(N) “Degree” means any award, earned or honorary, conferred with the designation of associate, baccalaureate, master, professional or professional development, specialist, or doctorate.

(2) Jurisdiction.

(A) This rule is applicable to all proprietary schools requiring a certificate of approval to operate under the provisions of sections 173.600 through 173.619, RSMo, or any person requiring an exemption from the provisions of sections 173.600 through 173.619, RSMo, by the Coordinating Board under section 173.616.2, RSMo. Any person establishing a physical presence in Missouri to operate a school, to instruct students, or to recruit students is subject to this rule. The Coordinating Board shall also deem the act of a school to grant degrees or certificates as establishing that such school engages in education and instruction and is required to obtain a certificate of approval or exempt sta-

tus.

(B) After receiving a certificate of approval to operate, the school shall—

1. Operate in compliance with the standards and procedures established in this rule; and

2. Maintain institutional and student data and information, as stipulated in this rule, and make such records available for department examination.

(C) No proposed new school may operate without the issuance of a certificate of approval to operate. Certificates of approval shall be issued or denied on the basis of required estimates, assurances, or verifications of planned operations as provided in the application. Evidence that a new school is willfully failing to implement the estimates, assurances, or verifications shall be deemed grounds to revoke or suspend the certificate of approval to operate or to place the school on probation. After initial certification, application for renewal of the certificate of approval shall be on the same basis as for existing schools.

(D) Without either holding a certificate of approval to operate or being exempted from certification, any school or any agent acting in such school's behalf is prohibited from:

1. Entering into any signed contract or agreement for enrollment in any course or program of instruction between the school or any agent acting in behalf of the school and any potential or prospective student;

2. Receiving any financial payment or promise of payment from any potential or prospective student;

3. Announcing, advertising, or otherwise conveying the beginning of classes or instruction or any date for the opening of the school, or otherwise soliciting students for enrollment;

4. Commencing any instructional activity;

5. Making any claim or reference to having an approved, certified, or pending applicant status with the Coordinating Board or Department of Higher Education or the state of Missouri; and/or

6. Giving, awarding, or granting any certificates or degrees as defined in the authorizing statute or this rule.

(E) No school shall advertise or purport to be a Missouri school or to have a Missouri presence, or use a Missouri address on its letterhead or other publications, unless that school actually operates in this state and is either duly exempted from or certified under the provisions of this rule.

(F) Failure to maintain compliance with standards, procedures, or records maintenance and availability requirements shall be

grounds for the revocation or suspension of a certificate of approval to operate or for placing a school on probation.

(3) Exemption.

(A) Schools That Shall Be Exempt by Statute. The following schools, training programs, and courses of instruction shall be exempt from the provisions of sections 173.600 to 173.619, RSMo, and formal application for that exemption is waived:

1. A public institution;

2. Any college or university represented directly or indirectly on the advisory committee of the Coordinating Board for Higher Education as provided in subsection 3 of section 173.005, RSMo;

3. An institution that is certified by the board as an "approved private institution" under subdivision (2) of section 173.1102, RSMo; and

4. A not-for-profit religious school that is accredited by the American Association of Bible Colleges, the Association of Theological Schools in the United States and Canada, or a regional accrediting association, such as the North Central Association, that is recognized by the Council on Postsecondary Accreditation or its successor organization and the United States Department of Education.

(B) Schools That Shall Be Exempted by the Coordinating Board. Upon application, on forms provided by the department and documentation of eligibility, as provided in this rule, the Coordinating Board shall exempt schools, training programs, and courses of instruction from the provisions of sections 173.600 through 173.619, RSMo.

1. Once granted, a status of exemption shall be subject to periodic review. As determined by the department, continued eligibility for exemption shall be demonstrated and verified in the application for exemption and is subject to review and further determination by the department at any time. The department may withdraw exemption status for proper cause, such withdrawal constituting a denial of exemption, or require a subsequent application for exemption.

