far and near as an excellent cook, and the reverend gentleman, being a lover of "good things," never declined an invitation to banquet with the family. The husband found his butcher's, baker's and grocer's bills growing larger, and upon investigating matters, ascertained that instead of supporting one family, he was in reality feeding two. Basketfuls of cold turkey, barbecued chickens, and other esculents were granted to the poor almost daily, and the strain on his purse became fearful. Finding things growing worse and the preacher's visits more frequent, the husband "smelt mice," and brought the matter before the church. As stated, the trial came off on Monday, and after a full hearing of both parties, the presbytery acquitted Porter of the charge preferred against him. The "man of God" passed through the ordeal and escaped unscathed. His maligners may now hoe their heads with shame.

—The Beecher business is bringing conspicuously before the public a good deal of the same sort. A New-York correspondent thinks the demoralization among the clergy is fearfully extensive, and says:

New Jersey has an Episcopalian rector who is charged with seduction under promise of marriage, and there is a living witness to that crime now four days old, with the mother in a dying condition. New York has another rector who has heartlessly jilted four of his flock, and his church is named the "Church of the Holy Flirt." Baltimore has come to the front with a Lutheran minister charged with seduction.

—On Monday last, we learn from the Grundy county *Times*, Miss Lucy L. Hubbell, of that county, committed suicide by drowning in Muddy Creek near Trenton; no crime is assigned for the rash act. Deceased was twenty-one years of age, highly accomplished, and the daughter of Rev. Geo. H. Hubbell. On the same day the body of a Miss Lamb was found floating in Grand river near the same place—two suicides within forty-eight hours in the same county. Miss Lamb was supposed to be laboring under a fit of temporary insanity.

—The meanest official in the world is the Baltimore Coroner. He gets $8 apiece from the county for coffins, and after taking the paupers to the potter's field, he dumps the bodies into a hole and takes the coffins back.

NOTES BY THE WAY-SIDE.

Correspondence of the MORNING HERALD.

OREGON, August 5, 1874.

On Friday evening last, a copious shower fell on the town of Oregon and vicinity, reviving the drooping vegetation and enlivening the appearance of things generally. The rain fall was of sufficient abundance to stand all the following day in the streets.

Last night another refreshing shower cooled the heated atmosphere, and this morning, the indications are unmistakably more rain. The general opinion seems to be that the yield of corn throughout the county will average about one half an ordinary crop.

The finest looking field of corn we have seen since leaving St. Joseph, is in the near neighborhood of this place.

The town of Oregon and the immediate vicinity of the place, as the readers of the HERALD know, is one continuous orchard of the finest varieties of fruit. The cherry crop, we are informed, was unusually abundant this season, and the numerous extensive vineyards in the town and neighborhood are laden with the rich promise of the vintage of 1874.

Peaches are also unusually abundant; but though some apple trees are heavily laden with fruit, the general average yield of winter fruit will scarcely amount to one-half an ordinary crop. The average yield of small grain in the county this season is about fifteen bushels to the acre. Some fields of considerable extent turned out upwards of twenty bushels to the acre. Some of the citizens are exercised on account of the eastward approach of the grasshoppers from Kansas. It is to be hoped, however, that these terrible pests will not cross the river. The native grasshopper that has been doing so much injury to young trees and fruit in the neighborhood of St. Joseph does not appear to have prevailed to any great extent here.

THE NORTHWEST MISSOURI NORMAL INSTITUTE

was organized in this town on the 13th of last March, during the session of the Holt County Teacher's Institute.

The Normal Institute, which is now in session here, opened on the 27th of July, and will continue its sittings until the close of the fourth week. Prof. E. S. Eyerly, formerly Superintendent of Public Instruction in Holt county, is President of the organization.

Great interest seems to be manifested in this laudable enterprise, and large audiences assemble each day to witness the exercises. All teachers who pay the inconsiderable fee of $3 annually, become members of the Institute. The present enrollment is forty-three teachers.

