(1) All funeral establishment licenses shall be displayed, at all times, in a conspicuous location accessible to the public. All licenses and registrations for individuals issued pursuant to Chapter 333, RSMo, shall either be displayed at all times in a conspicuous location accessible to the public at funeral establishment locations unless the entity has posted a sign in a conspicuous location accessible to the public that reads, “All licenses for individuals issued pursuant to Chapter 333, RSMo, are available upon request and for inspection at this location.”

(A) All Missouri examinations may be provided in a computer-based testing format. Examinations shall be held at the locations designated by the testing service. A link to a complete listing of the examination sites is available on the board’s website.

(B) The Missouri Law examination covers knowledge of Chapter 333, RSMo, and the rules governing the practice of embalming, funeral directing, and funeral home licensing, along with government benefits, statutes and rules governing the care, custody, shelter, disposition, and transportation of dead human bodies. The Missouri Law examination also contains questions regarding Chapter 436, RSMo, relating to pre-need statutes and Chapters 193 and 194, RSMo, relating to the Missouri Department of Health and Senior Services statutes, as well as questions regarding Federal Trade Commission rules and regulations requirements as they apply to Missouri licensees.

(3) Each Missouri licensed embalmer or funeral director shall keep the board notified of each Missouri licensed funeral establishment at which he/she is practicing. The embalmer or funeral director shall notify the board within thirty (30) days of any termination and prior to beginning as an embalmer

or funeral director with a Missouri licensed funeral establishment.

(4) Each Missouri registered preneed agent shall keep the board notified of each preneed seller for whom the preneed agent is authorized to sell, negotiate, or solicit the sale of preneed contracts for or on behalf of.

(5) Each Missouri embalmer, funeral director, preneed seller, preneed provider, and preneed agent shall keep the board notified of their current address, telephone number, facsimile number, and email address, as applicable, at all times; and shall notify the board prior to any address change by submitting written notice with the new information.

(6) A Missouri licensed funeral director, embalmer, and preneed agent has the ongoing obligation to keep the board informed if the licensee has been finally adjudicated or found guilty, or entered a plea of guilty or *nolo contendere*, in a criminal prosecution under the laws of any state or territory of the United States or the District of Columbia, whether or not sentence was imposed for any and all criminal matters for which discipline is authorized in section 333.330.2(2), RSMo. This information shall be provided to the board within thirty (30) days of being finally adjudicated or found guilty.

20 CSR 2120-2.010 Embalmer’s Registration and Apprenticeship

PURPOSE: This rule establishes the procedures to be used to secure an embalmer’s license.

(1) Every person desiring to enter the profession of embalming dead human bodies within Missouri, and who is enrolled in an accredited institution of mortuary science, shall complete a practicum as required by the accredited institution of mortuary science education.

(2) For every person desiring to enter the profession of embalming dead human bodies within Missouri the board may conduct a

criminal history background check through the Missouri State Highway Patrol. Applicants shall submit to the board the applicable fee for the criminal history background check as determined by the Missouri State Highway Patrol.

(3) After registration with the board as a practicum student in an accredited institution of mortuary science education, the student may assist in a Missouri licensed funeral establishment preparation room only under the direct supervision of a Missouri licensed embalmer and may assist in the direction of funerals only under the direct supervision of a Missouri licensed funeral director. Each person desiring to be a practicum student shall register with the board as a practicum student on the form provided by the board in accordance with the requirements of the accredited institution of mortuary science prior to beginning the practicum. Applications shall be accompanied by the applicable fee.

(4) During the period of the practicum, the certificate of registration issued to the practicum student shall be displayed, at all times, in a conspicuous location accessible to the public at each funeral establishment where the practicum student is working.

(5) The practicum student registration authorizes the registrant to engage in the practice of embalming only at the Missouri licensed funeral establishment(s) designated on the certificate of registration and only under the direct supervision of a Missouri licensed embalmer. The practicum student may assist in the practice of funeral directing only under the direct supervision of a Missouri licensed funeral director and only at the Missouri licensed funeral establishment(s) designated on the certificate of registration. If during the course of the practicum, the practicum student wishes to work at a Missouri licensed funeral establishment other than as designated on the certificate of registration, the practicum student shall notify the board in writing of the name, location, and Missouri licensed funeral establishment license number of the new Missouri licensed funeral establishment within ten (10) days of the change.

(6) Upon successful completion of the practicum, the practicum student registration shall become null and void. A practicum shall be deemed successfully completed when the practicum student has achieved a passing grade on the practicum from the institution of mortuary science at which the practicum stu-

dent is enrolled.

(7) After graduating from an accredited institution of mortuary science education, the applicant then shall file, with the board, an official transcript of his/her embalming school grades showing s/he is a graduate of that school. In addition, the applicant shall ensure that his/her official copy of the national board examination results are provided to the board in writing by the International Conference of Funeral Service Examining Boards, Inc., or designee of the board.

(8) Effective July 30, 2004, the Missouri State Board embalmers' examination shall consist of the National Board Funeral Service Arts section, the National Board Funeral Service Science section, and Missouri Law section. Application, payment, scheduling, and administration for the national board examinations will be made directly through the International Conference of Funeral Service Examining Boards, Inc., or other designee of the board. An applicant shall be exempt from the requirement of successful completion of the Missouri Law section if the applicant has successfully completed the Missouri Law section for another Missouri license within the jurisdiction of the board and the license is in active status. In lieu of the National Board Funeral Service Arts examination, successful completion of the Missouri Funeral Service Arts examination results will be accepted, or the board may accept successful completion of an examination administered by another state, territory, or province of the United States that is substantially equivalent or more stringent than the Missouri Funeral Service Arts examination.

(9) The embalming examination shall cover knowledge of the subjects of embalming, anatomy, pathology, bacteriology, mortuary administration, chemistry, restorative arts, together with statutes, rules, and regulations governing the care, custody, shelter, and disposition of dead human bodies and the transportation thereof.

(10) An applicant shall submit proof of having satisfied the requirements of the National Board Funeral Service Arts section and the National Board Funeral Service Science section of the examination by having his/her official copy of the scores from the International Conference of Funeral Service Examining Boards, Inc., or designee of the board transmitted to the board from the Conference. In lieu of the National Board Funeral Service Arts examination, successful completion of the Missouri Funeral Service Arts examina-

tion will be accepted, or the board may accept successful completion of an examination administered by another state, territory, or province of the United States that is substantially equivalent or more stringent than the Missouri Funeral Service Arts examination.

(11) Those applicants achieving seventy-five percent (75%) on each of the three (3) sections of the embalming examination will be deemed to have passed the board's embalming examination. Any applicant who scores less than seventy-five percent (75%) on any section of the embalming examination may retake the failed section, upon application and payment of the administration and reexamination fees. On any reexamination of a single failed section, the applicant shall score at least seventy-five percent (75%) to pass.

(12) After the applicant has made a passing grade on the National Board Funeral Service Arts section and the National Board Funeral Service Science section of the embalming examination, s/he then may apply for registration as an apprentice embalmer. In lieu of the National Board Funeral Service Arts examination, successful completion of the Missouri Funeral Service Arts examination will be accepted, or the board may accept successful completion of an examination administered by another state, territory, or province of the United States that is substantially equivalent or more stringent than the Missouri Funeral Service Arts examination. This application shall contain the name(s) of the Missouri licensed embalmer(s) under whom s/he will serve. Each supervisor must be licensed and registered with and approved by the board. Any change in supervisor shall also be registered and approved within ten (10) business days after the change has been made. Applications shall be submitted on the forms provided by the board and shall be accompanied by the applicable fee. Application forms are available from the board office or the board's website at <http://pr.mo.gov/embalmers.asp>.

(13) Each apprentice embalmer shall provide to the board, on the application provided by the board, the name(s), location(s), and license number(s) of the licensed funeral establishment(s) where s/he is serving as an apprentice. If the apprentice embalmer begins work at any other licensed funeral establishment during the period of apprenticeship, the apprentice embalmer shall notify the board, on the form provided by the board, within ten (10) business days after the change has been made.

(14) The period of apprenticeship under this rule shall be at least twelve (12) consecutive months. The apprentice embalmer shall devote at least thirty (30) hours per week to his/her duties as an apprentice embalmer. During the period of the apprenticeship, the certificate of registration issued to the apprentice shall be displayed, at all times, in a conspicuous location accessible to the public at each funeral establishment where the apprentice is working.

(15) Prior to completion of the period of apprenticeship, the apprentice embalmer shall achieve a grade of seventy-five percent (75%) or greater on the Missouri Law exam. This exam may be taken any time after graduating from an accredited institution of mortuary science, but shall be successfully completed prior to appearing before the board for oral examination. The Missouri Law exam covers knowledge of Chapter 333, RSMo, and the rules governing the practice of embalming, funeral directing, and funeral home licensing, along with government benefits, statutes and rules governing the care, custody, shelter, disposition, and transportation of dead human bodies. The Missouri Law section also contains questions regarding Chapter 436, RSMo, relating to pre-need statutes and Chapters 193 and 194, RSMo, relating to the Missouri Department of Health and Senior Services statutes, as well as questions regarding Federal Trade Commission rules and regulations and Occupational Safety and Health Administration (OSHA) requirements as they apply to Missouri licensees. Notification of intent to take this section of the examination shall be received by the board at least fifteen (15) working days prior to the date the candidate plans to sit for the examination.

