

Every item of information should be carefully supplied. AGE should be stated EXACTLY. PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important.

MISSOURI STATE BOARD OF HEALTH
BUREAU OF VITAL STATISTICS
CERTIFICATE OF DEATH

1 PLACE OF DEATH

County Basler
 Township Roestan
 or
 Village _____
 or
 City _____ (NO. _____ St. _____ Ward _____)

Registration District No. 410
 Primary Registration District No. 3366

File No. 10880
 Registered No. 13

[If death occurred in a hospital or institution, give its NAME instead of street and number.]

2 FULL NAME Lucia May Ellis

PERSONAL AND STATISTICAL PARTICULARS

2 MEDICAL CERTIFICATE OF DEATH

3 SEX Female **4 COLOR OR RACE** White **5 SINGLE MARRIED WIDOWED OR DIVORCED** Married
(Write the word)

16 DATE OF DEATH Mon 24 1917
(Month) (Day) (Year)

6 DATE OF BIRTH May 24 1881
(Month) (Day) (Year)

17 I HEREBY CERTIFY, that I attended deceased from _____, 191, to _____, 191, that I last saw her alive on Mon 23 1917 and that death occurred, on the date stated above, at 6:30 a.m.

7 AGE 35 yrs 9 mos. 26 ds. **If LESS than 1 day..... hrs. or..... min.?**

The CAUSE OF DEATH* was as follows:
Dropped Dead More than likely Heart failure Cause unknown No Physicians
She was out at her morning work
CONTRIBUTORY 189
(Secondary)
(Duration) yrs. mos. ds.

8 OCCUPATION
 (a) Trade, profession, or particular kind of work Housewife
 (b) General nature of industry business, or establishment in which employed (or employer) 199

9 BIRTHPLACE
 (City or town, State or foreign country) Missouri

PARENTS

 Filed Mar 27 1917 DW Teeter
 Registrar

19 PLACE OF BURIAL OR REMOVAL Cedar Bluff Cem **DATE OF BURIAL** Mon 25 1917

20 UNDERTAKER Leuber Cone **ADDRESS** Alba Mo R 2 Carthage

Revised United States Standard Certificate of Death

[Approved by U. S. Census and American Public Health
Association]

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer or Planter, Physician, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Colton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer, Farm laborer, Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife, Housework*, or *At home*, and children, not gainfully employed, as *At school* or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant, Cook, Housemaid*, etc. If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer (retired, 6 yrs.)* For persons who have no occupation whatever, write *None*.

Statement of cause of death.—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia*; *Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs, meninges, peritoneum*, etc., *Carcinoma, Sarcoma*, etc., of (name origin; "Cancer" is less definite; avoid

use of "Tumor" for malignant neoplasms); *Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), *29 ds.*; *Bronchopneumonia* (secondary), *10 ds.* Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility" ("Congenital," "Senile," etc.), "Dropsy," "Exhaustion," "Heart failure," "Haemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "*PUERPERAL septicaemia*," "*PUERPERAL peritonitis*," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, OR HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning; Struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide*. The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis, tetanus*) may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)
