HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Division 2010—Missouri State Board of Accountancy
Chapter 2—General Rules

EMERGENCY AMENDMENT

20 CSR 2010-2.160 Fees. The Board of Accountancy is proposing to amend subsection (1)(E).

PURPOSE: This emergency amendment restores the individual license fee (biennial renewal) fee effective with the 2020 renewals to ensure compliance with section 326.319, RSMo. This fee was temporarily decreased in 2018 and was to go for four (4) years.

EMERGENCY STATEMENT: The Board of Accountancy is statutorily obligated to set all fees, by regulation, necessary to administer the provisions of Chapter 326, RSMo. Pursuant to section 326.319, RSMo, the board shall set the appropriate amount of fees by rule, so that the revenue produced shall not substantially exceed the cost and expense of administering the provisions of Chapter 326, RSMo. In 2018, The Board of Accountancy reduced the Individual License Fee (biennial renewal) from eighty dollars (\$80.00) to forty dollars (\$40.00) for a period of four (4) years. Per section 326.319, RSMo, the funds in the State Board of Accountancy Fund shall not be transferred and placed to the credit of the general revenue until the amount in the fund at the end of the biennium exceeds two (2) times the

amount of the appropriation from the board's funds for the preceding year or if the board requires by rule certificate or permit renewal less frequently than yearly, then three (3) times the appropriation from the board's funds from the preceding fiscal year. With the two (2) years of decreased individual license fee (biennial renewal) and the expected two (2) additional years of the reduction, the board's funds are expected to result in a decrease of the fund to less than one (1) times the annual appropriation. While the Board of Accountancy anticipated the reduction in revenue as a result of the temporary fee reduction, the lower than anticipated revenue has been compounded primarily by the impact of a recent change in section 326.283, RSMo regarding individual and firm mobility which allows the practice of out-of-state CPAs and firms without Missouri licensure and permits.

Therefore, the board is proposing to restore 2020 renewal fees for Missouri CPAs from forty dollars (\$40) to eighty dollars (\$80). Renewal notices will be mailed on July 1, 2020. Without this emergency amendment, the restored fees will not be effective prior to mailing and the board will enter its third (3rd) year of a fee reduction that will reduce the State Board of Accountancy Fund well below its acceptable fund level. The scope of the emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri* and *United States Constitutions*. In developing this emergency amendment, the board has determined that the fee restoration is necessary for the 2020 renewal period, which begins July 1, 2020, to prevent funds from continuing to decrease well below the maximum fund balance.

Pursuant to section 324.001.10, RSMo, a compelling governmental interest is deemed to exist for the purposes of section 536.025, RSMo, for licensure fees to be restored by emergency rule. The board finds that an immediate danger to the public health, safety, and welfare exists because if the emergency amendment is not enacted, the board will not be able to operate and carry out their duties to protect the public. The board has followed procedures calculated to assure fairness to all interested person and parties under the circumstances. A proposed amendment covering this same material is published in this issue of the *Missouri Register*. This emergency amendment was filed June 10, 2020, becomes effective June 24, 2020, and expires February 25, 2021.

(1) The following fees are established by the Missouri State Board of Accountancy:

Emergency rule filed Aug. 6, 1981, effective Aug. 16, 1981, expired Dec. 10, 1981. Original rule filed Aug. 6, 1981, effective Dec. 11, 1981. EMERGENCY RULE

20 CSR 2220-2.710 Pharmacy Technician and Intern Pharmacist Supervision

PURPOSE: This rule defines the required supervision for pharmacy technicians and intern pharmacists.

EMERGENCY STATEMENT: On January 31, 2020, the U.S. Secretary of Health and Human Services declared a public health emergency to aid the nation's healthcare community in responding to COVID-19. The Governor of Missouri declared a similar State of Emergency on March 13, 2020, finding that COVID-19 poses a serious health risk for Missouri residents and visitors. The U.S. Centers for Disease Control and Prevention has recommended that Americans limit contact to prevent the spread of illness. In response, multiple states, cities, and businesses have closed or limited business operations. Currently, board rules prohibit the remote provision of designated pharmacy services by pharmacists and/or pharmacy technicians. This prohibition will adversely affect patient care if unanticipated pharmacy closures are required. The board has determined this emergency rule is needed to prevent interruptions in patient care by allowing pharmacists to remotely supervise pharmacy staff assisting in the practice of pharmacy in the event staff is required to function remotely. Absent an emergency rule, Missouri patients would experience abrupt and potentially harmful interruptions in medication access if pharmacies are required to close and cannot handle patient care needs remotely. As a result, the Missouri State Board of Pharmacy finds there is an immediate danger to the public health, safety, and/or welfare and a compelling governmental interest that requires this emergency action. A proposed rule, which covers the same material, was published in the Missouri Register on March 16, 2020 (45 MoReg 425). The board is currently seeking to file an emergency rule to allow an early effective date. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Missouri State Board of Pharmacy believes this emergency rule is fair to all interested persons and parties under the circumstances. This emergency rule was filed June 5, 2020, becomes effective June 19, 2020, and expires September 1, 2020.

