

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety (90)-day period during which an agency shall file its Order of Rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the Proposed Rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

ORDER OF RULEMAKING

By the authority vested in the Conservation Commission under sections 40 and 45 of Art. IV, Mo. Const., the commission amends a rule as follows:

**3 CSR 10-10.725 Commercial Fishing: Seasons, Methods is
amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 2, 2004 (29 MoReg 164-165). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective **July 1, 2004**.

SUMMARY OF COMMENTS: No comments were received.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 10—Missouri State Board of Accountancy
Chapter 5—Peer Review**

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under sections 326.271 and 326.289.9, RSMo Supp. 2003, the board adopts a rule as follows:

4 CSR 10-5.070 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2126). The section with changes to the proposed rule is reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on January 6, 2004 and the public comment period ended January 20, 2004. Six (6) comments were received.

COMMENT: One (1) entity requested the reference to CD-ROM product be removed because if it were discontinued the Missouri rules would have to be revised. The entity stated the reference to the American Institute of Certified Public Accountants (AICPA) and their website should suffice to notify licensees of what standards will apply for statements on Standards of Attestation Engagement. One (1) entity commented that this product had not been reviewed by AICPA Peer Review Board for accuracy. The requirement that the licensee determine the conflict between the Code of Professional Conduct and the Missouri statute and rules is challengeable.

RESPONSE: The board noted that incorporated by reference materials is required by section 536.031.4, RSMo and will remain in the rule. The board disagreed that the Rules of Professional Conduct have not been approved by AICPA. While the AICPA Peer Review Board may not approve these rules, the board is not aware of any authority this body has over the AICPA Rules of Professional Conduct. The board also does not believe there is any likely conflict between Missouri Rules of Conduct and the AICPA Rules of Professional Conduct, because Missouri is adopting the AICPA rule. Given the recent Missouri Administrative Hearing Commission decision in *Board of Accountancy v. Schlotzhauer*, AHC No. 00-0036 AC (2002), the board believes the new rule reduces the possibility of a conflict. Therefore, this portion of section (1) will not be modified in the final rule.

COMMENT: One (1) entity asked that sections (2) and (3) be reviewed, as they felt the final sentence was confusing, and possibly unenforceable as it would be difficult for a licensee to determine what is meant by "other pronouncements that have similar generally recognized authority." The entity suggested the board add a new section (5) to read as follows: The term "approved peer review program" shall mean either the Missouri Society of Certified Public Accountants (MSCPA) peer review administration program or a program found by the board to meet the "Standards for Performing and Reporting on Peer Reviews" as promulgated by the AICPA.

RESPONSE AND EXPLANATION OF CHANGE: The board voted that the sentence would remain in the final order and in order to provide clarification to the text of the rule would add the word "professional."

COMMENT: One (1) entity asked that sections (2) and (3) be reviewed, and a new section (5) be added to state: The term "approved peer review program" shall mean either the Missouri Society of Certified Public Accountants (MSCPA) peer review administration program or a program found by the board to meet the "Standards for Performing and Reporting on Peer Reviews" as promulgated by the AICPA to define peer review program, and eliminate confusion.

RESPONSE AND EXPLANATION OF CHANGE: The board did accept the comment and modified the proposed language for inclusion in the final rule.

COMMENT: Two (2) entities asked that the board not implement the AICPA standards status quo, and develop its own peer review program.

RESPONSE: The concerns were addressed but no changes were made. The board believed that its own peer review program would not only be expensive and difficult, but may also be in conflict with other states. Therefore, our licensee's peer reviews may not be accepted in other states where they are licensed, which would be an additional expense that the board does not wish to place on Missouri licensees.

COMMENT: Three (3) entities submitted comments regarding general peer review and auditing issues, including the cost of peer review for small practitioners. They also expressed concern regarding direct competition with non-CPAs who are not required to maintain any standards or show any competency of their work.

RESPONSE: The board stated they are aware of these entities concerns and takes their concerns seriously. The requirement for peer reviews is only for practitioners who perform audit, review or compilation work. The board did support the change made by the Missouri General Assembly in 2001 and believes the new requirement reflects the growing trend in all states to make peer review a condition for licensure renewal to increase competency.

COMMENT: Two (2) entities expressed concern regarding the issue of a new CPA not being required to work for a firm prior to licensing. Although the prior two (2) year rule did not always provide a range of work opportunities for some CPAs, it did offer insight to how a firm is operated from timekeeping and work billing to organization of workpapers. Without working for a CPA firm, much of this knowledge will never be obtained.

RESPONSE: Under the new law, all applicants must demonstrate one (1) year experience, which is verified by a licensed certified public accountant. The experience is to be accounting related. The board believes the change in the law will address an inequity in the old law, which prevented individuals qualified to practice public accounting but could not meet the supervision requirement from obtaining a license. Furthermore, the new law requires any applicant who wants to perform attest services to obtain a second year of work experience which must include attest related activities. Therefore, the change in the experience requirement should increase competency overall.

COMMENT: One (1) entity stated if it was the board's intention to further consolidate the attestation function within an even smaller group of practice units, increase the cost to small businesses and ultimately reduce access to the audit and review services of CPAs, then the implementation of the peer review program will be a success. However, if the board's intention to improve the quality of the audit and review function of practice units, the implementation of peer review, as it is currently designed, will be only marginal while incurring a rather significant cost. No amount of peer review nor legislation can circumvent the behavior of people who would sacrifice their professional integrity for the sake of money. The controls that are already in place should make any such behavior short-lived. The commenter stated that should this rule be implemented, he would probably sell the practice and seek other means of support. He further stated that several years ago the Kansas Board of Accountancy reviewed his audit and review reports and found their comments and suggestions quite helpful and the cost passed on to him was quite reasonable and suggested a program such as that followed by the Kansas Board be more beneficial to the small practitioner or require additional CPE in that audit area.

RESPONSE: The board believes that the attest function is a hallmark of the CPA function. Charges for the attest and review services are determined by the practitioner, not the board, based on the needs of the marketplace and each practitioner's costs. The board also considered the comment on the level of peer review to impose and reference to the Kansas model as a possible alternative. However, the executive director for the Kansas State Board of Accountancy advised the board that Kansas adheres to the AICPA peer review model, which is consistent with the peer review rules currently proposed.

Therefore, no changes were made to the text of the rule based on these comments.

