

**T**his section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order or rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty days after the date of publication of the revision to the *Code of State Regulations*.

**T**he agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety-day period during which an agency shall file its Order of Rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the Proposed Rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**Title 4—DEPARTMENT OF ECONOMIC  
DEVELOPMENT  
Division 150—State Board of Registration for the  
Healing Arts  
Chapter 7—Physician Assistants**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri State Board of Registration for the Healing Arts under section 334.735, RSMo Supp. 1999, the board amends a rule as follows:

**4 CSR 150-7.135 Physician Assistant Supervision Agreements is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on September 1, 1999 (24 MoReg 2131-2132). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** The Board received a total of sixty 60 comments, 59 in opposition of, and one in support of the proposed amendment.

**COMMENT:** Fifty-nine comments were received stating opposition to the mandated 100% on-site supervision by a physician.  
**RESPONSE:** The Board and the Advisory Commission referred such comments to the judgement rendered by the Cole County Circuit Court, case number CV198-196CC.

**COMMENT:** One (1) comment was received from the Missouri Association of Osteopathic Physicians and Surgeons in support of the proposed amendment.

**RESPONSE:** The Board and the Advisory Commission referred such comments to the judgement rendered by the Cole County Circuit Court, case number CV198-196CC.

**Title 4—DEPARTMENT OF ECONOMIC  
DEVELOPMENT  
Division 240—Public Service Commission  
Chapter 18—Safety Standards**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Public Service Commission under section 386.310, RSMo Supp. 1999, and section 394.160, RSMo 1994, the commission amends a rule as follows:

**4 CSR 240-18.010 Safety Standards—Electric and Telephone  
Utilities and Rural Electric Cooperatives is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2340-2341). No changes have been made in the text of the proposed amendment so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** A public hearing was held on November 3, 1999. Written comments were also submitted.

**COMMENT:** A comment was received from the Office of the Public Counsel indicating its support for the proposed amendment.

**RESPONSE:** The Commission thanks the Office of the Public Counsel for its comment.

**COMMENT:** A comment was received from Union Electric Company d/b/a AmerenUE indicating its support for the proposed amendment.

**RESPONSE:** The commission thanks Union Electric Company d/b/a AmerenUE for its comment.

**COMMENT:** A comment was received from the Small Telephone Company Group indicating its general support for the Commission's adoption of sections of the 1997 Edition of the *National Electric Safety Code* to replace the corresponding sections of the 1993 Edition that are adopted in the current rule. The Small Telephone Company Group suggested that the rule revision should state that it is effective only on a going forward basis.

**RESPONSE:** The Commission thanks the Small Telephone Company Group for its comment. A witness for the Staff of the Public Service Commission addressed the Small Telephone Company Group's concern at the public hearing. The witness indicated that the *National Electric Safety Code* already states that it applies only to new construction and does not require changes to previously existing structures. Therefore there would be no need to state in this rule that it is effective only on a going forward basis as that limitation is already implied in the *National Electric Safety Code*.

No other comments were received.

**Title 12—DEPARTMENT OF REVENUE**  
**Division 10—Director of Revenue**  
**Chapter 23—Motor Vehicle**

**ORDER OF RULEMAKING**

By the authority vested in the director of revenue under sections 301.600 and 306.400, RSMo Supp. 1999, the director adopts a rule as follows:

**12 CSR 10-23.446 Notice of Lien is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2391). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

**Title 12—DEPARTMENT OF REVENUE**  
**Division 10—Director of Revenue**  
**Chapter 24—Drivers License Bureau Rules**

**ORDER OF RULEMAKING**

By the authority vested in the director of revenue under section 302.181, RSMo Supp. 1999, the director amends a rule as follows:

**12 CSR 10-24.430 Back of Driver License is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2391-2392). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

**Title 15—ELECTED OFFICIALS**  
**Division 30—Secretary of State**  
**Chapter 4—Postcard Voter Application and Forms**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri secretary of state under sections 115.155.5 and 115.159, RSMo Supp. 1999, the secretary amends a rule as follows:

**15 CSR 30-4.010 Postcard Voter Application and Forms is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2413-2414). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received regarding this amendment.

**Title 15—ELECTED OFFICIALS**  
**Division 30—Secretary of State**  
**Chapter 15—Initiative, Referendum, New Party and Independent Candidate Petition Rules**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri secretary of state under sections 115.335.7 and 116.130.5, RSMo Supp. 1999, the secretary amends a rule as follows:

**15 CSR 30-15.010 Signature Verification Procedures for Initiative, Referendum, New Party and Independent Petitions is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2417). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received regarding this amendment.

**Title 15—ELECTED OFFICIALS**  
**Division 30—Secretary of State**  
**Chapter 15—Initiative, Referendum, New Party and Independent Candidate Petition Rules**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri secretary of state under sections 115.335.7 and 116.130.5, RSMo Supp. 1999, the secretary amends a rule as follows:

**15 CSR 30-15.020 Processing Procedures for Initiative, Referendum, New Party and Independent Candidate Petitions is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2417). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received regarding this amendment.

**Title 15—ELECTED OFFICIALS**  
**Division 50—Treasurer**  
**Chapter 4—Missouri Higher Education Savings Program**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Higher Education Savings Program Board (the "board") under section 166.415, RSMo Supp. 1999, the board adopts a rule as follows:

**15 CSR 50-4.010 General Organization is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2417-2418). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board did not receive any comments on the proposed rule.

**Title 15—ELECTED OFFICIALS**  
**Division 50—Treasurer**  
**Chapter 4—Missouri Higher Education Savings Program**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Higher Education Savings Program Board (the “board”) under section 166.415, RSMo Supp. 1999, the board adopts a rule as follows:

15 CSR 50-4.020 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2418-2422). Those subsections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The following comment was received.

COMMENT: A typographical error appears in subsection (5)(C) wherein the proposed rule stated “Each participant agreement shall impose . . . .”