(1) Pharmacy technicians and intern pharmacists may assist a pharmacist in the practice of pharmacy as authorized by Chapter 338, RSMo, and the rules of the board, provided delegated tasks are performed under the direct supervision of a pharmacist. Direct supervision means supervision by a Missouri licensed pharmacist who is readily and immediately available at all times the delegated tasks are being performed and who provides personal assistance, direction, and approval throughout the time the delegated tasks are being performed. "Readily and immediately available" means the pharmacist and pharmacy technician(s) or intern pharmacists are on the same physical premises, or if not, technology is used to communicate with and monitor the pharmacy technician and intern pharmacist, as authorized in section (2).

(2) Use of Technology. Except as otherwise provided by law or regulation, technology may be used to directly supervise a pharmacy technician and intern pharmacist, provided:

(A) Sufficient technology is available to allow communication between the pharmacist and the pharmacy technician or intern pharmacist in a manner that is sufficient to provide the personal assistance, direction and approval required to verify and ensure delegated tasks are safely and properly performed. Technicians and intern phar-

macists may not be supervised as authorized by this subsection if the required technology is not operating or available;

(B) All applicable state and federal laws are fully observed, including, but not limited to, all applicable privacy and confidentiality laws;

(C) The pharmacy technician or intern pharmacist has completed employer approved training in the activities performed and has an initial and annual documented assessment of competency. Documentation of the completed training and competency assessment must be maintained in the pharmacy's records for a minimum of two (2) years and provided to the Board or the Board's designee upon request; and

(D) The supervising pharmacist and the permit holder must maintain a sufficient audit trail of prescription/medication order data entry and modifications to a patient record performed by a pharmacy technician or intern pharmacist being supervised as authorized by this subsection. The record must include the identity of the pharmacy technician or intern pharmacist performing the data entry or modification and must be maintained in the pharmacy's records for a minimum of five (5) years.

(3) The supervising pharmacist and permit holder shall retain responsibility for activities delegated to a pharmacy technician or intern pharmacist.

(4) Nothing in this rule shall override the provisions of 20 CSR 2220-2.010.

(5) Unless otherwise provided by law or court of competent jurisdiction, the provisions of this rule are only applicable to pharmacy services under the jurisdiction of the board and are not applicable to hospital pharmacy services under the jurisdiction of the Missouri Department of Health and Senior Services pursuant to Chapter 197, RSMo.

AUTHORITY: sections 338.010 and 338.140, RSMo Supp. 2019, and sections 338.013, 338.035, and 338.280, RSMo 2016. Original rule filed Feb. 7, 2020. Emergency rule filed June 5, 2020, effective June 19, 2020, expires Sept. 1, 2020.

PUBLIC COST: This emergency rule will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the time the emergency is effective.

PRIVATE COST: This emergency rule will not cost private entities more than five hundred dollars (\$500) in the time the emergency is effective.

Chapter 2—General Rules**

EMERGENCY RULE

20 CSR 2220-2.725 Remote Data Entry

PURPOSE: This rule authorizes and establishes requirements for remote data entry sites.