COMMENT: One (1) entity stated that it appears the board is transferring its new governmental regulatory responsibility related to peer review to entities it does not control, i.e., the American Institute of Certified Public Accountants, the Missouri Society of Certified Public Accountants, etc. The commenter believes Missouri and other states are being unduly influenced by such membership-driven organizations that have a vested financial interest in administering peer reviews and make decisions that benefit their organizations, not Missouri CPAs. The commenter questioned how the board, funded by taxpayer dollars and fees paid by CPAs allows entities such as AICPA and MSCPA, who have non-CPA members, to affect professional licensing and self-regulation in any way. By doing so, the board effectively allows a nongovernmental entity to overstep its purpose and develop, implement, and oversee regulatory requirements. Self-regulation improvements promised to the professional through peer reviews administered by the AICPA have not been met as clearly by the Arthur Anderson debacle. Now is the time for the board to be an example to other states and show their commitment to the profession by making much needed reform to peer review standards and the peer review process. The board should begin with a simplified process that reflects the original, true intent of the peer review program and end the administrative burden the AICPA and MSCPA have created. The board needs to balance the cost of the peer review program with the benefit it provides to the profession and the public. Under the current administrative system, costs greatly outweigh the benefits provided. The commenter suggested the board readily accept its new responsibilities related to the profession, rather than accepting the AICPA/MSCPA peer review status quo. The board should develop its own peer review program requirements to best fit Missouri CPAs and not use the AICPA that is serving the varied interests of CPAs nationwide. The board should consider establishing a Peer Review Board, rather than, or in addition to, a Peer Review Oversight Board, who would develop, implement, administer and oversee the entire peer review process. This would allow the board to truly serve and regulate the professionals it serves and licenses. At a minimum, the board should contract with the AICPA, MSCPA or other entity in a way that allows the board to retain final authority over peer review. The commenter expressed concerns with the peer reviews only being conducted by another Missouri firm due to both client confidentiality and firm competition. By only allowing the use of in-state firms, firms are almost forced to use the services of St. Louis or Kansas City firms as there are few other firms outside these metropolitan areas that provide peer review services.

RESPONSE: Pursuant to section 326.289.9, RSMo the board is authorized to require peer review as a condition for licensure. Further Peer Review is defined by statute under section 326.256.1(14), RSMo. The board believes the proposed rules (4 CSR 10-5.070, 4 CSR 10-5.100, and 4 CSR 10-5.110), which address the standards for Peer Review, the administration of the Peer Review process for licensure and the oversight of its administration are consistent with the mandate of the General Assembly. The board is aware of your concern that the proposed rules on Peer Review will delegate aspects of the administration of peer review to AICPA and MSCPA. The board believes the AICPA model is well established and adhered to by a majority of the CPA profession as well as the growing trend of state licensing boards, which require Peer Review for licensure. Missouri Peer Review, as authorized by the Missouri General Assembly, is defined expressly as the AICPA model (or its equal) pursuant to section 326.256.1(14), RSMo. Therefore, the board does not believe it is unduly delegating its responsibilities to MSCPA in administering the Peer Review process, because MSCPA is already the designated AICPA Peer Review representative in Missouri. In fact, the rules cited by you do impose oversight requirements over MSCPA consistent with the board's statutory authority to determine the "effectiveness" of the Peer Review program. The

board also notes that the proposed rules on Peer Review permit the board to accept non-AICPA peer review provided that it is determined to be substantially equal to the AICPA model. Therefore, no Missouri licensed CPA would be required to obtain Peer Review through MSCPA if another provider is available. The board takes its responsibilities seriously and believes the proposed rules on Peer Review are consistent with its statutory mandate.

4 CSR 10-5.070 Peer Review Standards

(5) The term "approved peer review program" shall mean the Missouri Society of Certified Public Accountants (MSCPA) peer review administration program, any approved AICPA peer review program, or a peer review administration program of a state board of accountancy which has been determined by the Missouri State Board of Accountancy to meet, or exceed, the AICPA Standards for Performing and Reporting on Peer Reviews.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT Division 10—Missouri State Board of Accountancy Chapter 5—Peer Review

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under sections 326.271 and 326.289.9, RSMo Supp. 2003, the board adopts a rule as follows:

4 CSR 10-5.080 Firms Subject to Peer Review Requirements is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2126-2129). There are no changes to the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on January 6, 2004 and the public comment period ended January 20, 2004. No comments were received.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT Division 10—Missouri State Board of Accountancy Chapter 5—Peer Review

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under sections 326.271 and 326.289.9, RSMo Supp. 2003, the board adopts a rule as follows:

4 CSR 10-5.090 Peer Review Requirements for Renewal of a Firm Permit is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2130). There are no changes to the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on January 6, 2004 and the public comment period ended January 20, 2004. No comments were received.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 10—Missouri State Board of Accountancy
Chapter 5—Peer Review**

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under sections 326.271 and 326.289.9, RSMo Supp. 2003, the board adopts a rule as follows:

4 CSR 10-5.100 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2130–2131). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on January 6, 2004 and the public comment period ended January 20, 2004. Two (2) comments were received.

COMMENT: One (1) entity raised a question regarding the board's authority or jurisdiction of the board to review the "quality" of a peer review program that has been accepted by the Peer Review Oversight Board noting that under section 326.289.9(2) the review by the board is limited to determining the effectiveness of the review program but not quality. The entity, therefore, request the board remove the word "quality."

RESPONSE AND EXPLANATION OF CHANGE: The board agreed that the commenter was correct stating that the authorizing statute permits the board to determine the effectiveness of the review program. The board notes the term quality may be repetitive given the board's authority to assess the effectiveness of a review program. Therefore, the board removed the words "or quality."

COMMENT: One (1) entity stated that this rule appeared incomplete, as there was no distinctive wording for the PROB to control third-party administering methods, to allow for dispute resolutions, or to allow for an appeals process with the PROB. They suggested the duties of the PROB be increased to include responsibility for the peer review process from beginning to end in all stages.

RESPONSE AND EXPLANATION OF CHANGE: Entity (2) concerns were addressed and a legal opinion was obtained and the board has issued a response to this entity, but made no changes based on these comments. Based on comments received, the board felt the following change more clearly stated their original intent, and correct references. Changes have been made to sections (2), (3), and (4).

COMMENT: One (1) entity submitted comments stating that oversight appears incomplete as there is no distinctive wording provided for the Peer Review Oversight Board (PROB) to control third-party administering methods to allow for dispute resolutions with a third-party, to allow for an appeals process with the PROB, etc. The commenter suggested the duties of the PROB be increased to include responsibility for the peer review process from beginning to end, in all stages, development, implementation, administration and oversight. If the proposal allows only Missouri licensed firms to perform peer reviews, why would the board turn a significant function like Peer Review oversight to a far-removed organization headquartered in New York?

RESPONSE: The board also considered this comment on the level of Peer Review to impose and is concerned that a state administered peer review process, different from AICPA, would be unduly burdensome on licensees and potentially duplicative. The board takes its responsibilities seriously and believes the proposed rules on Peer Review are consistent with its statutory mandate.

4 CSR 10-5.100 Administration

(2) Upon request, from the Peer Review Oversight Board (PROB), the administrator shall provide a list containing the names of firms enrolled in, or terminated from, the peer review program. The list shall also include the firm names and addresses; the period covered by their most recently accepted peer review and the date of that peer review. The PROB, as defined in 4 CSR 10-5.110, may require additional information, or documentation, or individual peer reviews, or may review procedures, if they deem it necessary to ascertain the effectiveness of a peer review program that has been accepted by the PROB.

(3) Annually by June 1, the PROB shall provide the board a list of firms that are enrolled in an approved peer review program, a list of firms that have not provided the verification required by 4 CSR 10-5.090, and a list of firms terminated from the peer review program. These firms may be determined to be ineligible for renewal by the board.

(4) Firms determined to be ineligible for renewal for failure to be currently enrolled in an approved peer review program, and/or failure to provide the verifications required by 4 CSR 10-5.090 shall be notified by the board in writing of the reason(s) and shall be advised of its right to file a complaint with the Administrative Hearing Commission.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 10—Missouri State Board of Accountancy
Chapter 5—Peer Review**

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under sections 326.271 and 326.289.9, RSMo Supp. 2003, the board adopts a rule as follows:

4 CSR 10-5.110 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2131–2132). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on January 6, 2004 and the public comment period ended January 20, 2004. One (1) comment was received.

