HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

bination of these. This rule corresponds with Section 2 of the federal Grade "A" Pasteurized Milk Ordinance (PMO), as adopted in 2 CSR 80-3.001.

(1) *[No person shall produce, sell, offer, or expose for sale or have in possession with intent to sell, any milk or milk products which are adulterated, misbranded, or ungraded.] No person shall produce, provide, sell, offer, or expose for sale, or have in possession with intent to sell, within the state of Missouri, or its jurisdiction, any milk or milk product which is adulterated or misbranded. Provided that, in an emergency, the sale of pasteurized milk and milk products which have not been graded, or the grade of which is unknown, may be authorized by the regulatory agency, in which case those products shall be labeled ungraded.*

(2) *Any adulterated or misbranded milk or milk product may be impounded under proper authority by the regulatory agency and disposed of in accordance with applicable laws or regulations, including the Grade "A" Pasteurized Milk Ordinance, as adopted in 2 CSR 80-3.001.*

PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

Division 80—State Milk Board
Chapter 3—Production and Distribution of Grade "A"

PROPOSE AMENDMENT

2 CSR 80-3.070 The Grading of Milk and Milk Products. The board is amending the chapter title, purpose, and section (1) and removing section (2).

PURPOSE: This proposed amendment updates standards for Grade "A" raw milk and eliminates unnecessary duplication of portions of the Pasteurized Milk Ordinance that is adopted by reference. This proposed amendment also amends the title of the chapter and purpose by removing the word retail.

PURPOSE: This rule provides standards which Grade "A" [retail] raw milk and milk products must meet.

(1) Grades shall be based on the following standards, the grading of milk products being identical with the grading of milk, except that the bacterial count standards shall be doubled in the case of cream. The grade of milk product shall be that of the lowest grade of milk product used in its preparation.

(A) Grade "A" [retail] raw milk is raw milk produced upon dairy farms conforming with all of the following items of sanitation. The bacterial plate count of the milk shall not exceed [fifty] **twenty** thousand (150,000) **20,000** per milliliter and not more than [one hundred] **ten** (100/10) coliform per milliliter as determined in accordance with [2 CSR 80-3.060] **2 CSR 80-3.001**.

1. Cow health. All herds and additions shall be tested and found free of tuberculosis before any milk is sold, and all herds shall be retested at least every twelve (12) months thereafter **until accredited or certified by the United States Department of Agriculture as a tuberculosis-free herd**. The tests and retests shall be made and any

reactors disposed of, in accordance with the latest requirements approved by the United States Department of Agriculture (USDA), for tuberculosis-free accredited herds, in effect at the time of the adoption of these regulations. A certificate identifying each animal signed by the veterinarian or attested to by the state authority, and filed as directed by the state authority, shall be evidence to the previously-mentioned test.

A. All herds and additions shall be tested and found free of brucellosis before any milk is sold, and all herds shall be retested at least every twelve (12) months thereafter **until accredited or certified by the United States Department of Agriculture as a brucellosis-free herd**. Tests and retests shall be made, and any reactors disposed of in accordance with the latest requirements by the USDA, in effect at the time of the adoption of these rules. A certificate identifying each animal, signed by the veterinarian and the director of the laboratory making the test and filed as directed by the state authority, shall be evidence of the previous test.

B. Cows which show a complete induration of one (1) quarter or extensive induration in one (1) or more quarters of the udder, upon physical examination whether secreting abnormal milk or not, shall be permanently excluded from the milking herd, provided that this shall not apply in the case of quarter that is completely dry. Cows giving bloody, stringy, or otherwise abnormal milk, but without entire or extensive induration of the udder, shall be excluded from the herd until reexamination shows that the milk has become normal.

C. For other diseases, such tests and examinations as the state authority may require after consultation with state livestock sanitary officials shall be made at intervals and by methods prescribed by him/her, and any diseased animals or reactors shall be disposed of as s/he may require.

2. *Milking barn—lighting.* A milking barn, stable, or parlor shall be provided. It shall be provided with adequate light, properly distributed for both day and night milking.

3. *Milking barn—air space and ventilation.* Sections of the milking barn, stable, or parlor where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

4. *Milking barn—floors, animals.* The floors and gutters of that portion of the barn, stable, or parlor in which cows are milked shall be constructed of concrete, or other approved, impervious, and easily-cleaned material. Floors and gutters shall be graded so as to drain properly and shall be kept clean and in good repair. No swine or fowl shall be permitted in the milking barn, stable, or parlor. If horses, dry cows, calves, or bulls should be stabled, they shall be confined in stalls, stanchions, or pens which shall be kept clean and in good repair.

5. *Milking barn—walls and ceilings.* The interior walls and the ceilings of the milking barn, stable, or parlor shall be whitewashed or painted as often as may be necessary or finished in an approved manner and shall be kept clean and in good repair. Where there is a second story above the milking barn, stable, or parlor, the ceiling shall be tight. If feed should be ground or mixed, or sweet food should be stored, in a feed room or feed storage space which adjoins the milking space, it shall be separated by a dust-tight partition and door.

