61 farms returned — but I deduct 1 for not producing $100 worth — leaves — 422 farms —

Lewis Shell

N. B. — The assistants, many of them, thought that where people were on Congress land, they should not return the no. of acres improved, or unimproved, nor the estimated value — Most of them are squatters & roaming over the country, & squat where they can make a living & get to his key with the least labour — Many of the borders settlers live on the wild game of the forests & a little corn & potatoes,

Lewis Shell
Marshal

This will account for the fact of many farms being returned by all (or more or less) of my asst, with columns 2, 3, & 4 left blank —

where sd. farms however has actually produced $100 worth — I have deemed it best, to allow the asst, in their computation, to be the case — Most of them complain very much of the inadequacy of this act, (as I can not see that it is) this should be a direct violation of the "census act" —