(16) An affidavit provided by the board, signed by both the apprentice and the supervisor(s) verifying that the applicant has successfully completed the embalming of twenty-five (25) dead human bodies, shall be submitted to the board at the time of completion of the apprenticeship period and prior to the oral examination.

(17) After successful completion of the embalmer's examination and the embalmer apprenticeship as provided in these rules, the embalmer applicant shall appear for the oral examination. To appear for the oral examination, the embalmer applicant shall:

(A) Submit an application on a form supplied by the board and pay the applicable fees to the board; and

(B) Successfully pass the oral examination

administered by the board for licensure.

(18) The oral examination shall be conducted by one (1) or more board members who hold a Missouri state embalmer license, or a member of the board staff that is a licensed embalmer, and shall be conducted in person at a place and time established by the board. The oral examination shall consist of no fewer than five (5) substantive questions related to the practice of embalming and/or the statutes, rules, and regulations governing embalming practice in the state of Missouri. Whether the applicant satisfactorily completes the oral examination shall be in the sole discretion of the board.

(19) After satisfactory completion of these requirements, an embalmer's license shall be issued to an apprentice embalmer upon payment of the applicable fee and subject to the provisions of section 333.121, RSMo.

(20) An applicant shall meet the requirements of the board for licensure within five (5) years of his/her graduation from an accredited institution of mortuary science. If the applicant fails to meet the requirements of the board within the required time, a new application and applicable fees shall be filed with the board and the applicant shall be required to appear for the oral examination within five (5) years of the new date of application. No previous practicum, apprenticeship, application, or Missouri Law section will be considered for a new application. However, the successful examination results of the National Board Funeral Service Arts section and the National Board Funeral Service Science section, or designee of the board will be accepted.

(21) A Missouri licensed embalmer may engage in the practice of embalming in the state of Missouri only in Missouri licensed funeral establishments. Each embalmer shall inform the board in writing of each funeral establishment name(s), location(s), and license number(s) where the embalmer is performing embalming.

(22) A Missouri licensed embalmer has the ongoing obligation to keep the board informed if the licensee has been finally adjudicated or found guilty, or entered a plea of guilty or *nolo contendere*, in a criminal prosecution under the laws of any state or of the United States, whether or not sentence was imposed. This information shall be provided to the board within thirty (30) days of being finally adjudicated or found guilty.

(23) Any embalmer licensed by the board in the state of Missouri who wishes to become a licensed funeral director shall be required to comply with all requirements necessary for licensure as a funeral director, except, the Missouri licensed embalmer shall be exempt from the requirement of a funeral director apprenticeship.

(24) Should an individual desire to obtain a Missouri embalmer's license after his/her license has become void under section 333.081.3, RSMo, the individual shall be required to make application, obtain a passing grade on the embalmer examination, and shall be required to complete a six (6) consecutive month period of apprenticeship during which time s/he shall be required to embalm at least twelve (12) dead human bodies under the supervision of a Missouri licensed embalmer. The applicant shall be required to pay the current applicable apprenticeship and application fees to obtain a new embalmer's license under this section. No previous apprenticeship, application, or examination will be considered for a new application under this section. However, the successful examination results of the National Board Funeral Service Arts section and the National Board Funeral Science section will be accepted.

(25) After successful completion of the embalmer's examination and the embalmer apprenticeship as provided in these rules, the embalmer applicant shall appear for the oral examination at a location specified by the board. To arrange for the oral examination, the embalmer applicant shall submit an application of a form supplied by the board and pay the applicable fees to the board. Applicants shall successfully pass the oral examination administered by the board for licensure.

(26) All certificates, registrations, and licenses, or duplicate copies thereof, issued by the State Board of Embalmers and Funeral Directors shall be displayed at all times in a conspicuous location accessible to the public in each office or place of business where they work, for inspection by any duly authorized agent of the board.

(27) The rules in this division are declared severable. If any rule, or section of a rule, is held invalid by a court of competent jurisdiction or by the Administrative Hearing Commission, the remaining provisions shall remain in full force and effect unless otherwise determined by a court of competent jurisdiction or by the Administrative Hearing Commission.

20 CSR 2120-2.040 Licensure by Reciprocity

PURPOSE: This rule outlines procedures for obtaining an embalmer or funeral director license by reciprocity.

(1) Applications for a Missouri embalmer's or funeral director's license by reciprocity shall be made on the forms provided by the board and shall be accompanied by the applicable fee. Application forms are available from the board office or the board's website at <http://pr.mo.gov/embalmers.asp>.

(2) Any person holding a valid unrevoked and unexpired license to practice embalming or funeral directing in another state or territory is eligible to obtain licensure by reciprocity by meeting the following requirements of the board:

(A) Evidence satisfactory to the board that the reciprocity applicant holds a valid, unrevoked, and unexpired license as an embalmer or funeral director in another state having substantially similar requirements to the requirements for licensure as either an embalmer or funeral director in this state including a copy of his/her original license issued by the other state;

(B) Proof of his/her educational and professional qualifications, which shall be substantially equivalent to the requirements existing in Missouri at the time s/he was originally licensed;

(C) A certificate of state endorsement from the examining board of the state or territory in which the applicant holds his/her license showing the grade rating upon which his/her license was granted, a statement whether the reciprocity applicant has ever been subject to discipline or if there are any complaints pending against the reciprocity applicant and a recommendation for licensure in Missouri;

(D) Evidence sufficient to the board that the applicant has achieved a score of seventy-five percent (75%) or better on the National Board Funeral Service Arts Examination and the National Board Funeral Service Science Examination provided by the International Conference of Funeral Service Examining

Boards, Inc., or designee of the board, if applying for an embalmer license or an embalmer and funeral director license; or

(E) Evidence sufficient to the board that the applicant has achieved a score of seventy-five percent (75%) or better on the National Board Funeral Service Arts Examination provided by the International Conference of Funeral Service Examining Boards, Inc., or designee of the board, if applying for only a funeral director license; and

(F) The reciprocity applicant will be required to successfully complete the reciprocity examination with a score of seventy-five percent (75%) or better within twenty-four (24) months after the board's receipt of the reciprocity application. If an applicant by reciprocity has received either an embalmer or funeral director license from the board for which the reciprocity examination is required, that applicant will be exempt from taking the reciprocity examination for the second license if the original Missouri license remains in active status;

(G) A completed application for licensure for reciprocity provided by the board; and

(H) Payment of applicable fees including the fee charged by the Missouri State Highway Patrol for a criminal history background check, as required by the board.

(3) If the reciprocity applicant holds a license as an embalmer or funeral director in another state or territory with requirements less than those of this state, they may seek licensure in this state by meeting the following requirements of the board:

(A) An official certification from another state or territory which verifies that the licensee holds a valid, unrevoked, and unexpired funeral director or embalmer license in the other state or territory;

(B) A copy of his/her original funeral director or embalmer license from the other state or territory in which the applicant is licensed;

(C) Proof of his/her educational and professional qualifications;

(D) The reciprocity applicant will be required to successfully complete the reciprocity examination with a score of seventy-five percent (75%) or better within twenty-four (24) months after the board's receipt of the reciprocity application. (E) A completed application for licensure

for reciprocity provided by the board; and

(F) Payment of applicable fees including the fee charged by the Missouri State Highway Patrol for a criminal history background check, as required by the board.

(4) Licensure by reciprocity may be given only for like license(s). An embalmer licensed in another state may obtain an embalmer license by reciprocity, but not a funeral director license unless that person is licensed as a funeral director in another state. A funeral director licensed in another state may obtain a funeral director license by reciprocity, but not an embalmer license unless that person is licensed as an embalmer in another state.

(5) Applications for reciprocity licensure shall be completed and received by the board at least thirty (30) days prior to the date the candidate plans to sit for the examination and shall be accompanied by the applicable fee. Applications are deemed complete upon submission of any and all requisite forms required by the board, payment of requisite fees, and submission of all materials required by this rule or supplemental materials requested by the board. Application forms can be obtained from the board office or the board's website at <http://pr.mo.gov/embalmers.asp>.

(6) The board shall determine the sufficiency of the materials provided in the application for reciprocity and shall have the authority to make the final determination as to the standards and qualifications of the various states from which the applicants may be accepted by reciprocity and may reject any applicant on any lawfully permitted grounds.

(7) All certificates, registrations, and licenses, or duplicate copies thereof, issued by the State Board of Embalmers and Funeral Directors shall be displayed at all times in a conspicuous location accessible to the public in the office(s) or place(s) of business, for inspection by any duly authorized agent of the board.

20 CSR 2120-2.060 Funeral Directing

PURPOSE: This rule outlines the provisions for the practice of funeral directing.

(1) Every person who desires to enter the profession of funeral directing in Missouri and who is not entitled to a license under section 333.051, RSMo shall provide the following to the board:

(A) Proof of being at least eighteen (18) years of age;

(B) Proof of possession of a high school diploma or equivalent;

(C) Evidence of being a person of good moral character;

(D) Proof of satisfactory completion of each section of the funeral director's examination;

(E) Affidavit of completion of a twelve (12) consecutive month apprenticeship; or official transcript and documentation indicating he/she is a graduate of an institute of mortuary science accredited by the American Board of Funeral Service Education or any successor organization recognized by the United States Department for Funeral Service Education; or has successfully completed a course in funeral directing offered by a college accredited by a recognized national, regional, or state accrediting body and approved by the State Board of Embalmers and Funeral Directors; or proof of being a Missouri licensed embalmer;

(F) Completed application form provided by the board;

(G) Proof of successful completion of the National Board Funeral Service Arts examination or the Missouri Funeral Service Arts examination, if applicable;

(H) Payment of all applicable fees;

(I) Satisfactory criminal history background check as provided to the board by the Missouri State Highway Patrol. Applicants shall submit to the board the applicable fee for the criminal history background check as determined by the Missouri State Highway Patrol; and

(J) Any other information the board may require.