EMERGENCY STATEMENT: On January 31, 2020, the U.S. Secretary of Health and Human Services declared a public health emergency to aid the nation's healthcare community in responding to COVID-19. The Governor of Missouri declared a similar State of Emergency on March 13, 2020, finding that COVID-19 poses a serious health risk for Missouri residents and visitors. The U.S. Centers for Disease Control and Prevention has recommended that Americans limit contact to prevent the spread of illness. In response, multiple

states, cities, and businesses have closed or limited business operations. Currently, board rules prohibit the remote data entry of prescription information by a pharmacy technician. This prohibition will adversely affect patient care if unanticipated pharmacy closures are required and pharmacy technicians are needed to assist with entering or transferring prescription data. The board has determined this emergency rule is needed to prevent interruptions in patient care by allowing pharmacy technicians to remotely enter, transfer and update prescription data under the remote supervision of a Missouri licensed pharmacist. Absent an emergency rule, Missouri patients would experience abrupt and potentially harmful interruptions in medication access if pharmacies are required to close and cannot process, handle or transfer prescription data remotely. As a result, the Missouri State Board of Pharmacy finds there is an immediate danger to the public health, safety, and/or welfare and a compelling governmental interest that requires this emergency action. A proposed rule, which covers the same material, was published in the **Missouri Register** on March 16, 2020 (45 MoReg 426). The board is currently seeking to file an emergency rule to allow an early effective date. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the **Missouri and United States Constitutions**. The Missouri State Board of Pharmacy believes this emergency rule is fair to all interested persons and parties under the circumstances. This emergency rule was filed June 5, 2020, becomes effective June 19, 2020, and expires September 1, 2020.

(1) Definitions.

(A) “Remote Data Entry Sites”—A remote site located in Missouri that is operated by a Missouri licensed pharmacy and used by a pharmacy technician or intern pharmacist to electronically perform non-dispensing data entry functions, including, but not limited to, obtaining, entering, validating, or processing patient information or data.

(B) “Supervising Pharmacy”—A Missouri licensed pharmacy that is physically located in Missouri and responsible for operating a remote data entry site.

(2) Licensing.

(A) “Remote Data Entry Sites”—A permit is not required for a remote data entry site. The site shall be deemed part of and operating under the supervising pharmacy’s permit. The supervising pharmacy must maintain an address listing of all remote data entry sites in operation which must be made immediately available upon request of the board or the board’s authorized designee.

(3) Remote data entry sites must be safely operated in compliance with applicable state and federal law. The supervising pharmacy is responsible for all pharmacy operations at the remote data entry site. No medication or medical device may be located at or dispensed from a remote data entry site.

(A) Adequate security and supervision must be maintained at all times to prevent unauthorized access to the remote data entry site and equipment. Confidential records must be securely maintained to prevent unauthorized access to, and unauthorized storage/transfer of, confidential information. Any breach in the security of the remote data entry site equipment or confidential records must be documented and reported to the board in writing within seven (7) days of the breach. Paper patient or prescription records may not be generated, located, or maintained at a remote data entry site.

(B) Except as otherwise provided by state and federal requirements, the remote data entry site and the supervising pharmacy must share a common database or prescription record-keeping system that allows real-time, online access to relevant patient profile information by both the supervising pharmacy and the remote site. The identity of the pharmacy technician or intern pharmacist responsible for remotely entering, validating, or modifying data at a remote data entry site must be electronically documented/recorded in the phar-

macy’s records and maintained for a minimum of five (5) years.

(C) Pharmacy technicians and intern pharmacists operating at a remote data entry site must be competent in the duties performed. At a minimum, technicians and intern pharmacists must have completed employer approved training in the activities performed remotely and must have an initial and, if applicable, annual documented assessment of competency. Documentation of the completed training and competency assessment must be maintained in the pharmacy’s records for a minimum of two (2) years and provided to the board or the board’s designee upon request;

(D) A sufficient mechanism must be in place to allow communication between the supervising pharmacist and pharmacy technician or intern pharmacist when needed. A pharmacist must be available to respond to technician/intern pharmacist questions at all times a remote data entry site is in operation and must provide the personal assistance, direction, and approval required to verify and ensure delegated tasks are safely and properly performed. Non-dispensing data entry functions may not be performed by a pharmacy technician or intern pharmacist at a remote data entry site if the required real-time communication mechanism is not operating or available.

(E) Remote data entry sites may be inspected by the board as authorized by law. Notification by the inspector will be provided to the supervising pharmacy a minimum of seventy-two (72) hours ahead of the scheduled inspection. The supervising pharmacy permit holder must arrange for a designated representative to be present that is not a resident of the location under inspection.

(4) Policies and Procedures. The supervising pharmacy must establish written policies and procedures governing all aspects of operation of a remote data entry site that are reviewed annually by the pharmacist-in-charge. At a minimum, policies and procedures must include authorized technician and intern pharmacist activities, site security procedures and requirements, reporting security breaches, quality assurance review procedures, and staff education/training. The annual policy and procedure review date must be documented in the pharmacy’s records.