RESPONSE AND EXPLANATION OF CHANGE: Subsection (5)(C) is changed to read “Each participation agreement shall impose . . . .” No further comments were received by the board.

**15 CSR 50-4.020 Missouri Higher Education Savings Program Board**

(5) Saving Program Participation and Participation Agreements.  
(C) Participation Agreements. To participate in the savings program, a prospective participant must submit a completed participation agreement with either an initial contribution or a selection of electronic funds transfer or payroll deduction as the method of initial contribution. The participation agreement will provide that the participant (and any successor account owner) will retain ownership of payments made under the program through the opening of an account in the name of the participant and for the benefit of the beneficiary designated by such participant (or the successor account owner). Only one (1) account owner and one (1) beneficiary is permitted per account, except that scholarship accounts may be established for the benefit of one (1) or more present or future beneficiaries. One (1) or more participants may establish accounts for a single beneficiary. Each participant agreement shall impose a penalty on the early distribution of funds in accordance with section 166.430, RSMo. Each participation agreement shall provide that the participation agreement may be canceled upon the terms and conditions set forth therein, subject to subsection (5)(I) below.

**Title 19—DEPARTMENT OF HEALTH**  
**Division 20—Division of Environmental Health and Epidemiology**  
**Chapter 8—Lead Program**

**ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under section 701.314, RSMo 1994, the director rescinds a rule as follows:

**19 CSR 20-8.010 Accreditation of Lead Training Program is rescinded.**

A notice of proposed rulemaking containing the proposed rescission was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2423). No changes have been made in the proposed rescission, so it is not reprinted here. This proposed rescission becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

**Title 19—DEPARTMENT OF HEALTH**  
**Division 20—Division of Environmental Health and Epidemiology**  
**Chapter 8—Lead Program**

**ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under section 701.312, RSMo 1994, the director rescinds a rule as follows:

**19 CSR 20-8.020 Accreditation of Lead Training Program is rescinded.**

A notice of proposed rulemaking containing the proposed rescission was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2423). No changes have been made in the proposed rescission, so it is not reprinted here. This proposed rescission becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received; however, in the authority section, the Missouri Department of Health inadvertently cited section 701.314, RSMo 1994. The authority section should read “section 701.312, RSMo 1994.”

**ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under sections 701.301 and 701.314, RSMo Supp. 1999, the director adopts a rule as follows:

19 CSR 30-70.340 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2471–2472). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received a comment from Saint Louis University (SLU) School of Public Health.

COMMENT: SLU would like us to amend the proposed rule to include protocol for full risk assessment and elevated blood lead investigation.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and has incorporated the recommended change.

**19 CSR 30-70.340** Requirements for a Training Provider of a Risk Assessor Training Course

(2) A lead risk assessor training course shall include, at a minimum, the following course topics. Requirements ending in an asterisk (\*) indicate areas that require hands-on training as an integral component of the course.

- (F) Full risk assessment protocol;
- (G) Elevated blood lead level investigations;
- (H) Sampling for other sources of lead exposure, including drinking water;\*
- (I) Interpretation of lead-based paint and other lead sampling results related to Missouri clearance standards;\*
- (J) Sections 701.300 to 701.338, RSMo, Missouri regulations pertaining to lead licensure, and Missouri Work Practice Standards for Lead-Bearing Substances specific to risk assessment activities;
- (K) Development of hazard control options, the role of interim controls, and operations and maintenance activities to reduce lead-bearing substance hazards;
- (L) Legal liabilities and obligations specific to a risk assessor; and
- (M) Preparation of a final risk assessment report.\*

By the authority vested in the director of the Department of Health under sections 701.301, 701.309 and 701.312, RSMo Supp. 1999, the director adopts a rule as follows:

**19 CSR 30-70.600** is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2482-2483). The section with changes is reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: One comment was received from the Regulatory Environmental Group for Missouri.

COMMENT: The Regulatory Environmental Group for Missouri contends that the definition of “Industrial Lead Abatement” is inconsistent with rules previously discussed by the United States Environmental Protection Agency.

RESPONSE: The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because section 701.301 provides that the Department’s rules “shall be at least as protective of human health and the environment” as federal programs administered by the United States Environmental Protection Agency. Additionally, any discussions by the United States Environmental Protection Agency that were never finalized into an applicable statute or regulation does not limit the Department’s authority to regulate industrial lead abatement projects.

COMMENT: The Regulatory Environmental Group for Missouri contends that the 19 CSR 30-70.640 should define what constitutes a “*de minimis* surface area” so as to qualify for exclusion from the definition of a lead abatement project, resulting in the nullification of the exemption for “insignificant projects.”

RESPONSE AND EXPLANATION OF CHANGE: The Department has considered this public comment and revises the definition of “industrial lead abatement” as found in this regulation, where the revision is more appropriate, rather than revise 19 CSR 30-70.640. Therefore, this regulation is revised to create an exception for *de minimis* surface areas, which are described as surface areas “of less than 50 square feet of a lead-bearing substance per lead abatement project.”

#### **19 CSR 30-70.600 Definitions Pertaining to the Work Practice Standards for Conducting Lead-Bearing Substance Activities**

(19) Industrial lead abatement—a lead abatement project performed on a structure not defined as a dwelling or child-occupied facility which includes, but is not limited to, bridges, water towers, holding tanks and other superstructures. Industrial lead abatement does not include abatement of a *de minimis* surface area of less than fifty (50) square feet of a lead-bearing substance per lead abatement project.

### **Title 19—DEPARTMENT OF HEALTH Division 30—Division of Health Standards and Licensure Chapter 70—Lead Abatement and Assessment Licensing, Training Accreditation**

#### **ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under sections 701.301, 701.312 and 701.316, RSMo Supp. 1999, the director adopts a rule as follows:

19 CSR 30-70.610 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2483–2484). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department received a comment from Saint Louis University (SLU) School of Public Health and a comment from St. Joseph Light and Power Company (SJLP).

COMMENT: SJLP requested that the wording of the rule be amended to clarify its applicability.