(2) Every person who desires to enter the profession of funeral directing in Missouri and who is not entitled to a license under section 333.051, RSMo, shall make application with the board for a Missouri funeral director license on the forms provided by the board and shall pay the funeral director application fee directly to the board. If the applicant has successfully completed the National Board Funeral Service Arts examination, no Missouri Funeral Service Arts examination is required. Application forms can be obtained from the board office or the board's website at <http://pr.mo.gov/embalmers.asp>.

(3) Effective July 30, 2004, the funeral director examination developed by the International Conference of Funeral Service Examining Boards, Inc., or designee of the board, shall consist of the Missouri Law section and the Missouri Funeral Service Arts section. In lieu of the Missouri Funeral Service Arts examination, successful completion of the National Board Funeral Service Arts examination results will be accepted.

(4) To serve as an apprentice funeral director, the applicant shall file with the board a completed funeral director application on the form prescribed by the board and also shall complete an application to be registered as an apprentice funeral director on the form prescribed by the board and pay all applicable fees. Application forms and a list of fees can be obtained from the board office or on the board's website at <http://pr.mo.gov/embalmers.asp>.

(5) The funeral director apprenticeship is not intended as a long-term method of practicing as a funeral director in the absence of progress toward licensure. Accordingly, effective February 28, 2010, an apprentice shall not be allowed to register with the board for more than two (2) apprenticeship periods that begin on or after February 28, 2010, unless otherwise approved by the board for good cause.

(6) Upon registration and payment in full of all applicable fees, the board shall issue the apprentice funeral director applicant a funeral director apprentice registration. This registration authorizes the apprentice registrant to engage in the practice of funeral directing under the supervision of a Missouri licensed funeral director. The funeral director apprentice registration, or a copy thereof, shall be displayed, at all times, in a conspicuous location accessible to the public at each establishment where the apprentice is working.

(7) The funeral director apprentice registration authorizes the registrant to engage in the practice of funeral directing only during the period of apprenticeship. Once the apprenticeship is successfully completed as defined in this rule, the funeral director apprentice registration shall become null and void. Any Missouri licensed funeral director who allows a former apprentice who has completed his/her apprenticeship to engage in the practice of funeral directing before that apprentice is fully licensed shall be subject to discipline for misconduct under section 333.121.2, RSMo.

(8) Each registered funeral director apprentice shall provide to the board, on the application prescribed by the board, the name(s), location(s), and license number(s) of each funeral establishment(s) where they are serving as an apprentice. The funeral director apprenticeship may be served at a funeral establishment licensed by a state, other than Missouri, upon submission of proof to the board that the out-of-state funeral home is licensed for the care and preparation for bur-

ial and transportation of human dead in this state or another state which has established standards for admission to practice funeral directing equal to, or more stringent than, the requirement for admission to practice funeral directing in this state. The funeral director apprenticeship shall be served under the supervision of a Missouri licensed funeral director. If the funeral director apprentice changes funeral establishments during the course of the apprenticeship, the apprentice shall notify the board, on the form prescribed by the board, of the name(s), location(s), and funeral establishment(s) license number of the new apprenticeship location within ten (10) business days after the change has been made.

(9) Successful completion of a funeral director apprenticeship shall consist of the following:

(A) Completed service as an apprentice funeral director for a period consisting of at least twelve (12) consecutive months in a Function C funeral establishment; and

(B) Filing with the board a notarized affidavit(s) signed by the apprentice and his/her supervisor(s) that he/she has arranged for and conducted a minimum of ten (10) funeral ceremonies under the supervision of a Missouri licensed funeral director.

(10) An apprentice will be eligible to take the funeral director examination after completion of the twelve (12) consecutive month period of apprenticeship.

(11) An applicant will be deemed to have successfully completed the funeral director examination when a score of seventy-five percent (75%) or better is achieved on each section. If the applicant fails a section of the examination, the applicant shall be permitted to retake that section of the examination.

(12) All notifications for the funeral director's examination shall be in writing and received by the board at least forty-five (45) days prior to the date the candidate plans to sit for the examination.

(13) A college accredited by a recognized national, state, or regional accrediting body may seek the approval of the State Board of Embalmers and Funeral Directors for a course of study in funeral directing by submitting a description of the program, the college catalog listing the course of study, and evidence that the program has been approved to be offered in that institution by the administration of the college and the Missouri Coordinating Board for Higher Education.

(14) An applicant shall be exempt from the requirement of successful completion of the Missouri Law examination if the applicant has successfully completed the Missouri Law examination for another Missouri license within the jurisdiction of the board if the current license remains in active status.

(15) Any funeral director that allows an unlicensed person to make at-need arrangements for the transportation or removal of a dead human body for or on behalf of the funeral director shall supervise the unlicensed person and shall be responsible for the conduct of the unlicensed person. This section shall not be construed to allow any unlicensed person to perform any other act for which a license is required by Chapter 333, RSMo.

(16) A Missouri licensed funeral director shall be present and personally shall supervise or conduct each funeral ceremony conducted by or from a Missouri licensed funeral establishment. A violation of this section will be considered misconduct in the practice of funeral directing.

(17) A Missouri licensed funeral director shall be present and personally shall supervise any disinterment, interment, entombment, or cremation as defined in 20 CSR 2120-1.040 conducted by a Missouri licensed funeral establishment. However, nothing in this rule shall be interpreted as requiring the presence of a Missouri licensed funeral director if the person(s) having the right to control the incidents of burial request otherwise. If the disinterment does not require legal notification to the county coroner or medical examiner, a funeral director's presence may not be required. A violation of this section shall be deemed misconduct in the practice of funeral directing.

(A) Once the body has been delivered to a cemetery for the purpose of interment or to a crematory for the purpose of cremation and after any funeral ceremonies have been complete, the Missouri licensed funeral director is not required to stay with the body.

(B) Nothing in this rule shall be interpreted as requiring the Missouri licensed funeral director to leave the cemetery before disposition is complete. Furthermore, nothing in this rule shall be interpreted as relieving the Missouri licensed funeral director of any responsibilities he/she has under his/her contract with the person(s) having the right to control the incidents of burial.

(18) Any licensed funeral establishment or funeral director that makes arrangements for an unlicensed person to transport dead human

bodies within the state of Missouri, or out of this state, is responsible for the conduct of the unlicensed person.

(19) A funeral director or funeral establishment licensed in another state that enters the state of Missouri solely for the purpose of transporting a dead human body through Missouri to another state, country, or territory shall not be deemed to be in the practice of funeral directing or required to obtain a license from the board. This regulation does not exempt any person or entity from complying with any applicable statutes or regulations governing the transportation of dead human bodies, including, but not limited to, Chapters 193 and 194, RSMo.

(20) A Missouri licensed funeral establishment or funeral director shall not allow an unlicensed person to make the following at-need arrangements with the person having the right to control the incidents of disposition:

(A) Arrangements for final disposition, supervision of visitation and memorial ceremony, grave attendance, cremation, entering into a contractual relationship for performance of any other funeral services;

(B) Embalming, cremation, care, or preparation; and

(C) Nothing in this subsection shall be construed to apply to persons exempt from Chapter 333, RSMo.

(21) The taking of preliminary information by an unlicensed person will not be construed as the making of at-need funeral arrangements under this rule.

(22) No temporary Missouri funeral director license authorized under section 333.041.7, RSMo, will be issued until the board has been advised as to the location of the Missouri licensed funeral establishment at which the temporary funeral director's license will be used. The holder of the temporary license shall be authorized to only work at the Missouri licensed funeral establishment(s) where the deceased and/or disabled Missouri licensed funeral director was authorized to work. Violation of this rule will be deemed unauthorized practice of funeral directing.

(23) The business and practice of funeral directing may be conducted only from a fixed place or establishment which has been licensed by the board.

(24) Limited License.

(A) A person holding a limited license shall only be allowed to work in a funeral establishment that is licensed as a Function B

establishment (cremation only). A limited funeral director shall only engage in the activities of funeral directing authorized for a Function B funeral establishment.

(B) Every person desiring a limited license shall provide the following to the board:

1. Proof of being at least eighteen (18) years of age;

2. Proof of possession of a high school diploma or its equivalent;

3. Evidence of being a person of good moral character;

4. Proof of successful completion by achieving a score of seventy-five percent (75%) or better on the Missouri Law examination;

5. Completed application form as provided by the board;

6. Payment of applicable fees;

7. Payment of any fee charged by the Missouri Highway Patrol for a criminal history background check; and

8. Any other information the board may require.

(C) Every limited licensee shall provide the board with the name, location, and license number of each Function B funeral establishment where he/she is employed.

(D) A limited licensee shall be obligated to comply with all Missouri laws governing funeral directors subject to the limitations imposed by this rule and section 333.042.2, RSMo.

(E) If a limited licensee desires to obtain a full funeral director's license, the licensee shall be required to complete an apprenticeship consisting of at least twelve (12) consecutive months as required by section 333.042.2, RSMo, and accompanying regulations OR fulfill the education requirements set forth in section 333.042.3, RSMo. The limited licensee shall also provide to the board proof of successful completion of the remaining sections of the funeral director examination as required by these regulations. The applicant shall be exempt from the requirement of successful completion of the Missouri Law section if the applicant has successfully completed the Missouri Law section within twelve (12) months of the date that the board receives the new application.

