4 CSR 140-3.030 Licensing

PURPOSE: Retail credit financing institutions are subject to examination by the Division of Finance for the purpose of determining whether such companies are complying with the provisions of Chapter 364, RSMo, sections 408.250 through 408.370, RSMo and other laws relating to retail credit financing. In addition, such companies are subject to regulation by the Division of Finance with respect to their financing activities and the sale of insurance in connection with these financial activities. The purpose of this rule is to establish guidelines for required licensing.

(1) Any location at which a financing institution permits any person to accept or execute any forms of documents relating to retail credit sales financing other than the place of business recited in the financing institution's registration certificate shall be deemed to be a place of business of the financing institution and shall require a separate certificate of registration; provided, however, that no merchant dealing with retail time sales contracts issued to finance such merchant's own sales from inventory shall be considered to be doing business in behalf of the financial institution.

4 CSR 140-3.040 Extension Fees

PURPOSE: Extension fees are believed by the director of finance to be a fair and equitable approach to certain problems which can occur during the term of precomputed retail credit sales contracts. This rule is designed to

provide a simple extension fee formula which is equitable for both the financial institutions and the debtor.

(1) Extensions on precomputed contracts made pursuant to the Retail Credit Sales Act shall be calculated according to the following formula:

$$\text{UNIT CHARGE (UC)} = \frac{\text{Total Finance Charge}}{\text{Sum of the Digits in the Original term that is } 1 + 2 + 3, \text{ etc.}}$$

Extension fee = UC times NUMBER OF FULL REMAINING INSTALLMENTS. Example: Consider a twenty-four (24)-month contract of \$1,925.25 with finance charges of \$474.75, monthly payments of \$100 and APR of 22.13%.

$$\text{UC} = \frac{474.75}{300} = 1.5825$$

If an extension is taken with twenty-two (22) installments remaining, the extension fee would be 22 times 1.5825 or \$34.81. Considerations within the act necessitate the following limitations on extensions:

- (A) No extension fee shall be collected more than one (1) month prior to the due date of the earliest installment being deferred;
- (B) No extension shall be collected for any partial payment, however, two dollars (\$2) or less shall not be considered a partial payment;
- (C) A minimum extension fee of one dollar (\$1) will be allowed;
- (D) Any principal payment collected on the same day as an extension shall be applied before calculating the extension fee; and
- (E) In the event of prepayment in full of the note or contract, the extensions shall be counted as months and the rule of seventy eight's (78's) factor, based on this total, applied to all of the finance charges contracted for plus the extension fees collected.