COMMENT: One (1) entity stated that this rule appeared incomplete, as there was no distinctive wording for the PROB to control third-party administering methods, to allow for dispute resolutions, or to allow for an appeals process with the PROB. They suggested the duties of the PROB be increased to include responsibility for the peer review process from beginning to end in all stages.

RESPONSE AND EXPLANATION OF CHANGE: One (1) entity's concerns were addressed and a legal opinion was obtained and the board has issued a response to this entity, but made no changes based on these comments. Changes have been made to section (1). The board has also added (5), (6), and (7) based on comments from legal counsel.

4 CSR 10-5.110 Oversight

(1) The president of the board shall appoint a Peer Review Oversight Board (PROB) to ensure that firms comply with the peer review

requirements for firm permit renewal. All appointments must be approved by a majority of the board. PROB members may be removed at any time by a majority vote of the board for cause. The PROB shall meet as necessary to ascertain that participating firms are successfully undergoing peer review, are providing the verification required by 4 CSR 10-5.090, and are eligible for renewal of their firm permit. For the purposes of this rule, "undergoing peer review" shall mean enrolled in a peer review program that has been determined, by the PROB, to meet or exceed the standards of the American Institute of Certified Public Accountants (AICPA) peer review program which has been approved by the board. In addition a firm undergoing peer review shall have made the verifications required by 4 CSR 10-5.090.

(5) The peer review standards, requirements, administration, and oversight set forth in 4 CSR 10-5.070 through 4 CSR 10-5.110 shall not be applicable to any peer review proceedings conducted pursuant to section 326.310.3, RSMo unless the board so authorizes on a case-by-case determination.

(6) In conducting a peer review pursuant to section 326.310.3, RSMo the board shall have complete oversight of and access to peer review process and report.

(7) The provisions of this rule are declared severable. If any provision of this rule is held invalid by a court of competent jurisdiction, the remaining provisions of this rule shall remain in full force and effect, unless otherwise determined by a court of competent jurisdiction to be invalid.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT
Division 70—State Board of Chiropractic Examiners
Chapter 4—Chiropractic Insurance Consultant

ORDER OF RULEMAKING

By the authority vested in the State Board of Chiropractic Examiners under sections 331.060, 331.100.2 and 376.423, RSMo 2000, the board amends a rule as follows:

4 CSR 70-4.010 Chiropractic Insurance Consultant is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on January 15, 2004 (29 MoReg 88). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT
Division 240—Public Service Commission
Chapter 3—Filing and Reporting Requirements

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission by sections 386.040, 386.250, RSMo 2000 and 392.200, RSMo Supp. 2003, the commission amends a rule as follows:

4 CSR 240-3.500 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2139–2140). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: One (1) party filed comments suggesting a revision to 4 CSR 240-3.500(8). Two (2) parties filed written comments expressing concerns regarding 4 CSR 240-3.500(21). This portion of the proposed rulemaking pertains to a definition for the term “service objective.” Two (2) other parties filed written comments supportive of the proposed definition.

COMMENT: The commission staff (staff) states 4 CSR 240-3.500(8) should be further revised to mirror the proposed definition for customer as proposed in 4 CSR 240-32.020(11).

RESPONSE AND EXPLANATION OF CHANGE: The commission finds staff’s proposed revision to be reasonable. Staff recommends the proposed definition delete “etc.” and insert “or other entity.”

COMMENT: AT&T Communications of the Southwest, Inc. (AT&T) and MCI filed written comments for 4 CSR 240-3.500(21). AT&T and MCI oppose a blanket obligation to report all metrics upon an exchange-specific basis. Both companies challenge the proposed rule’s private cost, which contends the proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate. AT&T and MCI state the commission should not assume there would not be a fiscal impact if these changes were adopted. Both parties state such detailed reporting is not realistic or meaningful. AT&T states that exchange-specific reporting for three (3) metrics (originating switched calls, local exchange switched call completion, and interexchange switched call completion) is redundant or impossible. One (1) switch can provide local service to more than one (1) exchange and these metrics are intended to simply monitor the performance of a switch. The switch should perform the same across each exchange. Both AT&T and MCI recommend the commission delete the proposed definition.

Staff and the Office of the Public Counsel (OPC) find the proposed definition for “service objective” to be reasonable. Staff points out the term is used in the commission’s existing rules; however it has never been defined. Staff and OPC note that existing rules contemplate exchange-specific monitoring of quality of service measures. OPC suggests such monitoring advances the protection of the ratepayer and is consistent with the public interest as identified in section 392.185, RSMo 2000.

RESPONSE: The commission’s existing telecommunications quality of service rules repeatedly used the term “service objective.” In this respect, the concept of defining a term used in the commission’s rules is reasonable. The term is intended to demonstrate an acceptable quality of service level for the various service categories. The proposed definition also states that service objectives should be maintained on an exchange-specific basis or as otherwise monitored according to 4 CSR 240-32.080. According to 4 CSR 240-32.080, the existing monitoring criteria for many quality of service categories

is by exchange. Such exchange-specific monitoring criteria are not being changed by this proposed rulemaking. In this respect monitoring certain quality of service measures on an exchange-specific basis should not be considered a new requirement for providers of basic local telecommunications service. In addition, the commission has previously stated Chapter 32 requirements should apply to both incumbent and competitive local exchange companies (see (24 MoReg 1956 and 1963) August 2, 1999 *Missouri Register*). Based on these considerations the proposed definition is reasonable and it should not impose a financial impact on any company if the company is currently complying with the commission's rules. No changes will be made to the proposed definition based on these comments.

4 CSR 240-3.500 Definitions Pertaining Specifically to Telecommunication Company Rules

(8) Customer means any individual, firm, partnership, corporation, municipality, cooperative, organization, governmental agency, or other entity that accepts financial and other responsibilities in exchange for telecommunications service.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT Division 240—Public Service Commission Chapter 3—Filing and Reporting Requirements

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission by sections 386.040, 386.250, RSMo 2000 and 392.200, RSMo Supp. 2003, the commission amends a rule as follows:

4 CSR 240-3.550 Telecommunications Company Records and Reports is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2140). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No party filed comments regarding this rulemaking.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT Division 240—Public Service Commission Chapter 32—Telecommunications Service

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission by sections 386.040 and 386.250, RSMo 2000 and 392.200, RSMo Supp. 2003, the commission amends a rule as follows:

4 CSR 240-32.020 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2145-2147). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Written comments were filed regarding the following portions of 4 CSR 240-32.020: 4 CSR 240-32.020(5) the proposed definition for "basic local telecommunica-

tions service," 4 CSR 240-32.020(29) the proposed definition for "operator assisted calls," 4 CSR 240-32.020(36) the proposed definition for "service objective," and 4 CSR 240-32.020(48) the proposed definition for "unusual repair." In addition a comment recommended "out-of-service" be defined.

COMMENT: AT&T Communications of the Southwest, Inc. (AT&T) expressed concerns regarding 4 CSR 240-32.020(5) pertaining to the proposed definition for basic local telecommunications service. AT&T states the proposed definition's reference to the Missouri statutory definition is overly broad. AT&T recommends the definition reference 4 CSR 240-32.100 rather than section 386.020(4), RSMo. MCI concurs with AT&T's concerns.

