**5 CSR 80-800.220 is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 1, 2004 (29 MoReg 1711–1714). Changes have been made in the text of the proposed amendment and the *Compendium of Missouri Certification Requirements* which is incorporated by reference. Those sections of the proposed amendment with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received fifty-four (54) letters of comment.

COMMENT: The board received four (4) letters from professional administrator associations supporting proposed changes in the administrator certification requirements as listed in the *Compendium of Missouri Certification Requirements* (compendium) and in the proposed amendment. The letters said the proposed changes offer flexibility in addressing the ongoing educational/professional needs and interests of administrators. They support using experienced practitioners as mentors and exempting individuals with ten (10) years of experience and a doctorate degree/national certification from annual professional development. Additionally, they recommended that the use of state and local professional development funds to implement the professional development requirements be inserted into the rules. COMMENT: Sixteen (16) letters of support for the proposed changes were received from administrators. Two (2) of these letters asked for clarification regarding mentor qualifications and one (1)

letter asked the board to consider more stringent requirements for the master's degree in educational leadership (in order to better prepare principals).

COMMENT: The board received one (1) letter from the Missouri School Boards' Association requesting clarification of language in the compendium and in the amendment.

COMMENT: The board received one (1) letter from the department requesting specific clarifications in proposed changes in the criteria for mentors, professional development and use of performance-based evaluations for principals.

RESPONSE AND EXPLANATION OF CHANGE: The board carefully reviewed the comments and has made changes in the compendium, which is incorporated by reference, clarifying mentoring, professional development and evaluation requirements. The board carefully reviewed the comments and will reword the language in section (1), subsections (9)(A), (10)(A) and (11)(A), delete section (6), and renumber the remaining sections as the requirement in section (6) is repeated later in the rule, clarify the experience required in subsection (8)(C), and delete the language "by marriage or court order" in subsection (15)(A). Section (1) and the renumbered subsections (7)(C), (8)(A), (9)(A), (10)(A), and (14)(A) are reprinted here for clarity.

COMMENT: The board received two (2) letters of support to the proposed changes in administrator certification with the comment that the grade levels listed in the compendium should reflect PreK-12 rather than the K-12 grade levels currently proposed.

RESPONSE: The board carefully considered the comment and decided to make no changes to the text of the proposed amendment.

COMMENT: The board received one (1) comment letter stating that two (2) years of teaching experience was not enough to qualify as an effective administrator.

RESPONSE: The board carefully considered the comments and decided to make no changes in the text of the proposed amendment.

COMMENT: The board received one (1) letter in opposition from a professional education association to the proposed elimination of the requirement for an administrator to obtain an educational specialist or doctoral degree within five (5) years of certification. The comment also requested that the state's performance-based principal evaluation be the sole evaluation used by districts in the evaluation of administrators and that mentoring be culminated by a demonstration project/portfolio. The comment letter further requested that professional development be documented by a formal process.

COMMENT: The board received two (2) letters from teacher and staff development associations. Both associations expressed general support of the proposed amendment; however, they voiced concern over the rigor/content of possible professional development that may be selected by administrators. One (1) letter expressed concern regarding mentor training and recommended the use of the National Staff Development Council's standards for professional development to add a degree of quality control to professional development opportunities around the state.

COMMENT: The board received four (4) letters from university representatives/professors in opposition to the proposed elimination of the requirement for a principal to obtain an educational specialist or doctoral degree within five (5) years of certification. One (1) letter expressed opposition based on the thought that professional development might not be monitored for quality or geared only toward leadership. One (1) letter expressed opinions about the "watering down" of leadership due to the reduction of required college preparation and the lack of clarity in the more flexible professional development requirements. Additionally, the comments suggest that the master's degree accreditation standards for principals be reviewed and updated, if necessary.

COMMENT: The board received four (4) letters from administrators in opposition to the proposed elimination of the requirement for

an administrator to obtain an educational specialist or doctoral degree within five (5) years of certification. The four (4) comment letters support the concept of required mentoring for two (2) years with the stipulation that the mentoring process end with a demonstration portfolio and that the rule articulate more specific details regarding mentor qualifications.

COMMENT: The board received one (1) comment letter from the Missouri School Boards' Association objecting to requiring more than thirty (30) contact hours of professional development in the first four (4) years or more than fifteen (15) contact hours in succeeding years. They believe this exceeds the statutory provisions.

RESPONSE AND EXPLANATION OF CHANGE: The board carefully reviewed the comments and has made changes in the compendium, which is incorporated by reference, clarifying mentoring, professional development and evaluation requirements; however, no demonstration portfolio will be required. The board also directs the department to convene a work group to make recommendations on updating/upgrading administrator preparation standards for new principals/administrators.

COMMENT: The board received one (1) comment addressing the special education administrator certificate requirement that a master's degree in educational leadership should not be required if an individual holds an educational specialist or doctorate degree in special education.

RESPONSE: The board carefully considered the comment and decided to make no changes to the text of the proposed amendment.

COMMENT: The board received two (2) letters in opposition to any rule changes for administrators based on the numerous, previous rule changes. Two (2) letters in opposition to the proposed amendment changes were based on the belief that Senate Bill 296 does not apply to school administrators. The board also received seven (7) letters asking how proposed changes would apply to individual administrators' situations. And, the board received three (3) comment letters that were based on a reading of the existing rules—not the proposed amendments—stating that earning a specialists' degree in five (5) years was burdensome.

RESPONSE: The board carefully considered the comments and decided to take no action on these comments.

**Title 10—DEPARTMENT OF NATURAL RESOURCES  
Division 140—Division of Energy  
Chapter 2—Energy Set-Aside Fund**

**IN ADDITION**

**Energy Revolving Loan Application Notification**

The Missouri Department of Natural Resources has enjoyed high demand for loans for energy-efficiency projects in K-12 schools, local government buildings and university and college buildings. The demand, at this time however, means the department is unable to accept new applications for Energy Revolving Fund loans until further notice. We have reached maximum capacity with the loan fund at this time. We anticipate we will begin accepting applications for a new round of loan financing in mid-to-late summer 2005.

The department appreciates the interest and use of this loan financing, and we look forward to resuming loan assistance to public schools, public universities and colleges and local governments to achieve greater energy efficiency in the coming months. The Energy Revolving Fund loans finance projects that reduce energy use and utility bills.

The Department of Natural Resources Energy Center staff continues to be available to offer energy-efficiency information, technical assistance and site visits. For more information or to request energy-efficiency information or technical assistance, please contact Bernard Thompson, Department of Natural Resources Energy Center, 1-800-361-4827.