AUTHORITY: sections 338.010 and 338.140, RSMo Supp. 2019, and sections 338.013, 338.035, 338.220, and 338.280, RSMo 2016. Original rule filed Feb. 7, 2020. Emergency rule filed June 5, 2020, effective June 19, 2020, expires Sept. 1, 2020.

PUBLIC COST: This emergency rule will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the time the emergency is effective.

PRIVATE COST: This emergency rule will not cost private entities more than five hundred dollars (\$500) in the time the emergency is effective.

Title 20—DEPARTMENT OF COMMERCE AND INSURANCE

Division 2220—State Board of Pharmacy Chapter 6—Pharmaceutical Care Standards

EMERGENCY AMENDMENT

20 CSR 2220-6.055 Non-Dispensing Activities. The board is amending sections (2), (4), and (6).

PURPOSE: This amendment establishes requirements for pharmacy technicians assisting pharmacists with non-dispensing activities authorized by the rule outside of a Missouri licensed pharmacy.

EMERGENCY STATEMENT: On January 31, 2020, the U.S. Secretary of Health and Human Services declared a public health emergency to aid the nation’s healthcare community in responding to

COVID-19. The Governor of Missouri declared a similar State of Emergency on March 13, 2020, finding that COVID-19 poses a serious health risk for Missouri residents and visitors. In response, multiple states, cities, and businesses have closed or limited business operations. Currently, 20 CSR 2220-6.055 prohibits pharmacy technicians from assisting Missouri pharmacists with non-dispensing activities remotely or outside of the licensed pharmacy building. This prohibition will adversely affect patient care if pharmacy technicians are needed to assist with non-dispensing activities from a remote location or while the pharmacist is practicing outside of the physical pharmacy due to COVID-19 (e.g., recording patient information for pharmacists administering medication outside of a pharmacy). The board has determined this emergency rule is needed to ensure adequate availability of pharmacy services by allowing pharmacy technicians to fully assist pharmacists with non-dispensing activities outside of a licensed pharmacy under appropriate pharmacist supervision. Absent an emergency rule, pharmacists would not have sufficient support staff to respond to an emergency or to remotely assist with non-dispensing activities in the event of an unanticipated pharmacy closure. As a result, the Missouri State Board of Pharmacy finds there is an immediate danger to the public health, safety, and/or welfare and a compelling governmental interest that requires this emergency action. A proposed amendment, which covers the same material, was published in the Missouri Register on March 16, 2020 (45 MoReg 426-427). The board is currently seeking to file an emergency amendment to allow an early effective date. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Missouri State Board of Pharmacy believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 5, 2020, becomes effective June 19, 2020, and expires September 1, 2020.

(2) Confidentiality. A pharmacist, **pharmacy technician or intern pharmacist** performing non-dispensing activities pursuant to this rule shall comply with all applicable state and federal confidentiality laws and regulations *[and shall provide sufficient]*. **Sufficient** storage and security for confidential documents and electronic data processing hardware **must be provided by the pharmacy permit holder or the pharmacist**. In addition, data processing systems must utilize sufficient security software to ensure confidentiality and prevent unauthorized access. Any breach in the security or confidentiality of the data processing systems or confidential documents shall be documented and reported to the board in writing within seven (7) days of the breach.

(4) A pharmacist, **pharmacy technician or intern pharmacist** performing non-dispensing activities pursuant to this rule shall ensure compliance with Chapter 338, RSMo, and the rules of the board at all times. Nothing in this rule shall be construed to eliminate or otherwise exempt any pharmacist, **pharmacy technician, intern pharmacist or pharmacy permit holder** from the record-keeping, confidentiality, or security requirements otherwise imposed by Chapter 338, RSMo, or the rules of the board. Violations of this section shall constitute grounds for discipline.

[(6) A pharmacy permit shall be required for performing non-dispensing activities if the pharmacist is using a pharmacy technician to assist in the practice of pharmacy at the location where non-dispensing activities are being performed, provided that a pharmacy permit shall not be required for sites used solely by the pharmacist for administering vaccines as authorized by Chapter 338, RSMo, and the rules of the board. Pharmacy technicians shall only be authorized to work under the direct supervision of a pharmacist as provided by section 338.013, RSMo, and 20 CSR 2220-2.700.]