2. Decision on the application for exemption shall be furnished to the school in writing. If exemption is denied, the basis for the denial shall be stated and the notice will be accompanied by forms on which to submit application for certification to operate. Denial of exemption may be appealed to the Administrative Hearing Commission.

3. Schools shall be exempt under the following categories:

A. Religious exemption. A not-for-profit school owned, controlled, and operated

by a bona fide religious or denominational organization that offers no programs or degrees and grants no degrees or certificates other than those specifically designated as religious degrees or programs shall be exempted upon satisfactory evidence of—

(I) The identity and bona fide nature of the religious denomination or organization, together with documentation of ownership, control, and operation of the school by the religious denomination or organization; and

(II) The identity and designation of all degrees or certificates offered, including both honorary and earned.

B. Eleemosynary exemption. A not-for-profit school owned, controlled and operated by a bona fide eleemosynary (charitable) organization that provides instruction with no financial charge to its students and at which no part of the instructional cost is defrayed by or through programs of governmental student financial aid, including grants and loans, provided directly to or for individual students shall be exempted upon satisfactory evidence of—

(I) The identity and bona fide nature of the eleemosynary organization; and

(II) The sources of income through which instructional costs are defrayed.

C. Nonvocational exemption. A school that offers instruction only in subject areas that are primarily for avocational or recreational purposes (as distinct from courses that are creditable toward a certificate or degree or that teach employable or marketable knowledge or skills) shall be exempted upon satisfactory evidence that the school does not—

(I) Advertise its instruction as having occupational objectives or as conveying employable or marketable skills or knowledge;

(II) Advertise or maintain placement services or cite placement rates; and

(III) Grant any form of certificate or degree other than a certificate of course completion.

D. Employer exemption. A course of instruction, study, or training program sponsored by an employer for the training and preparation of its own employees shall be exempted upon satisfactory evidence that—

(I) No form of certificate or degree, or credit toward a certificate or degree, is granted other than a certificate of course completion;

(II) The training or instruction is available exclusively to employees of the sponsoring employer;

(III) The training or instruction is provided at no cost to the employee;

(IV) The training or instruction is not the primary activity of the employer; and

(V) If the training or instruction is provided through a second party school or other entity, a contract or agreement between the employer and the other entity shall exhibit that the training or instruction will be provided in compliance with parts (3)(B)3.D.(I)–(IV) of this rule.

E. Professional organization exemption. A course of study or instruction conducted by a trade, business, or professional organization with a closed membership where participation in the course is limited to bona fide members of the trade, business, or professional organization shall be exempted upon satisfactory evidence that—

(I) No form of certificate or degree, or credit toward a certificate or degree, is granted other than a certificate of course completion;

(II) The organization's membership is limited to bona fide members of the trade, business, or profession;

(III) The training or instruction is available exclusively to bona fide members of the trade, business, or professional organization; and

(IV) If the training or instruction is provided through a second party school or other entity, a contract or agreement between the organization and the other entity shall exhibit that the training or instruction will be provided in compliance with parts (3)(B)3.E.(I)–(III) of this rule.

F. State examination preparation exemption. A course of study or instruction for persons in preparation for an examination given by a state board or commission where the state board or commission approves that course and school shall be exempted upon satisfactory evidence that the state board or commission has approved the course and school.

G. Students primarily under age sixteen (16) exemption. A school or person whose clientele are primarily students aged sixteen (16) or under shall be exempt upon satisfactory evidence that students enrolled are primarily under the age of sixteen (16). Primarily, at a minimum, shall mean seventy-five percent (75%). The Coordinating Board shall exempt, without application, all preschool, Montessori, and elementary and secondary schools subject to the standards of the Missouri Department of Elementary and Secondary Education. If, however, any private school with clientele primarily under the age of sixteen (16) offers any postsecondary degree or certificate, it shall not be eligible for this exemption.

H. Licensed schools exemption. A school that is otherwise licensed and approved under and pursuant to any other licensing law of this state shall be exempted upon satisfactory evidence that the school has been lawfully licensed or approved by another Missouri state agency. A state certificate of incorporation shall not constitute licensing or approval for the purposes of eligibility for this exemption. A school that offers programs of instruction other than those included within the license or approval of another state agency shall not be eligible for this exemption.

