The Missouri Department of Revenue was created by the 1945 Missouri Constitution to serve as the central collection agency for all state revenues. The primary duties of the department are to collect taxes, title and register motor vehicles, and license drivers.

In recent years, the department has focused its efforts on running government more like a business, managing for results by becoming more customer-oriented, and simplifying processes for its customers. Listening to the customer and responding to their needs, involving employees in the transformation and reorganization of the department, and focusing on results have been the keys to the department's improvement efforts.

On November 6, 1984, Missouri voters authorized the General Assembly, by Article III, Section 39(b) of the Missouri Constitution, to pass legislation establishing a Missouri state lottery.

The governor, with the advice and consent of the Senate, appoints the five-member commission. No more than three members may be of the same political party. Commissioners receive no salary and serve three-year terms.

The commission supervises the lottery by issuing rules and appointing a director. The director runs the day-to-day business of the lot-

tery, including hiring employees, issuing licenses and negotiating contracts with vendors.

The attorney general provides legal services for the lottery; the state auditor reviews operations by conducting audits. The legislation also details the operation of the lottery, including distribution of lottery monies, conflicts of interest, who may play the lottery, criminal penalties and taxation of lottery winnings.