RESPONSE: AT&T appears to be recommending the commission adopt the components identified in 4 CSR 240-32.100(2) in defining basic local telecommunications service. This section of the commission rules identifies service features considered to be minimum elements for basic local and interexchange telecommunications service (emphasis added). Section 386.020(4), RSMo identifies more components than 4 CSR 240-32.100(2). For example, section 386.020(4), RSMo includes access to such services as local operator services and local directory assistance. These are important components of basic local telecommunications service. Therefore, the commission will maintain the current reference to section 386.020(4).

COMMENT: The commission staff (staff) recommends a proposed revision to 4 CSR 240-32.020(29). Staff recommends further clarifications to reflect only "0-" dialed operator service calls.

RESPONSE AND EXPLANATION OF CHANGE: The commission concurs with staff's recommendation as defined. Staff points out that operator service calls dialed on a "0+" basis would be technically difficult for a basic local telecommunications company to monitor.

COMMENT: AT&T and MCI expressed concerns regarding 4 CSR 240-32.020(36). AT&T and MCI oppose a blanket obligation to report all metrics upon an exchange-specific basis. Both companies challenge the proposed rule's private cost, which contends the proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate. AT&T and MCI state the commission should not assume there would not be a fiscal impact if these changes were adopted. Both parties state such detailed reporting is not realistic or meaningful. AT&T states that exchange-specific reporting for three (3) metrics (originating switched calls, local exchange switched call completion, and interexchange switched call completion) is redundant or impossible. One (1) switch can provide local service to more than one (1) exchange and these metrics are intended to simply monitor the performance of a switch. The switch should perform the same across each exchange. Both AT&T and MCI recommend the commission delete the proposed definition.

Staff and the Office of the Public Counsel (OPC) find the proposed definition for "service objective" to be reasonable. The commission staff point out the term is used in the commission's existing rules; however it has never been defined. Staff and OPC note that existing rules contemplate exchange-specific monitoring of quality of service measures. OPC suggests such monitoring advances the protection of the ratepayer and is consistent with the public interest as identified in section 392.185, RSMo 2000.

RESPONSE: The commission's existing telecommunications quality of service rules repeatedly used the term "service objective." In this respect, the concept of defining a term used in the commission's rules is reasonable. The term is intended to demonstrate an acceptable quality of service level for the various service categories. The proposed definition also states that service objectives should be maintained on an exchange-specific basis or as otherwise monitored according to 4 CSR 240-32.080. According to 4 CSR 240-32.080, the existing monitoring criteria for many quality of service categories is by exchange. Such exchange-specific monitoring criteria are not

being changed by this proposed rulemaking. In this respect monitoring certain quality of service measures on an exchange-specific basis should not be considered a new requirement for providers of basic local telecommunications service. In addition, the commission has previously stated Chapter 32 requirements should apply to both incumbent and competitive local exchange companies (see August 2, 1999 *Missouri Register*, (24 MoReg 1956 and 1963)). Based on these considerations the proposed definition is reasonable and it should not impose a financial impact on any company if the company is currently complying with the commission's rules. No changes will be made to the proposed definition based on these comments.

The commission will consider AT&T's comments in consideration of revisions to 4 CSR 240-32.080(5)(E) originating switched calls; (F) local exchange switched call completion; and (G) interexchange switched call completion. The commission agrees with AT&T that these three (3) metrics are intended to measure the performance of a switch. If one (1) switch is used to serve multiple exchanges then it may be appropriate to allow a company to monitor performance based on the switch rather than by exchange. The commission will address this aspect of AT&T's concerns in 4 CSR 240-32.080.

COMMENT: The Missouri Telecommunications Industry Association (MTIA) and AT&T expressed specific concerns regarding 4 CSR 240-32.020(48) the proposed definition for the term "unusual repair." Southwestern Bell Telephone, L.P. d/b/a SBC Missouri (SBC) and CenturyTel of Missouri, LLC (CenturyTel) expressed support for MTIA's comments. MCI concurs with comments made by both MTIA and AT&T. MTIA and AT&T recommend the proposed definition delete the sentence, "Lack of material and manpower does not constitute unusual repair." MTIA states most carriers cannot keep all possible repair and replacement materials in inventory. In addition, many carriers have a relatively small work force. According to MTIA, if repairs exceed the immediate resources of a carrier then such a condition should be considered an external element beyond the control of the company.

Staff comments the proposed definition is intended to clarify a repair situation that may be excluded from the "Out-of-Service Cleared" within twenty-four (24) hours objective. The proposed definition attempts to define unusual repair as when restoration is prohibited by an external element that is beyond the control of the company. Staff claims work force and/or material limitations that prevent the company from restoring service within twenty-four (24) hours, such limitations are within the company's control and therefore should not be considered unusual repair.

RESPONSE AND EXPLANATION OF CHANGE: The term "unusual repair" is used in existing 4 CSR 240-32.080(5)(I) (2). "Clearing time—Out-of-Service Conditions." According to this portion of the commission's rules, the service objective is that ninety percent (90%) or more of out-of-service trouble not requiring unusual repair shall be cleared within twenty-four (24) hours. This objective means that a company does not count a trouble report requiring unusual repair in the tabulation for this quality of service category. For example, if a company receives one hundred (100) trouble reports involving an out-of-service condition in a reporting time period and the company resolves eighty-five (85) of these one hundred (100) reports within twenty-four (24) hours the company could claim a clearing time for out-of-service condition of eighty-five percent (85%) (85/100) which is below the commission's service objective. Using this same example, if a company can claim an unusual repair condition for seven (7) of the fifteen (15) trouble reports not cleared within twenty-four (24) hours then the company could report a clearing time for out-of-service conditions of ninety-one percent (91%) (85/(100-7)). In this respect unusual repair can improve a company's performance for this service category.

The commission does not believe it is prudent to give any company unrestricted discretion in determining whether a specific situation can be classified as unusual repair. Nevertheless, the commission will revise this portion of the rule as defined. In this regard a com-

pany may qualify for an unusual repair situation involving lack of material and manpower if the company contacts staff in advance of submitting its quarterly quality of service report and the staff makes the determination that the company's particular situation warrants a classification of unusual repair.

MTIA's and AT&T's recommended revision would essentially make this service objective meaningless. Conceivably a company could claim lack of manpower for any trouble report with an out-of-service condition. For example, the company could simply claim the company lacked the necessary manpower to respond to any trouble report not cleared within twenty-four (24) hours. The commission acknowledges that most companies will also not keep all possible repair and replacement materials in inventory. Nevertheless, lack of material should not be considered unusual repair. A company's inventory level should not be considered an external element beyond the control of the company. MTIA's and AT&T's recommended revision could essentially reward a company for failing to keep any inventory because the company could then claim unusual repair for any trouble repair requiring material. Instead, unusual repair should be reserved for limited situations that are truly beyond the control of the company.

COMMENT: Staff recommends the commission define "out-of-service." This term is currently used in 4 CSR 240-32.080(5)(H)2. but is not defined.

RESPONSE AND EXPLANATION OF CHANGE: The commission concurs with staff's recommendation as defined.

4 CSR 240-32.020 Definitions

(29) Operator assisted calls—a telecommunications service using either human or automated call intervention that is initiated by dialing solely on a "0-" basis.

(30) Out-of-service—an out-of-service condition exists when a customer reports or a test reveals the customer has lost the ability to originate or receive a call.