(C) Any school, training program or course of instruction exempted herein may elect by majority action of its governing body or by action of its director to apply for approval of the school, training program, or course of instruction under the provisions of sections 173.600 to 173.619, RSMo. However, any such school, if granted a certificate of approval to operate, shall comply with this rule as though such school were nonexempt. An exempted school, voluntarily seeking and receiving certification, may revert to exempt status upon application for exemption and approval by the Coordinating Board but the board shall not grant exemption if the school is deemed in noncompliance with certification standards at the time of the application and reversion to an exempt status shall not relieve the school of any liability for indemnification or any penalty for noncompliance with certification standards during the period of the school's approved status.

(4) Application for Certificate of Approval to Operate.

(A) Application for certification shall be submitted on application forms furnished by the department and must be submitted on or prior to the expiration date with which the forms are stamped when distributed. Decision on an application for certification shall be made on the basis of—

1. Compliance with the standards set forth in this rule and the authorizing statute;

2. Compliance with the instructions for fully completing and submitting the application forms and exhibits;

3. Information, documentation, or verification submitted or received from any source in supplement to the pending application;

4. Research, information, and other documentation collected by the department or by independent experts or consultants; and

5. Site visitation and/or personal interview as deemed appropriate by the department.

(B) The department may give faith and credit consideration to accreditation by a

national or regional accrediting association recognized by the United States Department of Education and to approval by other governmental agencies, including certification or licensing approval by another state. The department may waive any part of the certification procedure for reason of such accreditation or approval.

(C) The department may waive any part of the certification procedure in any instance where such procedure is deemed by the department to be unnecessary or inappropriate for a given school applicant.

(D) The submission of applications should allow adequate lead time prior to the applicant's planned date for starting school operations. The applicant's planned start date shall not normally be a consideration for the time frame for decision on an application. Incomplete or inaccurate applications may be returned to the applicant for resubmission. Failure of the applicant to respond in a timely manner to requests for supplementary information or for resubmission of the application may result in the assessment of a late fee and/or denial of certification to operate.

(E) Annual Recertification.

1. Certificates to operate shall be issued for a maximum of a one- (1-) year period, and schools must submit application and be certified annually.

2. The annual certification year shall be from July 1 to June 30.

3. Schools initially certified shall be certified from the date of issuance of the certificate of approval to operate to the end of the certification year, June 30.

4. The closing date for the submission of applications for annual recertification shall be the March 15 immediately preceding the beginning of the certification year, and, contingent upon a school submitting an acceptable application on or prior to that closing date, a school's certification status shall not lapse in the event a recertification decision is delayed past the expiration of the then current certification year.

5. Failure to submit application by the prescribed closing date shall be grounds, without other considerations, for the assessment of a late fee and/or denial of a certificate of approval to operate for the next certification year.

(F) Biennial Recertification.

1. Schools that meet eligibility criteria may request a certificate of approval to operate that is valid for a two- (2-) year period. To be eligible for a biennial certificate of approval, a school must—

A. Be in continuous operation for a period of no less than five (5) years;

B. Maintain a location or locations in Missouri where, from, or through which education is offered;

C. Hold current institutional accreditation from a national or regional accrediting association recognized by the United States Department of Education and have no current disciplinary actions such as warnings, probation, show cause or other negative actions from the accreditor, meaning any requirement imposed by an accrediting agency in response to a violation of accreditation criteria that requires a response by the institution or that results in the need for a follow-up visit by the accrediting commission;

D. For schools currently participating in Title IV, currently maintain the general standards of financial responsibility as outlined by the United States Department of Education's current Federal Student Aid Handbook and its successor publications;

E. Have no findings from the school's most recent department site visit that have not been satisfactorily resolved within sixty (60) days of formal notification;

F. Have not been placed in a probationary status, within the previous five (5) years, by the department that has not been resolved within the time frame provided by the probation notice;

G. Have no formal grievance in the five (5) years prior to application for biennial recertification that the department has officially determined constituted a violation of certification standards;

H. Maintain an official cohort default rate of no more than five percent (5%) below the official threshold rate published by the United States Department of Education; and

I. Have not added more than one (1) new branch during the most recent term of biennial recertification granted by the department.

