11. BIRTHPLACE OF FATHER (CITY OR TOWN): Fairfield
(STATE OR COUNTRY): Illinois

12. MAIDEN NAME OF MOTHER: Letha Hall

13. BIRTHPLACE OF MOTHER (CITY OR TOWN): Fairfield
(STATE OR COUNTRY): Illinois

14. INFORMANT: Wm. Pennington
(Address): Chaffee Mo

15. Filed 8-10, 1930 G. A. Sample Registrar

MEDICAL CERTIFICATE OF DEATH

16. DATE OF DEATH (MONTH, DAY AND YEAR): Aug. 10 1930

17. I HEREBY CERTIFY, That I attended deceased from 8-10, 1930, to 8-10, 1930 that I last saw he alive on 8-10, 1930 and that death occurred, on the date stated above, at 6:30 a. m.

THE CAUSE OF DEATH* WAS AS FOLLOWS:
Cerebral Apoplexy
~~Hypertension~~
(duration) yrs. 2 1/2 hrs

CONTRIBUTORY (SECONDARY): Hypertension
(duration) yrs. mos. ds.

18. WHERE WAS DISEASE CONTRACTED
IF NOT AT PLACE OF DEATH?
DID AN OPERATION PRECEDE DEATH? No. DATE OF
WAS THERE AN AUTOPSY? No
WHAT TEST CONFIRMED DIAGNOSIS? Clinical
(Signed) G. A. Sample M. D
8-16, 1930 (Address) Chaffee Mo

*State the DISEASE CAUSING DEATH, or in deaths from VIOLENT CAUSES, state (1) MEANS AND NATURE OF INJURY, and (2) whether ACCIDENTAL, SUICIDAL, or HOMICIDAL. (See reverse side for additional space.)

19. PLACE OF BURIAL, CREMATION, OR REMOVAL: Union Park Cemetery | DATE OF BURIAL: Aug 11 1930

20. UNDERTAKER: F. S. Stubblefield | ADDRESS: Chaffee Mo

N. B.—Every item of information should be carefully supplied. AGE should be stated EXACTLY. PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important.

vised United States Standard Certificate of Death

(oved by U. S. Census and American Public Health Association.)

Statement of Occupation.—Precise statement of pation is very important, so that the relative thfulness of various pursuits can be known. The tion applies to each and every person, irrespec- of age. For many occupations a single word or on the first line will be sufficient, e. g., *Farmer or ter, Physician, Compositor, Architect, Locomo- Engineer, Civil Engineer, Stationary Fireman*, etc. in many cases, especially in industrial employ- ts, it is necessary to know (*a*) the kind of work also (*b*) the nature of the business or industry, therefore an additional line is provided for the er statement; it should be used only when needed. xamples: (*a*) *Spinner*, (*b*) *Cotton mill;* (*a*) *Sales-*, (*b*) *Grocery;* (*a*) *Foreman*, (*b*) *Automobile fac-*. The material worked on may form part of the nd statement. Never return "Laborer," "Fore- n," "Manager," "Dealer," etc., without more ise specification, as *Day laborer, Farm laborer, orer—Coal mine*, etc. Women at home, who are ged in the duties of the household only (not paid *sekeepers* who receive a definite salary), may be red as *Housewife, Housework* or *At home*, and dren, not gainfully employed, as *At school* or *At e*. Care should be taken to report specifically occupations of persons engaged in domestic ice for wages, as *Servant, Cook, Housemaid*, etc. he occupation has been changed or given up on unt of the DISEASE CAUSING DEATH, state occu- on at beginning of illness. If retired from busi-, that fact may be indicated thus: *Farmer (re- 6 yrs.)* For persons who have no occupation tever, write *None*.

Statement of Cause of Death.—Name, first, DISEASE CAUSING DEATH (the primary affection respect to time and causation), using always the e accepted term for the same disease. Examples: *brospinal fever* (the only definite synonym is idemic cerebrospinal meningitis"); *Diphtheria* id use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia; Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum*, etc., *Carcinoma, Sarcoma*, etc., of..... (name origin; "Cancer" is less definite; avoid use of "Tumor" for malignant neoplasma); *Measles, Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), 29 *ds.; Bronchopneumonia* (secondary), 10 *ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uremia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "PUERPERAL *septicemia*," "PUERPERAL *peritonitis*," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.* The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*), may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)

NOTE.—Individual offices may add to above list of undesirable terms and refuse to accept certificates containing them. Thus the form in use in New York City states: "Certificates will be returned for additional information which give any of the following diseases, without explanation, as the sole cause of death: Abortion, cellulitis, childbirth, convulsions, hemorrhage, gangrene, gastritis, erysipelas, meningitis, miscarriage, necrosis, peritonitis, phlebitis, pyemia, septicemia, tetanus." But general adoption of the minimum list suggested will work vast improvement, and its scope can be extended at a later date.

ADDITIONAL SPACE FOR FURTHER STATEMENTS BY PHYSICIAN.