(25) All certificates, registrations, and licenses, or duplicate copies thereof, issued by the State Board of Embalmers and Funeral Directors shall be displayed at all times in a conspicuous location accessible to the public in each office(s) or place(s) of business where they work, for inspection by any duly authorized agent of the board.

(26) Should an individual desire to obtain a Missouri funeral director's license after his/her license has become void under section 333.081.3, RSMo, the individual shall be required to make new application and pay all applicable fees to the board. No previous apprentice, application, or examination will be considered for the new application. However, the board shall accept the successful completion of the National Board Funeral Service Arts or the Missouri Funeral Service Arts examination for new application.

(27) A Missouri licensed funeral director may engage in the practice of funeral directing in the state of Missouri only in Missouri licensed funeral establishments. Each Missouri licensed funeral director shall inform the board in writing, in a timely manner, of each Missouri licensed funeral establishment name(s), location(s), and license number(s) where the Missouri licensed funeral director is engaged in funeral directing.

(28) A Missouri licensed funeral director has the ongoing obligation to keep the board informed if the licensee has been finally adjudicated or found guilty, or entered a plea of guilty or *nolo contendere*, in a criminal prosecution under the laws of any state or of the United States, whether or not sentence was imposed. This information shall be provided to the board within thirty (30) days of being finally adjudicated or found guilty.

(29) Person Deemed to be Engaged in the Practice of Funeral Directing.

(A) No person shall be deemed by the board to be engaged in the practice of funeral directing or to be operating a funeral establishment if the person prepares, arranges, or carries out the burial of the dead human body of a member of one's own family or next of kin as provided by section 194.119, RSMo, provided that the activity is not conducted as a business or for business purposes.

(B) The board shall not deem a person to be engaged in the practice of funeral directing or to be operating a funeral establishment if the person prepares, arranges, or carries out the burial of a dead human body pursuant to the religious beliefs, tenets, or practices of a religious group, sect, or organization, provided that the activity is not conducted as a business or for business purposes.

(30) The rules in this division are declared severable. If any rule, or section of a rule, is held invalid by a court of competent jurisdiction or by the Administrative Hearing Commission, the remaining provisions shall remain in full force and effect unless otherwise determined by a court of competent

jurisdiction or by the Administrative Hearing Commission.

20 CSR 2120-2.070 Funeral Establishments

PURPOSE: This rule clarifies establishment license classifications, establishment names, and the documents to be maintained by licensed funeral homes.

(1) Application for a Missouri licensed funeral establishment license shall be made on the forms provided by the board and be accompanied by the appropriate fee. Applications are available from the board's office or the

board's website at <http://pr.mo.gov/embalmers.asp>. Each application shall indicate which license classification is being sought.

(2) There shall be the following license classifications.

(A) Function A establishments shall have authority to embalm dead human bodies and to transport dead human bodies to and from the funeral establishment. An establishment licensed only as a Function A establishment is prohibited from the care and preparation of dead human bodies other than by embalming, and also be prohibited from making funeral arrangements or embalming arrangements with any unlicensed person, cremating, conducting visitations and funeral ceremonies, and furnishing any funeral service in connection with the disposition of dead human bodies, or selling of funeral merchandise. Each Missouri licensed funeral establishment used solely or partially for embalming shall contain a preparation room that shall be devoted to activities of, or related to, the preparation or the embalming, or both, of dead human remains and shall be equipped and maintained as described in 20 CSR 2120-2.090. Each Function A funeral establishment licensed for embalming shall maintain on the premises a register log.

(B) Function B establishments shall have authority to cremate through the use of any mechanical or chemical means dead human bodies and to transport dead human bodies to and from the funeral establishment. This establishment shall have a functioning cremation chamber and/or functioning facilities for alkaline hydrolysis chemical process for final disposition of a dead human body, except as otherwise provided by Chapter 333, RSMo, and the rules of the board. An establishment licensed only as a Function B establishment is prohibited from the care and preparation of dead human bodies other than by cremating, and is also prohibited from embalming, making funeral arrangements or cremation arrangements with any unlicensed person, conducting visitations and funeral ceremonies, and furnishing any funeral service in connection with the disposition of dead human bodies or selling funeral merchandise. In no event shall any licensee or licensed establishment cremate human remains in the same retort used for cremating non-human remains. Each Missouri licensed funeral establishment which is used solely or partially for cremations shall be equipped and maintained as described in 20 CSR 2120-2.071. This function shall maintain on the premises in the cremation area a cremation log.

(C) Function C establishments shall have

authority for the care and preparation of dead human bodies, other than by embalming or cremating, authority to transport dead human bodies to and from the funeral establishment, make funeral arrangements, furnish any funeral services in connection with the disposition of dead human bodies or the sale of funeral merchandise, and file death certificates. This function shall contain a separate area for the care and custody of dead human remains that is secured with a functioning lock and a separate area for confidential conferences to arrange funeral services. The Function C establishment shall have on-site equipment necessary for arranging funeral services including tables or desks and chairs for funeral service arrangement conferences and file cabinets for the confidential storage of funeral records. This function shall contain an available restroom and drinking water in the building and an area where funeral ceremonies or visitations may be conducted. The establishment shall be equipped with seating for visitations or funeral ceremonies, casket bier, register book stand, and officiate stand. This function shall maintain on the Missouri premises the following documents:

1. General price list;
2. Preneed contracts which have been cancelled or fulfilled;
3. Written Statements of Goods and Services;
4. Authorizations to embalm or cremate; and
5. Register log.

(D) Function D establishments shall have authority to conduct visitations and funeral ceremonies only. A Function D license is dependent upon and shall be operated under the supervision and ownership of a Function C establishment. This function shall contain an available restroom and drinking water in the building, and an area where funeral ceremonies or visitations may be conducted. The establishment shall be equipped with seating for visitations or funeral ceremonies, casket bier, register book stand, and officiate stand. Each Function D funeral establishment shall maintain on the premises a register log.

(E) Function E establishment shall have authority to make funeral arrangements and furnish any funeral services in connection with the disposition of dead human bodies or the sale of funeral merchandise and file death certificates. This function shall have a separate area for confidential conferences to arrange funeral services. The Function E establishment shall have on site tables or desks and chairs for funeral service arrangement conferences and file cabinets for the confidential storage of funeral records. This function shall contain an available restroom

and drinking water in the building. The establishment is to be used only for arranging funerals and visitations to be conducted at another facility, no services shall be held at this establishment. This function shall maintain on the premises the following documents:

1. General price list;
2. Preneed contracts which have been cancelled or fulfilled;
3. Written Statements of Goods and Services;
4. Authorizations to embalm or cremate; and
5. Register log.

(3) If a Missouri licensed funeral establishment wishes to add to its classification, it shall file a new application for a Missouri licensed funeral establishment indicating its new classification. If a Missouri licensed funeral establishment desires to eliminate one (1) of its functions, it shall notify the board in writing of its intention to surrender the function, but is not required to file a new application for a new Missouri licensed funeral establishment.

(4) A Missouri licensed funeral establishment shall be used only for the function for which it is licensed.

(5) Each application for a funeral establishment shall be made in the name of the person or business entity authorized to conduct business in Missouri. No license shall be issued to an establishment that has no legal recognition. A Missouri licensed funeral establishment shall maintain a current and active authorization to conduct business in Missouri with the Missouri Secretary of State.

(6) A funeral establishment application shall indicate the name and license number of the Missouri licensed funeral director-in-charge, as defined by 20 CSR 2120-1.040. When the Missouri licensed funeral director-in-charge changes, the new Missouri licensed funeral director-in-charge and the former Missouri licensed funeral director-in-charge, jointly or individually, shall notify the board of the change within fifteen (15) days of the date when the change first occurs. Failure to notify the board is a violation of this rule on the part of each Missouri funeral director licensee and on the part of the Missouri licensed funeral establishment. A change in the Missouri licensed funeral director-in-charge does not require a new Missouri licensed funeral establishment license.

(7) Within thirty (30) days after an applica-

tion for a Missouri licensed funeral establishment has been received in the board's office, the board shall cause the establishment to be inspected. The board shall act on the application and, within thirty (30) days after the application was received in the board's office, the applicant will be advised whether the license is granted or denied. If an applicant determines the establishment will not meet the qualifications for inspection or licensure within the thirty- (30-) day application period, up to two (2) thirty- (30-) day extensions of the application may be requested by the applicant in writing to the board before the application expires. Each request for an extension shall be received by the board prior to the expiration of the application or extension period.

(8) The establishment license issued by the board is effective for a fixed place or establishment and for a specific name of a person or entity authorized to conduct business in Missouri. The license issued by the board shall be displayed in a conspicuous location accessible to the general public at that location. Whenever the ownership, location, or name of the Missouri licensed establishment is changed, a new license shall be obtained. If the Missouri licensed funeral establishment maintains a chapel, preparation room, or other facility in a building or portion physically separated from and located at a place designated by an address differing from the office, chapel, or other facilities of the applicant, the chapel, preparation room, or other funeral facility otherwise located shall be deemed to be a separate funeral establishment. Nothing contained in this rule shall be construed or interpreted to require a separate registration for a building if it is joined or connected by a private passage, walk or driveway existing between the registered establishment and the other building.

(A) If a change of ownership is caused by the elimination of a majority of the owners, for whatever reason (death, sale of interest, divorce, etc.) without the addition of any new owner(s), it is not necessary to obtain a new establishment license. However, a new application for an establishment license form shall be filed as an amended application prior to the change of ownership.