2. Failure to maintain eligibility criteria will result in rescission of the biennial recertification. Schools will be issued a certificate that must be renewed annually. Schools may not reapply for biennial recertification for two (2) years from the date of notification by the department and must meet all eligibility criteria.

3. A school granted a biennial certificate of approval must annually submit to the department—

A. An annual certification fee;
B. Verification of the security deposit; and

C. Other data as determined by the department to be necessary to administer, supervise, and enforce the provisions of sections 173.600 to 173.619, RSMo.

(G) Temporary Certification. On decision of the department, a certificate of approval issued to an applicant school or to a school applying for recertification may be issued as a temporary certificate of approval. The effective date of a temporary certificate of approval shall not exceed sixty (60) days. In instances other than a temporary certificate of approval issued for reason of a change of school ownership, the reasons for issuance of the temporary certificate of approval shall be specified by the department. At the termination of the temporary certificate of approval—

1. A temporary certificate of approval may be reissued for one (1) additional period not to exceed sixty (60) days; or

2. A certificate of approval for the remainder of the then current certification year may be issued.

(H) Certification Fee. No certificate of approval to operate shall be issued except upon payment of the prescribed certification fee.

1. The certification fee shall be computed on the basis of \$.0013 per one (1) dollar of net tuition and fees income (excluding refunds, books, tools, and supplies), with a maximum of five thousand dollars (\$5,000) and a minimum of five hundred dollars (\$500) per school. Tuition and fees for schools that operate at two (2) or more locations within Missouri may be reported separately or be combined for all locations for purposes of computing the certification fee. The certification fee shall be computed on the basis of data submitted by the institution, subject to verification by the department.

2. The certification fee for a school upon initial certification to operate shall be computed on the basis of the estimate given in the application of the net tuition income for the first year of operation, except that the fee shall not be less than the minimum of five hundred dollars (\$500). The full initial certification fee shall be assessed whether the initial certification is for an entire or partial certification year.

3. The certification fee requirement for a branch campus operated in Missouri by an out-of-state school shall be computed solely on the basis of applicable tuition and fee income at the Missouri branch campus.

4. For a school having a certificate of approval for the sole purpose of recruiting students in Missouri, the net tuition used for the certification fee computation shall be only that paid, or estimated if initial, to the school by students recruited from Missouri and the fee shall be five hundred dollars (\$500) plus \$.0013 per one (1) dollar of net tuition and fees income (excluding refunds, books, tools,

and supplies) not to exceed five thousand dollars (\$5,000).

(I) Security Deposit. Each proprietary school must file a security deposit with coverage consistent with the statutory requirements of section 173.612, RSMo.

1. The security deposit shall be executed on the prescribed form provided by the department for that purpose. The security deposit shall cover all facilities and locations of the school in the state of Missouri and shall clearly state that it covers the school and agents of the school.

2. Any bonding company must be approved by the Missouri Department of Insurance, Financial Institutions and Professional Registration.

3. The amount of the security deposit shall be ten percent (10%) of the preceding year's gross tuition but, in no event, shall be less than five thousand dollars (\$5,000) nor more than one hundred thousand dollars (\$100,000), except that the school may deposit a greater amount at its own discretion.

4. The school may comply with the security deposit requirement through any of the following three (3) methods, at the discretion of the school: performance surety bond, irrevocable letter of credit, or cash bond secured by certificate of deposit.

5. The amount of the security deposit required must be computed and compliance verified with each annual application for certification. Written verification of compliance with the security deposit requirement of the authorizing statute must be presented prior to the issuance of a certificate of approval. Failure of a school to post and maintain the required security deposit may result in denial, suspension, or revocation of certification to operate or the school being placed on probation.

