

**T**his section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order or rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

**T**he agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety-(90-) day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**Title 3—DEPARTMENT OF CONSERVATION  
Division 10—Conservation Commission  
Chapter 7—Wildlife Code: Hunting: Seasons, Methods,  
Limits**

**ORDER OF RULEMAKING**

By the authority vested in the Conservation Commission under sections 40 and 45 of Art. IV, Mo. Const., the commission amends a rule as follows:

3 CSR 10-7.440 is amended.

This rule establishes hunting seasons and limits and is exempted by section 536.021, RSMo, from the requirement for filing as a proposed amendment.

The Department of Conservation amended 3 CSR 10-7.440 by establishing seasons and limits for hunting migratory game birds and waterfowl.

**3 CSR 10-7.440 Migratory Game Birds and Waterfowl: Seasons, Limits**

(3) Seasons and limits are as follows:

(B) Sora and Virginia rails may be taken from one-half (1/2) hour before sunrise to sunset from September 1 through November 9. Limits: twenty-five (25) rails daily in the aggregate; seventy-five (75) in possession;

(E) Blue-winged, green-winged, and cinnamon teal may be taken from sunrise to sunset from September 6 through September 21. Limits: six (6) teal in the aggregate of species daily; eighteen (18) in possession;

SUMMARY OF PUBLIC COMMENTS: Seasons and limits are exempted from the requirement of filing as a proposed amendment under section 536.021, RSMo.

This amendment was filed July 14, 2014, becomes effective **August 1, 2014**.

**Title 11—DEPARTMENT OF PUBLIC SAFETY  
Division 45—Missouri Gaming Commission  
Chapter 4—Licenses**

**ORDER OF RULEMAKING**

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission amends a rule as follows:

**11 CSR 45-4.230 is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 3, 2014 (39 MoReg 652-656). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed amendment on April 9, 2014. No comments were received at the public hearing. Bally Technologies (hereafter "Bally") submitted five (5) written comments.

The following written comments were made by Bally Technologies:  
COMMENT #1: Regarding 11 CSR 45-4.230(4)(A)14., Bally notes that adding Minimum Internal Control Standards (MICS) as a criteria for testing increases lab time and corresponding costs. Additionally, MGC has in specific instances already applied MICS conformance as a technical responsibility, such as in assessing its reel strip test (MICS Chapter E §4.01). Bally believes that any MICS

requirements should be specific to each component of a gaming device and incorporated only when critical to the integrity of the testing. This addition will require another layer of evaluation not previously included for any Missouri product submission. This will increase both the time it takes for the independent testing laboratory (ITL) to complete its evaluation and the cost to the manufacturer to get the product certified. Because there is minimal precedent for MICS testing, it is difficult to estimate these cost increases.

RESPONSE: The ITL test scripts already contain tests for MICS. Therefore, no additional costs should be associated with this portion of the rule. The example given for the reel strip test is included in the current test scripts of both ITLs. The MICS contain functional and operational requirements for products to be used in Missouri casinos, thus they are required to be tested by the ITLs. No changes have been made as a result of this comment.

COMMENT #2: For 11 CSR 45-4.230(4)(Q), Bally noted that many ITLs bill according to products tested, rather than by jurisdiction. This may require a significant change to the ITL billing processes and criteria, which will translate into additional fiscal impact. Additionally, it is unclear whether this requirement intends to include invoices for other jurisdictions. Such a requirement may place the ITL at risk in other jurisdictions and may result in very difficult confidentiality requirements from all involved parties. Bally suggests the following change to this proposed regulation, at a minimum: "The ITL shall, upon request, provide the commission a summary report of all invoices for services rendered in relation to the Missouri jurisdiction to licensees, manufacturers, entities or individuals. The report shall include for each submission the item submitted—"

RESPONSE: The commission cannot agree to limit our statutory ability as a regulator. To add the suggested change would be contrary to 11 CSR 45-4.230(4)(R). No changes have been made as a result of this comment.

COMMENT #3: Regarding 11 CSR 45-4.230(4)(CC), Bally does not believe that a blanket prohibition on allowing the ITLs to consult with manufacturers on new games and game designs is in the best interest of advancing technology. It is a common industry practice, not only in gaming but in other regulated environments, that vendors request testing entities to provide guidance and comment on new product designs with respect to the standards of various jurisdictions, and the gaming industry is no different. This proposed regulation, on its face, appears to prohibit that practice, and Bally recommends that this proposal be removed from the final regulations.

RESPONSE AND EXPLANATION OF CHANGE: Subsection (4)(CC) was revised to clarify that the regulation does not prohibit consultation for regulatory compliance.

