(4) Compliance with Orders or Directions of State Highway Patrol Officer or Patrolman and Corporation Employees. (5) Procedure to Issue Citations. The following procedures must be taken for the collection of tolls and the issuance of traffic citations under this rule:

(A) Any toll collector witnessing a violation of the toll collection regulations is authorized to report such violation to a law enforcement official or agency. The report may be in one (1) of the following forms:

1. A telephone call from a toll collector to a law enforcement agency indicating a violation, and a reasonable description of the vehicle violating the toll enforcement regulations including, but not limited to, the license plate of the vehicle, the make, model and color of the vehicle; or

2. A certificate, or written report sworn to or affirmed by a toll collector, agent of the corporation, Missouri state highway patrolman or sheriff's department deputy which charged that the violation occurred, or facsimile thereof, based upon inspection of photographs, microphotographs, videotape or other recorded images produced by a photo monitoring system or a photo from a photo monitoring system, shall be *prima facie* evidence of the facts contained therein, subject to foundation evidence to establish the authenticity of such photographs, microphotographs, videotape or other recorded images produced by a photo monitoring system, and shall be admissible in any proceeding charging a violation of toll collection regulations, provided that any photographs, microphotographs, videotape or other recorded images evidencing such a violation shall be available for inspection and admission into evidence in any proceeding to adjudicate the liability for such violations.

(B) After a report has been given to a Missouri law enforcement agency, such agency is authorized to issue a traffic citation for failure to pay the required toll.

(C) The law enforcement agency issuing the traffic citation is responsible for prosecution of such citation.

(D) The provisions of this section supplement the enforcement of the Act by law enforcement officers, and this section does not prohibit a law enforcement officer from issuing a citation for a violation of the Act or any violation of traffic regulations in accordance with normal traffic enforcement procedures.

(6) Commission Review and Decision to Grant Authority. Upon receipt of a completed application, the commission shall review the application at its next scheduled meeting. The applicant shall be provided an opportunity to describe its proposal to the commission and can make any modifications and revisions at the commission's meeting that the commission deems advisable. The commission shall approve or disapprove the application at the meeting.

(A) If the application is approved, the transportation corporation shall be deemed authorized to enforce collection of tolls at its project as described in its proposed toll collection regulations.

(B) If the application is disapproved, the reasons for said disapproval shall be provided to the transportation corporation in writing within thirty (30) days of said meeting and the transportation corporation shall have ninety (90) days in which to address the deficiencies. After receiving information from the transportation corporation addressing the deficiencies, the commission shall approve or deny the application at its next scheduled meeting. The transportation corporation may describe its proposal and any supplemental information it supplied to the commission at the commission's meeting.