(31) Outside plant—the telecommunications wires, cable, equipment and facilities installed along, over or under streets, alleys, highways or private rights-of-way between the central office and customers' premises or between central offices.

(32) Pay telephone—a coin or non-coin telephone installed for use by the general public from which calls can be paid for at the time they are made by means of coins, tokens, credit cards, debit cards or a billing to an alternate number.

(33) Person—person as defined in section 386.020(39), RSMo.

(34) Private shared tenant services—private shared tenant services as defined in section 386.020(40), RSMo.

(35) Rate—rate as defined in section 386.020(45), RSMo.

(36) Service—service as defined in section 386.020(47), RSMo.

(37) Service objective—an acceptable level of service for an established category of service as identified in 4 CSR 240-32.080. Service objectives should be maintained on an exchange-specific basis or as otherwise monitored according to 4 CSR 240-32.080.

(38) Station—a point of input to or output from the network, including a telephone instrument or other terminal device.

(39) Subsequent trouble report—A trouble report received for the same access line for trouble already reported but not yet cleared.

(40) Surveillance level—a substandard level of performance for an established category of service as identified in 4 CSR 240-32.080. A company whose service falls within a surveillance level shall immediately investigate and take appropriate corrective action to achieve and maintain the commission's service objective.

(41) Switching—a generic term for machines that switch telephone calls from/to other telephones or trunks.

(42) Tandem—a central office where trunks are interconnected to transmit telecommunications traffic between other central offices.

(43) Tariff—a schedule of rates, services and rules approved by the commission.

(44) Telecommunications company—telecommunications company as defined in section 386.020(51), RSMo.

(45) Telecommunications facilities—telecommunications facilities as defined in section 386.020(52), RSMo.

(46) Telecommunications service—telecommunications service as defined in section 386.020(53), RSMo.

(47) Traffic—telecommunications volume, based on number of calls and duration of messages.

(48) Unlisted telephone number—a telephone number which is not listed in the paper phone directories and is not given out to callers to Directory Assistance.

(49) Unusual repair—unusual repair exists when restoration is prohibited by an external element that is beyond the control of the company. Lack of material and manpower does not constitute unusual repair unless specifically requested by a company and approved by the commission staff to address a unique situation or condition.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 240—Public Service Commission
Chapter 32—Telecommunications Service**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission by sections 386.040 and 386.250, RSMo 2000 and 392.200, RSMo Supp. 2003, the commission amends a rule as follows:

4 CSR 240-32.070 Quality of Service is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2148-2149). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: One party identified specific concerns with 4 CSR 240-32.070.

COMMENT: The Missouri Telecommunications Industry Association (MTIA) expressed specific concerns regarding 4 CSR 240-32.070. Southwestern Bell Telephone, L.P. d/b/a SBC Missouri (SBC) and CenturyTel of Missouri, LLC (CenturyTel) expressed support for MTIA's comments. MTIA recommends section (4) be amended as follows, "Each customer requesting the installation or repair of basic local telecommunications service will be provided with the date by which service will be installed or repaired." MTIA

states the term "commitment" has been difficult to define in a way that is commonly understood by the industry. According to MTIA's comments the recommended amendment to the proposed rule will still clarify the requirement to provide all customers with a specific date to expect service.

The Office of the Public Counsel (OPC) expressed support for the proposed amendment. Public counsel states the proposed revisions appear reasonable and are designed to respond to often heard customer complaints concerning lack of specific time commitments for service installation or repairs.

RESPONSE: The commission expects all companies to provide customers with the date the customer's service will be installed or repaired. As an example, if a company intends to install or repair service on Tuesday for a given customer then the customer will be informed their service will be installed or repaired on Tuesday. MTIA's recommended change appears to suggest the company could be less specific with the customer. In this same example, according to MTIA's recommended revision, the company could inform the customer their service will be working by Friday even though the company planned to actually have it working three (3) days earlier. Stated differently, in response to installation requests, MTIA's recommended revision would allow the company to simply indicate to the customer that service will be installed within five (5) business days. Repair requests could also be handled in a similar manner under MTIA's proposal whereby the company simply provides a date "by which" service should be repaired. In other words, MTIA's proposal appears to allow the company to provide a date by which the customer will have working service. MTIA's proposal does not appear to require the company to provide the actual date when the customer's service will be installed or repaired. The commission believes MTIA's recommended revision will essentially make the quality of service category of installation commitments meaningless, as described in existing rule 4 CSR 240-32.080(5)(C). Therefore, the commission rejects MTIA's proposal.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT**

**Division 240—Public Service Commission
Chapter 32—Telecommunications Service**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission by sections 386.040 and 386.250, RSMo 2000 and 392.200, RSMo Supp. 2003, the commission amends a rule as follows:

4 CSR 240-32.080 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 1, 2003 (28 MoReg 2149-2150). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A revision has been suggested for 4 CSR 240-32.080(2). Concerns were expressed by various parties regarding the following portions of 4 CSR 240-32.080(5): subsection (A) regarding orders for basic local telecommunications service; subsection (B) regarding installation commitments; subsection (C) regarding operator service; subsection (E) regarding originating switched calls; subsection (F) regarding local exchange switched call completion; and subsection (H) regarding customer trouble reports.

COMMENT: Staff recommends the second sentence in 4 CSR 240-32.080(2) be revised.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with staff's recommended revision. This revision deletes

“. . . to or below. . . ” and inserts “within.” This suggested revision reflects that surveillance level can be a high or a low number depending on the criteria being monitored. For example, inferior performance is reflected in a high number for trouble report rate while inferior performance is reflected in a low number for the company’s percentage of installations for basic local service within five (5) working days.

COMMENT: Concerns regarding 4 CSR 240-32.080(5)(A) were expressed by the Missouri Telecommunications Industry Association (MTIA). MTIA recommends paragraph (5)(A)1. be amended as follows: Service objective—that ninety percent (90%) or more of such orders shall be installed, except for customer-caused delays, a natural disaster, or an external element that is beyond the control of the company—. MTIA alleges that many natural disasters that impact service are very localized and are not likely to be officially a declared natural disaster by the governor. MTIA’s proposal also recognizes the possibility of external conditions impacting this service objective.

Staff expresses support for this portion of the proposed amendment. Staff claims the rulemaking, as proposed, removes ambiguities that currently exist in the interpretation of the rule. The rule’s current wording provides wide discretion to companies in claiming an exception based on a natural disaster.

RESPONSE AND EXPLANATION OF CHANGE: MTIA’s proposed wording as well as the existing rule appears to provide wide discretion to companies in not counting orders not meeting the commission’s service objective. The exceptions noted in the commission’s rule allow a company to not count an order that may have failed to meet the established service objective if the failure is due to a customer-caused delay or a natural disaster. A common theme of staff’s comments is that many of the proposed revisions are appropriate because “. . . it will attempt to achieve greater consistency among parties in their quality of service reporting. . . .” In this instance staff points out the existing rule allows a company to claim it experienced a natural disaster for any storm ranging from a slight rain shower to more severe weather. Providing a company with the discretion to claim a natural disaster creates greater inconsistencies between companies in tabulating their quality of service reports.

MTIA’s proposed revision appears to expand a company’s discretion by including any external element that is beyond the control of the company. MTIA does not provide any examples of what external elements might be beyond the control of the company that are not already addressed in the pending rulemaking. Absent such examples it appears MTIA’s proposal would provide companies with wide latitude to exclude orders in the tabulation of its quality of service report results.

