Op. Atty. Gen. No. 133, Fulkerson (3-6-70). The General Business and Corporation Law of Missouri, which permits corporations to be organized for any lawful purpose, does not authorize organization of a corporation to engage in practice of chiropody-podiatry where statute regulating such practice contemplates only licensing of individuals.

Op. Atty. Gen. No. 37, Hansen (6-27-56). It would not be lawful for the State Board of Chiropody to accept the examination of the National Board of Chiropody Examiners as a written examination given by the board and in lieu of examination by the board.

The residency program director must complete the form provided by the board, attesting that the applicant has attended an approved postgraduate clinical residency program for not less than six (6) months during the twenty-four (24)-month continuing medical education renewal reporting period. The certificate must indicate that the applicant was in good standing and indicate the dates of attendance during the postgraduate clinical residency program. The licensee shall maintain this certificate in his/her records of CME attendance.

2. For the first renewal of a podiatrist's license, the board will consider the passing score of the national board (Part III) exam as satisfying twelve (12) hours of the required twenty-four (24) hours of CME as required by this rule if the national board (Part III) exam was taken within the CME reporting period.

3. A licensee who has obtained American Podiatric Specialty Board certification or recertification during the reporting period shall be deemed to have obtained the required hours of CME. The licensee shall maintain documentation evidencing the certification or recertification.

4. A licensee who participated in a fellowship program in an approved teaching institution shall be deemed to have obtained the required hours of CME if at least sixty (60) days of the reporting period were spent in the fellowship and the fellowship is determined to be advanced training. The licensee shall maintain documentation from the fellowship program director verifying the number of days in the program and that the program is advanced training.

5. Pursuant to section 41.946, RSMo and notwithstanding any other provision of law, any person licensed or certified to prac-

tice a trade or profession by the state of Missouri or any branch or agency thereof that requires an annual period of continuing education or training as a condition of continued or renewed licensing or certification, and who is or becomes a member of the National Guard or of any reserve component of the Armed Forces of the United States who is called to full-time active duty in the service of the United States under competent orders shall, during the period of full-time active duty, be exempt from any such requirement for continuing education or training without his/her status, license, certification or right to practice his/her trade or profession being affected and shall not be required, upon returning from full-time active duty, to make up or retake any training or education for which s/he was exempt under the provisions of this section.

(I) A licensee who cannot complete the required hours of CME because of personal illness or other circumstances beyond the licensee's control, which the board deems to be sufficient to impose an insurmountable hardship may apply for an extension of time to complete the CME requirements. Any extension of time to complete the CME requirements will be granted solely at the discretion of the board. The licensee shall make a written application for extension of time prior to the February 28 deadline for completion of the CME requirement. The application for extension shall be accompanied by the Continuing Medical Education Reporting Period Late Fee. The licensee shall provide full and complete written documentation of the grounds supporting the reasons for which an extension is sought.

1. Illness extensions may be granted only to a licensee who has suffered a personal illness or personal disability of a nature as to prevent him/her from engaging in the active practice of podiatry for at least a majority of the reporting period. At a minimum, the licensee shall provide the board with written documentation from the licensee's treating physician stating the nature of the illness or disability, the period of the illness or disability, any limitations on the licensee's activities that resulted from the illness or disability, documentation of the number of CME hours earned in the two (2)-year reporting period and a plan for completing the balance of the CME requirement.

2. The board, solely at its discretion, may grant an extension based on unforeseeable circumstances beyond the licensee's control that impose an insurmountable hardship precluding the licensee from obtaining the required CME. At a minimum, the licensee shall provide written documentation

explaining specifically and in detail the nature of the circumstances, why the circumstances were unforeseeable and beyond the licensee's control, the period during which the circumstances were in existence, documentation of the number of CME credits earned in the two (2)-year reporting period and the licensee's plan for completing the balance of the CME requirement.

3. An extension of time shall not be granted to any licensee who obtained an extension in the immediately preceding CME reporting period in which the licensee held an active license.

(8) Any application for biennial license renewal received by the board more than six (6) months after the renewal date shall be void and the applicant shall be required to make new application and pay the applicable fees in accordance with section 330.030, RSMo, which shall include successful completion of the Missouri Law Examination administered by the board.

(9) A Missouri licensed podiatrist has the ongoing obligation to keep the board informed if the licensee has been finally adjudicated or found guilty, or entered a plea of guilty or *nolo contendere*, in a criminal prosecution under the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions or duties of any profession licensed or regulated under Chapter 330, RSMo, for any offense an essential element of which is fraud, dishonesty, or an act of violence, or for any offense involving moral turpitude, whether or not sentence was imposed. The licensee shall provide this information to the board within thirty (30) days of being finally adjudicated or found guilty.

20 CSR 2230-2.041 Public Complaint Handling and Disposition Procedure

PURPOSE: This rule establishes a procedure for the receipt, handling and disposition of public complaints by the board, pursuant to the mandate of section 4.16(6) of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo.

