5. No core course credit will be given for practicums, workshops, continuing education, applied courses, experiential courses, readings courses, independent studies or correspondence courses;

6. Credit will be given for seminar courses only if the applicant is awarded a grade for the course and provides substantiation through course descriptions in official school catalogs, course syllabi, bulletins or other like means, or through written documentation from a school official that the course was an in-depth study of a particular core area and that the course included lectures and discussions concerning a wide range of the key topics in that core area;

13. An applicant who has been denied licensure as a result of inadequate educational experience and wishes to make up academic deficiencies and to obtain prior approval from the committee of the applicant’s proposed plan for completing the deficiencies may submit a proposed plan for completing the academic requirements to the committee for its evaluation. If the applicant desires this special approval, s/he shall have his/her supervisor submit a written detailed description of the proposed program of supervised professional experience. The psychological activities of the applicant must be performed pursuant to the supervisor’s order, control and full professional responsibility. Professional reports prepared by the applicant during the period of the supervised professional experience must be cosigned by the supervisor. The supervisor shall maintain a continuing relationship with the applicant and must meet with the applicant a minimum of one (1) hour per week in face-to-face individual supervision. All requests shall be submitted on the forms provided by the committee and accompanied by the prior review fee for post-degree supervision. All requests must be submitted to the committee thirty (30) days prior to a regularly scheduled committee meeting in order to be reviewed at that meeting.

(A) Objective Examination. Applicants shall be required to take the Examination for Professional Practice in Psychology (EPPP).

(B) Jurisprudence Examination. A jurisprudence examination based on Missouri law and regulations governing the practice of psychology, professional affairs, and ethics will be administered each year at sites, dates, and times approved by the committee.

(C) Oral Examination. An oral examination will include questions related to areas of ethics, professional practice, and any other subject matter, pertinent to the practice of psychology, about which the committee wishes to examine the applicant. The applicant must first pass the examinations specified in subsections (A) and (B) hereof before being allowed to take or complete the oral examination.

(3) Passing Scores on Examination.

(A) From October 19, 1979, to March 31, 1995, an applicant will be deemed to have passed the EPPP examination if the score is equal to or greater than the national mean score for that examination as computed by the testing service. For purposes of computing an applicant's score, the standard error of the mean shall not be considered.

(B) An applicant, who sat for the EPPP between April 1, 1995, and April 30, 2001, will be deemed to have passed the examination if the score obtained is equal to or greater than seventy percent (70%) at said sitting as computed by the testing service.

(C) Beginning May 1, 2001, an applicant is deemed to have passed the objective examination if he/she has obtained at least the minimum pass point designated by the developer of the EPPP examination.

If the examination is not passed within two (2) years, calculated from the first date the applicant took the EPPP, the application will be denied for failure to pass the examination. The former applicant may reapply for licensure by submitting a new application for consideration by the committee in accordance with the current requirements to become licensed as a psychologist in Missouri.

20 CSR 2235-2.080 Non-Licensed Persons Engaging in Activities Defined as the Practice of Psychology

PURPOSE: This rule defines the restrictions of non-licensed persons engaging in activities defined as the practice of psychology and any licensee associated with the practice of such person.

(1) A person who does not hold a license to practice as a psychologist but who nonetheless may engage in activities defined as the practice of psychology under the provisions of section 337.045(3), RSMo, and any licensee associated with the practice of such a person, shall abide by the following restrictions:

(A) Psychological Trainee. A trainee shall neither deliver psychological services nor be requested to deliver psychological services, but may participate in the delivery of services by a licensed psychologist. Patient records shall document disclosure of the psychological trainee's status and reflect the activities of the psychological trainee. Training is part of the educational process and not an alternative to licensure;

(B) Psychological Intern. A psychological intern may deliver psychological services, in accordance with the requirements of a degree program, under the immediate supervision of a licensed psychologist who has complete responsibility for the needs of the patient and the actions of the psychological intern. Patient records must reflect the activities of the intern and be signed by the responsible psychologist. Patient records must document disclosure of the psychological intern's status and the responsibility of the supervising psychologist. Internships are part of the educational process, and are not an opportunity to practice psychology without a license;

(C) Psychological Resident. A psychological resident may deliver psychological services under the supervision of a licensed psychologist who has complete responsibility for the needs of the patient and the actions of the psychological resident. Patient records must reflect the activities of the resident, and be signed by the responsible psychologist. Patient records shall document disclosure of the psychological resident's status and the

responsibility of the supervising psychologist. The practice of psychology by a resident is done under close supervision to ensure the protection of the public and to permit the profession to judge the qualifications of the resident. It is done to determine fitness for licensure, and is not intended to allow the practice of psychology without a license;

(D) Psychological Assistant. A psychological assistant's practice shall be under the supervision of a licensed psychologist. Patient records must reflect the activities of the assistant, and be signed by the responsible psychologist. Patient records shall document disclosure of the psychological assistant's status and the responsibility of the supervising psychologist. The assistant's practice is for the benefit of the patients treated during a brief period of time between residency and licensure. Continuity of patient care is the sole purpose of allowing a psychological assistant to deliver psychological services. New patients should not be accepted during this brief time period. Practice as a psychological assistant is not an alternative to licensure. A psychological assistant who is not provisionally licensed shall file a Supervision Agreement with the committee prior to acting as an assistant. A person working in the capacity of psychological assistant who is not provisionally licensed may do so for up to two (2) years from the date of formal approval of the Supervision Agreement by the committee;

(E) Qualified Assistant. The activities and functions of the qualified assistant are the full responsibility and liability of the licensed psychologist. Qualified assistants may not diagnose, interpret psychological tests, or perform psychotherapy. Patient records shall document disclosure of the status of the qualified assistant and reflect the activities of the qualified assistant. Nothing in this rule shall be construed to require a person who is otherwise exempt from licensure pursuant to section 337.045, RSMo, to act or otherwise serve as a qualified assistant; and

(F) Provisionally Licensed Psychologist. The scope of practice of a provisionally licensed psychologist is limited by section 337.020.5, RSMo, and the applicable limitations placed on either psychological residents or psychological assistants, whichever classification applies to the provisional licensee.