RESPONSE AND EXPLANATION OF CHANGE: The Department agrees and has incorporated the recommended change.

COMMENT: SLU commented that the proposed rule language pertaining to paint chip, dust, and soil sample analysis should be revised to omit language that requires the analysis to be performed by a National Lead Laboratory Accreditation Program accredited laboratory.

RESPONSE AND EXPLANATION OF CHANGE: The Department agrees and has incorporated the recommended change.

#### **19 CSR 30-70.610 Work Practice Standards for a Lead Inspection**

*PURPOSE: This rule delineates the standards to be followed by licensed lead inspectors and licensed risk assessors to conduct lead inspections in target housing and child-occupied facilities in accordance with standards set forth in sections 701.300 through 701.338, RSMo, and 19 CSR 30-70.600 through 19 CSR 30-70.630.*

(5) Any paint chip, dust, or soil samples collected pursuant to these work practice standards shall be—

(B) Analyzed by a laboratory recognized by EPA pursuant to section 405(b) of TSCA as being capable of performing analyses for lead compounds in paint chip, dust, and soil samples.

### **Title 19—DEPARTMENT OF HEALTH Division 30—Division of Health Standards and Licensure Chapter 70—Lead Abatement and Assessment Licensing, Training Accreditation**

#### **ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under sections 701.301, 701.312 and 701.316, RSMo Supp. 1999, the director adopts a rule as follows:

19 CSR 30-70.620 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2484–2492). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department received comments from Saint Louis University (SLU) School of Public Health and St. Joseph Light and Power Company (SJLP).

COMMENT: SJLP requested that the wording of the rule be amended to clarify its applicability.

RESPONSE AND EXPLANATION OF CHANGE: The Department agrees and has incorporated the recommended change.

COMMENT: SLU commented that the proposed rule language pertaining to paint chip, dust, and soil sample analysis should be revised to omit language that requires the analysis to be performed by a National Lead Laboratory Accreditation Program accredited laboratory.

RESPONSE AND EXPLANATION OF CHANGE: The Department agrees and has incorporated the recommended change.

COMMENT: SLU requests the EPA’s current position on the use of composite samples during risk assessments be investigated and amend the rule as necessary.

RESPONSE: The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because the requirement to allow composite sampling is mandated by §745.227 of the federal EPA regulations.

COMMENT: SLU requests that the rule be amended to specify window troughs when collecting composite dust samples.

RESPONSE: The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because the Department specifies in the rule that any dust, paint and soil sampling shall be conducted using the documented methodologies referenced in section (3) of the regulation. The Department only specifies the window in general as a sampling location because the documented methodologies that are required to be followed where referenced in the regulation outline which areas of the window to sample for the presence of lead.

#### 19 CSR 30-70.620 Work Practice Standards for a Lead Risk Assessment

*PURPOSE: This rule delineates the standards to be followed by licensed risk assessors to conduct risk assessments in target housing and child-occupied facilities in accordance with standards set forth in sections 701.300 through 701.338, RSMo, and 19 CSR 30-70.600 through 19 CSR 30-70.630.*

(4) Collection and Laboratory Analysis of Samples. Any paint chip, dust, or soil samples collected pursuant to these work practice standards shall be—

(B) Analyzed by a laboratory recognized by EPA pursuant to section 405(b) of TSCA as being capable of performing analyses for lead compounds in paint chip, dust, and soil samples.

### Title 19—DEPARTMENT OF HEALTH Division 30—Division of Health Standards and Licensure Chapter 70—Lead Abatement and Assessment Licensing, Training Accreditation

#### ORDER OF RULEMAKING

By the authority vested in the director of the Department of Health under sections 701.301, 701.309, 701.312 and 701.316, RSMo Supp. 1999, the director adopts a rule as follows:

19 CSR 30-70.630 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2493-2502). Those sections with changes are reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department received a comment from Saint Louis University (SLU) School of Public Health and a comment from St. Joseph Light and Power Company (SJLP).

COMMENT: SJLP requested that the proposed rule be amended to clarify its applicability.

RESPONSE: The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because the purpose statement of the rule clearly defines the applicability of the rule.

COMMENT: SLU commented that minimum requirements for replacement are too excessive for activities such as window replacement that disturb a minimal amount of lead-based paint. SLU also commented that a provision in the rule to allow alternative abatement methods after review by an administrative authority is necessary.

RESPONSE AND EXPLANATION OF CHANGE: The Department amended the proposed rule to reflect the comment for window replacement minimum standards. The proposed rule does contain a provision to allow alternative abatement methods when approved by the Department.

#### 19 CSR 30-70.630 Lead Abatement Work Practice Standards

(9) Lead Abatement Project Requirements.

(C) Permissible Lead Abatement Project Strategies. Strategies that are permissible for lead abatement projects are as follows: replacement, enclosure, encapsulation, or removal. Any abatement strategy not specified herein shall be submitted to the Missouri Department of Health, Office of Lead Licensing and Accreditation, P.O. Box 570, Jefferson City, MO 65102-0570 for evaluation and approval prior to use.

1. Replacement.

A. Non-window component replacement. When conducting non-window component replacement, these minimum requirements shall be met—

(I) The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be defined to prevent unlicensed and/or unauthorized personnel from approaching closer than twenty feet (20') to the replacement operation;

(II) Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two (2") inches tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

(III) Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with six (6)-mil poly to prevent lead dust accumulation within the system;

(IV) All items shall be cleaned within the regulated area by HEPA vacuuming and/or wet wiping with a cleaning solution. Items shall then be removed from the area, or covered with six (6)-mil poly and sealed with duct tape;

(V) At least one layer of six (6)-mil, or thicker, poly shall be placed on the floor at the base of the component and extend at least ten feet (10') beyond the perimeter of the component to be replaced;

(VI) The component, and the area immediately adjacent to the component, shall be thoroughly wetted using a garden sprayer, airless mister, or other appropriate means to reduce airborne dust;

(VII) After removal of the component, the surface behind the removed component shall be thoroughly wetted to reduce airborne dust;

(VIII) The component shall be wrapped or bagged completely in six (6)-mil poly and sealed with duct tape to prevent loss of debris or dust; and

(IX) Prior to installing a new component, the area of replacement shall be cleaned by HEPA vacuuming. After replacement is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again.

