JAN 3 1934

222

The first part of the report deals with the general situation of the country and the progress of the work. It is followed by a detailed account of the work done during the year, and a summary of the results. The report concludes with a list of references and a list of names.

The work done during the year has been very extensive and has covered a wide range of subjects. The results of the work are very interesting and show that the country is making rapid progress in many fields.

The following is a list of the main results of the work done during the year:

- 1. The discovery of a new species of plant.
- 2. The discovery of a new species of animal.
- 3. The discovery of a new species of insect.
- 4. The discovery of a new species of fish.
- 5. The discovery of a new species of bird.
- 6. The discovery of a new species of mammal.
- 7. The discovery of a new species of reptile.
- 8. The discovery of a new species of amphibian.
- 9. The discovery of a new species of mollusk.
- 10. The discovery of a new species of crustacean.

The work done during the year has also resulted in the publication of several papers and books. These are listed in the references section of the report.

The names of the people who have worked on the project are listed in the list of names section of the report.
