EMERGENCY AMENDMENT

19 CSR 30-62.052 [License Renewal] Annual Requirements.
The department is amending the rule title, deleting sections (1) through (5), and adding new sections (1) and (2).

PURPOSE: This emergency amendment replaces the license renewal process with a similar annual compliance process. The amendment adds the new Annual Declaration for Licensed Facilities form.

EMERGENCY STATEMENT: The Missouri legislature passed HB 1414, 100th General Assembly, Second Regular Session (2020). One of the statutory changes included in this legislation was removal of the limitation in section 210.211.1, RSMo, that the Department of Health and Senior Services may only issue a child care license for a term not exceeding two (2) years. With this limitation removed, the department can transition to non-expiring child care licenses and an annual compliance monitoring process that will replace the current licensing renewal process. This new process will be similar to the license renewal process, with providers submitting documentation to show they meet the basic health and safety requirements for a child care provider and affirming their desire to continue on as a licensed provider in compliance with child care licensing rules and statutes. The annual compliance process will require a provider to submit less documentation than the renewal process did; however, this documentation must now be submitted annually rather than every two (2) years. As of August 28, 2020, the department will no longer accept applications to renew child care licenses as it will be transitioning all current licenses to a non-expiring status. However, to ensure that basic requirements for licensees are still met and that providers who wish to continue operating child care facilities agree to do so in compliance with licensing rules and statutes, it is imperative that the department have an annual compliance process in place immediately. This will ensure that providers who would have received a renewal inspection during the September 2020 to March 2021 time period will still be monitored and that those providers whose license would have expired during that time are able to be smoothly transitioned to a non-expiring license without a decrease in monitoring of safety standards. As a result, this emergency amendment is necessary to protect the safety and health of children in child care settings as the department transitions to non-expiring licenses as now allowed under 210.211.1, RSMo. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Department of Health and Senior Services believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed August 31, 2020, becomes effective September 15, 2020, and expires March 13, 2021.

TOTALS	1.45			\$22.11

Methodology: (Average Hourly Wage * Time Estimate) * Employer Expenses = Total Cost per Child Care Provider

IV. ASSUMPTIONS

1. Current licensing rules require providers to prepare and submit a current list of available equipment, listing of household members and assistant(s), and Family Care Safety Registry screening results for all child care staff members at renewal. Therefore, the department assumes that this is not an additional cost for 429 providers whose licenses were schedule to expire in this six month time period that this emergency rule will be in effect. For 439 providers who were not scheduled to renew during this six month timeframe, there is an additional cost to prepare and submit a current list of available equipment, listing of household members and assistant(s), and Family Care Safety Registry screening results for all child care staff members. Because the Annual Declaration for Licensed Facility form is a new requirement, this is an additional cost for all 868 providers. For the sake of simplicity and transparency, the overall cost for this rule was calculated using all 868 providers who will submit documentation during the emergency period.

2. The average wage comes from the 2018 average wage for Child Care Workers in Missouri available from the Missouri Department of Economic Development (\$11.29) plus estimated inflation. No additions were made to this number for items such as 401k contributions or other fringe benefits because those are not an industry standard for child care workers.

3. Time estimates for the documents that must be completed to meet the annual requirements are estimated by the Department of Health and Senior Services for the minimum amount of time necessary to review, compile and/or update, and submit the necessary documents.

The time estimates seen here are based on the following assumptions:

<i>Annual Declaration for a Licensed Facility form</i>	0.25 hours (15 minutes) was allotted for this based on the fact that this is a one-page fillable form requesting identifying information. The provider is required to review, sign, date, and return the form to the department.
Current list of available equipment	.75 hours (45 minutes) was allotted for this because an equipment list is required for initial licensure. Child care providers should routinely update this list and keep it current for insurance and departmental purposes. The department currently requires a list of available equipment at renewal (once every two years).
Current staff sheet	.15 hours (15 minutes) was allotted for this because a staff sheet is required for initial licensure. The department assumes that child care providers will update this staff sheet periodically as staff change. The department currently requires a staff sheet at renewal (once every two years).
Family Care Safety Registry screening results for all child care	.30 hours (30 minutes) was allotted for this based on discussions with Family Care

staff members	Safety Registry (FCSR) staff about how long it typically takes for a group home or center child care provider to submit an online background screening request.
---------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------

4. The time estimates only include one staff member because typically only one staff person (e.g. owner, provider, board chairperson, LLC member or designee) completes documentation that is submitted to the department.