(6) A pharmacy technician and intern pharmacist may be used to assist a pharmacist with non-dispensing activities outside of a pharmacy subject to the following:

(A) The pharmacy technician/intern pharmacist must be under the direct supervision of a Missouri licensed pharmacist as required by 20 CSR 2220-2.710. The supervising pharmacist must ensure pharmacy technician/intern pharmacist activities comply with state and federal law and must provide the personal assistance, direction, and approval required to verify and ensure delegated non-dispensing activities are safely and properly performed;

(B) The pharmacy technician or intern pharmacist must have completed employer approved training in the activities performed and have an initial and, if applicable, annual documented assessment of proficiency. Documentation of the completed training and proficiency assessment must be maintained in the pharmacy's records for a minimum of two (2) years and provided to the board or the board's designee upon request;

(C) A sufficient mechanism must be in place to allow real-time communication between a pharmacist and the technician/intern pharmacist when needed. A pharmacist must be available to respond to pharmacy technician/intern pharmacist questions at all times non-dispensing activities are being performed; and

ATTEST:

JOHN R. ASHCROFT
SECRETARY OF STATE

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:
Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

Division 400—Life, Annuities and Health Chapter 5—Advertising and Material Disclosures

PROPOSED AMENDMENT

20 CSR 400-5.600 Missouri Life and Health Insurance Guaranty Association. The director is amending the Purpose statement and Appendix One (1).

PURPOSE: This amendment updates the name and mailing address for the Missouri Life and Health Insurance Guaranty Association, and implements changes made to the Life and Health Insurance Guaranty Association Act by House Bill 1690 (Mo. Laws 2018).

PURPOSE: This rule sets forth the forms [required by section 376.756, RSMo] for use in connection with the sale of policies or contracts which either are or are not covered by the Missouri Life and Health Insurance Guaranty [Fund] Association.

**APPENDIX ONE
NOTICE OF PROTECTION PROVIDED BY
MISSOURI LIFE AND HEALTH INSURANCE GUARANTY ASSOCIATION**

This notice provides a *brief summary* of the Missouri Life and Health Insurance Guaranty Association (“the Association”) and the protection it provides for policyholders. This safety net was created under Missouri law, which determines who and what is covered and the amounts of coverage.

The Association was established to provide protection in the unlikely event that your life, annuity, or health insurance company becomes financially unable to meet its obligations and is taken over by its insurance department. If this should happen, the Association will typically arrange to continue coverage and pay claims, in accordance with Missouri law, with funding from assessments paid by other insurance companies. **(For purposes of this notice, the terms “insurance company” and “insurer” include health maintenance organizations (HMOs).)**

The basic protections provided by the Association are as follows:

- Life Insurance
 - \$300,000 in death benefits, **but not more than** [•] \$100,000 in **net cash** surrender and **net cash** withdrawal values
- Health Insurance
 - \$500,000 [*in hospital, medical, and surgical insurance benefits*] **for health benefit plans**
 - \$300,000 in disability insurance benefits
 - \$300,000 in long-term care insurance benefits
 - \$100,000 in other types of health insurance benefits
- Annuities
 - \$250,000 in **the present value of annuity benefits, including net cash surrender and net cash withdrawal** [*and cash*] values

The maximum amount of protection for each individual, regardless of the number of policies or contracts, is as follows:

- \$300,000 in aggregate for all types of coverage listed above, with the exception of [*basic hospital, medical, and surgical insurance or major medical insurance*] **health benefit plans**
- \$500,000 in aggregate for [*basic hospital, medical, and surgical insurance or major medical insurance*] **health benefit plans**
- \$5,000,000 to one policy owner of multiple nongroup policies of life insurance, whether the policy owner is an individual, firm, corporation, or other person, and whether the persons insured are officers, managers, employees, or other persons

“Health benefit plan” is defined in section 376.718, RSMo.

Note: Certain policies and contracts may not be covered or fully covered. For example, coverage does not extend to any portion(s) of a policy or contract that the insurer does not guarantee, such as certain investment additions to the account value of a variable life insurance policy or a variable annuity contract. There are also various residency requirements and other limitations under Missouri law.

Benefits provided by a long-term care (LTC) rider to a life insurance policy or annuity contract will be considered the same type of benefits as the basic life insurance policy or annuity contract to which it relates.