B. Window replacement. When conducting window replacement, these minimum requirements shall be met—

(I) The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be defined to prevent unlicensed and/or unauthorized personnel from approaching closer than twenty feet (20') to the replacement operation;

(II) Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two (2") inches tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

(III) If replacing window from the inside—

(a) Critical barrier containment shall be established covering the window on the exterior;

(b) A perimeter of five feet (5') shall be established extending from the base of the interior window to be replaced;

(c) Items within the perimeter shall be removed. Items too large to remove shall be covered with poly sheeting and sealed with duct tape and left in the perimeter; and

(d) At least one layer of six (6)-mil poly, or thicker, shall be placed on the ground and extend five feet (5') out from the base of the window;

(IV) If replacing window from the exterior—

(a) Critical barrier containment shall be established covering the window on the interior;

(b) A perimeter of five feet (5') shall be established extending from the base of the exterior window to be replaced;

(c) Items within the perimeter shall be removed. Items too large to remove shall be covered with poly sheeting and sealed with duct tape; and

(d) At least one layer of six (6)-mil poly, or thicker, shall be placed on the ground and extend five feet (5') out from the base of the window ensuring that all ground plants and shrubs in the perimeter are covered;

(V) The component, and the area immediately adjacent to the component, shall be thoroughly wetted using a garden sprayer, airless mister, or other appropriate means to reduce airborne dust;

(VI) After removal of the component, the surface behind the removed component shall be thoroughly wetted to reduce airborne dust;

(VII) The component shall be wrapped or bagged completely in six (6)-mil poly and sealed with duct tape to prevent loss of debris or dust; and

(VIII) Prior to installing a new component, the area of replacement shall be cleaned by HEPA vacuuming. After replacement is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again.

2. Enclosure. When conducting a lead abatement project using the enclosure strategy, these minimum requirements shall be met—

A. The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be defined to prevent unlicensed and/or unauthorized personnel from approaching closer than twenty feet (20') to the enclosure operation;

B. Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two inches (2") tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

C. Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with six (6)-mil poly to prevent lead dust accumulation within the system;

D. All items shall be cleaned within the regulated area by HEPA vacuuming and/or wet wiping with a cleaning solution. Items shall then be removed from the area or covered with six (6)-mil poly and sealed with duct tape;

E. At least one layer of six (6)-mil, or thicker, poly shall be placed on the floor at the base of the component and extend at least ten feet (10') beyond the perimeter of the component to be enclosed;

F. The surface to be enclosed shall be labeled (behind the enclosure), horizontally and vertically, approximately every two feet (2') with a warning, "Danger: Lead-Based Paint," in permanent ink;

G. The enclosure material shall be applied directly onto the painted surface, or a frame shall be constructed of wood or metal,

using nails, staples, or screws. Glue may be used in conjunction with the aforementioned fasteners, but not alone;

H. The material used for the enclosure barrier shall be solid and rigid enough to provide adequate protection. Materials including, but not limited to, wall papers, contact paper, films, folding walls, and drapes do not meet this requirement;

I. Enclosure systems and their adhesives shall be designed to last at least twenty (20) years;

J. The substrate or building structure to which the enclosure is fastened shall be sufficient structurally to support the enclosure barrier for at least twenty (20) years. Deterioration such as mildew, water damage, dry rot, termite damage or any significant structural damage may impair the enclosure from remaining dust tight;

K. Preformed steel, aluminum, vinyl or other construction material may be used for window frames, exterior siding, trim casings, column enclosures, moldings, or other similar components if they can be sealed dust tight;

L. A material equivalent to one-fourth inch (1/4") rubber or vinyl may be used to enclose stairs;

M. The seams, edges, and fastener holes shall be sealed with caulk or other sealant, providing a dust-tight system;

N. All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution and/or vacuumed with a HEPA vacuum prior to removal from the regulated area;

O. Prior to clearance, the installed enclosure and surrounding regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the main entrance to the area and from the top to the bottom of the regulated area; and

P. It is recommended that a visual evaluation of the enclosure's integrity be conducted and documented by the building owner or the building owner's representative at least every year or immediately after any fire, water, or structural damage. In child-occupied facilities, it is recommended that a licensed risk assessor inspect all enclosures every three (3) years, or whenever the owner's visual evaluation indicates a potential for increased lead hazard exposure.

3. Encapsulation.

A. The encapsulation strategy of lead abatement shall not be used on the following:

(I) Friction surfaces—such as window sashes and parting beads, door jambs and hinges, floors, and door thresholds;

(II) Deteriorated components—including rotten wood, rusted metal, spalled or cracked plaster, or loose masonry;

(III) Impact surfaces, such as door stops, window wells and headers;

(IV) Deteriorated surface coatings such that the adhesion or cohesion of the surface coating is uncertain or indeterminable; and

(V) Incompatible coatings.

