PURPOSE: This rule outlines the process of renewing a license to practice as a respiratory care practitioner.

(1) All licenses shall be renewed biennially. Failure of a licensee to renew the license shall cause the license to lapse. Failure to receive notice shall not relieve the licensee of the obligation to renew the license to practice as a respiratory care practitioner and pay the required fee prior to the expiration date of the license. Deposit of the renewal fee by the division or board does not indicate acceptance of the renewal application or that any licensing requirements have been fulfilled. Renewals shall be postmarked no later than the expiration date of the license or if the expiration date is a Sunday or federal holiday the next day to avoid the late penalty fee as defined in rules promulgated by the board.

(2) Each respiratory care practitioner shall provide the board with a completed renewal form issued by the board that shall contain updated information since the preceding application/renewal period and verification of completion of the required continuing education hours pursuant to rules promulgated by the board.

(3) Applicants that are approved for renewal will receive one (1) license. Duplicate licenses may be provided upon payment of the appropriate fee pursuant to rules promulgated by the board.

20 CSR 2255-2.050 Inactive Status

PURPOSE: This rule outlines the process of requesting inactive status to maintain a license for a respiratory care practitioner.

(1) An inactive license shall be renewed biennially. Failure to receive renewal notice shall not relieve the licensee of the obligation to renew the inactive license and pay the required fee prior to the expiration date of the inactive license. Renewals shall be post-marked no later than the expiration date of the license to avoid the late renewal penalty fee as defined in rules promulgated by the board.

(2) Each inactive licensee shall provide the board, at the time of application for renewal of the inactive license, with a completed renewal form issued by the board that shall contain updated information since the preceding application/renewal period.

(3) The licensee shall not practice as a respiratory care practitioner in the state of Missouri while the license is inactive.

(4) If an inactive licensee wishes to return a license to active status the licensee shall complete a renewal form and pay the renewal fee as stated in the rules promulgated by the board. In addition, the licensee shall provide evidence of completion of at least twenty-four (24) hours of approved continuing education within the preceding two (2) years.

(5) In addition to the requirements set forth in section (4) above, a licensee whose license is inactive for four (4) years or more shall be required to successfully complete an entry level examination approved by the board prior to reactivation.

(6) The requirements of section (5) may be waived by the board if a licensee whose license has been inactive for four (4) or more years provides evidence to the board that s/he has been actively engaged in the practice of respiratory care in another state for at least two (2) consecutive years immediately prior to making application to renew in Missouri.

“Actively engaged” shall mean that the applicant worked a minimum of twenty (20) hours per week in a clinical setting. If the board grants a waiver under this section, the applicant shall comply with the requirements of section (4).

(7) Applicants that are approved for inactive status renewal will receive one (1) license. Duplicate licenses may be provided upon payment of the appropriate fee pursuant to rules promulgated by the board.

20 CSR 2255-2.060 Reinstatement

PURPOSE: This rule outlines the process for reinstating a lapsed license to practice as a respiratory care practitioner and complies with the provisions of House Bill 343 of the 90th General Assembly.

(1) Failure of a licensee to renew a license prior to the expiration of a license will result in the lapse of a license.

(2) A licensee whose license has been lapsed for fewer than thirty (30) days may obtain renewal of that license by mailing the complete renewal application pursuant to 20 CSR 2255-2.040 and proper renewal fee to the board postmarked no later than the thirtieth day of lapse. Satisfactory explanation of the lapse will be presumed. The board at its discretion may not renew the license of any licensee who is subject to disciplinary action, but the board shall advise the licensee of the statutory right to file a complaint with the Administrative Hearing Commission (AHC).

(3) A licensee whose license has been lapsed for more than thirty (30) days but less than four (4) years may obtain renewal of that license by mailing the completed lapsed renewal application to the board. The lapsed renewal application shall be accompanied by

the late renewal fee and the renewal fee for each year the license was lapsed in addition to the current renewal fee. In addition to verification of completion of twenty-four (24) hours of approved continuing education within the preceding two (2) years, the lapsed renewal application shall also include the following:

(A) A statement that the licensee is not presently practicing as a respiratory care practitioner in Missouri; and

(B) A statement indicating whether the licensee practiced as a respiratory care practitioner in Missouri while the license was lapsed and, if so, how long and where; and

(C) If the licensee was practicing as a respiratory care practitioner in Missouri while the license was lapsed, s/he shall submit a notarized statement indicating that s/he has ceased working as soon as s/he realized that the license was lapsed. In addition, the licensee shall cause his/her employer to submit a statement on the employee’s letterhead stationary or a notarized statement indicating that the licensee ceased working as soon as s/he realized that the license was lapsed.

(4) Failure of the licensee to renew a license for a period of more than four (4) years after the expiration of the license, shall be treated in the same manner as a person who has never been licensed and must reapply for licensure under the licensing requirements in effect at the time the person applies to resume the practice of respiratory care. In addition, the applicant shall submit evidence of completion of at least twenty-four (24) hours of approved continuing education within the preceding two (2) years.

(5) The requirements of section (4) may be waived by the board if a licensee whose license has been inactive for four (4) or more years provides evidence to the board that s/he has been actively engaged in the practice of respiratory care in another state for at least two (2) consecutive years immediately prior to making application to renew in Missouri. “Actively engaged” shall mean that the applicant worked a minimum of twenty (20) hours per week in a clinical setting. If the board grants a waiver under this section, the applicant shall comply with the requirements of section (3).

(6) Following review by the board, the licensee shall be informed in writing of the decision regarding the application for licensure.

(7) Licensees that are approved will receive one (1) license. Duplicate licenses may be

provided upon payment of the appropriate fee pursuant to rules promulgated by the board.