(B) A corporation is considered by law to be a separate person. If a corporation owns a Missouri licensed funeral establishment, it is not necessary to obtain a new establishment license or to file an amended application for an establishment license if the owners of the stock change.

(C) However, as a separate person, if a corporation begins ownership of a Missouri

licensed funeral establishment or ceases ownership of a Missouri licensed funeral establishment, a new establishment license shall be obtained regardless of the relationship of the previous or subsequent owner to the corporation.

(9) The professional business and practice of funeral directing shall be conducted only from a fixed place or establishment that has been licensed by the board except as permitted by section 333.071, RSMo. The Missouri licensed funeral establishment physical facility shall be under the general management and supervision of the Missouri licensed funeral director-in-charge. Every Missouri licensed funeral establishment shall provide and allow access to any member or agent of the board for the purpose of inspection, investigation, examination, or audit as authorized in Chapters 333 and 436, RSMo. If any representative of the Missouri licensed funeral establishment fails or refuses to provide or allow access, it shall be considered a violation of this rule by the Missouri licensed funeral establishment and by the Missouri licensed funeral director-in-charge of the Missouri licensed funeral establishment. Additionally, if the Missouri licensed funeral establishment representative who fails or refuses to provide or allow access holds any license or registration issued by this board, that person is in violation of this rule.

(10) No one licensed by this board may be employed in any capacity by an unlicensed funeral establishment. Violation of this section will be deemed misconduct in the practice of embalming or funeral directing.

(11) Only one (1) Missouri funeral establishment license will be issued by this board for any physical address that is considered to be a Missouri licensed funeral establishment as defined by statute and rule.

(12) If a Missouri funeral establishment licensed by this board is destroyed by fire or some other disaster or act of God, the board, in its discretion, for a period of not more than six (6) months, may allow the Missouri licensed funeral establishment to continue its operation from another Missouri licensed funeral establishment or from a facility that has not been licensed as a funeral establishment if the facility meets the minimum requirements for the functions outlined in section (2) of this rule. The temporary location is not intended for long-term use, but rather as a means to maintain the business of the Missouri licensed establishment while it actively pursues the steps necessary to re-open its

facilities at the licensed location.

(A) If the Missouri licensed funeral establishment has not been able to re-open its facilities at the licensed location within the initial six (6) months, then the Missouri licensed funeral establishment may make a written request to the board for an additional six (6) months to continue to operate from its temporary location which the board may grant, at its discretion. In order to operate at a temporary location, the Missouri licensed funeral establishment must take all steps necessary to maintain its establishment license in a current and active status.

(B) If the Missouri licensed funeral establishment is unable to re-open its facilities at its licensed location after the expiration of the second six (6) month extension, then the Missouri licensed funeral establishment may make a written request and make an appearance before the board to present its plan to re-open at the licensed location and show good cause for any additional extension.

(C) Before a Missouri licensed funeral establishment operates at any location other than its licensed location, that establishment must make a written request to the board that sets forth the reason a temporary location is required, the address of the requested temporary location, and show a legal right to occupy the premises at the temporary location that may include a deed, a rental agreement, a letter from the owner of the temporary location, or other similar written documentation. Upon approval of the temporary location, the board shall issue its written notice of approval. The temporary location may not be used by the licensee until it receives that written notice of approval from the board.

(D) When the Missouri licensed funeral establishment is ready to re-open the facilities at the licensed location, it must notify the board, in writing, that it is ready to re-open and the board will conduct an inspection to ensure the facilities at the licensed location comply with all requirements to be operated as a licensed establishment and upon approval will provide written notice to the establishment that it is approved to resume operations at the licensed location. No new application or application fee shall be required.

(E) In order to operate at a temporary location, the Missouri licensed funeral establishment must take all steps necessary to maintain its establishment license in a current and active status.

(13) A Missouri licensed funeral establishment may use only its registered name(s) that are registered with the board in any advertisement or holding out to the public.

(A) All signs, stationery, and any advertis-

ing in newspapers, publications or otherwise, shall include the name(s) of the Missouri licensed funeral establishment registered with the board.

(B) It is not deemed to be misleading if a listing appears in a telephone directory or national directory if the name of the Missouri licensed funeral establishment changes after the listing has been placed, but before a new directory is published.

(14) The interior and exterior of the Missouri licensed funeral establishment physical plant shall be maintained in a manner that does not present a potential or actual hazard to the health, safety, or welfare of the public and kept free and clean of litter, dirt, debris, and clutter.

(15) No person is permitted in a preparation room during the course of embalming a dead human body except the employees of the Missouri licensed funeral establishment in that the human body is being embalmed, members of the family of the deceased, and persons authorized by the members of the family of the deceased, or any person otherwise authorized by law.

(16) According to section 333.330, RSMo, the State Board of Embalmers and Funeral Directors may impose disciplinary action for failure to obtain authorization to embalm from the person entitled to custody or control of the body, if the body is embalmed. If the body is not embalmed, a Missouri licensed funeral establishment shall not hold the unembalmed body for any longer than twenty-four (24) hours unless the unembalmed body is refrigerated in a cooling unit at a temperature of forty degrees Fahrenheit (40° F) or cooler or encased in an airtight metal or metal-lined burial case, casket or box that is closed and hermetically sealed. If the deceased gave written authorization to embalm and did not revoke the authorization, the authorization shall satisfy this requirement. If the deceased did not give written authorization to embalm, the next of kin of the deceased may give authorization to embalm. Authorization to embalm may be given by the next of kin prior to the death of the person whose body is to be embalmed. Authorization to embalm given prior to death may be in any written document, including a preneed contract.

(A) The next of kin, for purposes of this rule, is defined pursuant to section 194.119.2, RSMo.

(B) Any person or friend who assumes responsibility for the disposition of the deceased's remains if no next of kin assumes

such responsibility may authorize to embalm the deceased;

(C) The county coroner or medical examiner pursuant to the provisions of Chapter 58, RSMo may authorize to embalm the deceased;

(D) If the body is required to be buried at public expense, the body shall be disposed of according to the terms of section 194.150, RSMo;

(E) If the Missouri licensed funeral establishment receives no authorization to embalm from any of the persons identified in subsections (16)(A), (B), or (C) of this rule, the Missouri licensed funeral establishment may proceed with embalming if it has attempted to locate a person from whom authorization to embalm may be obtained for at least six (6) hours and it has a written statement from city, county, or state law enforcement officials that they have assisted the Missouri licensed funeral establishment in attempting to locate such a person. However, the Missouri licensed embalmer may proceed to embalm sooner if the condition of the body is such that waiting for six (6) hours would substantially impair the ability to effectively embalm the body or if the deceased died as a result of a communicable disease, was subject to isolation at the time of death; and

(F) If a Missouri licensed embalmer proceeds to embalm a body under the provisions of subsection (16)(E), the Missouri licensed funeral establishment which employs the Missouri licensed embalmer shall not require payment for the embalming unless the funeral arrangements that are subsequently made authorized the embalming.

(17) Each Missouri licensed funeral establishment shall maintain documentation of the following information regarding authorization to embalm a body which is embalmed by or on behalf of the Missouri licensed funeral establishment—

(A) When authorization to embalm is given in writing:

1. The name of the deceased;
2. The name and signature of the person who is authorizing embalming;
3. The relationship of that person to the deceased;
4. The time and date authorization to embalm was given; and
5. The name and title of the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment; and

(B) Authorization to embalm shall be given in writing if the person authorizing embalming is present in the Missouri licensed funeral establishment or in the physical presence of

the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment. If verbal authorization to embalm is given, the Missouri licensed funeral establishment shall document:

- 1. The name of the person who is actually authorizing embalming, if different from the person who is verbally communicating authorization to embalm to the Missouri licensed funeral establishment;
2. The relationship of that person to the deceased;
3. The name of the person who is verbally communicating authorization to embalm and that person's relationship to the person who is actually authorizing embalming;
4. The time and date authorization to embalm was given; and
5. The name and title of the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment.

(18) Each Function A funeral establishment licensed for embalming shall maintain on the premises in the preparation room a register log.

(19) All documents required by this rule to be maintained, shall be maintained on the premises of the Missouri licensed funeral establishment for two (2) years from the date the record was created. All documents required to be maintained by this rule may be maintained electronically, but all documents shall be stored in such a manner to allow access by the board and so the board, or its assignee, may easily and timely obtain hard copies or electronic copies in a format easily readable by the board, or its assignee.

(20) Each funeral establishment shall maintain a register log on the premises of the licensed funeral establishment and be easily accessible and in full view for a board inspector. A register log shall include the following:

- (A) The name of the deceased;
(B) The date and time the dead human body arrived at the funeral establishment;
(C) The date and time the embalming took place, if applicable;
(D) The name and signature of the Missouri licensed embalmer, if applicable;
(E) The name and signature of the Missouri registered apprentice embalmer, if any;
(F) The Missouri licensed embalmer's license number, if applicable;
(G) The Missouri apprentice embalmer registration number, if any; and
(H) The name of the licensed funeral establishment, or other that was in charge of

making the arrangements if from a different location.