6. Any school that operates two (2) or more main campuses in the state may combine, or report separately, gross tuition for all locations for the purpose of determining the annual security deposit requirement. However, if the combined gross tuition calculates a security deposit requirement in excess of the one hundred thousand dollars (\$100,000) maximum, the gross tuition shall be reported separately, and the requirement calculated separately.

7. The security deposit requirement for a branch campus operated in Missouri by an out-of-state school shall be computed solely on the basis of applicable tuition and fee income at the Missouri branch campus.

(5) Fees.

(A) Fees should be made payable to the

Missouri Department of Higher Education.

(B) All fees are non-refundable.

(C) The following fees shall be paid:

- | | |

A. A late fee of ten dollars (\$10) per day exclusive of Saturday, Sunday, and holidays, not to exceed a maximum of one thousand five hundred dollars (\$1,500), will be assessed on certified schools that fail to respond, within a time frame to be stated in official correspondence, to the department's request for information or documentation related to recertification, grievances, department site visits, or probation.

B. The late fee may be waived in whole or in part at the discretion of the department.

(D) Unaccredited degree-granting schools seeking initial certification to operate in Missouri may be required to undergo a pre-certification site visit by department staff and external consultants with expertise in higher education. The applicant school is responsible for all reasonable costs associated with the site visit.

(E) Certified schools are responsible for travel expenses for all members of a department on-site review team when such review is scheduled in response to concerns raised by accreditors, students, or the general public.

(6) Certification Standards. The following standards are established as minimum requirements that must be met in order for a school to be issued a certificate of approval to operate in Missouri. As determined by the

Coordinating Board for Higher Education, compliance with these standards shall be demonstrated and verified in the application for certification to operate and are subject to review and further determination by the department at any time.

(A) Institutional Standards.

1. The school must have an exact physical location or locations.

2. The school must have an official name. A certificate of approval shall not be issued to a school if the name of that school, whether initially proposed or changed after establishment, is—

A. Identical to the name of an existing certified school or a public or independent college or university in Missouri; or

B. Deemed, by the department, to cause confusion of identity among the lay public.

3. The purpose of the school shall be legitimate and acceptable educationally and shall be supported by the operations and programs of the school.

4. The physical plant and equipment of the school shall be commensurate in size, accommodations, and condition to the purpose and programs of the school.

5. The learning resources of the school, such as educational equipment, computer hardware and software, library holdings, and telecommunications equipment, shall be sufficient to meet the educational objectives of all courses and programs.

6. The school must be in current compliance with all pertinent ordinances and laws relating to the safety, health, and security of the persons on the premises.

7. All media advertising and other informative or promotional materials, including those printed, published, recorded, or presented, descriptive of the school shall—

A. Truthfully represent the characteristics of the school;

B. Include the name of the school and shall specify either the school mailing address, the telephone number, or both;

C. When referencing Missouri certification status, only refer to itself as being "certified to operate" or "approved to operate" by the "Missouri Coordinating Board for Higher Education" or the "Missouri Department of Higher Education"; and

D. Not be deceptive or misleading, as determined by the department, such as by—

(I) Stating in advertising or other materials that the school, its programs, certificates, or degrees are accredited, certified, or approved by the Coordinating Board for Higher Education, the Department of Higher Education, or by the state of Missouri or any of its agencies;

(II) Using employment or want ad sections or services of any newspaper or advertising media for purposes of student recruitment;

(III) Stating in advertising or other material that the school is accredited by any organization that is not an accrediting agency officially recognized by the United States Department of Education;

(IV) Omitting or concealing any material information that obscures a truthful description of the school, its programs, or its services; or

(V) Making any statement that cannot be verified or documented by the school.

(B) Program Standards.

