

# Emergency Rule

**Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES**  
**Division 30—Division of Regulation and Licensure**  
**Chapter 1—Controlled Substances**

**EMERGENCY AMENDMENT**

**19 CSR 30-1.002 Schedules of Controlled Substances.** The department is amending section (1).

*PURPOSE: This emergency amendment updates the Schedules of Controlled Substances to be consistent with 21 CFR Part 1308.*

*EMERGENCY STATEMENT: The United States Department of Justice Drug Enforcement Administration (DEA) continually evaluates substances to determine their clinical application and potential for abuse. Based on their evaluation, the DEA issues scheduling actions to place substances in the appropriate controlled substance schedules. The majority of these scheduling actions consist of temporarily and permanently scheduling newly-discovered illicit substances in Schedule I. Proper scheduling of these substances allow law enforcement to take action to prevent the further distribution of these substances. Scheduling substances in Schedules II-V allows practitioners to be informed about the potential for addiction/abuse of the substances and prescribe the substances appropriately. Section 195.015, RSMo charges the department with similarly controlling substances as they are controlled under federal law. This section also now (as of August 28, 2020) states that the Department shall submit emergency rules to the Secretary of State within thirty days of a federal scheduling action to allow for similar inclusion, rescheduling, or deletion of controlled substances with this schedule. While this time frame is difficult to achieve given the various approvals and reviews needed prior to the Department scheduling any rule with the Secretary of State, the Department still acts to effectuate these scheduling actions as quickly as possible. This emergency amendment includes all federal scheduling actions since the last amendment of this rule in 2019. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Department of Health and Senior Services believes this emergency rule is fair to all interested persons and parties under the circumstances. Subject to section 536.025, this emergency rule was filed Oct. 30, 2020, becomes effective Nov. 16, 2020, and expires May 14, 2021.*

(1) Schedules of Controlled Substances.