(21) No dead human body shall be buried, disinterred, interred, or cremated within this state or removed from this state, unless the burial, disinterment, interment, cremation, removal, or other authorized disposition, is performed under the direction of a Missouri licensed funeral establishment or Missouri licensed funeral director, unless otherwise authorized by law. If the disinterment does not require legal notification to the county coroner or medical examiner, a funeral director's presence may not be required. Nothing in this rule shall be interpreted to require the use of a Missouri licensed funeral establishment or director if the person(s) having the right to control the incidents of burial request or determine otherwise, provided that this provision does not exempt any person from licensure as required by Chapter 333, RSMo.

(22) A licensee shall be prohibited from knowingly using, placing, or including any false, misleading, deceptive, or materially incorrect information, or assisting or enabling any person to provide such information, on a death certificate filed in the state of Missouri.

(23) Whenever a dead human body is donated to a medical or educational institution for medical and/or scientific study and arrangements for return of the body to the legal next of kin have not been made, then delivery of the body to the medical or educational institution shall constitute final disposition. If, however, arrangements for return of the body to the legal next of kin have been made, then final disposition shall be the burial, interment, cremation, or removal of the body out of this state, after the medical or educational institution has returned the body.

20 CSR 2120-2.071 Funeral Establishments Containing a Crematory Area

PURPOSE: This rule outlines the requirements and procedures for operating a crematory establishment in Missouri.

(1) No dead human body shall be cremated in this state except in a funeral establishment licensed by the board as a Function B establishment.

(2) Each Missouri licensed funeral establishment that contains a crematory area shall maintain permanent records that include:

(A) A written authorization for cremation executed prior to cremation by the person entitled to custody or control of the body which shows the time and date when authorization for cremation was given; and

(B) Information regarding the cremation shall include:

- 1. The full name of the deceased;
2. The last place of residence of the deceased;
3. The place of death of the deceased;
4. The place of birth of the deceased;
5. The date and place of the funeral;
6. The name of the licensed funeral director, other than a funeral director limited, with whom the arrangements were made;
7. The name of the person(s) who made the arrangements with the licensed funeral director and the relationship to the deceased;
8. The date and time when cremation was begun;

9. The name and address of the person to whom the cremated remains were released or the location where the cremated remains were placed;

10. If the cremated remains were delivered or placed other than by an employee of the Missouri licensed funeral establishment, the name of the person who made the delivery or placement or the name of the business by which the cremated remains were shipped along with the receipt number; and

11. If cremation is to be performed by chemical disposition, the written authorization shall also include:

A. Specific consent for cremation by chemical process with an explanation of the process to be utilized; and

B. Disclosures on the disposition of personal property including, but not limited to, jewelry, medical devices, and any other items that might remain after the chemical disposition process is complete.

(3) Cremation log—a written record or log kept in the cremation area available at all times in full view, which will include the following:

(A) The name of the deceased to be cremated;

(B) The name of the Missouri licensed establishment where the body is cremated;

(C) The date and time the body arrived at the crematory;

(D) The date and time the cremation took place;

(E) The name and signature of the Missouri licensed funeral director supervising the cremation;

(F) The supervising Missouri licensed funeral director's license number;

(G) The name of the Missouri licensed funeral establishment that was in charge of making the arrangements if from a different location; and

(H) The type of cremation performed.

(4) All records required to be maintained by this rule shall be maintained on the premises of the Missouri licensed funeral establishment for two (2) years from the date the record was created. All documents required to be maintained by this rule may be maintained electronically, but all documents shall be stored in such a manner to allow access by the board, or its assignee, and so the board, or its assignee, may easily and timely obtain hard copies or electronic copies in a format easily readable by the board, or its assignee.

(5) If the deceased gave written authorization to cremate and did not revoke the authorization, that authorization shall satisfy the

requirement for authorization to cremate. If the deceased did not give written authorization to cremate, the next of kin of the deceased or the county coroner or medical examiner pursuant to Chapter 58, RSMo, may give authorization to cremate. Authorization to cremate given prior to the death may be in any written document, including a preneed contract. The next of kin, for purposes of this rule, is defined in section 194.119.2, RSMo.

(6) If the Missouri licensed funeral establishment receives no authorization for cremation from any of the persons identified in section (5) of this rule, the Missouri licensed funeral establishment may proceed with cremation if it has attempted to locate a person from whom authorization to cremate may be obtained for at least ten (10) days and it has a written statement from city, county, or state law enforcement officials that they have assisted the Missouri licensed funeral establishment in attempting to locate a person from whom authorization for cremation could be obtained but have been unable to locate such a person. However, the Missouri licensed funeral establishment may proceed with cremation prior to the elapse of twenty-four (24) hours if the deceased died as a result of a communicable disease, was subject to isolation at the time of death, and has not been properly embalmed in accordance with 19 CSR 20-24.010.

(7) The cremation chamber shall be completely functioning at all times and shall be constructed specially to withstand high temperatures and/or chemicals used in the cremation and to protect the surrounding structure. A Function B establishment shall not be in violation of this rule if the cremation chamber is completely restored to functioning capacity within one hundred twenty (120) days from the date the cremation chamber ceases to be in compliance with this section. However, if there are extenuating circumstances and the cremation chamber could not be repaired, documentation of such shall be provided to the board for review and approval. Cremation chambers shall be maintained in proper working order and in compliance with all applicable Missouri Department of Health and Senior Services statutes, rules and regulations, and Missouri Department of Natural Resources, statutes, rules and regulations.

(A) If a Function B has only one (1) cremation chamber and that chamber is not functioning, written notification shall be made to the board within ten (10) business days after the cremation chamber stops func-

tioning.

(B) A Function B establishment that has a nonfunctioning cremation chamber may arrange for cremation at another licensed establishment, if the use of an alternate establishment for purposes of cremation is disclosed to the person making the arrangements on the cremation authorization form and the type of cremation performed is as authorized in the written authorization to cremate. In no event shall any licensee or licensed establishment cremate human remains in the same retort or the same processor used for cremating non-human remains.

(8) The crematory area shall include a work center area equipped with forced air ventilation adequate to protect the health and safety of the operator and any other person(s) present.

(9) No person shall be permitted in the crematory area while any dead human body is in the crematory area awaiting cremation or being cremated or while the cremation remains are being removed from the cremation chamber except the Missouri licensed funeral director, the Missouri licensed embalmer, employees of the Missouri licensed funeral establishment in which the body is being cremated, members of the family of the deceased, persons authorized by the members of the family of the deceased, or any other person authorized by law.

(10) When there is no Missouri licensed funeral establishment employee in the crematory area, the crematory area shall be secure from entry by persons other than Missouri licensed funeral establishment employees or a Missouri licensed embalmer authorized by the funeral establishment.

(11) Each dead human body delivered to the crematory, if not already in a cremation container, plastic pouch, cardboard cremation container, casket made of wood or wood product or metal, shall be placed in such a pouch, container or casket. If a metal container or casket is used, the person making the arrangements shall be informed by the Missouri licensed funeral director with whom the arrangements are made of the disposition of the metal container or casket after cremation, if not placed in the retort. The cremation container shall be composed of a combustible, nonexplosive, opaque material which is adequate to assure protection to the health and safety of any person in the crematory area. The casket or container shall be leak resistant if the body enclosed is not embalmed or if death was caused by a contagious disease. Each cremation box or urn into

which the cremated remains are placed after removal from the cremation chamber shall be labeled clearly with the full name of the deceased and the name of the Missouri licensed funeral establishment with whom the arrangements were made, pursuant to Chapter 193, RSMo.

(12) The Missouri licensed funeral director with whom the arrangements are made shall make inquiry to determine the presence or existence of any body prosthesis, bridgework, or similar items.

(13) No dead human body shall be cremated, except for cremation by chemical disposition, with a pacemaker in place. The Missouri licensed funeral director with whom the arrangements are made shall take all steps necessary to ensure that any pacemakers are removed prior to cremation.

(14) The remains of only one (1) body shall be in the cremation chamber at one (1) time unless simultaneous cremation has been authorized in writing by the person(s) entitled to custody or control of each body.

(15) Following the completion of the cremation process, residual of the cremation process including the cremated remains and any other matter shall be thoroughly removed from the cremation chamber prior to placing another body in the cremation chamber.

(16) The cremation box shall be composed of rigid materials which shall be sealed in order to prevent the leakage of cremated remains or the entry of foreign objects.

(17) If the cremated remains are to be shipped, the cremation box shall be packed securely in a sturdy and sealed shipping container acceptable to the shipper.

(18) Cremated remains shall be shipped only by a method which has an internal tracing system available and which provides a receipt signed by the person accepting delivery.

(19) Each urn into which cremated remains are placed by a licensee or funeral establishment shall be made of a durable material which shall enclose the cremated remains entirely.

(20) Each Missouri licensed funeral establishment which comes into possession of cremated remains, whether or not it is the Missouri licensed funeral establishment at which the cremation occurred, shall retain the cremated remains until they are delivered,

placed, or shipped pursuant to the instructions of the person(s) entitled to custody or control of the body. However, nothing in this rule shall prohibit a Missouri licensed funeral establishment from disposing of cremated remains in another fashion if the Missouri licensed funeral establishment has obtained written permission for other disposition contingent upon the Missouri licensed funeral establishment attempting to dispose of the cremated remains according to instructions but being unable to do so through no fault of the Missouri licensed funeral establishment and provided that other disposition shall not occur prior to thirty (30) days after cremation. Any Missouri licensed funeral establishment that comes into possession of unclaimed cremated remains may also dispose of these remains pursuant to Chapter 194, RSMo.

(21) Nothing in this rule shall be construed to prohibit a Missouri licensed funeral establishment which contains a crematory area from establishing more restrictive standards for its own operation.

