

CAUSE OF DEATH in plain terms, so that it may be properly classified. **Exact statement of OCCUPATION** is very important. Every item of information should be carefully supplied. **AGE** should be stated **EXACTLY**. **INTERESTING SHORT STATEMENTS** should be included.

County Ozark Registration District No. 650 File No. 22855
 Township Richland or
 Village _____ Primary Registration District No. 5861 Registered No. 650
 City _____ (NO. _____ St. _____ Ward _____) (If death occurred in _____)

2 FULL NAME Nancy E. Hairres

MEDICAL CERTIFICATE OF DEATH

16 DATE OF DEATH June 16 (Month) (Day) 1917 (Year)

17 I HEREBY CERTIFY, that I attended deceased from
May 4, 1917, to June 16, 1917,
that I last saw her alive on June 15, 1917,
and that death occurred, on the date stated above, at 6 a. m.

The CAUSE OF DEATH* was as follows:
Disseminated Sclerosis
of the Spinal cord and
Brain
6 1/2 yrs. (Duration) 6 1/2 yrs. mos. da.

CONTRIBUTORY *Due to dissemination*
(Secondary)
(Duration) yrs. mos. ds.
(Signed) *Dr. J. C. Gorder* M. D.
June 16 1917 (Address) *Overmo*

*State the Disease Causing Death, or, in deaths from Violent Causes, state (1) Means of Injury; and (2) whether Accidental, Suicidal or Homicidal

18 LENGTH OF RESIDENCE (For Hospitals, Institutions, Transients or Recent Residents)

At place of death.....yrs.....mos.....ds. In the State.....yrs.....mos.....ds.
Where was disease contracted if not at place of death?.....*at Place of death*
Former or usual residence.....

19 PLACE OF BURIAL OR REMOVAL	DATE OF BURIAL
Sumner Cem	June 17, 1917
20 UNDERTAKER	ADDRESS
Mt. Lebanon Bur. Co.	

Revised United States Standard Certificate of Death

[Approved by U. S. Census and American Public Health Association]

Statement of occupation.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., *Farmer* or *Planter*, *Physician*, *Compositor*, *Architect*, *Locomotive engineer*, *Civil engineer*, *Stationary fireman*, etc. But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: (a) *Spinner*, (b) *Cotton mill*; (a) *Salesman*, (b) *Grocery*; (a) *Foreman*, (b) *Automobile factory*. The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer," etc., without more precise specification, as *Day laborer*, *Farm laborer*, *Laborer—Coal mine*, etc. Women at home, who are engaged in the duties of the household only (not paid *Housekeepers* who receive a definite salary), may be entered as *Housewife*, *Housework*, or *At home*, and children, not gainfully employed, as *At school* or *At home*. Care should be taken to report specifically the occupations of persons engaged in domestic service for wages, as *Servant*, *Cook*, *Housemaid*, etc. If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business, that fact may be indicated thus: *Farmer (retired, 6 yrs.)* For persons who have no occupation whatever, write *None*.

Statement of cause of death.—Name, first, the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: *Cerebrospinal fever* (the only definite synonym is "Epidemic cerebrospinal meningitis"); *Diphtheria* (avoid use of "Croup"); *Typhoid fever* (never report "Typhoid pneumonia"); *Lobar pneumonia*; *Bronchopneumonia* ("Pneumonia," unqualified, is indefinite); *Tuberculosis of lungs*, *meninges*, *peritoneum*, etc., *Carcinoma*, *Sarcoma*, etc., of (name origin; "Cancer" is less definite; avoid

use of "Tumor" for malignant neoplasms); *Measles*; *Whooping cough*; *Chronic valvular heart disease*; *Chronic interstitial nephritis*, etc. The contributory (secondary or intercurrent) affection need not be stated unless important. Example: *Measles* (disease causing death), 29 ds.; *Bronchopneumonia* (secondary), 10 ds. Never report mere symptoms or terminal conditions, such as "*Asthenia*," "*Anaemia*" (merely symptomatic), "*Atrophy*," "*Collapse*," "*Coma*," "*Convulsions*," "*Debility*" ("*Congenital*," "*Senile*," etc.), "*Dropsy*," "*Exhaustion*," "*Heart failure*," "*Haemorrhage*," "*Inanition*," "*Marasmus*," "*Old age*," "*Shock*," "*Uraemia*," "*Weakness*," etc., when a definite disease can be ascertained as the cause. Always qualify all diseases resulting from childbirth or miscarriage, as "*PUERPERAL septicaemia*," "*PUERPERAL peritonitis*," etc. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, OR HOMICIDAL, or as *probably* such, if impossible to determine definitely. Examples: *Accidental drowning*; *Struck by railway train—accident*; *Revolver wound of head—homicide*; *Poisoned by carbolic acid—probably suicide*. The nature of the injury, as fracture of skull, and consequences (e. g., *sepsis*, *tetanus*) may be stated under the head of "Contributory." (Recommendations on statement of cause of death approved by Committee on Nomenclature of the American Medical Association.)