1. Program review. The instructional programs of the school must legitimately support the stated purpose of the school and the school must demonstrate that each course of instruction meets its stated objectives, showing that the following are appropriate to the award designation and discipline:

A. The study discipline of a degree program shall be identified and verified to be generally accepted in American higher education as a legitimate area of degree study;

B. The study discipline of a nondegree program shall be identified and verified as legitimate preparation and training for its vocational or academic objective; and

C. Any award granted shall be on the basis of study content and achievement requirements that shall be deemed by the department to be reasonably equivalent to study content and achievement requirements commensurate with the designated level of award, as generally applied at institutions of higher education and/or the vocation for which it prepares.

(I) Study content and achievement requirements must demonstrate satisfaction of this standard through the following:

(a) Level of the program, including its range and scope of courses;

(b) Content of courses, including the type, depth, breadth, and sequence of courses; and

(c) Duration of the program, including minimal instructional length at the school. Except as specifically determined otherwise by the department, minimum instructional length shall be twenty-five percent (25%) of similar programs for nondegree and undergraduate degree programs and seventy-five percent (75%) for graduate and professional degree programs.

(II) Demonstration of such equivalence may be established through accreditation by national or regional accrediting agencies recognized by the United States Department of Education.

D. No earned degree or certificate may be given, awarded, or granted in the absence of an instructional component offered and conducted by the school.

2. Program disclosure. The school shall maintain and provide each student in published or printed form, usually through a dated school catalog, the following information for each program and course of instruction offered. The information also shall be provided to prospective students upon request.

(E) Scope of Certificate of Approval.

1. Branch campuses and extension sites of Missouri schools.

A. Application for a certificate of approval to operate shall be made by and through a location designated as the main campus of a school indigenous to Missouri. A certification application shall be made by a main campus on behalf of its branch campuses. The application shall identify all locations proposed to be operated by the school.

B. All certificates of approval to operate shall specify the instructional locations and program(s) of instruction for which the certificate is valid. In addition to the certificate issued to the main campus, certificates of approval to operate shall be issued only for those locations and programs defined and listed in the annual application for certification as branch campuses.

C. Approval to operate locations as extension sites, as defined and listed in the

annual application for certification, shall be extended from the certificate of a main or branch campus.

D. The certification to operate of the main campus or any of its branches or extensions may be denied, revoked, suspended, or placed in a status of probation. Such action may be deemed by the department to apply to all locations under the jurisdiction of that certificate of approval to operate.

2. Franchises of Missouri schools.

A. All locations at which instruction is proposed to be offered by a franchisee of a franchisor approved to operate shall be deemed a location within the scope of such franchisor's approval, provided that the franchisor provides the course curriculum and guidelines for teaching at each location and that a single location is identified as the principal facility for record keeping.

B. Denial, revocation, or suspension of certificates of approval to operate for a franchisor shall be deemed to apply to all franchisee locations. The certification of an individual franchisee (as listed on the franchisor's application for certification) may be denied, revoked, suspended, or placed in a status of probation for just cause.

3. Changes in physical location.

A. The department must be notified at least thirty (30) days prior to the effective date of proposed changes in or additions to the location(s) of the school operations.

B. Such changes shall not be effective except on review and authorization by the department.

C. As a condition of authorization for the implementation of changes and additions of location under the school's certificate to operate, accredited schools must provide written documentation of the approval of such changes by the accrediting association.

4. Programmatic additions, discontinuances, and revisions.

A. The department must be notified at least thirty (30) days prior to the effective date of non-substantive programmatic additions, discontinuances, and revisions (including but not limited to changes in name, length, cost, or objective).

B. Substantive revisions to existing programs of instruction and the initiation of proposed new program offerings must be submitted for review in the format established by the department. The school must demonstrate that revised and additional programs are in compliance with certification standards, as described in paragraph (6)(B)1. of this rule, in order for these programs to be approved for inclusion within the scope of the certificate of approval. Such changes shall not be

effective except on authorization by the department.

C. As a condition of authorization for the implementation of programmatic changes under the school's certificate to operate, accredited schools must provide written documentation of the approval of such changes by the accrediting association.