20 CSR 2120-2.090 Preparation Rooms/Embalming Room

PURPOSE: This rule outlines the laws and rules governing the standards required of funeral establishment preparation rooms.

(1) Whenever used in this rule, the phrase preparation room refers to that room in a Missouri licensed funeral establishment where dead human bodies are embalmed.

(2) The following requirements for the maintenance and cleanliness of preparation rooms apply at all times, regardless of whether a dead human body is being embalmed or not.

(3) Floors, Walls, and Ceilings. All preparation room floor surfaces shall be smooth, nonabsorbent materials and so constructed as to be kept clean easily. All walls and ceilings shall be easily cleanable and light colored, and shall be kept and maintained in good repair. All walls shall have washable surfaces.

(4) Sewage and Liquid Waste Disposal.

(A) All sewage and water-carried wastes from the entire Missouri licensed funeral establishment, including the preparation room, shall be disposed of in a public sewage system or an approved disposal system which is constructed, operated, and maintained in conformance with the minimum standards of the Missouri Department of Health and Senior Services and Missouri Department of Natural Resources.

(B) The following aspirators are approved for preparation rooms:

1. Electric aspirators;

2. Water-operated aspirators. All water-operated aspirators shall be protected from back siphonage by the minimum of an atmospheric vacuum breaker that is installed a minimum of six inches (6") above the highest point of the embalming table and is approved by the American Society of Sanitary Engineering (ASSE) or by the Uniform Plumbing Code; and

3. Water-controlled unit. All water-controlled units shall be installed and maintained according to the Uniform Plumbing Code, and properly protected from back siphonage with a backflow prevention device approved by the American Society of Sanitary Engineering or the Uniform Plumbing Code.

(5) Solid Waste Disposal. All waste materials, refuse, bandages, cotton, and other solid waste materials shall be kept in leakproof,

nonabsorbent containers which are properly sealed.

(6) Disposal of Body Parts. Human body parts not buried within the casket shall be disposed of by incineration in a commercial or industrial-type incinerator or buried to a depth which will insure a minimum of three feet (3') of compacted earth cover (overlay).

(7) A mechanical exhaust system is required. Care shall be taken to prevent the discharge of exhaust air into an area where odors may create nuisance problems.

(8) All preparation rooms and all articles stored in them shall be kept and maintained in a clean and sanitary condition. All embalming tables, hoppers, sinks, receptacles, instruments, and other appliances used in embalming or other preparation of dead human bodies shall be so constructed that they can be kept and maintained in a clean and sanitary condition. The following minimum standards shall apply:

(A) An eye wash kit (bank) or suitable facilities for quick drenching or flushing of the eyes shall be provided within the area for immediate emergency use;

(B) Facilities for the proper disinfection of embalming instruments and the embalming table;

(C) Facilities for the proper storage of embalming instruments. At a minimum, a chest or cabinet shall be used for the storage of embalming instruments;

(D) All types of blocks used in positioning a dead human body on an embalming table shall be made of nonabsorbent material. All wooden blocks shall be sealed and painted with enamel; and

(E) When not in use, embalming tables shall be cleaned, disinfected and covered with a sheet.

(9) Food and Beverages.

(A) There may be no direct opening between the preparation room and any room where food and beverages are prepared or served.

(10) A separate wash sink (separate from slop drain sink) shall be present or in close proximity to the preparation room for a personal hand wash facility and the disinfecting of embalming equipment. If the wash sink is not present in the preparation room, it shall be in a location close to the preparation room which is not accessible to the public and it shall be at a distance of no further than ten feet (10') from the door of the preparation room.

(11) Preparation rooms shall contain only the articles, instruments, and items that are necessary for the preparation, embalming, and final disposition of dead human bodies.

(12) Preparation rooms shall be secured with a functional lock so as to prevent entrance by unauthorized persons.

20 CSR 2120-2.110 Public Complaint Handling and Disposition Procedure

PURPOSE: This rule establishes a procedure for the receipt, handling and disposition of public complaints by the board, pursuant to the mandate of section 4.16(6) of the Omnibus State Reorganization Act of 1974, Appendix B, RSMo.

(1) The State Board of Embalmers and Funeral Directors shall receive and process each complaint made against any licensee, permit holder, registrant of the board or unlicensed individual or entity, which complaint alleges certain acts or practices which may constitute one (1) or more violations of the provisions of Chapter 333, RSMo. Any member of the public or the profession, or any federal, state or local officials may make and file a complaint with the board. Complaints shall be received from sources outside Missouri and processed in the same manner as those originating within Missouri. No member of the State Board of Embalmers and Funeral Directors shall file a complaint with this board while s/he holds that office, unless that member excuses him/herself from further board deliberations or activity concerning the matters alleged within that complaint. The executive director or any staff member of the board may file a complaint pursuant to this rule in the same manner as any member of the public.

(2) Complaints should be mailed or delivered to the following address: Executive Director, State Board of Embalmers and Funeral Directors, 3605 Missouri Boulevard, PO Box 423,

Jefferson City, MO 65102-0423. However, actual receipt of the complaint by the board at its administrative offices in any manner shall be sufficient. Complaint may be made based upon personal knowledge, or upon information and belief, reciting information received from other sources.

(3) All complaints shall be made in writing and shall fully identify the complainant by name and address. Complaints shall be made on forms provided by the board and available upon request. Oral or telephone communications will not be considered or processed as complaints, but the person making these communications will be provided with a complaint form and requested to complete it and return it to the board in written form. Any member of the administrative staff of the board or any member of the board may make and file a complaint based upon information and belief, in reliance upon oral, telephone or written communications received by the board, unless those communications are believed by that staff member to be false.

(4) Each complaint received under this rule shall be logged in a book and/or database maintained by the board for that purpose. Complaints shall be logged in consecutive order as received. The logbook and/or database shall contain a record of each complainant's name and address; the name and address of the subject(s) of the complaint; the date each complaint is received by the board; a brief statement of the acts complained of, including the name of any person injured or victimized by the alleged acts or practices; a notation whether the complaint resulted in its dismissal by the board or informal charges being filed with the Administrative Hearing Commission; and the ultimate disposition of the complaint. This logbook and/or database shall be a closed record of the board.

(5) Each complaint received under this rule shall be acknowledged in writing. The acknowledgment shall state that the complaint is being referred to the board for consideration at its next regularly scheduled meeting. The complainant shall be informed as to whether the complaint is being investigated, and later, as to whether the complaint has been dismissed by the board, or is being referred to legal counsel for filing with the Administrative Hearing Commission. The complainant shall be notified of the ultimate disposition of the complaint, excluding judicial appeals and shall be provided with copies of the decisions (if any) of the Administrative Hearing Commission and the board at that time. Provided, that the provisions of this section shall not apply to complaints filed by

staff members of the board based on information and belief, acting in reliance on third-party information received by the board.

(6) The chairman of the board, from time-to-time and as s/he deems necessary, may instruct the board inspector/investigator to investigate any complaint before the complaint has been considered at a regularly scheduled board meeting. The inspector/investigator shall provide a report of any actions taken to the board at its next regularly scheduled meeting.

(7) Both the complaint and any information obtained as a result of the investigation shall be considered a closed record and shall not be available for inspection by the general public. However, a copy of the complaint and any attachments shall be provided to any licensee who is the subject of that complaint, or his/her legal counsel, upon written request to the board.

(8) This rule shall not be deemed to limit the board's authority to file a complaint with the Administrative Hearing Commission charging a licensee of the board with any actionable conduct or violation, whether or not the complaint exceeds the scope of the acts charged in a preliminary public complaint filed with the board, and whether or not any public complaint has been filed with the board.

(9) The board interprets this rule, which is required by law, to exist for the benefit of those members of the public who submit complaints to the board and for those persons or entities within the legislative and executive branches of government having supervisory or other responsibilities or control over the professional licensing boards. This rule is not deemed to protect, or inure to the benefit of, those licensees or other persons against whom the board has instituted or may institute administrative or judicial proceeding concerning possible violations of the provisions of Chapter 333, RSMo.

20 CSR 2120-2.115 Procedures for Handling Complaints Against Board Members

PURPOSE: This rule establishes a procedure for the receipt, handling and disposition of complaints filed against members of the board.

(1) Complaints against members of the board will be handled in the same manner as complaints against other licensees with minor variations specifically described in this rule.

(2) When a complaint against a board member is received by the staff, the staff shall take steps to make sure that the complaint is on the proper form(s) (that is, the Uniform Complaint Form). Once the complaint is received in the proper form, the complaint will be mailed to all members of the board except the member who is the subject of the complaint. The member who is the subject of the complaint will automatically receive a summary of the complaint and will receive all agendas or other notices pertaining to when and where the complaint will be discussed. If the member who is the subject of the complaint requests additional information in writing, that information will be provided by the staff in consultation with the chairman (or vice-chairman, if the chairman is the subject of the complaint). In no event will the member who is the subject of the complaint be given information by the board or its staff which would reveal the name of the complainant, unless the member would have access if s/he were not a member of the board. If the board member learns the complainant's identity from the complainant, other board members and the staff subsequently may include the complainant's name in communication with the board member.

(3) At the meeting when the complaint is discussed, the board member who is the subject of the complaint shall not be present during discussion of the complaint unless by vote or consensus the remaining board members request the presence of the board member in question. The board member shall not participate in discussion of the complaint as a member of the board but shall participate in the same manner as any other licensee who is invited to appear before the board to discuss a complaint. The board member may be asked to leave the room at any time during the discussion. The board member shall leave the room prior to any vote which will determine the manner in which the complaint will be handled.