COMMENT #4: For 11 CSR 45-4.230(4)(HH), Bally asked the MGC to define "testing deficiency" as that term relates to subsection (4)(HH) and similar regulations in this proposal. Bally questioned whether the MGC's expectation that a testing deficiency should include features that, while not impacting the critical functions or regulatory compliance of the hardware or software, are not operating as described (e.g., a username field that is supposed to accept fourteen (14) characters, but only accepts ten (10) in test)? Or whether it is intended to only address deficiencies related to critical function or regulatory compliance? Bally suggested substituting "regulatory compliance risk" for "testing deficiency."

RESPONSE AND EXPLANATION OF CHANGE: Subsection (4)(HH) was revised to clarify the meaning of "testing deficiency."

COMMENT #5: 11 CSR 45-4.230 private cost is shown at two thousand three hundred forty dollars (\$2,340). Bally suggested that the cost estimate was very low, as it appears that there are no statutory limits to requests that the MGC can make of the ITL at no cost, with such cost to be passed on to licensees and manufacturers.

RESPONSE: This estimated cost was provided by the ITLs and is a

one (1)-time cost required by 11 CSR 45-4.230(4)(J). No changes have been made as a result of this comment.

#### 11 CSR 45-4.230 Supplier's License Criteria

(4) An independent testing laboratory (ITL) applying for or currently holding a supplier license is subject to compliance with all other requirements of this rule in addition to the following criteria:

(CC) Other than to perform evaluation for regulatory compliance, ITLs shall not participate, consult, or otherwise be involved in the design, development, programming, or manufacturing of any game, gaming equipment, cashless wagering system or any component thereof, or online monitoring system or any component thereof or modification thereto;

(HH) The ITL shall report to the commission, within forty-eight (48) hours, any known ITL test script deficiency or failure to properly perform testing against any Missouri standard that has been identified for any hardware or software that is currently certified for the Missouri jurisdiction. The ITL shall perform an investigation and report the findings to the commission within seven (7) days of the ITL being apprised of the deficiency.

### Title 11—DEPARTMENT OF PUBLIC SAFETY Division 45—Missouri Gaming Commission Chapter 5—Conduct of Gaming

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission amends a rule as follows:

11 CSR 45-5.190 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 3, 2014 (39 MoReg 657-658). The section with changes is reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed amendment on April 9, 2014. One (1) comment was received at the public hearing. Bally Technologies (hereafter "Bally") submitted one (1) written comment.

The following comments were made by Bally Technologies:

COMMENT #1: Regarding 11 CSR 45-5.190(1), Bally stated that the number of handle pulls and a stated confidence interval must go hand in hand. Bally noted that in the proposed language "within the first" is changed to "for" since "within the first" could be construed to mean "at any point prior to," which is not the intent. Also "and thereafter" is removed, since the nature of the confidence interval statistic is such that if it meets the standard for ten (10) million handle pulls, it will meet the standard for any number of handle pulls greater than ten (10) million. Accordingly, Bally proposes the following changes to this proposed regulation: "Electronic gaming devices shall not be programmed to pay out less than eighty percent (80%) of all wagers, including bonus games for ten (10) million handle pulls using the volatility index (VI) specified in 11 CSR 45-5.193(1)(A). The minimum payout percentage requirement shall be met regardless of the amount wagered per game."

COMMENT #2: Derek Smith, Senior Technical Manager, Bally Product Compliance, reiterated the comment regarding this proposal during the public hearing and asked that a reference to the ninety-five percent (95%) confidence level be included in the rule.

RESPONSE AND EXPLANATION OF CHANGE: Due to these comments the language in section (1) has been revised.

#### 11 CSR 45-5.190 Minimum Standards for Electronic Gaming Devices

(1) Electronic gaming devices shall not be programmed to pay out less than eighty percent (80%) of all wagers, including bonus games, for ten (10) million handle pulls using the volatility index calculated at a ninety-five percent (95%) confidence level. The minimum payout percentage requirement shall be met regardless of the amount wagered per game.

### Title 11—DEPARTMENT OF PUBLIC SAFETY Division 45—Missouri Gaming Commission Chapter 5—Conduct of Gaming

#### ORDER OF RULEMAKING

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission adopts a rule as follows:

11 CSR 45-5.225 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 3, 2014 (39 MoReg 658-659). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed rule on April 9, 2014. No one commented at the public hearing. Bally Technologies (hereafter "Bally") submitted five (5) written comments.