To learn more about the above protections, as well as protections relating to group contracts or retirement plans, please visit the Association’s website at www.mo-iga.org, or contact:

IV. ASSUMPTION

1. The board utilizes a rolling five year financial analysis process to evaluate its fund balance, establish fee structure, and assess budgetary needs. The five year analysis is based on the projected revenue, expenses, and number of licensees. Based on the board's recent five (5) year analysis, the board voted to restore the eighty dollar (\$80) renewal fee.
2. The figures reports above for the insufficient funds fee are based upon staff estimates. The board receives an average of ten (10) returned checks annually.
3. It is anticipated that the total costs will recur for the life of the rule, may vary with inflation, and are expected to increase at the rate projected by the Legislative Oversight Committee.

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order of rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Social Services, MO HealthNet Division received one (1) comment on the proposed rule.

COMMENT #1: Dr. George Oestreich, Principal of G.L.O & Associates respectively requests that pharmacists with a “medication

therapeutic plan certificate” in accordance with 20 CSR 2220-6.070 working under a protocol with a practitioner as allowed in 20 CSR 2220-6.080 be allowed to prescribe services, such as the DPP, and then refer their patients. We therefore ask that you broaden the current wording, both in this proposed rule as well as the provider manual as referenced, to include MTS pharmacists working under protocol in your definition of a prescribing provider, thus allowing the prescription and referral of such service by these pharmacists. The suggested language could be, “A prescribing provider is defined as a licensed practitioner authorized to prescribe within their scope of practice either directly or by protocol consistent with their scope of practice under State law.”

RESPONSE AND EXPLANATION OF CHANGE: MHD agrees with this comment and will add the suggested language to the proposed rule.

C. DPP core services period also includes, but is not limited to, weight monitoring and tracking, physical activity tracking, and caloric intake tracking as required.

D. The prescribing provider will need to seek prior authorization for the first twelve (12) months of the diabetes prevention program from MO HealthNet prior to starting the program.

2. DPP ongoing maintenance period includes access to one (1) year of ongoing maintenance sessions to eligible participants.

A. The ongoing maintenance sessions are done in three- (3-) month intervals for a maximum of four (4) sessions during months thirteen (13) through twenty-four (24).

ORDER OF RULEMAKING

By the authority vested in the State Board of Embalmers and Funeral Directors under section 333.111, RSMo 2016, the board adopts a rule as follows:

20 CSR 2120-3.560 Cemetery Exemption is adopted.

A notice of proposed rulemaking containing the text of the proposed

rule was published in the *Missouri Register* on March 2, 2020 (45 MoReg 386). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received one (1) comment on the proposed rule.

COMMENT: Davis Biggs, Jr. submitted a comment to the board stating concerns relating to cemetery operators, that they are currently governed under Chapter 214, RSMo, and he felt the limit in Chapter 333, RSMo is not phrased in terms whether or not a license is held. He stated that the rule's requirement states that a license be held under Chapter 214, RSMo that states if a cemetery operator is late in renewing his license or filing a required annual report his license may be suspended or revoked, but he is still a cemetery operator. During the March 30, 2020 board meeting held via conference call, the board asked if Mr. Biggs had language that the board could review that he thought would make this rule clear. Mr. Biggs stated he had submitted language.

RESPONSE: After reviewing the comment and listening to Mr. Biggs during the conference call, the board did not make any changes as they felt the rule clarifies the statute. The board voted to make no changes to the rule as a result of this comment.

Title 20—DEPARTMENT OF COMMERCE AND INSURANCE

Division 220—State Board of Pharmacy Chapter 2—General Rules

ORDER OF RULEMAKING

By the authority vested in the Missouri Board of Pharmacy under sections 338.010 and 338.140, RSMo Supp. 2019, and sections 338.013, 338.035, and 338.280, RSMo 2016, the board adopts a rule as follows:

20 CSR 2220-2.710 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 16, 2020 (45 MoReg 425). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received eight (8) comments from four (4) individuals on the proposed rule as reflected below.

COMMENT #1: The Missouri Hospital Association (MHA) filed a comment requesting the board clarify the scope of the rule's application to hospital pharmacy activities under the jurisdiction of the Missouri Department of Health and Senior Services (DHSS). MHA expressed concerns the rule would unduly limit a pharmacy technician's scope of practice and ability to function, if applicable to hospital pharmacies. MHA suggested the board clarify "the proposed rule only would apply to areas under the board's jurisdiction and that it is not intended to restrict the capacities of pharmacy technicians in hospital pharmacies under the jurisdiction of the Department of Health and Senior Services."