The Institute, as its name implies, though originating and holding its sessions here, is not exclusively a Holt county enterprise. Teachers from several other northwest counties and also from Kansas and Nebraska, are numbered in its membership.

Professor Vickroy of St. Louis, an able and distinguished member of the profession, was employed for the consideration of $100 to lecture the Institute during the period of four weeks. He has been engaged in the discharge of this duty since the first opening of the session, and his able and lucid demonstrations are meeting with high appreciation on the part of all directly or indirectly interested in the success of the Institute.

The subject of his lecture yesterday was Psychology. We had not the pleasure of hearing the speaker, but are informed that his lecture was received as a masterly effort. Professor Vickroy was principal last year of the Carondelet Public School in St. Louis, which includes thirteen departments. He is invited this fall to the supervision of a public school in that city with eighteen departments.

The members of the Northwest Normal Institute have reason to congratulate themselves on their good fortune in securing the services, on the present occasion, of so eminent a lecturer and distinguished practical teacher.

The daily exercises of the Institute, in addition to these lectures, include class drills in all the various branches taught in common schools, and also in the higher branches of geometry, algebra, botany, chemistry, etc., etc.

The exercises with which these various exercises are entered into by all shows the high appreciation of its usefulness on the part of the members of the institute, which, many seem to be pronounced a fixed fact and an unqualified success.

Prof. Price, who lectured on the Beecher-Tilton scandal in St. Joseph a few evenings ago, gave in the Court House last night, a combined musical concert, elocutionary and dramatic exhibitions in the interests of Spiritualism. His admission fee, however, being only twenty-five cents, a very small audience assembled to witness the exhibition. On the evening previous he delivered a free lecture here on the subject of spiritualism, and seventy-five noses, all told, made up the sum of his audience. The natives evidently have no faith in spiritualism and very little curiosity in regard to the matter, or don't believe in free lectures and twenty-five cent concerts. We would advise the Professor to raise his price of admission. We don't appreciate cheap dodges in this country.

FOREST CITY—SALE OF TEXAS CATTLE. At the administrator's sale yesterday of the effects of Mr. Joel Baldwin, lately deceased, a lot of Texas cattle brought the following figures:

One hundred and twenty four year olds sold at from $18 to $19 per head; thirty of the lot brought $20. Fifty two year olds sold at from $12 to $13 per head. Eight cows and calves brought $15 each. Fifty dry cows, two year olds and yearlings were also sold. Eight of these brought $15 and the rest $10 a head.

Of the four-year olds, Mr. Babcock bought ninety, and Mr. Shaw thirty. The others were bought by Mr. Baldwin, a son of the deceased. The extremely low price commanded by these cattle, aside from the prospective failure of the corn crop, shows that Texas cattle are not regarded as a success in this country.

ST. JOSEPH WHOLESALE MARKETS.

Business Moderately Active at the Banks—A Quiet Day in the Markets for Produce, Grain and Live Stock Markets.

MONETARY.

OFFICE MORNING HERALD, WEDNESDAY EVENING, August 5, 1874.

With the banks, business was, as a general thing, comparatively quiet, though not a little checking was done to complete July settlements. Outside of this, business seemed to subside into its wonted flow. The exchange markets (still supplied) but currency is still short with some of the banks, who again made offers to exchange Exchange for it. The request for discount was again better than the average of last week and came principally from merchants.

The markets to-day were rather less active than usual, but this fact was not due to any specific or new cause to which any importance attaches. Business is never exactly regular or uniform. Coffees and sugars sustain themselves, and are unchanged. Butter receipts were a little heavier, but the market is firm. Eggs are also steady and may be quoted firm, receipts continuing better in quality. Shippers to this market should endeavor to get invoices here by the time they are ten days old, as in ordinary summer weather, a greater or less loss will be sure to accrue from heating. In such weather as we have been having for the past four weeks, unless care is shown them in the position, as regards air and heat, they are given, they will sometimes sustain great injury in a few days. Receipts of peaches were more liberal to-day, and orders were filled at $1 25 per box. We quote the following
