4 CSR 240-122.030 Seals

PURPOSE: This rule describes the recreational vehicles to which seals or approved insignia must be affixed and the standards and procedures which relate to the issuance of seals and the removal of seals and approved insignia.

Editor's Note: The secretary of state has determined that the publication of this rule in its entirety would be unduly cumbersome or expensive. The entire text of the material referenced has been filed with the secretary of state. This material may be found at the Office of the Secretary of State or at the headquarters of the agency and is available to any interested person at a cost established by state law.

(1) No recreational vehicle which entered the first stage of production after January 1, 1974 shall be rented, leased or sold or offered for rent, lease or sale in this state unless a seal or approved insignia is properly affixed to it.

(2) An application for a seal shall be submitted to the director and it shall be executed on a form which shall be provided by him/her upon delivery to him/her of a nonrefundable two dollar (\$2) fee. One (1) form may be used to apply for all seals required at a given time.

(3) To be complete, an application for seals to be affixed to recreational vehicles manufactured or to be manufactured under an approved

manufacturing program shall be executed by the manufacturer, or the manufacturer's authorized representative if the manufacturer is a corporation, of the recreational vehicles to which the requested seals will be affixed and shall include:

(A) An affidavit of the applicant or the applicant's authorized representative if the applicant is a corporation, certifying that each requested seal will be affixed only to recreational vehicles manufactured under an approved manufacturing program and that each recreational vehicle to which a requested seal will be affixed will comply with the code at the time it is rented, leased, sold or offered for rent, lease or sale by the applicant; and

(B) A fee of twenty dollars (\$20) for each seal requested. The fee is nonrefundable.

(4) To be complete, an application for a seal to be affixed to a recreational vehicle not manufactured under an approved manufacturing program shall be executed by the person who owns the recreational vehicle to which the requested seal will be affixed and shall include:

(A) The name and address of the manufacturer of each recreational vehicle for which a seal is requested;

(B) The make, style and manufacturer's identifying number of each recreational vehicle for which a seal is requested;

(C) The date on which each recreational vehicle for which a seal is requested entered the first stage of production;

(D) With respect to each recreational vehicle for which a seal is requested, a list of all parts and components for which the code includes a criterion which have been added, removed, replaced or altered since the completion of production and which has not been approved in writing by the director;

These copies shall be retained by the commission so that as long as the original documents remain

unchanged an applicant who has once submitted the copies shall not be required to resubmit them with subsequent applications;

(I) An affidavit of the applicant or the applicant's authorized representative if the applicant is a corporation, certifying that each recreational vehicle for which a seal has been requested complies with the code which was in effect when it entered the first stage of production and that no parts or components for which the code includes a criterion will be added, removed, replaced or altered after the application has been submitted; and

(J) A fee of twenty dollars (\$20) for each seal requested. This fee is nonrefundable.

(5) Within eight (8) working days after a complete application has been received by the director, the director shall inspect for code compliance each recreational vehicle for which a seal has been requested, unless it has been or will be manufactured under an approved manufacturing program. If through no fault of the applicant, the inspection is not conducted within the prescribed time, the requested seal shall be issued within the required time if no basis for rejection is found on the face of the application.

(6) The director is authorized to refuse to issue a seal under the following circumstances:

(A) If the recreational vehicle to which the seal is to be affixed does not comply with the code which was in effect when it entered the first stage of production;

(B) If the director has not approved the applicant's manufacturing program or if the director's approval of the applicant's manufacturing program has lapsed, expired or been withdrawn;

A seal shall be located so that persons standing behind the vehicle shall have an unobstructed view of it. The director may approve another seal display location if in his/her opinion this alternate location would be more visible and practical.

(10) Within thirty (30) days of the discovery that a seal issued to him/her has become lost, mutilated or otherwise unserviceable, a dealer or manufacturer shall provide written notice of such to the director.

(11) Any person to whom a seal has been issued or who owns a recreational vehicle to which a seal or approved insignia has been affixed may apply for the replacement of the seal or approved insignia if it becomes lost, mutilated or otherwise unserviceable. Applications for replacement seals shall be made on the same forms and in the same manner as applications for seals are made under this rule. A fee of ten dollars (\$10) shall be charged for a replacement seal.

(12) Seals and approved insignia may be removed by the director from any recreational vehicle which is found to be in violation of the code which was in effect when it entered the first stage of production. Seals issued to a person who manufactures recreational vehicles under an approved manufacturing program must be returned to the director immediately if the approval is withdrawn by the director.

(13) If the director removes a seal or approved insignia from a recreational vehicle, s/he shall provide written notice of this action to the owner of the vehicle. The notice shall be mailed within five (5) working days of the removal and shall be sent by prepaid certified mail, requesting a return receipt signed by addressee only, to the last known address of the owner. The notice shall state the reason for the removal.

CSR 240-122.030(9) for the seal. A prohibited sale notice shall state that the rental, lease or sale or the offering for rent, lease or sale of the recreational vehicle to which the notice is attached is prohibited under section 700.015, RSMo. The prohibited sale notice shall also state that further information may be obtained from the director, whose name, address and telephone number shall be listed. A copy of the prohibited sale notice shall be filed with the commission.