B. When conducting a lead abatement project using the encapsulation strategy, these minimum requirements shall be met—

(I) Encapsulant selection shall be limited to those that are warranted by the manufacturer to last for at least twenty (20) years and comply with fire, health and environmental regulations;

(II) Surfaces to be encapsulated shall have sound structural integrity with no loose, chipping, peeling, or chalking paint and no dust accumulation that cannot be cleaned, and shall be prepared and applied according to the manufacturer's recommendations;

(III) The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be designated as to prevent unlicensed and/or unauthorized personnel from approaching closer than twenty feet (20') to the encapsulation operation;

(IV) Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two inches (2") tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

(V) Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with six (6)-mil poly to prevent lead dust accumulation within the system;

(VI) All items shall be cleaned within the regulated area by HEPA vacuuming and/or wet wiping with a cleaning solution. Items shall then be removed from the area, or covered with six (6)-mil poly sheeting and sealed with duct tape;

(VII) At least one layer of six (6)-mil, or thicker, poly shall be placed on the ground at the base of the component and extend at least ten feet (10') beyond the perimeter of the component to be encapsulated;

(VIII) A patch test shall be conducted prior to general application to determine the adhesive and cohesive properties of the encapsulant on the surface to be encapsulated (see the HUD Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing, Chapter 13);

(IX) After the manufacturer's recommended curing time, the entire encapsulated surface shall be inspected by a licensed lead abatement supervisor or a licensed project designer. Any unacceptable areas shall be evaluated to determine if a complete failure of the system is indicated, or whether the system can be patched or repaired. Unacceptable areas are evidenced by delamination, wrinkling, blistering, cracking, cratering, and bubbling of the encapsulant;

(X) After the encapsulation is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the main entrance to the area and from the top to the bottom of the regulated area;

(XI) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution and/or vacuumed with a HEPA vacuum prior to removal from the regulated area; and

(XII) It is recommended that a visual evaluation of the encapsulant's integrity be conducted and documented by the building owner or the building owner's representative at least every year or immediately after any fire, water, or structural damage. In child-occupied facilities, it is recommended that a licensed risk assessor inspect all encapsulations every three (3) years, or whenever the owner's visual evaluation indicates a potential for increased lead hazard exposure.

#### 4. Removal.

##### A. Acceptable removal strategies include:

(I) Manual wet strategies—Manual wet scraping or manual wet sanding is acceptable for removal of lead surface coatings;

(II) Mechanical removal strategies—Power tools that are HEPA-shrouded or locally exhausted are acceptable removal strategies for lead surface coatings. HEPA-shrouded or exhausted mechanical abrasion devices such as sanders, saws, drills, rot-peens, vacuum blasters, and needle guns are acceptable;

(III) Chemical removal strategies—Chemical strippers shall be used in compliance with manufacturer's recommendations; and

(IV) Soil abatement—When soil abatement is conducted, the lead-bearing soil shall be removed, tilled, or permanently covered in place as indicated in the following subparts:

(a) Removed soil shall be replaced with fill material containing no more than one hundred parts per million (100 ppm) of total lead. If the fill material exceeds one hundred (100) ppm total lead, the fill material will be acceptable only if the lead solubility is less than five (5) ppm. Soil that is removed shall not be reused as topsoil in another residential yard or child-occupied facility;

(b) If tilling is selected, soil in a child-accessible area shall be tilled to a depth which results in no more than four hundred (400) ppm total lead of the homogenized soil, or other concentrations approved by the department. Soil in an area not accessible to children shall be tilled to a depth which results in no more than two thousand (2,000) ppm total lead of the homogenized soil or other concentrations approved by the department;

(c) Permanent soil coverings include solid materials such as pavement or concrete, which separate the soil from human contact. Grass, mulch and other landscaping materials are not considered permanent soil covering; and

(d) Soil abatement shall be conducted to prevent lead contaminated soil from being blown from the site and/or from being carried away by water run-off or through percolation to groundwater.

B. Interior removal. When conducting a lead abatement project using the removal strategy on interior surfaces, these minimum requirements shall be met—

(I) The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be defined to prevent unlicensed and/or unauthorized personnel approaching closer than twenty feet (20') to the removal operation;

(II) Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two inches (2") tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

(III) Any heating and cooling systems within the regulated area shall be shut down and the vents sealed with six (6)-mil poly to prevent lead dust accumulation within the system;

(IV) All items within the regulated area shall be cleaned by HEPA vacuuming and/or wet wiping with a cleaning solution. Items shall then be removed from the area, or covered with six (6)-mil poly and sealed with duct tape;

(V) All windows below and within the regulated area shall be closed;

(VI) Critical barrier containment shall be constructed;

(VII) At least two (2) layers of six (6)-mil, or thicker, poly shall be placed on the floor at the base of the component and extend at least ten feet (10') beyond the perimeter of the component being abated (removal by the chemical strategy may require chemical resistant floor cover; follow manufacturer's recommendations);

(VIII) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution and/or vacuumed with a HEPA vacuum prior to removal from the regulated area;

(IX) At the end of each work shift, the top layer of six (6)-mil poly shall be removed and used to wrap and contain the debris generated by the shift. The six (6)-mil poly shall then be sealed with duct tape and kept in a secured area until final disposal. The second layer of six (6)-mil poly shall be HEPA vacuumed, left in place and used during the next shift. A single layer of six (6)-mil poly shall be placed on this remaining poly before abatement resumes; and

(X) After the removal is complete, the regulated area shall be cleaned by vacuuming with a HEPA vacuum, wiping down all surfaces with a cleaning solution, rinsing all surfaces, and then HEPA vacuuming the area again. Cleaning shall begin at the end of the work area farthest from the entrance to the area and from the top to the bottom of the regulated area.

C. Exterior removal. When conducting a lead abatement project using the removal strategy on exterior surfaces, these minimum requirements shall be met—

(I) The site shall be prepared by first establishing a regulated area using fencing, barrier tape or other appropriate barriers. The regulated area shall be designated as to prevent unlicensed

and/or unauthorized personnel from approaching closer than twenty feet (20') to the removal operation;

(II) Signs shall be posted at all entrances to the regulated area, and shall include the words "WARNING: LEAD AREA, POISON-NO SMOKING OR EATING" in bold lettering not smaller than two inches (2") tall with additional language prohibiting entrance to the regulated area by unauthorized personnel;

(III) All movable items shall be moved twenty feet (20') from working surfaces. Items that cannot be readily moved twenty feet (20') from working surfaces shall be covered with six (6)-mil poly and sealed with duct tape;

(IV) At least one layer of six (6)-mil, or thicker, poly shall be placed on the ground and extend at least ten feet (10') from the abated surface plus another five feet (5') out for each additional ten feet (10') in surface height over twenty feet (20'). In addition, the poly shall—