6. *Cowyard.* The cowyard shall be graded and drained as well as is practicable and shall be so kept that there are no standing pools of water nor accumulations of organic waste; provided, that in loafing areas, cattle housing areas, or both, manure droppings shall be removed, or clean bedding added, at sufficiently frequent intervals to prevent the accumulation of manure on cows' udders and flanks. Swine shall be kept out.

7. *Manure disposal.* All manure shall be removed and stored or disposed of in such a manner as to best prevent the breeding of flies and the access of cows to piles thereof.

8. *Milkhouse or room—construction and equipment.* There shall be provided a milkhouse or milkroom in which the cooling, handling, and storing of milk and milk products, and the washing, bactericidal treatment, and storing of milk containers and utensils shall be done.

A. The milkhouse or room shall be provided with a smooth floor, constructed of concrete or other impervious material, maintained in good repair, and graded as to provide proper drainage.

B. It shall have walls and ceilings of such construction as to permit easy cleaning and shall be well painted or finished in an approved manner.

C. It shall be well lighted and well ventilated.

D. It shall have all openings effectively screened, including outward opening self-closing doors, unless other effective means are provided to prevent the entrance of flies.

E. It shall be used for no purposes other than those specified previously, except as may be approved by the state authority; it shall not open directly into a milking barn or stable, nor into any room used for domestic purposes; it shall have water piped into it; it shall be provided with adequate facilities for heating water to clean utensils; and it shall be equipped with three (3) compartment stationary, wash and rinse vats. The cleaning and other operations shall be located and conducted so as to prevent any contamination of the milk or cleaned equipment.

F. The milkhouse shall be partitioned to separate the handling of milk and storage of cleaned utensils from the cleaning and other operations, which shall be located and conducted as to prevent any contamination of the milk or of cleaned equipment. 2 CSR 80-3.100 shall be posted in the milkhouse.

9. *Milkhouse or room—cleanliness and flies.* The floors, walls, ceilings, and equipment of the milkhouse or room shall be kept clean at all times. All necessary means for the elimination of flies shall be used.

10. *Toilet.* Every dairy farm shall be provided with one (1) or more sanitary toilets, conveniently located and properly constructed, operated, and maintained so that the waste is inaccessible to flies and does not pollute the surface soil nor contaminate any water supply.

11. *Water supply.* Water for all dairy purposes shall be from a supply properly located, protected, and operated and shall be easily accessible, adequate, and of a safe, sanitary quality.

II. SUMMARY OF FISCAL IMPACT

Affected Agency or Political Subdivision	Estimated Cost of Compliance in the Aggregate
Family Support Division (FSD)	\$0
MO HealthNet Division (MHD)	FY21: GR: \$62,366; FF: \$118,867; Total: \$181,233 FY22: GR: \$63,863; FF: \$121,720; Total: \$185,583 FY23: GR: \$65,396; FF: \$124,641; Total: \$190,037
Office of Administration – Information Technology Services Division (OA-ITSD)	FY20: \$61,500

III. WORKSHEET

This rule implements sections of Senate Bill 514 (2019) that amended Section 1, 208.151 RSMo to allow persons who were in foster care under the responsibility of another state on the date such persons attained the age of eighteen years, or at any time during the thirty-day period preceding their eighteenth birthday, received foster care in another state for at least six months, are currently residing in Missouri, are not eligible for coverage under another mandatory coverage group, and were covered by Medicaid while they were in foster care to be eligible to receive MO HealthNet

benefits up to age 26. The new regulation affords the same coverage to former foster kids from other states as it does for former Missouri foster kids.

IV. ASSUMPTIONS

FSD:

Section 1902 (a)(10)(A)(i)(IX) of the Social Security Act requires states to make medical assistance available to individuals who were in foster care under the responsibility of the State on the date of attaining eighteen years of age until the individual turns twenty-six years of age. However, the federal law does not require states to make medical assistance available to individuals who were in foster care under the responsibility of another state.

States have the option to apply for an 1115 demonstration waiver under 42 CFR 435.150 to provide medical assistance to former foster care youth who aged out in another state and were enrolled in Medicaid in another state at any time during the period of foster care.

In SFY 2018, there were 25 children placed in foster care in Missouri who were under the responsibility of another state for at least six months. For the purpose of this regulation, FSD is estimating that this is the number of children that would be eligible for this coverage per year. It is assumed that these individuals are eligible for a federally matched Medicaid program, under an 1115 demonstration waiver. Until the 1115 demonstration waiver is approved, these individuals are eligible for a state funded Medicaid program.

The FSD assumes existing staff will be able to complete necessary additional work as a result of this regulation.

MHD:

The Children's Division (CD) reports that a total of 25 children in FY18 were 18 or older and are currently residing in Missouri that had been under the responsibility of another state for at least 6 months at any time in their lifetime. This regulation limits coverage for this population to those who were receiving Medicaid for six months in another state and were in foster care in another state on the date they turned age 18 or 30 days preceding their eighteenth birthday, which is the same coverage this statute affords to Missouri foster kids. MO HealthNet Division found that a per member per month (PMPM) rate for foster care services is \$604.11. Therefore, an annual cost for this new program is estimated to be \$181,233 (25 newly eligible*\$604.11 PMPM*12 months). A 2.4% inflation rate was used for FY22 and FY23.

