

MAR 24 1936

MISSOURI STATE BOARD OF HEALTH
BUREAU OF VITAL STATISTICS
CERTIFICATE OF DEATH

Do not use this space.

7325

1. PLACE OF DEATH

County Ray County
Township Richmond
City Richmond (No. _____)

Registration District No. 744
Primary Registration District No. 3035

File No. _____
Registered No. 29
St. _____ Ward _____

2. FULL NAME

Howard E. Jackson

(a) Residence, No. _____ St. _____ Ward _____
(Usual place of abode)

(If nonresident, give city or town and State)

Length of residence in city or town where death occurred yrs. mos. ds. How long in U. S., if of foreign birth? yrs. mos. ds.

PERSONAL AND STATISTICAL PARTICULARS

3. SEX Male 4. COLOR OR RACE white 5. SINGLE, MARRIED, WIDOWED, OR DIVORCED (write the word) widowed

5A. IF MARRIED, WIDOWED, OR DIVORCED
HUSBAND OF Lulu Jackson
(OR) WIFE OF _____

6. DATE OF BIRTH (MONTH, DAY, AND YEAR) Mar 19, 1858

7. AGE YEARS MONTHS DAYS If LESS than 1 day, _____ hrs. or _____ min.
77 11 9

8. Trade, profession, or particular kind of work done, as spinner, sawyer, bookkeeper, etc. Retired

9. Industry or business in which work was done, as silk mill, saw mill, bank, etc.

10. Date deceased last worked at this occupation (month and year) _____ 11. Total time (years) spent in this occupation _____

12. BIRTHPLACE (CITY OR TOWN, STATE OR COUNTRY) Ray Co. Missouri13. NAME Jacob Jackson14. BIRTHPLACE (CITY OR TOWN, STATE OR COUNTRY) Tenn.15. MAIDEN NAME Martha J Fard16. BIRTHPLACE (CITY OR TOWN, STATE OR COUNTRY) Tenn.17. INFORMANT Rayburn Jackson
(ADDRESS) Richmond MO.18. BURIAL, CREMATION, OR REMOVAL
PLACE Sunny Slope DATE March 1, 193619. UNDERTAKER C. M. Joiner
(ADDRESS) Richmond, Mo.20. FILED 3-10, 1936 E. E. Gay
Registrar.

MEDICAL CERTIFICATE OF DEATH

21. DATE OF DEATH (MONTH, DAY, AND YEAR) Feb 28, 193622. I HEREBY CERTIFY, That I attended deceased from Mar 7, 1935 to Feb 28, 1936I last saw him alive on Feb 28, 1936. Death is said to have occurred on the date stated above, at 6 A. M.

The principal cause of death and related causes of importance were as follows:

Arteriosclerosis

Date of onset

Other contributory causes of importance:

Name of operation _____ Date of _____
What test confirmed diagnosis? _____ Was there an autopsy? _____23. If death was due to external causes (violence), fill in also the following:
Accident, suicide, or homicide? _____ Date of injury _____, 19____Where did injury occur? _____
(Specify city or town, county, and State)
Specify whether injury occurred in industry, in home, or in public place.Manner of injury _____
Nature of injury _____24. Was disease or injury in any way related to occupation of deceased? no
If so, specify _____(Signed) J. D. Green, M. D.(Address) Richmond Mo

N. B.—Every item of information should be carefully supplied. AGE should be stated EXACTLY. PHYSICIANS should state CAUSE OF DEATH in plain terms, so that it may be properly classified. Exact statement of OCCUPATION is very important.

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF CHEMISTRY

1. The first part of the report deals with the synthesis of the compound in question. The starting materials were carefully purified and the reaction conditions were optimized to give the highest yield possible. The product was purified by column chromatography and its identity was confirmed by mass spectrometry and infrared spectroscopy.

2. The second part of the report describes the physical and chemical properties of the compound. The melting point was found to be 120°C and the boiling point was 250°C. The compound is soluble in most organic solvents and is stable to air and light. It is a colorless solid with a strong odor.

3. The third part of the report discusses the synthesis of the compound from alternative starting materials. It was found that the use of a different starting material would lead to a higher yield of the product. This suggests that the reaction mechanism is more complex than initially thought and further investigation is warranted.

4. The fourth part of the report describes the synthesis of the compound from a different starting material. It was found that the use of a different starting material would lead to a higher yield of the product. This suggests that the reaction mechanism is more complex than initially thought and further investigation is warranted.

5. The fifth part of the report describes the synthesis of the compound from a different starting material. It was found that the use of a different starting material would lead to a higher yield of the product. This suggests that the reaction mechanism is more complex than initially thought and further investigation is warranted.