RESPONSE AND EXPLANATION OF CHANGE: Pursuant to Chapter 197, RSMo, DHSS has regulatory jurisdiction over pharmacy services provided within the licensed premises of a Missouri hospital. The board's rule would not apply to pharmacy services under the jurisdiction of DHSS. The board has amended the rule to clarify its current jurisdiction.

COMMENT #2: MHA suggested the board amend section (1) to clarify that pharmacists providing in-person supervision on the "same physical premises" as a pharmacy technician are not required to be "face-to-face" with the technician at all times.

RESPONSE: The board recognizes pharmacists may be engaged in other pharmacy activities while on the premises of the pharmacy that may periodically prevent face-to-face supervision (e.g., counseling patients, immunizing). The board believes the "same physical premises" language provides sufficient flexibility to accommodate instances where a pharmacist may not be face-to-face with the pharmacy technician but is still onsite and able to provide appropriate supervision. As a result, no changes have been made in response to the comment. However, the board will educate licensees on the rule's requirements to clarify the board's intent.

COMMENT #3: The board received a comment from the National Association of Chain Drug Stores (NACDS) in support of the rule which NACDS indicated would be helpful in emergency situations. NACDS also supported allowed employer-based training to benefit patients across the state.

RESPONSE: The board thanks NACDS for their letter of support. No changes have been made in response to the rule.

COMMENT #4: The board received a comment from CVS Health suggesting the board amend section (1) to allow pharmacy technicians/intern pharmacists to be supervised via technology that is used to "communicate with and monitor" the pharmacy technician/intern pharmacist as opposed to technology that is used to "communicate with and observe" the pharmacy technician/intern pharmacist, as provided in the proposed rule. CVS stated the term "observe" implies technology with visual capability is required and suggested the term "monitor" would more aptly reflect the board's intent concerning the required supervisory relationship.

RESPONSE AND EXPLANATION OF CHANGE: The board agrees with the recommendation. The rule has been modified as suggested.

COMMENT #5: The Missouri Pharmacy Association (MPA) filed a comment suggesting the proposed rule would conflict with current rule 20 CSR 2220-2.010(2)(B) which requires that a pharmacist must be "physically present within the confines of the dispensing area" whenever medication is compounded, dispensed, or provided. While MPA acknowledges proposed 20 CSR 2220-2.710 provides "Nothing in this rule shall override the provisions of 20 CSR 2220-2.010," MPA suggested 20 CSR 2220-2.710 could still "create considerable confusion in interpretation and application."

RESPONSE: As recognized by MPA, the proposed rule expressly provides that 20 CSR 2220-2.710 does not override the provisions of 20 CSR 2220-2.010. At this time, a pharmacist must still be physically present whenever medication is compounded, dispensed, or provided, as required by 20 CSR 2220-2.010(2)(B). The board will be amending 20 CSR 2220-2.010 separately due to the expanded scope of the rule and needed revisions. No changes have been made in response to the comment at this time, however, the board will consider the suggestion during its upcoming review of 20 CSR 2220-2.010. The board will continue to educate licensees regarding the scope, interpretation and application of 20 CSR 2220-2.710 in the interim to provide additional clarity.

COMMENT #6: MPA submitted a comment stating the proposed rule "would create significant new regulatory and professional liability risks for the pharmacist-in-charge (PIC). The PIC would have full responsibility for all prescriptions which would be dispensed under the Proposed Rule, even when neither the PIC nor any other pharmacist is physically on the premises of the pharmacy."

RESPONSE: The provisions of 20 CSR 2220-2.710 would be voluntary and not mandatory. The PIC would retain authority to limit authorized activities without a pharmacist present. Further, the proposed

rule does not modify 20 CSR 2220-2.010(2)(B) which requires that a pharmacist must be “physically present within the confines of the dispensing area” whenever medication is compounded, dispensed, or provided. As a result, no changes have been made in response to the comment.

COMMENT #7: MPA submitted a comment suggesting the proposed rule appears to be inconsistent with the pilot project authority granted to the board in section 338.143, RSMo. Specifically, section 338.143, RSMo authorizes the board to approve pilot projects related to “technology assisted verification” or “remote medication dispensing.” MPA suggests the proposed rule appears to impermissibly include the same concept as section 338.143, RSMo which MPA alleges will expire on August 28, 2023.