(a) Be securely attached to the side of the building with cover provided to all ground plants and shrubs in the regulated area;

(b) Be protected from tearing or perforating;

(c) Contain any water, including rainfall, which may accumulate during the abatement; and

(d) Be weighted down to prevent disruption by wind gusts;

(V) All windows in the regulated area and all windows below and within twenty feet (20') of working surfaces shall be closed. It is recommended that the windows of adjacent structures within twenty feet (20') also be closed;

(VI) Work shall cease if constant wind speeds are greater than ten (10) miles per hour;

(VII) Work shall cease and cleanup shall occur if rain begins;

(VIII) All equipment used in the regulated area shall be thoroughly cleaned with a cleaning solution and/or vacuumed with a HEPA vacuum prior to removal from the regulated area; and

(IX) The regulated area shall be HEPA vacuumed and cleaned of lead-based paint chips, poly and other debris generated by the abatement project work at the end of each workday. Debris shall be kept in a secured area until final disposal.

**Title 19—DEPARTMENT OF HEALTH**  
**Division 30—Division of Health Standards and**  
**Licensure**  
**Chapter 70—Lead Abatement and Assessment**  
**Licensing, Training Accreditation**

**ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Health under sections 701.301, 701.312 and 701.316, RSMo Supp. 1999, the director adopts a rule as follows:

**19 CSR 30-70.640 Project Notification for Industrial Lead Abatement Projects is adopted.**

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 1999 (24 MoReg 2503-2504). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty days after publication in the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** One comment was received consisting of several subparts from the Regulatory Environmental Group for Missouri.

**COMMENT:** The Regulatory Environmental Group for Missouri contends that the regulation lacks an applicability statement that clearly defines who must comply

**RESPONSE:** The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because subsection (1) of this regulation states that it applies to "any person or entity conducting an industrial lead abatement project."

**COMMENT:** The Regulatory Environmental Group for Missouri contends that the regulation fails to define what constitutes a "de minimis surface area" so as to qualify for exclusion from the definition of a lead abatement project, resulting in the nullification of the exemption for "insignificant projects."

**RESPONSE:** The Department has considered this public comment and incorporated it into the definition of "industrial lead abatement" in 19 CSR 30-70.600 where it is more appropriate. The revision to 19 CSR 30-70.600 creates an exception to that definition for de minimis surface areas, which are described as surface areas "of less than 50 square feet of a lead-bearing substance per lead abatement project". No change, however, to 19 CSR 30-70.640 is necessary on the basis of this comment as this change was incorporated into 19 CSR 30-70.600.

**COMMENT:** The Regulatory Environmental Group for Missouri contends that section 701.304 limits the Department's regulatory authority to "dwellings" and "child-occupied facilities" and does not include industrial lead abatement projects.

**RESPONSE:** The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because section 701.304 does not define the extent of the Department's authority with regard to lead-bearing substance activities. Moreover, neither "lead-bearing substance activity" nor "lead abatement project", as those terms are defined for purposes of sections 701.300 to 701.338, are limited to dwellings or child-occupied facilities.

**COMMENT:** The Regulatory Environmental Group for Missouri declares that the 10-day pre-notification requirement for the industrial setting is unreasonable.

**RESPONSE:** The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because the requirement that the contractor submit written notification of the project at least ten days before starting the project is mandated by section 701.309.

**COMMENT:** The Regulatory Environmental Group for Missouri contends that there was no justification for promulgating the regulation as an emergency rule.

**RESPONSE:** The Department has considered this public comment but has decided to proceed with the implementation of the rule as proposed because the issue of emergency rule justification is not applicable to the final promulgation of this regulation.

**Title 19—DEPARTMENT OF HEALTH**  
**Division 60—Missouri Health Facilities Review**  
**Committee**  
**Chapter 50—Certificate of Need Program**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Health Facilities Review Committee under section 197.320, RSMo Supp. 1999, the committee withdraws a proposed amendment as follows:

**19 CSR 60-50.300 Definitions for the Certificate of Need Process is withdrawn.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 1999 (24 MoReg 2822-2823).

SUMMARY OF COMMENTS: No comments were received. This proposed amendment is being withdrawn because it will be included with another proposed amendment.

**Title 20—DEPARTMENT OF INSURANCE  
Division 500—Property and Casualty  
Chapter 4—Rating Laws**

**ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Insurance under sections 374.045 and 379.893, RSMo Supp. 1999, the director amends a rule as follows:

20 CSR 500-4.100 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on August 2, 1999 (24 MoReg 1950-1951). Changes have been made in the text of the proposed amendment and the section containing those changes is reprinted below. This proposed amendment becomes effective thirty days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on September 8, 1999 at 9:00 a.m. at the offices of the Department of Insurance, Harry S Truman State Office Building, Room 630, 301 W. High St., Jefferson City, Missouri. Both written and oral comments were received concerning this proposed amendment.

COMMENT: The proposed amendment is designed to implement House Bill 1080. The first portion of that bill was intended to modify the current practice of requiring that a notice be sent to the policyholder upon an assignment or transfer of a commercial policy among affiliated carriers within a holding company. Under House Bill 1080, that notice is no longer required. The second portion of the bill only requires a notice to be provided when a change in a schedule rating factor causes a premium increase upon renewal of a policy. The bill was intended to delete other consumer notice requirements which had previously been required.

RESPONSE: The department appreciates these comments.

COMMENT: First, paragraph (7)(D)2 exceeds the legislative intent of House Bill 1080. Second, paragraph (7)(D)3 should not include rating factors other than schedule rating factors. Third, the definition of rating credit and rating debit in paragraph (7)(D)4 should be limited to schedule rating factors.

RESPONSE AND EXPLANATION OF CHANGE: The department does not agree that subsection (7)(D)2 exceeds the intention of House Bill 1080, however, because Senate Bill 386 was passed during the 1998 Legislative Session, which was after this regulation was proposed, it will be necessary for the department to revisit all regulatory issues associated with commercial insurance.