The following comments were made by Bally Technologies:

COMMENT #1: 11 CSR 45-5.225(3)—Bally believes that the phrase "not actively in service" should be expanded and/or clarified, as the start of the provisions already states that "all existing certifications from independent testing laboratories will be considered valid." Bally asked whether there is a temporal limitation for how long a game will have to have been in Missouri for a game last placed in Missouri before September 30, 2014, to meet this proposed regulation requirement? Bally also asked that the following issues arising from this proposed regulation be addressed and considered:

1. If an already-approved (and grandfathered) game is removed from the floor, does an operator need the commission's review/approval to put that game back onto the floor after September 30, 2014?

2. Does shutting down a machine for relocation on the floor constitute taking the game "out of service"?

RESPONSE AND EXPLANATION OF CHANGE: After discussion, the staff removed a portion of the first sentence and added language to clarify the regulation. Only electronic gaming devices (EGDs) attached to the slot accounting system (SAS) and on the gaming floors in Missouri on September 30, 2014, will be in an approved status. Any products in storage which are subsequently brought to the gaming floor which were previously certified but were not on the casino floor would require MGC approval. The answer to the first question is yes, and the answer to the second question is no.

COMMENT #2: Bally submitted the following example scenarios for clarification of 11 CSR 45-5.225(3). Bally requests clarification of the term "actively in service." Some related questions are—

1. If a licensee has one (1) electronic gaming machine (EGM) on the floor, and four (4) additional of the same EGM in storage, can the licensee add/remove the additional four (4) to/from the floor based on the active status of the one (1) EGM?

2. If Licensee X has one (1) EGM on the floor, and Licensee Y has four (4) of that same EGM in storage, can Licensee Y add/remove

their four (4) EGMs to/from the floor based on the active status of the one (1) EGM at Licensee X? Similarly to question #2, if Licensee X is actively using a version of a SAS, can Licensee Y change/upgrade to that SAS version based on Licensee X's active status?

RESPONSE: The answer to each of these questions is yes. No changes were made as a result of this comment.

COMMENT #3: Bally noted language now in 11 CSR 45-5.225(4)(C) eliminated the "penalty of perjury" and "best of their knowledge" qualifiers (that were included in an earlier draft of the proposed regulation), though it is reasonable to assume that the penalty of perjury risk still remains despite removal of the specific language. As relates to this change, Bally respectfully submits the following requests to the MGC:

1. Please explain the goal of this change.
2. Please consider reinstating the previous text, or at a minimum reinserting "to the best of their knowledge" qualifier standard.

RESPONSE: MGC does not find it necessary to make the statement "under penalty of perjury," but we do believe it is necessary for the licensee to make an affirmative representation that the product meets all regulatory requirements. No change was made as a result of this comment.

COMMENT #4: Bally noted that the required field trial period imposed by 11 CSR 45-5.225(5) is twice that of many other jurisdictions, including Nevada. Bally recommends "thirty (30) calendar days" for the minimum requirement.

RESPONSE AND EXPLANATION OF CHANGE: Staff agreed with this recommendation and made the requested change.

COMMENT #5: With regard to the private cost estimate for 11 CSR 45-5.225, Bally noted that the cost of testing is expensive and that the proposed regulations allow for no charge testing by the independent testing laboratory (ITL) and seek to impose Minimum Internal Control Standards (MICS) testing as well. Bally stated that this cost estimate seems low in light of the complexity and scope being asked of the ITL.

RESPONSE: The private entity cost estimates submitted from fourteen (14) different manufacturers were all related to product submital and approval, not ITL certification. No change was made as a result of this comment.

### **11 CSR 45-5.225 Request for Gaming Devices and Associated Equipment Approval**

(3) Effective September 30, 2014, gaming equipment and slot accounting systems actively in service at Class B licensees' facilities will remain in an approved status. Supplier, Class A, or Class B licensees must notify the commission prior to placing any gaming equipment or slot accounting system into service which has been previously certified by an ITL, but was not actively in service in Missouri on September 30, 2014, to be reviewed for approval by the commission. The commission will issue approval for such request, provided such gaming equipment or slot accounting system does not contain any known malfunctions or anomalies.

(5) The commission may make a preliminary, nonbinding determination whether any new gaming equipment or slot accounting system meets the Missouri rules, regulations, and statutes. At the commission's sole discretion, the commission may require any new gaming equipment or slot accounting system to be tested in a field trial environment(s) at a licensed gaming establishment(s). Each field trial shall be conducted for at least thirty (30) calendar days and no more than one hundred eighty (180) calendar days under terms and conditions that the commission may approve or require. The supplier shall submit a report to the commission every thirty (30) days detailing the performance of the product being tested, exception reports outlining any exception codes triggered, a list of customer complaints and inquiries

regarding the performance, and other items as determined by the commission. A field trial may be terminated at any time, in which case the new gaming equipment or slot accounting system will not be approved as a result of such field trial.