The commission’s rules should be worded in such a manner to ensure consistent interpretation and consistent tabulation of quality of service reports. MTIA’s proposed revisions do not appear to ensure companies will have a consistent interpretation of when to exclude orders based on a natural disaster or if an external element is beyond the control of the company. Based on this consideration the commission rejects MTIA’s proposed revision. Nevertheless, the commission will modify the proposed rule for 4 CSR 240-32.080(5)(A)1.

COMMENT: Concerns were expressed by MTIA regarding 4 CSR 240-32.080(5)(A)1.A. MTIA recommends this portion of the rule be amended as follows: “Within five (5) working days after the customer ordered service; or within seven (7) working days after the customer ordered service if the installation involves excavation which requires mandatory notice of intent to excavate to the state notification center pursuant to section 319.026, RSMo; or. . . .” MTIA states service providers are required by law to notify the state “one-call” notification center of their intent to excavate in an area at least two (2) working days before commencement of the excavation.

RESPONSE: MTIA’s proposed revision clearly makes it easier for companies to meet the commission’s service objective. MTIA’s proposed revision would also mean that customers might have to wait

longer for service to be installed. For example a company could install a customer’s service in seven (7) working days rather than the current five (5) working days and still comply with the commission’s service objective. The commission is concerned about the customer impact of MTIA’s proposed revision especially when most companies are able to easily meet the commission’s existing five (5)-day service objective. The statewide reported average for the past thirty (30) months is that ninety-four percent (94%) of all orders for basic local telecommunications service are completed within five (5) working days. This statewide average easily exceeds the commission’s existing service objective that of ninety percent (90%) of all orders for basic local telecommunications services are completed within five (5) working days. Although Chapter 319, RSMo does establish excavation requirements, the commission has not observed that these requirements have actually made it more difficult to achieve the existing service objective. However, in fairness to the position proposed by MTIA, Missouri law does appear to give third and fourth class counties until January 1, 2005 to fully comply with these requirements. In this respect we may not fully know the full impact of these excavation requirements until after this date. The commission will continue to monitor the situation to see if MTIA’s proposal deserves further consideration. In the meantime the commission rejects MTIA’s proposal and will maintain the existing five (5)-day service objective.

COMMENT: Concerns were expressed by MTIA regarding 4 CSR 240-32.080(5)(B). MTIA recommends this portion of the commission’s rules be amended as follows, “(5)(B) Installation—all customers shall be given a date by which service will be installed in accordance with 4 CSR 240-32.070(4)—

1. Service objective—that ninety-five percent (95%) or more of installations of basic local telecommunications service shall be, made by the date provided the customer, except for customer-caused delays, a natural disaster, or an external element that is beyond the control of the company;” MTIA states that these revisions are proposed based on MTIA’s previous recommendations.

RESPONSE AND EXPLANATION OF CHANGE: MTIA’s rationale for these proposed changes appears to be based on MTIA’s comments for 4 CSR 240-32.070 and 4 CSR 240-32.080(5)(A). For the same reasons previously expressed by the commission, MTIA’s proposed revisions will be rejected. Nevertheless, the commission will modify the proposed rule for 4 CSR 240-32.080(5)(B)1.

COMMENT: Southwestern Bell Telephone, L.P. d/b/a SBC Missouri (SBC) did not strongly oppose the proposed amendments to 4 CSR 240-32.080(5)(C) if the company can calculate performance in the following manner: A carrier measures the time from when an incoming call appears on an operator’s switchboard to when the operator answers the call. The carrier could then combine this measurement with the carrier’s statewide switch delay time and report this aggregated measurement.

RESPONSE AND EXPLANATION OF CHANGE: SBC’s method of calculating performance for this category is reasonable and it will be adopted.

COMMENT: AT&T Communications of the Southwest, Inc. (AT&T) expresses concerns regarding 4 CSR 240-32.080(5)(C)3. MCI concurs with AT&T’s comments. AT&T states some competitive local exchange carriers resell the services of incumbent local exchange carriers to provide their own retail services. In those instances, the performance of the service being resold will be reported in the incumbent local exchange carrier’s quality of service report as the incumbent local exchange carrier does not separate the results of the performance of wholesale services from its own retail performance. In this regard AT&T claims the competitive local exchange carrier and incumbent local exchange carrier would be reporting the exact same information. If the incumbent local exchange carrier does not make the information available to the competitive local exchange

carrier, the competitive local exchange carrier would be unable to report this information.

To address such situations, AT&T recommends the following wording for 4 CSR 240-32.080(5)(C)3.: “Monitoring criteria—continuously, on a company-wide basis, if a company provides this service by contractor service, the company providing the basic local service shall monitor the contractor’s performance and report it as the local service provider’s results. In the event the contractor of this service is an incumbent local exchange carrier and does not disaggregate its own retail performance from the wholesale performance, the retail provider of basic local exchange service may identify the contractor of this service and may concur in the performance of the contractor’s service.”

RESPONSE AND EXPLANATION OF CHANGE: AT&T’s proposed revision is reasonable and will be adopted.

COMMENT: AT&T’s comments for 4 CSR 240-3.500(21) and 4 CSR 240-32.020(36) implied certain revisions to 4 CSR 240-32.080(5)(E) originating switched calls; (F) local exchange switched call completion; and (G) interexchange switched call completion. AT&T states these metrics are designed to monitor the performance of a switch. AT&T claims that in many instances a single switch is used to provide basic local exchange service to multiple exchanges. AT&T states that monitoring the performance of a switch that serves multiple exchanges on an exchange specific basis is either redundant or impossible, as the switch will perform the same across each exchange.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with AT&T that these three (3) metrics are intended to measure the performance of a switch. The current monitoring criteria contemplate two (2) methods of monitoring. The preferred method is to continuously monitor the switch. For example, dial tone delay or dial tone denial reports could be used for monitoring originating switched calls. Likewise, switch call completion reports could be used to monitor local exchange switched call completion. Call blockage reports could be used to monitor interexchange switched call completion. These reports may track all the traffic associated with the switch. In other words, if a switch serves multiple exchanges, these reports may analyze traffic from all exchanges served by the switch. An alternative method of monitoring is if the company lacks the capability to produce such reports. In such instances the company is expected to conduct at least twenty-five (25) test calls, by exchange. This manual alternative method should only be conducted if the company lacks the technical ability to continuously monitor the performance of the switch. The commission will not modify the exchange-specific monitoring for this alternative method.

To try to minimize confusion on this issue, the commission will further revise the rule wording in the following paragraphs. 4 CSR 240-32.080(5)(E)3., (5)(F)3. and (5)(G)3.

COMMENT: MTIA recommends proposed revisions to 4 CSR 240-32.080(5)(H). MTIA recommends this portion of the rule be amended as follows: “(5)(H) Customer trouble reports regarding basic local telecommunications service—” MTIA states this proposed revision is consistent with 4 CSR 240-3.550. MTIA states companies should be able to exclude trouble reports related to non-basic services.

RESPONSE: The commission rejects MTIA’s proposed revision because a company’s trouble report rate should include trouble reports related to non-basic services. If a problem exists with any of the non-basic services offered by a company it should be reflected in the company’s trouble report rate. In this respect MTIA’s proposed revision would not accurately reflect a company’s quality of service provided to customers. The proposed rule allows a company to not count certain trouble reports such as trouble reports specifically caused by CPE or inside wire.

