

MISSOURI STATE BOARD OF HEALTH
BUREAU OF VITAL STATISTICS
CERTIFICATE OF DEATH

1 PLACE OF DEATH

County *Gasconade*
Township *Bourbons*
or
Village
or
City

Registration District No. *308* File No. *88167*
Primary Registration District No. *8423* Registered No. *6*
St. Ward

(If death occurred in a hospital or institution, give its NAME instead of street and number.)

2 FULL NAME *Henrietta Drueh*

PERSONAL AND STATISTICAL PARTICULARS

3 SEX *Female* 4 COLOR OR RACE *white* 5 SINGLE *widowed*
MARRIED
WIDOWED
OR DIVORCED
(If write the word)

6 DATE OF BIRTH *June 10 1840*
(Month) (Day) (Year)

7 AGE *74 yrs. 8 mos. 17 ds.* If LESS than 1 day, hrs. or min.?

8 OCCUPATION
(a) Trade, profession, or particular kind of work *Principally out door work of farm*
(b) General nature of industry business, or establishment in which employed (or employer)

9 BIRTHPLACE
(City or town, State or foreign country) *Germany*

PARENTS
10 NAME OF FATHER *Paul Drueh*
11 BIRTHPLACE OF FATHER
(City or town, State or foreign country) *Germany*
12 MAIDEN NAME OF MOTHER *unknown*
13 BIRTHPLACE OF MOTHER
(City or town, State or foreign country) *Unknown*

14 THE ABOVE IS TRUE TO THE BEST OF MY KNOWLEDGE
(Informant) *Chas Schell*
(Address) *Red Bird Mo*

15
Filed *Mar 27 1915* *M. E. Spurgeon* Registrar

MEDICAL CERTIFICATE OF DEATH

16 DATE OF DEATH *March 27 1915*
(Month) (Day) (Year)

17 I HEREBY CERTIFY, that I attended deceased from *Mar 27 1915* to *Mar 27 1915*
that I last saw *her* alive on *Mar 27 1915*
and the death occurred, on the date stated above, at *2:30 a.m.*
The CAUSE OF DEATH* *were as follows:*

Angina Pectoris,
94A
(Duration) *80* yrs. mos. ds. *30 min*

CONTRIBUTORY
(Secondary)
(Duration) *8* yrs. mos. ds. *30 min*

Revised United States Standard Certificate of Death

[Approved by U. S. Census and American Public Health
Association]

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer or Planter, Physician, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Cotton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer, Farm laborer, Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife, Housework*, or *At home*, and children, not gainfully employed, as *At school* or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant, Cook, Housemaid*, etc. If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer (retired, 6 yrs.)* For persons who have no occupation whatever, write *None*.

Statement of cause of death.—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia*; *Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum*, etc., *Carcinoma, Sarcoma*, etc., of (name origin; "Cancer" is less definite; avoid

use of "Tumor" for malignant neoplasms); *Measles*; *Whooping cough*; *Chronic valvular heart disease*; *Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), 29 ds.; *Bronchopneumonia* (secondary), 10 ds. Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Haemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "PUERPERAL *septicaemia*," "PUERPERAL *peritonitis*," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, OR HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning*; *Struck by railway train—accident*; *Revolver wound of head—homicide*; *Poisoned by carbolic acid—probably suicide*. The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*) may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)

*She awoke family up about 2 o'clock
complaining with severe pain
in breast & around heart. They
called me but I did not arrive
until after she had been dead
about 20 min. She had walked
about 4 mi. in the afternoon
leading to her death at a
nearly supper and retired
to bed about 10 P. M. feeling well,
M.E.S.*