(1) The State Board of Podiatric Medicine shall receive and process each complaint made against any licensee, permit holder, registrant or applicant of the board, or unlicensed individual or entity, which complaint alleges certain acts or practices which may constitute one (1) or more violations of the provisions of Chapter 330, RSMo. Any member of the public or the profession or any federal, state or local official, may make and file a complaint with the board. Complaints shall be received from sources outside Missouri and processed in the same manner as those originating within Missouri. No member of the State Board of Podiatric Medicine shall file a complaint with this board while holding that office, unless that member is excused from further board deliberations or activity concerning the matters alleged within that complaint. The executive director or any staff member of the board may file a complaint pursuant to this rule in the same manner as any member of the public.

(2) Complaints should be mailed or delivered to the following address: State Board of Podiatric Medicine, 3605 Missouri Boulevard, PO Box 423, Jefferson City, MO 65102-0423. However, actual receipt of the complaint by the board at its administrative offices in any manner shall be sufficient. Complaints shall be made based upon personal knowledge or upon information and belief, reciting information received from other sources.

(3) All complaints shall be made in writing. Complaints shall be made on forms provided by the board and available upon request. Oral or telephone communications will not be considered or processed as complaints, but the person making the communications will be provided with a complaint form and requested to complete and return the form to the board in written form. Any member of the administrative staff of the board may make and file a complaint based upon information and belief, in reliance upon oral, telephone or written communications received by the board, unless that staff member believes those communications to be false.

(4) Each complaint received under this rule shall be logged in a book and/or database maintained by the board for that purpose. Complaints shall be logged in consecutive order as received. The log book and/or database shall contain a record of each complainant's name and address; the name and address of the subject(s) of the complaint; the date each complaint is received by the board; a brief statement of the acts complained of, including the name of any person injured or victimized by the alleged acts or practices; a notation whether the complaint resulted in its dismissal by the board or informal charges being filed with the Administrative Hearing Commission; and the ultimate disposition of the complaint. The log book and/or database shall be a closed record of the board.

(5) Each complaint received under this rule shall be acknowledged in writing. The acknowledgment shall state that the complaint is being referred to the board for consideration at its next regularly scheduled meeting. The complainant shall be informed as to whether the complaint is being investigated and later as to whether the complaint has been dismissed by the board, or is being referred to legal counsel for filing with the Administrative Hearing Commission. The complainant shall be notified of the ultimate disposition of the complaint, excluding judicial appeals, and shall be provided with copies of the decisions (if any) of the Administrative Hearing Commission and the board at that time; provided, that the provisions of this section shall not apply to complaints filed by staff members of the board based on information and belief, acting in reliance on third-party information received by the board.

(6) Both the complaint and any information obtained as a result of the investigation shall be considered a closed record and shall not be available for inspection by the general public. However, upon written request to the

board, a copy of the complaint and any attachments to the complaint may be provided to any licensee who is the subject of that complaint or his/her counsel.

(7) This rule shall not be deemed to limit the board's authority to file a complaint with the Administrative Hearing Commission charging a licensee or temporary license holder of the board with any actionable conduct or violation, whether or not that complaint exceeds the scope of the acts charged in a preliminary public complaint filed with the board, and whether or not any public complaint has been filed with the board.

(8) The board interprets this rule, which is required by law, to exist for the benefit of those members of the public who submit complaints to the board, and for those persons or entities within the legislative and executive branches of government having supervisory or other responsibilities or control over the professional licensing boards. This rule is not deemed to protect or inure to the benefit of those licensees or temporary license holders or other persons against whom the board has instituted or may institute administrative or judicial proceedings concerning possible violations of the provisions of Chapter 330, RSMo.

(3) When the custodian believes that requested access is not required under Chapter 610, RSMo, the custodian shall inform the requesting party that compliance cannot be made, specifying what sections of Chapter 610, RSMo, require that the record remain closed. Correspondence or documentation of the denial shall be copied to the board's general counsel. The custodian also shall inform the requesting party that s/he may appeal directly to the board for access to the records requested. The appeal and all pertinent information shall be placed on the agenda for the board's next regularly scheduled meeting. If the board reverses the decision of the custodian, the board shall direct the custodian to advise the requesting party and supply access to the information during regular business hours at the requesting party's convenience.

(4) The custodian shall maintain a file that will contain copies of all written requests for access to records and responses to these requests. The requests shall be maintained on file with the board for a period of one (1) year and will be maintained as a public record of the board open for inspection by any member of the general public during regular business hours.

(5) Whenever a request for inspection of public records is made and the individual inspecting the records requests copies of the records, the board may charge a reasonable fee for the cost of inspecting and copying the records. The fee charged by the board shall be as follows:

(A) A fee for copying public records shall not exceed the actual cost of the document search and duplication; and

(B) The board may require payment for these fees prior to making the copies.