COMMENT: MTIA recommends proposed revisions to 4 CSR 240-32.080(5)(H)1.D. MTIA recommends this portion of the rule be amended as follows: “(5)(H)1.D. The service objective and surveillance levels do not apply to trouble caused by elements external to the provider’s network (e.g., CPE, inside wire, etc.) or when the report is a subsequent trouble report for the same access line. In order to exclude trouble reports caused by elements external to the provider’s network, the provider must complete trouble isolation tests to verify that the cause of the trouble does not reside on the provider’s network.” MTIA’s rationale for these proposed revisions is that providers do not control and many times cannot test elements beyond their own network. A service provider, however, can verify through network testing that the trouble does not reside on its own network.

RESPONSE: The commission recognizes that isolating trouble can be difficult. In some instances a company’s test results may reveal no problems. For example, a wet cable may create trouble on a customer’s line; however the trouble may mysteriously resolve itself as sunshine dries the cable. In such instances the company’s test results may ultimately show faulty facilities to be OK. MTIA’s proposed revisions would allow a company to not count such trouble reports in calculating its trouble report rate. In contrast to MTIA’s recommendation, a company should only be allowed to not count a particular trouble report in calculating the company’s trouble report rate if the company can identify the source of the problem and if the source is outside the company’s network. For this reason, the commission rejects MTIA’s proposed revision.

COMMENT: MTIA expresses concerns regarding 4 CSR 240-32.080(5)(H)3. MTIA recommends this portion of the commission’s rules be revised as follows:

“3. Repair—All customers shall be given a date by which service will be restored in accordance with 4 CSR 240-32.070(4)—

A. Service objective—that ninety percent (90%) or more of commitments for clearing trouble shall be met, except for customer-caused delays, a declared natural disaster, or an external element that is beyond the control of the company.”

MTIA recommends these revisions because commitments have been difficult to define in a way that is commonly understood by the industry. MTIA also states many natural disasters are very localized and are not likely to be officially “declared.” The commission should recognize the possibility of external conditions impacting the attainment of the service objective.

In contrast to MTIA’s comments, the Office of the Public Counsel (OPC) strongly supports the proposed rulemaking’s requirement for a company to give customers time commitments to restore service and make repairs. The OPC states the proposed rulemaking advances the protection of the ratepayer and is consistent with the public interest as identified in section 392.185, RSMo 2000.

RESPONSE AND EXPLANATION OF CHANGE: The commission rejects MTIA’s proposed revisions for reasons previously expressed in this rulemaking (see commission response for 4 CSR 240-32.070). Nevertheless the commission will modify the proposed rule for 4 CSR 240-32.080(5)(H)3.

4 CSR 240-32.080 Service Objectives and Surveillance Levels

(2) Each company is expected to provide service within each exchange or as otherwise monitored in this section that meets or exceeds the service objective level. If service within any exchange falls within the surveillance level, the company shall immediately investigate and take appropriate corrective action. The identified problem and the corrective action taken shall be submitted to the commission with the company’s quarterly report.

(5) The service objectives, surveillance levels and monitoring criteria for the following categories are:

(A) Orders for basic local telecommunications service—

1. Service objective—that ninety percent (90%) or more of such orders shall be installed, except for customer-caused delays, delays caused by a declared natural disaster or a specific exemption requested by a company and approved by the commission staff to address a unique situation or condition—

A. Within five (5) working days after the customer ordered service; or

B. On or by the date requested if it is at least five (5) working days after the date the customer ordered service;

2. Surveillance level—eighty-five percent (85%) or below; and

3. Monitoring criteria—continuously, by exchange;

(B) Installation commitments—all customers shall be given a commitment of when service will be installed in accordance with 4 CSR 240-32.070(4)—

1. Service objective—that ninety-five percent (95%) or more of commitments for installation of basic local telecommunications service shall be met, except for customer-caused delays, delays caused by a declared natural disaster or a specific exemption requested by a company and approved by the commission staff to address a unique situation or condition;

2. Surveillance level—ninety percent (90%) or below; and

3. Monitoring criteria—continuously, by exchange;

(C) Operator assisted calls—

1. Service objective—that one hundred percent (100%) of operator assisted calls, shall be answered on average within twelve (12) seconds or less of dialing “0.” This objective incorporates the required switch delay for “0-” calls;

2. Surveillance level—fourteen (14) seconds or more; and

3. Monitoring criteria—continuously, on a company-wide basis, if a company provides this service by contractor service, the company providing the basic local service shall monitor the contractor’s performance and report it as the local service provider’s results. In the event the contractor of this service is an incumbent local exchange carrier and does not disaggregate its own retail performance from the wholesale performance, the retail provider of basic local exchange service may identify the contractor of this service and may concur in the performance of the contractor’s service;

(D) Customer assistance calls—

1. Service objective—that the average speed of answer for calls to the business office or repair bureau shall be fifteen (15) seconds or less;

2. Surveillance level—that average speed of answer for calls to the business office or repair bureau exceeding twenty (20) seconds on a continuous basis indicates a need for investigation and corrective action; and

3. Monitoring criteria—continuously, on a company-wide basis via an interactive voice system, if not possible, manual monitoring of twenty-five (25) incoming calls to a service center will be conducted on a monthly basis;

(E) Originating switched calls—

1. Service objective—that ninety-eight percent (98%) or more of calls shall receive a dial tone within three (3) seconds;

2. Surveillance level—ninety-seven and four-tenths percent (97.4%) or less; and

3. Monitoring criteria—continuously, via dial tone delay or dial tone denial reports. These reports can monitor the switch’s traffic either on an exchange-specific basis or switch-wide basis. If a company lacks the capability to produce such reports, the company should produce a report based on twenty-five (25) test calls, by exchange. If a company provides this service by contractor service, the company providing the basic local service shall monitor the contractor’s performance and report it as the local service provider’s results;

(F) Local exchange switched call completion—

1. Service objective—that ninety-eight percent (98%) or more of local exchange switched calls shall be completed without encountering a blockage or equipment busy condition;

2. Surveillance level—ninety-five percent (95%) or less; and

3. Monitoring criteria—continuously, via switch call completion reports. These reports can monitor the switch’s traffic either on an exchange-specific basis or switch-wide basis. If a company lacks the capability to produce such reports, the company should produce a report based on at least twenty-five (25) test calls, by exchange. If a company provides this service by contractor service, the company providing the basic local service shall monitor the contractor’s performance and report it as local service provider’s results;

(G) Interexchange switched call completion—

1. Service objective—that ninety-eight percent (98%) or more of interexchange switched calls shall be completed without encountering a blockage or equipment busy condition;

2. Surveillance level—ninety-five percent (95%) or less; and

3. Monitoring criteria—continuously, via call blockage reports. These reports can monitor the switch’s traffic either on an exchange-specific basis or switch-wide basis. If a company lacks the capability to produce such reports, the company should produce a report based on twenty-five (25) test calls, by exchange. If a company provides this service by contractor service, the company providing the basic local service shall monitor the contractor’s performance and report it as the local service provider’s results; and

(H) Customer trouble reports—

1. Frequency—

A. Service objective—that the frequency shall not exceed six (6) reports for every one hundred (100) access lines each month;