D. Schools must submit a complete proposal to the department at least ninety (90) days prior to implementation of a new program. Incomplete proposals will be returned without review. A complete proposal must include at least the following, as prescribed by the department:

- (II) A complete program revision request form;
- (III) All required program revision request form attachments; and
- (IV) Payment of any required fees.

G. The department must provide the school with a written response to a proposal for a new program within ninety (90) calendar days or a substantive change to an existing program within sixty (60) calendar days. The response may notify the school of final approval, tentative approval, or additional information that must be submitted to complete the review. If the response is not provided within the required time frame, the school may offer the program until the department completes its review and identifies a substantive issue or issues that need correction.

H. If the department fails to provide a written review within the time frame established in paragraph (8)(E)4.G. of this rule, the department will notify the school of the results of the review within ninety (90) days of the expiration of the initial time frame. The school will then have ninety (90) days from that notice to correct identified deficiencies without ceasing to offer the program. The

school must cease offering the new or revised program if it fails to make the required corrections within the ninety- (90-) day time period.

(F) Change of Ownership.

1. A certificate of approval is nontransferable. A change in the sole proprietor of a school, a change in the majority interest of general partners of a partnership owning a school, or a change in a majority stock ownership of a school shall be deemed a transfer of ownership.

2. Within thirty (30) days of such transfer the new owner shall make application for a new certificate of approval on application forms as determined by the department.

3. This application shall be processed like an initial application except the Coordinating Board may issue a temporary certificate to be effective for a maximum of sixty (60) days if the chief administrator furnishes a written statement asserting that all conditions set forth in the rule are being met or will be met before offering training or education.

4. Failure to make application to the department, when a change of ownership occurs, shall be grounds for placing a school on probationary status or for suspension, revocation, or denial of a certificate of approval.

(G) Change of School Name.

1. The department must be notified at least thirty (30) days prior to the effective date of proposed changes in the official name of a school. Name changes shall not be effective except on authorization by the department.

2. As a condition of authorization for the implementation of a name change under the school's certificate to operate, accredited schools must provide written documentation of the approval of the change by the accrediting association.

(H) Except as pursuant to the initial approval to operate, a certificate of approval will not be issued to any school that has reported no student enrollments during the previous certification year. A school having a full certification year without student enrollments shall be deemed as not being a school eligible for certification.

(9) Certification of Out-of-State Institutions.

(A) An out-of-state institution is defined as any school not indigenous to Missouri seeking to establish or to maintain a physical presence within Missouri for either the purpose of operating a branch campus of that school or the purpose of recruiting students to enroll in the school.

(B) Out-of-state schools must have contin-

uously operated for a minimum of two (2) years prior to application to operate in Missouri, be licensed or approved by the other state, territory, District of Columbia, or national government and the requirements for approval or licensure in the other state or political entity must be substantially equal, as determined by the department, to those in force in Missouri at the time the application for approval is filed.

(C) The department may give faith and credit consideration to an out-of-state accredited school's accrediting association and to approval by other governmental agencies, including certification or licensing approval by another state. The department may waive any part of the certification procedure for reason of such accreditation or approval.

(D) Operating a Branch Campus.

1. In order to operate in Missouri, an out-of-state institution must comply with the same standards and procedures as are applicable to institutions indigenous to Missouri and must be annually certified as approved to operate.

2. Each branch campus where, from, or through which an out-of-state school operates in Missouri must be independently certified even though those sites are branches of the parent non-Missouri institution. Separate applications must be submitted for each branch campus and all application information must be specifically for that site and not for the non-Missouri parent institution.

3. Each branch campus where, from, or through which an out-of-state school operates in Missouri must designate in the application a resident director in order to be eligible to be certified to operate.

4. Application forms for annual certification and follow-up communications, including the issuance of the certificate, shall be distributed by the department directly to the designated resident director of each branch campus in Missouri. This procedure does not prohibit the director of the Missouri site from forwarding the mailings to the parent institution for processing nor does it prohibit the payment of certification fee and deposit of security by the parent institution; however, the institution must comply with all closing dates and deadlines.

(E) Operating for Recruiting Purposes Only.