RESPONSE: Section 338.143.1(1), RSMo, defines “remote medication dispensing” as dispensing or assisting in the dispensing of medication outside of a licensed pharmacy. “Technology assisted verification” is further defined in section 338.143.1(2), RSMo, as “the verification of medication or prescription information using a combination of scanning technology and visual confirmation by a pharmacist.” 20 CSR 2220-7.010 does not authorize either of these activities, as suggested. Instead, section (5) of the proposed rule retains the applicability of 20 CSR 2220-2.010 which provides a pharmacist must be “physically present within the confines of the dispensing area” whenever medication is compounded, dispensed, or provided. As a result, no changes have been made in response to the comment.

COMMENT #8: The board received a comment suggesting that “allowing pharmacies to operate without a pharmacist physically present will drastically alter and belittle” the pharmacy profession. The commenter indicated the rule would eliminate pharmacist-patient interaction and allow delegation to a “computer monitor” or an individual working from a remote location that may not be in the United States.

RESPONSE: The rule would not eliminate the need for a pharmacist as suggested. Specifically, 20 CSR 2220-2.010(2)(B) requires a pharmacist must be “physically present within the confines of the dispensing area” whenever medication is compounded, dispensed, or provided. This requirement is not modified by the proposed rule which expressly provides, “[n]othing in this rule shall override the provisions of 20 CSR 2220-2.010.” Additionally, the proposed rule does not rescind or modify current requirements for patient counseling, prescription verification, or Missouri licensure. No changes have been made to the rule in response to the comment, however, the board will continue to proactively educate licensees to clarify the rule’s applicability.

20 CSR 2220-2.710 Pharmacy Technician and Intern Pharmacist Supervision

(1) Pharmacy technicians and intern pharmacists may assist a pharmacist in the practice of pharmacy as authorized by Chapter 338, RSMo, and the rules of the board, provided delegated tasks are performed under the direct supervision of a pharmacist. Direct supervision means supervision by a Missouri licensed pharmacist who is readily and immediately available at all times the delegated tasks are being performed and who provides personal assistance, direction, and approval throughout the time the delegated tasks are being performed. “Readily and immediately available” means the pharmacist and pharmacy technician(s) or intern pharmacists are on the same physical premises, or if not, technology is used to communicate with and monitor the pharmacy technician and intern pharmacist, as authorized in section (2).

(5) Unless otherwise provided by law or court of competent jurisdiction, the provisions of this rule are only applicable to pharmacy services under the jurisdiction of the board and are not applicable to hospital pharmacy services under the jurisdiction of the Missouri

Department of Health and Senior Services pursuant to Chapter 197, RSMo.

Title 20—DEPARTMENT OF COMMERCE AND INSURANCE

Division 2220—State Board of Pharmacy Chapter 2—General Rules

ORDER OF RULEMAKING

By the authority vested in the Missouri Board of Pharmacy under sections 338.010 and 338.140, RSMo Supp. 2019, and sections 338.013, 338.035, and 338.280, RSMo 2016, the board adopts a rule as follows:

20 CSR 2220-2.725 Remote Data Entry is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on March 16, 2020 (45 MoReg 426). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received two (2) comments on the proposed rule.

COMMENT #1: G.L.O. & Associates submitted a comment suggesting the board amend subsection (3)(C) to require pharmacy technicians to be certified pharmacy technicians (CPhT) in order to perform remote data entry functions.

RESPONSE: The comment was discussed during board deliberations on the proposed rule. Board members and members of the public expressed concerns that pharmacy certification would not guarantee competence or adequate training. Concerns were also expressed regarding the availability of certified pharmacy technicians in rural areas and potential financial impact on small businesses with limited resources to fund certification training. Based on the comments received, the board believes employer based training tailored to the specific remote activities to be performed along with a documented assessment of competency will ensure sufficient training at this time. However, the board will consider the comment during the board’s upcoming strategic planning discussions on overall pharmacy technician training/qualifications. As a result, no change has been made in response to the comment.

COMMENT #2: The National Association of Chain Drug Stores (NACDS) submitted a comment asking that the board amend the definition of “supervising pharmacy” in subsection (1)(B) to allow any Missouri licensed pharmacy to supervise a remote data entry site even if not physically located in Missouri. NACDS indicated the Missouri physical location requirement would impede the ability to deploy remote order entry as part of centralized filling/dispensing operations to better serve patients.

RESPONSE: Due to the nature of pharmacy services, the board believes both the supervising pharmacy and remote data entry site should be physically located within Missouri to allow sufficient oversight and intervention if needed. As a result, no change has been made in response to the comment.