B. Surveillance level—shall not exceed eight (8) reports for every one hundred (100) access lines each month;

C. Monitoring criteria—monthly, by exchange; and

D. The service objective and surveillance levels do not apply to trouble caused by customer provided equipment (CPE) and inside wire or when the report is a subsequent trouble report for the same access line. In order to exclude trouble reports caused by CPE or inside wire the company must specifically determine the cause is from CPE or inside wire. Trouble reports whereby a company simply tests the line and produces a “test ok” or “found ok” condition are still countable trouble reports and are not excludable from the company’s trouble report rate;

2. Clearing time—out-of-service conditions—

A. Service objective—that ninety percent (90%) or more of out-of-service trouble not requiring unusual repair shall be cleared within twenty-four (24) hours;

B. Surveillance level—eighty-five percent (85%) or less; and

C. Monitoring criteria—monthly by exchange; and

3. Repair commitments—All customers shall be given a commitment of when service will be restored in accordance with 4 CSR 240-32.070(4)—

A. Service objective—that ninety percent (90%) or more of commitments for clearing trouble shall be met, except for customer-caused delays and delays caused by a declared natural disaster or a specific exemption requested by a company and approved by the commission staff to address a unique situation or condition;

B. Surveillance level—eighty-five percent (85%) or less; and

C. Monitoring criteria—monthly, by exchange.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs and other items required to be published in the *Missouri Register* by law.

**Title 20—DEPARTMENT OF INSURANCE
Division 500—Property and Casualty
Chapter 6—Workers’ Compensation and
Employer’s Liability**

IN ADDITION

**20 CSR 500-6.700 Workers’ Compensation Managed Care
Organizations**

On September 26, 2002, the Circuit Court of Cole County, State of Missouri, issued a temporary restraining order enjoining the enforcement of the rule 20 CSR 500-6.700. On December 3, 2003, the Circuit Court of Cole County subsequently issued a permanent injunction prohibiting the Missouri Department of Insurance from taking any action to enforce or implement the foregoing regulation. See, *Alliance of American Insurers, et al. v. Missouri Department of Insurance and Scott B. Lakin, Director, Case No. 02-CV-325517*.

Contractor Debarment List

Name of Contractor	Name of Officer and Title	Address	Date of Conviction	Debarment Period
Bruner Contracting Company	Cynthia Bruner	218 Delaware, Ste. 211 Kansas City, MO 64105	9/9/03	9/9/03-9/9/04
Cynthia Bruner	N/A	218 Delaware, Ste. 211 Kansas City, MO 64105	9/9/03	9/9/03-9/9/04

The Secretary of State is required by sections 347.141 and 359.481, RSMo 2000 to publish dissolutions of limited liability companies and limited partnerships. The content requirements for the one-time publishing of these notices are prescribed by statute. This listing is published pursuant to these statutes. We request that documents submitted for publication in this section be submitted in camera ready 8 1/2" x 11" manuscript.

NOTICE OF DISSOLUTION
TO ALL CREDITORS OF AND CLAIMANTS AGAINST
SYDNEY M. SHOENBERG & COMPANY, L.L.C.

Sydney M. Shoenberg & Company, L.L.C., a Missouri limited liability company, filed a Notice of Winding Up on February 23, 2004. Any claims against the company may be sent to John L. Gillis, Jr., Esq., c/o Armstrong Teasdale LLP, One Metropolitan Square, Suite 2600, St. Louis, Missouri 63102. Each claim must include the name, address, and telephone number of the claimant, the dates of occurrence of events upon which the claim is based and a brief description of the basis for the claim or the nature of the debt, the amount of the claim and whether the claim is secured, and, if so, the nature of the security. Any claim against Sydney M. Shoenberg & Company, L.L.C. will be barred unless a proceeding to enforce the claim is commenced within three (3) years after the publication of this notice.

NOTICE TO UNKNOWN CLAIMANTS OF PF4 PROPERTIES, LLC

You are hereby notified that PF4 Properties, LLC, a Missouri limited liability company, the principal office of which is located at 3490 Timberline, Quincy, Illinois, 62301, (the "LLC"), is winding up the business of the company. Persons with claims against the LLC should file a claim with the LLC containing the following information:

1. Amount of the claim;
2. Basis for the claim;
3. Documentation of the claim.

The claim must be mailed to Gregory A. Pratt, 525 Jersey, Quincy, Illinois.

A claim against the LLC will be barred unless a proceeding to enforce the claim is commenced within three (3) years after publication hereof.

**Notice of Corporate Dissolution
To All Creditors of and
Claimants Against
Construction Plastics, Inc.**

On July 17, 2001, CONSTRUCTION PLASTICS, INC., a Kansas corporation, filed its Articles of Dissolution with the Kansas Secretary of State. Dissolution was effective on July 17, 2001.

Said corporation requests that all persons and organizations who have claims against it present them immediately by letter to the corporation at:

Construction Plastics, Inc.
C/o VanOsdol, Magruder, Erickson & Redmond, P.C.
911 Main St., Ste. 2400
Kansas City, MO 64105

All claims must include the name and address of the claimant, the amount claimed, the basis for the claim, and the date(s) on which the event(s) on which the claim is based occurred, a brief description of the nature of the debt or the basis for the claim.

NOTICE: Because of the dissolution of CONSTRUCTION PLASTICS, INC., any claims against it will be barred unless a proceeding to enforce the claim is commenced within two years after the publication date of the two notices authorized by statute, whichever is published last.

**NOTICE TO THE UNKNOWN CREDITORS
OF
WETTERAU ASSOCIATES II, L.L.C.**

You are hereby notified that on March 24, 2004, Wetterau Associates II, L.L.C., a Missouri limited liability company (the "Company"), filed Articles of Termination with the Secretary of State of Missouri.

Said limited liability company requests that all persons and organizations with claims against it present them immediately by letter to the limited liability company at the following address:

Wetterau Associates II, L.L.C.
c/o Bryan Cave LLP
One Metropolitan Square, Suite 3600
St. Louis, MO 63102-2750
Attention: Susan Easton
(314) 259-2000
(314) 259-2020 (fax)

All claims must include: the name and address of the claimant; the amount claimed; the basis for the claim; and the date(s) on which the event(s) on which the claim is based occurred.

A claim against Wetterau Associates II, L.L.C. will be barred unless a proceeding to enforce the claim is commenced within three years after the publication of this notice.

Rule Changes Since Update to Code of State Regulations

This cumulative table gives you the latest status of rules. It contains citations of rulemakings adopted or proposed after deadline for the monthly Update Service to the *Code of State Regulations*, citations are to volume and page number in the *Missouri Register*, except for material in this issue. The first number in the table cite refers to the volume number or the publication year—27 (2002), 28 (2003) and 29 (2004). MoReg refers to *Missouri Register* and the numbers refer to a specific *Register* page, R indicates a rescission, W indicates a withdrawal, S indicates a statement of actual cost, T indicates an order terminating a rule, N.A. indicates not applicable, RUC indicates a rule under consideration, and F indicates future effective date.

HAVE YOU NOTICED A NEW RECEIPT?!

When filing your rulemakings with our office, you will now receive a new printed receipt, which will reflect the date filed with our office.

This is part of our internal automation piece that we are now utilizing. In the months ahead, rulemaking will be much more “user friendly.”

Stay tuned!
