Title 11—DEPARTMENT OF PUBLIC SAFETY  
Division 90—Missouri 911 Service Board  
Chapter 3—Funding Rates  

EMERGENCY RULE  

11 CSR 90-3.010 Funding Rates  

PURPOSE: This rule establishes rates of prepaid wireless emergency telephone service charges deposited in the Missouri 911 service trust fund that will be paid under section 190.460, RSMo.  

EMERGENCY RULE: This emergency rule establishes rates of prepaid wireless emergency telephone service charges deposited in the Missouri 911 service trust fund that will be paid under section 190.460 to counties. This rule is necessary to comply with sections 650.325 to 650.335, RSMo and sections 190.400 to 190.460, RSMo which charge the board with taking immediate steps toward improving access to 911 emergency services to protect Missouri residents in emergency situations, particularly in underserved areas of the state. The board is required to set percentage rates of the prepaid wireless emergency telephone service charges deposited in the Missouri 911 service trust fund that will be paid to counties to fund costs incurred to implement and operate Missouri 911 systems and for answering and dispatching emergency calls. It is necessary to promulgate a rule to establishing the rate. Without such a rule, the board will be unable to effectively discharge its duties and protect Missouri residents by immediately taking steps to fund 911 emergency services. As a result, the board finds a compelling governmental interest in promoting the health and safety of Missouri residents in emergency situations, requiring this emergency action. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The board believes this emergency rule is fair to all interested persons and parties under the circumstances. This emergency rule was filed May 6, 2020, becomes effective May 21, 2020, and expires February 25, 2021.  

(1) Forty percent (40%) of the prepaid wireless emergency telephone service charges deposited in the Missouri 911 service trust fund, less the deductions authorized by section 190.460.3(4), RSMo shall be remitted to each county without a charter form of government in direct proportion to the amount of charges collected in that county, if any.  

(2) Sixty-five percent (65%) of the prepaid wireless emergency telephone service charges deposited in the Missouri 911 service trust fund, less the deductions authorized by section 190.460.3(4), RSMo shall be remitted to each county other than counties without a charter form of government in direct proportion to the amount of charges collected in that county, if any.  

AUTHORITY: sections 190.460.3 and 650.330.6, RSMo 2019 Supp.  
Emergency rule filed May 6, 2020, effective May 21, 2020, and expires Feb. 25, 2021. An emergency rule and a proposed rule covering this same material will be published in the Missouri Register.  

PUBLIC COST: This proposed rule will not cost state agencies or political subdivisions and other public entities more than five hundred dollars ($500) in the aggregate.  

PRIVATE COST: This proposed rule will cost private entities less than five hundred dollars ($500) in the aggregate.
