**Chapter 3 – Rules Applying to Political Subdivisions**

**15 CSR 40-3.010 Bond Registration**

*PURPOSE: This rule provides that in order to adequately review bond transcripts for compliance with various statutory requirements, two days are needed.*

(1) A complete signed and sealed copy of all bonds to be certified by the Missouri state auditor must be submitted with the transcript of proceedings authorizing the issuance of the bonds at least five (5) working days before the certification date. This will provide the auditor sufficient time to review the legal compliance of the bond transaction.

(2) When the state auditor determines that good cause exists to waive the five (5)-working-day requirement, the bonds will be certified immediately after compliance with the laws has been found to exist.

Purpose of Levy

**The final version of this form MUST be sent to the county clerk.**

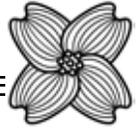

**Debt Service Calculation for General Obligation Bonds Paid for with Property Taxes**

The tax rate for debt service will be considered valid if, after making the payment(s) for which the tax was levied, the bonds remain outstanding, and the debt fund reserves do not exceed the following year's payments.

Since the property taxes are levied and collected on a calendar year basis (January - December), it is recommended that this levy be computed using calendar year data.

1. **Total current year assessed valuation** obtained from the county clerk or county assessor (Form A, Line 1 total) \_\_\_\_\_
2. **Amount required to pay debt service requirements during the next calendar year** (i.e. Assuming the current year is year 1, use January - December year 2 payments to complete the year 1 Form C) Include the principal and interest payments due on outstanding general obligation bond issues plus anticipated fees of any transfer agent or paying agent due during the next calendar year. \_\_\_\_\_
3. **Estimated costs of collection and anticipated delinquencies (i.e. collector fees & commissions & assessment fund withholdings)**  
Experience in prior years is the best guide for estimating uncollectible taxes.  
It is usually 2% to 10% of Line 2 above. \_\_\_\_\_
4. **Reasonable reserve up to one year's payment** (i.e. Assuming the current year is year 1, use January - December year 3 payments to complete the year 1 Form C) It is important that the debt service fund have sufficient reserves to prevent any default on the bonds.  
Include payments for the year following the next calendar year, accounted for on Line 2. \_\_\_\_\_
5. **Total required for debt service (Line 2 + Line 3 + Line 4)** \_\_\_\_\_
6. **Anticipated balance at end of current calendar year**  
Show the anticipated bank or fund balance at December 31st of this year (this will equal the current balance minus the amount of any principal or interest due before December 31st plus any estimated investment earning due before December 31st). Do not add the anticipated collections of this tax into this amount. \_\_\_\_\_
7. **Property tax revenue required for debt service (Line 5 - Line 6)**  
Line 6 is subtracted from Line 5 because, the debt service fund is only allowed to have the payments required for the next calendar year (Line 2) and the reasonable reserve of the following year's payment (Line 4). Any current balance in the fund is already available to meet these requirements so it is deducted from the total revenues required for debt service purposes. \_\_\_\_\_
8. **Estimated revenue from state assessed property for debt service for the next calendar year (January - December)** - must be estimated by the school district. In most instances a good estimate would be the same amount as the state assessed revenues actually placed in the debt service fund in the prior year. \_\_\_\_\_
9. **Revenue required from locally assessed property for debt service (Line 7 - Line 8)** \_\_\_\_\_
10. **Computation of debt service tax rate (Line 9 / Line 1 x 100)**  
Round a fraction to the nearest one/one hundredth of a cent. \_\_\_\_\_

If assessments are reduced after tax rates are set and the reductions are due to decisions of the State Tax Commission or a judicial court or are due to clerical corrections, the existing tax rate ceiling may be revised to compensate for the changes described above. A political subdivision may document these changes by filing revised copies of each of the tax rate forms for each year that is affected. These changes should be clearly marked on the revised forms and a written explanation of the revised should be attached.

Before completion of this form, revisions are required to the prior year(s) tax rate forms to determine the revised assessed valuation and revised tax rate ceiling. Revised forms must be filed with the State Auditor before or at the time the recoupment form is filed.

After making revisions, a political subdivision may be permitted to levy an additional tax for up to three years to recoup the revenues it was entitled to receive for the prior year(s) affected by the revisions. The steps below determine if a recoupment is permissible and document to what extent the political subdivision desires to recoup in the current year.

Start with the oldest prior year (if applicable) and work forward to the present.

Please provide a written explanation in the space below (or by attaching an explanation) as to why the political subdivision would be eligible for the recoupment process.

Assessment reductions ordered after tax rates are set may result in a loss of revenue. In certain instances, a separate recoupment rate may be levied in a subsequent year to replace the revenue lost (see Form G). A political subdivision may choose not to fully recoup the revenue lost in one year. A three-year period following the year in which the loss occurred is allowed by statute for recouping the lost revenues. Form H is used to document the revenue remaining to be recouped and the allowable recoupment rate when there is a carry over.