1. All non-Missouri schools maintaining a physical presence in Missouri for the purpose of recruiting students to attend the non-Missouri school must be certified to operate. Physical presence, in the context of recruitment operations, shall mean any address, physical location, electronic device, or telephone number within the boundaries of the

state of Missouri from which promotional material is distributed or recruitment effort initiated and/or to which potential or prospective students may inquire or respond. Physical presence does not include advertising through printed or electronic media as long as the initiation for that advertising is not within this state or the advertising does not identify any Missouri presence.

2. In order to be certified to operate in Missouri for recruitment purposes, an out-of-state institution must comply with the same standards and procedures as are applicable to a Missouri institution and must annually apply for and receive a certificate of approval.

(10) Probation, Suspension, and Revocation of a Certificate of Approval.

(A) Probation. A school may be placed on probation for reasons of noncompliance with sections 173.600 through 173.619, RSMo, or for noncompliance with the provisions of this rule. Probation provides a school with the opportunity to attain compliance within a given time limit or to provide evidence or clarification of unclear points regarding compliance with specific items. Probation shall be governed by the following criteria:

1. The Coordinating Board shall place a school on probation by notification in writing for a fixed period with a termination date. Termination dates may be extended on decision of the Coordinating Board if the school has not attained compliance or upon request of the school. The school may continue to operate during any probationary period;

2. The notice shall specify the item or items of noncompliance with sections 173.600 through 173.619, RSMo, or this rule and shall include specific criteria and/or procedures for the school to be removed from the probation;

3. Failure of a school to comply with statutory requirements or the requirements of this rule by the termination date of the probation shall, on judgment and decision of the Coordinating Board, result in one (1) of the following actions:

A. Suspension of the certificate of approval; or

B. Revocation of the certificate of approval; and

4. A school in compliance with the specified probationary requirements may request, in writing, removal from probationary status prior to the termination date of the probation.

(B) Suspension. A certificate of approval or a temporary certificate of approval may be suspended for up to twelve (12) months for noncompliance with provisions of sections

173.600 through 173.619, RSMo, or the provisions of this rule, and the following criteria and/or procedures shall apply. The purpose of suspension is to give the school the opportunity to correct the items of noncompliance within a set period of time.

1. The Coordinating Board shall suspend a school's certificate of approval or temporary certificate of approval by notification in writing for a fixed period with a termination date. Termination dates may be extended on decision of the Coordinating Board if the school has not attained compliance or upon request of the school; however, in no case shall the total time of suspension exceed twelve (12) months.

2. The notice shall specify the item or items of noncompliance with sections 173.600 through 173.619, RSMo, or this rule and shall include specific criteria and/or procedures for the school to be removed from suspension.

3. Failure of a school to comply with statutory requirements or the requirements of this rule by the termination date of the suspension shall, on judgment and decision of the Coordinating Board, result in revocation of the certificate of approval.

4. A school in compliance with the specified suspension requirements may request, in writing, removal from suspended status prior to the termination date of the suspension.

5. The school may appeal an assignment of suspension to the Administrative Hearing Commission.

(C) Revocation. The Coordinating Board may revoke the certificate of approval or the temporary certificate of approval of any school for noncompliance with the provisions of sections 173.600 through 173.619, RSMo. Revocation of a certificate to operate shall be governed by the following criteria and/or procedures:

1. The Coordinating Board shall revoke a school's certificate of approval or temporary certificate of approval by notification in writing;

2. The notice shall specify the item or items of noncompliance with sections 173.600 through 173.619, RSMo, and shall specify an effective date of the revocation, revocation upon the completion of operational functions as may be prescribed by the Coordinating Board, or both an effective date and completion of operational functions;

3. Revocation of a certificate of approval shall not forgive a school of full compliance with the requirements contained in this rule which are applicable to any school ceasing operations, including, but not limited to, making refunds to students, completion of

instructional programs of students, and the deposit of student instructional and financial records; and

4. The school may appeal a revocation to the Administrative Hearing Commission.