As such, subsection (7)(D)2 will be withdrawn at this time so as to allow the regulation to be promulgated. Also, regarding paragraph (7)(D)2, prior to the enactment of House Bill 1080 in 1998, Regulation 20 CSR 500-4.100 directed insurers to “. . . inform the insured in writing in terms sufficiently clear and specific of the basis for any schedule debit or for any schedule credit which is applied.” The department has always interpreted this requirement as applying to both the inception of a policy and upon any renewals. From the department’s perspective, House Bill 1080’s original language attempted to eliminate the latter notice requirement by providing that notice of a “change” in any rating system component was not required to be sent to each insured, the word

“change” being interpreted to mean “change to the original schedule debits or credits made at renewal.” Because neither the original version of House Bill 1080 nor the final version to which industry and the department agreed specifically addressed the issue of “new business,” the department initially concluded during the drafting of the proposed amendment that the General Assembly had no problem with the “new business” notice requirement of the old regulation. However, based on the comment of House Bill 1080’s sponsor that “. . . new business . . . was not intended to be part of . . . implementing regulations,” as well as the insurance industry’s strong opposition on the matter and the lack of any other statutory guidance on the issue, the department has decided to eliminate the proposed amendment’s paragraph (7)(D)2. Regarding the second point, the department has modified paragraph (7)(D)3 by deleting the phrase “. . . including but not limited to expense credits, schedule rating factors and individual risk premium modification factors, . . .” The department also modified paragraph (7)(D)3 by inserting the word “schedule” before the words “rating factor.” Paragraph (7)(D)3 was then renumbered as paragraph (7)(D)2. Regarding the third point, the department inserted the word “schedule” before the words “rating credit” and before the words “rating debit” in paragraph (7)(D)4. The words “paragraph 3” in paragraph (7)(D)4 were changed to “paragraph 2.” Paragraph (7)(D)4 was then renumbered as paragraph (7)(D)3.

COMMENT: First, paragraph (7)(D)2 exceeds the scope of the intention of House Bill 1080. Second, the requirement that the consumer be provided with information upon the initial issuance of the policy is unnecessary, stating that to do so would be confusing to the policyholder. Also, since these consumers are sophisticated insurance buying consumers, the notice is unnecessary. In addition, it would be costly to the insurance company to have to provide the notice. Second, the definition of schedule rating factor in paragraph (7)(D)3 is overly broad.

RESPONSE AND EXPLANATION OF CHANGE: The first comments to the proposed amendment are discussed in the response immediately above. It should also be noted that should paragraph (7)(D)2 have remained in the regulation there would have been no additional expense to an insurance company because all companies are currently required to provide this notice to all consumers. Last, the department does not believe that providing a notice of the applied scheduled rating factors could be confusing to a consumer if indeed these are sophisticated insurance purchasing consumers. Regarding the second point, the response immediately above addresses these concerns.

COMMENT: Subsection (7)(E) requiring the filing of non-A rated risk policies is burdensome. Second, the inclusion of several specific statutes listed in section (3) is unnecessary. Third, subsection (7)(B) of the current regulation was deleted from the proposed amendment.

RESPONSE AND EXPLANATION OF CHANGE: The requirement to file non-A rated risk policies is not a new requirement. The new language in the proposed amendment merely makes a cross-reference to the statutory definition of an A-rated risk. Second, it is necessary to list in a regulation all applicable statutes that pertain to the issue. Third, subsection (7)(B) was not deleted from the proposed amendment. The reason subsection (7)(B) was not included in the first printing of the proposed amendment is that the secretary of state does not publish subsections which contain no changes in proposed amendments. Since subsection (7)(B) contained no changes in the proposed amendment it was, therefore, not included in the first printing. The department has reprinted section (7) here in its entirety to clear up any confusion regarding this matter.

COMMENT: The content of MDI Bulletin # 99-02 should be followed.

RESPONSE: The department agrees.

**20 CSR 500-4.100 Rate Regulatory Law Interpretations**

(7) Commercial Individual Risk Premium Modification Plans and Schedule Rating Plans.

(A) Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense or both. Rating plans may not allow a total credit or debit of more than twenty-five percent (25%) based on risk characteristics and not more than ten percent (10%) additional credit based on reduction of expenses.

(B) Subsection (7)(A) does not apply to experience rating plans.

(C) It shall be impermissible for affiliated insurers within a group under common management or control to shift insurance accounts among the affiliated insurers in order to circumvent the restrictions on schedule rating provided in subsection (7)(A).

(D) All debits and all credits based on individual risk characteristics, and all additional credits based on reduction of expenses shall be based on evidence that is contained in the file of the insurer at the time the debit or credit is applied.

1. Evidence supporting the basis for any rating credit or debit shall be retained by the insurer for the policy term plus two (2) calendar years, in accordance with section 374.205, RSMo.

2. Any renewal notice of a commercial casualty insurance policy as defined in section 379.882, RSMo, for any Missouri risk or portion thereof which would have the effect of increasing the premium charged to the insured due to a change in any schedule rating factor applied to the policy during the previous policy period shall contain or be accompanied by a notice to the insured containing information that any inquiry by the insured concerning the increased premium may be directed to the insurer or the insurer's agent.

3. Upon receipt of a request as described in paragraph (7)(D)2. above, the insurer, directly or through the insurer's agent, shall inform the insured in writing in terms sufficiently clear and specific of the basis for any reduction in a schedule rating credit or increase in a schedule rating debit which is applied to the policy. This response must be provided to the insured within ten (10) calendar days of the insurer or the insurer's agent receiving the request. A copy of the request from the insured and the written notice to the insured shall be contained in the file of the insurer, remaining there for not less than the duration of the policy term plus two (2) calendar years in accordance with section 374.205, RSMo.

(E) This rule does not require the filing of individual risk policies by insurance companies when those policies are rated in accordance with subdivision (1) of subsection 1 of section 379.888, RSMo.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs and other items required to be published in the *Missouri Register* by law.