(4) After the remaining board members have completed voting on all action to be taken as

a result of the complaint, the board member may return to the room. At that time, the board chairman (or vice-chairman, if the chairman is the subject of the complaint) will inform the board member of the action which the board has decided to take.

(5) If the board decides to have the complaint investigated, a copy of the investigative report will be mailed to all board members except the board member who is the subject of the complaint. The board member who is the subject of the complaint will be sent a copy of any notice or agenda which indicates that the investigative report will be discussed. The meeting at which the investigative report is discussed will follow the same procedures outlined in section (4) for the meeting at which the complaint is discussed.

(6) If the board chooses to take no further action as a result of the complaint or the investigative report, the board member will be informed of this decision. The board member will not subsequently have access to the investigative report or the complaint unless the member would have that access if s/he were not a member of the board.

(7) If the board chooses to refer the case to the attorney general's office, the board member will be informed of that fact. The board member will not be allowed access to the complaint or investigative report by virtue of his/her status as a board member. If the attorney assigned to the case chooses to release these documents to the board member or if the attorney is required for legal reasons to release these documents to the board member, the board member will be permitted access to the documents released by the attorney.

(8) The board member will not be present during any discussion of the case once the board has voted to refer the case to the attorney general's office. The exception to this rule will be only for prearranged formal meetings to discuss settlement, if the attorneys for both parties agree. The other board members will not discuss the case with the board member who is the subject of the case except at the formal meeting.

(9) The board member has the right to be represented by counsel at all formal or informal proceedings. Admissions made by the board member at or outside a board meeting may be used against the board member at hearing.

(10) The board member shall not have access to that portion of the minutes of any meeting which reflects discussion, motions or votes related to the complaint or case against the

board member. These minutes shall be kept separately as special closed minutes and shall not be shared with the board member by the other board members or the staff unless the board member would be entitled to access to the minutes if s/he were not a board member.

(11) The provisions of sections (1)–(10) of this rule shall apply to any complaint against a Missouri licensed funeral establishment at which a member of the board is employed or with which a member of the board is associated.

(12) The provisions of sections (1)–(10) of this rule shall apply to any complaint against any preneed registrant by which a member of the board is employed or with which a member of the board is associated, including, but not limited to, a complaint against a preneed seller who sells for a Missouri licensed funeral establishment with which a member of the board is associated. A board member will be considered to be employed by or associated with a preneed registrant if the board member receives a salary or wages from the preneed registrant or if a board member has an ownership interest in a preneed registrant. However, these procedures shall not apply to a board member who only receives commissions from the preneed registrant. Each member of the board shall keep the board's executive director notified of the preneed registrants by which the board member is employed and with which the board member is associated.

(13) The remaining members of the board may vote to exclude a member from participating in any matter based upon a conflict of interest. The vote must be a majority vote of all of the members present and voting except the member who is the subject of the vote. Participation shall include, but not be limited to, receipt of materials, presence during discussion and voting.

20 CSR 2120-2.120 Public Records

PURPOSE: This rule establishes standards of compliance with Chapter 610, RSMo, as it

relates to public records of the State Board of Embalmers and Funeral Directors.

(1) All public records of the State Board of Embalmers and Funeral Directors shall be open for inspection and copying by the general public at the board's office during normal business hours, holidays excepted, except for those records closed pursuant to section 610.021, RSMo. All public meetings of the State Board of Embalmers and Funeral Directors, not closed pursuant to the provisions of section 610.021, RSMo, will be open to the public.

(2) The board hereby closes all individually identifiable personnel records, performance ratings, or records pertaining to employees or applicants for employment of the board, except that this exemption shall not apply to the names, positions, salaries, and lengths of service of officers and employees of the board once they are employed.

(3) The State Board of Embalmers and Funeral Directors establishes the executive director of the board as the custodian of its records as required by section 610.023, RSMo. The executive director is responsible for maintaining the board's records and for responding to requests for access to public records and may appoint deputy custodians as necessary for the efficient operation of the board.

(4) When the custodian believes that requested access is not permitted under Chapter 610, RSMo, the custodian shall inform the requesting party that compliance cannot be made, specifying what sections of Chapter 610, RSMo, require that the record remain closed. Correspondence or documentation of the denial shall be copied to the board's general counsel. The custodian also shall inform the requesting party that he/she may appeal directly to the board for access to the records requested. The appeal and all pertinent information shall be placed on the agenda for the board's next regularly scheduled meeting. If the board reverses the decision of the custodian, the board shall direct the custodian to advise the requesting party and supply access to the information during regular business hours at the requesting party's convenience.

(5) The custodian shall maintain a file that will contain copies of all written requests for access to records and responses to these requests. The requests shall be maintained on file with the board for a period of one (1) year and will be maintained as a public record of the board open for inspection by

any member of the general public during regular business hours.

(6) Whenever a request for inspection of public records is made and the individual inspecting the records requests copies of the records, the board may charge a reasonable fee for the cost of inspecting and copying the records as follows:

(A) A fee for copying public records shall not exceed the actual cost of the document search and duplication; and

(B) The board may require payment for these fees prior to making the copies.

20 CSR 2120-2.220 Renewal of Licenses for Military Members

PURPOSE: This rule sets forth the procedure for renewal of a license held by a licensee on active military duty and for discipline of a license held by a licensee on active military duty.

(1) Any licensee who is a member of the United States Armed Forces or any military or militia of the state of Missouri, as defined in section 41.030, RSMo, shall be exempt from the requirement to renew his or her license if—

(A) The licensee is on active duty, meaning full time duty in the active military service of the United States as defined in Section 101(a)(5), Title 10 of the U.S. Code or of the active military forces of Missouri under section 41.030, RSMo;

(B) At the time of activation, the licensee held a current and active license with the board in Missouri and was licensed or certified to engage in his or her profession in this state; and

(C) The licensee complies with the provisions of this rule to notify the board of the active military duty.

(2) While a licensee meeting the requirements of this rule is on active duty, as set forth above, each license of the licensee will be renewed without payment of renewal fees or any other act required for renewal while the licensee is on active military duty and up to two (2) years from the date the licensee ceases active military duty, if the following criteria are met:

(A) The licensee notifies the board in writing on a form provided by the board or by other written communication accepted by the board as a Notice of Active Military Duty and requests license renewal;

(B) This written Notice of Active Military Duty shall be signed and dated by the licensee and contain the name, address, and license number of the licensee, the date of activation, and be accompanied by a copy of the licensee's active duty orders or other evidence sufficient for the board to determine the dates of active service by licensee;

(C) If the licensee requests waiver of any continuing education requirement, this request may be made at the time the Notice of Active Military Duty is filed. The Notice of Active Military Duty may be filed with the board at any time up to one hundred eighty (180) days from the date the licensee ceases active military duty;

(D) If any of licensee's licenses have lapsed for non-renewal during this period

before the Notice of Active Military Duty has been filed, all licenses will be reinstated upon the filing of the Notice of Active Military Duty with no additional requirements for reinstatement. All such reinstatements are retroactive to the last renewal date after the licensee went on active duty and the license is deemed as having been active from that date until the license is reinstated;

(E) If licensee files the Notice of Active Military Duty prior to a license renewal date, the board will renew all licenses, without any further requirement, until either the licensee notifies the board that active military duty has ceased or a license has not been renewed for a period of one hundred eighty (180) days from the date the active military duty ceased. The licensee shall have the duty to notify the board when his or her active military duty ceases within one hundred eighty (180) days from the date the active duty ceases. The board will deem licensee's license current and active until the end of the one hundred eighty (180) days and after that time, the licensee's license shall be due for renewal at the next license regular renewal date; and

(F) The licensee on active military duty shall not be required to pay any license renewal fees during the period of active military duty and up to one hundred eighty (180) days after the end of the active military duty. If a license lapses at any time during active military duty, that license will be reinstated with no further requirements, other than the filing of the Notice of Active Military Service.

(3) If, at the time of activation, licensee's license was subject to discipline, the disciplinary period shall be stayed during the time of licensee's active duty military service and reinstated at the time the license is reinstated. However, if the conditions of the discipline require the licensee to take any action or meet any obligations, licensee shall have at least one hundred eighty (180) days after the end of active military duty to take those actions or fulfill those obligations.

(4) If during the time licensee is on active military duty, the board desires to pursue any disciplinary or administrative action against any license of the licensee, the board shall stay any such action until at least sixty (60) days after the end of the active military duty.

(5) Any licensee who holds a current license and is a member of any United States or state of Missouri military, including any reserve members and any member of the United States Public Health Service, who is engaged in the active duty in the military service of

the United States or the state of Missouri and who is engaged in the performance of active duty in the military service of the United States in a military conflict in which reserve components have been called to active duty for any period of more than thirty (30) days and who have had any license lapse while performing this military service, may renew/reinstate such license, without penalty by—

(A) Filing with the board a Notice of Active Military Duty on a form provided by the board or by written communication accepted by the board that is signed and dated by the licensee and contains the licensee's name, address, the type of license and license number of the licensee, the date of active duty activation, and is accompanied by a copy of the licensee's active duty orders or other evidence sufficient for the board to determine the dates of active military duty by licensee; and

(B) Such Notice of Active Military Duty shall be filed with the board along with the request for license reinstatement no later than sixty (60) days after the end of active military duty.

(6) Upon filing the Notice of Active Military Duty, the board will reinstate licensee's license with no further requirements, retroactive to the last renewal.