**Title 4—DEPARTMENT OF ECONOMIC  
DEVELOPMENT  
Division 100—Division of Credit Unions**

**ACTIONS TAKEN ON APPLICATIONS FOR NEW  
GROUPS OR GEOGRAPHIC AREAS**

Pursuant to section 370.081(4), RSMo Supp. 1999, the director of the Missouri Division of Credit Unions is required to cause notice to be published that the director has either granted or rejected applications from the following credit unions to add new groups or geographic areas publish in the November 15, 1999 *Missouri Register* (24 MoReg 2721) to their membership and state the reasons for taking these actions.

The following application has been granted. This credit union has meet the criteria applied to determine if additional groups may be included in the membership of an existing credit union and have the immediate ability to serve the proposed new groups or geographic areas. The proposed new groups or geographic areas meet the requirements established pursuant to 370.080(2), RSMo Supp. 1999.

Credit Union	Proposed New Group or Area
Central Missouri Credit Union 201 S. Holden Warrensburg, MO 64093	Lafayette, Henry, Benton & Saline Counties

**Title 4—DEPARTMENT OF ECONOMIC  
DEVELOPMENT  
Division 100—Division of Credit Unions**

**APPLICATIONS FOR NEW GROUPS OR  
GEOGRAPHIC AREAS**

Pursuant to section 370.081(4), RSMo Supp. 1999, the director of the Missouri Division of Credit Unions is required to cause notice to be published that the following credit unions have submitted applications to add new groups or geographic areas to their membership.

Credit Union	Proposed New Group or Geographic Area
Arsenal Credit Union 8651 Watson Road Webster Groves, MO 63119	Zip Codes 63049, 63052 and 63026

*NOTICE TO SUBMIT COMMENTS: Anyone may file a written statement in support of or in opposition to any of these applications. Comments shall be filed with: Director, Division of Credit Unions, P.O. Box 1607, Jefferson City, MO 65102. To be considered, written comments must be submitted no later than ten business days after publication of this notice in the Missouri Register.*

## Rule Changes Since Update to Code of State Regulations

This cumulative table gives you the latest status of rules. It contains citations of rulemakings adopted or proposed after deadline for the monthly Update Service to the *Code of State Regulations*, citations are to volume and page number in the *Missouri Register*, except for material in this issue. The first number in the table cite refers to the volume number or the publication year—23 (1998), 24 (1999) and 25 (2000). MoReg refers to *Missouri Register* and the numbers refer to a specific *Register* page, R indicates a rescission, W indicates a withdrawal, S indicates a statement of actual cost, T indicates an order terminating a rule, N.A. indicates not applicable and RUC indicates a rule under consideration.

## Emergency Rules in Effect as of January 14, 2000

Expires

### Office of Administration

#### Commissioner of Administration

1 CSR 10-15.010 Cafeteria Plan . . . . . June 28, 2000

### Department of Agriculture

#### Market Development

2 CSR 10-5.005 Price Reporting Requirements for Livestock Purchases by Packers . . . . . March 2, 2000

#### State Milk Board

2 CSR 80-2.180 Adoption of the *Grade A Pasteurized Milk Ordinance* with Administrative Procedures—Recommendations of the United States Public Health Service/Food and Drug Administration (PMO) . . . . . May 1, 2000

#### Missouri Agricultural and Small Business Development Authority

2 CSR 100-8.010 Description of Operation, Definitions, Applicant Requirements, Procedures for Grant Approval, Funding of Grants, and Amending the Rules for the Missouri Value-Added Grant Program . . . . . February 24, 2000

### Department of Elementary and Secondary Education

#### Urban and Teacher Education

5 CSR 80-800.290 Application for Substitute Certificate of License to Teach . . . . . January 26, 2000

### Department of Transportation

#### Missouri Highways and Transportation Commission

7 CSR 10-2.010 Overdimension and Overweight Permits . . . . . May 16, 2000

7 CSR 10-2.010 Overdimension and Overweight Permits . . . . . May 16, 2000

7 CSR 10-10.010 Definitions . . . . . May 16, 2000

7 CSR 10-10.040 Contractor Performance Questionnaire Used in Evaluating Contractor Performance . . . . . May 16, 2000

7 CSR 10-10.050 Procedure and Schedule for Completing the Contractor Performance Questionnaire . . . . . May 16, 2000

7 CSR 10-10.070 Procedure for Annual Rating of Contractors . . . . . May 16, 2000

### Department of Labor and Industrial Relations

#### Missouri Commission on Human Rights

8 CSR 60-3.040 Employment Practices Related to Men and Women . . . . . Terminated December 29, 1999

### Department of Mental Health

#### Certification Standards

9 CSR 30-4.030 Certification Standards Definitions . . . . . February 17, 2000

9 CSR 30-4.034 Personnel and Staff Development . . . . . February 17, 2000

9 CSR 30-4.035 Client Records of a Community Psychiatric Rehabilitation Program . . . . . February 17, 2000

9 CSR 30-4.039 Service Provision . . . . . February 17, 2000

9 CSR 30-4.042 Admission Criteria . . . . . February 17, 2000

9 CSR 30-4.043 Treatment Provided by a Community Psychiatric Rehabilitation Program . . . . . February 17, 2000

### Department of Natural Resources

#### Air Conservation Commission

10 CSR 10-5.380 Motor Vehicle Emissions Inspection . . . . . June 28, 2000

#### Public Drinking Water Program

10 CSR 60-3.010 Construction Authorization, Final Approval of Construction Owner-Supervised Program and Permit to Dispense Water . . . . . March 27, 2000

10 CSR 60-3.020 Continuing Operating Authority . . . . . March 27, 2000

10 CSR 60-3.030 Technical, Managerial, and Financial Capacity . . . . . March 27, 2000

### Department of Public Safety

#### Missouri Gaming Commission

11 CSR 45-10.150 Child Care Facilities—License Required . . . . . June 7, 2000