FY21: GR: \$62,366; FF: \$118,867; Total: \$181,233

FY22: GR: \$63,863; FF: \$121,720; Total: \$185,583

FY23: GR: \$65,396; FF: \$124,641; Total: \$190,037

OA-ITSD:

To comply with Section 1, 208.151 RSMo. changes to the Missouri Eligibility Determination and Enrollment System (MEDES) functionality were not required. Development and implementation of the foster care eligibility subsystem within the Family And Children

Electronic System (FACES) required 820 hours at a rate of \$75 per hour. The total fiscal impact to OA-ITSD is \$61,500 (820*\$75) in FY20.

ORDER OF RULEMAKING**

By the authority vested in the State Board of Education (board) under section 161.092, RSMo 2016, and sections 163.021 and 171.031, RSMo Supp. 2020, the board adopts a rule as follows:

5 CSR 30-660.085 is adopted.

SUMMARY OF COMMENTS: The board received two (2) comments on the proposed rule.

RESPONSE: Students completing virtual coursework receive an assumed ninety-four percent (94%) attendance rate for the course. They may take virtual courses onsite at the discretion of the Local Education Agency (LEA), but when they do so the onsite seated attendance rate applies. No changes have been made to the rule based on this comment.

COMMENT #2: Doug Thaman, Executive Director of the Missouri Charter Public School Association, requests that "instruction during quarantine" attendance reporting provisions apply to individual students, in addition to groups of students, quarantined due to exposure through school activities.

RESPONSE AND EXPLANATION OF CHANGE: Under current guidance, homebound instruction provisions allow for attendance to be reported for individual students under quarantine. However, given the requirements of homebound instruction and the potential quantity of students impacted by quarantine as a result of COVID-19, subsection (1)(E) will be changed to allow for "instruction during quarantine" attendance reporting to apply to individual students under an approved AMI-X plan.

5 CSR 30-660.085 Attendance Hour Reporting

(1) The following definitions apply to this rule:

(E) Instruction During Quarantine: An individual student or a group of students, such as a classroom or bus roster, receive distanced instruction for an identified period of time to protect public health;

**Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—MO HealthNet Division
Chapter 3—Conditions of Provider Participation,
Reimbursement, and Procedure of General Applicability**

ORDER OF RULEMAKING

By the authority vested in the Department of Social Services, MO HealthNet Division, under sections 208.201 and 660.017, RSMo 2016, the division adopts a rule as follows:

13 CSR 70-3.320 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on August 17, 2020 (45 MoReg 1249-1254). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Social Services, MO HealthNet Division (MHD) received seventeen (17) comments on the proposed rule.

COMMENT #1: Gail Howard, a Consumer Directed Services (CDS) recipient, commented that she and others with disabilities and the elderly cannot afford to implement EVV due to the expense of a landline or the internet.

RESPONSE: The utilization of Electronic Visit Verification is a federal requirement mandated by the 21st Century CURES Act. In order to make the transition to consistent use of EVV as seamless as possible for the recipients of service, Missouri has required the provider agency to work with each individual to identify the form of EVV most appropriate for them. The 21st Century CURES Act also has protections against using the EVV requirement to limit a recipient's selection of a caregiver, or to impede the manner in which care is delivered to a recipient.

COMMENT #2: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented that subsection (1)(E) – defining "Exception" – needs clarification to show that the EVV system does not identify exceptions, but is instead a place in which an exception can be found.

RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended subsection (1)(E) to state: "Exception" shall mean any manual adjustment or update to an EVV record, [identified by] **indicated within** the EVV system and passed to the aggregator solution.

COMMENT #3: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented that subsection (1)(J) – defining "Reason Codes" – shifted the responsibility of establishing reason codes from the provider to the EVV vendor, and would increase expenses for provider agencies.

RESPONSE: The establishment of reason codes within the EVV system is the responsibility of the EVV vendor but is done in collaboration with the personal care service provider. The state anticipates an aggregator solution with the capability to crosswalk reason codes from a variety of EVV systems in order to minimize the expense of standardization of reason coding.

COMMENT #4: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, asked in reference to subsection (1)(M) – defining "Task" – what the purpose of continuing to collect task data was given the inconsistencies of specific task documentation, and whether the aggregator would be able to recognize these variations in task documentation.

RESPONSE: Task information will be entered into EVV systems and passed to the aggregator solution. The state anticipates an aggregator solution with the capability to crosswalk task documentation from a variety of EVV systems in order to minimize the expense of standardization of task coding.

COMMENT #5: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented on subsection (2)(A), asking whether the requirement to communicate with participants about the EVV requirements will extend to the Department of Social Services.

RESPONSE: At the time of assessment for services and the development of the care plan, the Department of Health and Senior Services and/or the Department of Mental Health will advise MO HealthNet participants of the requirement for them to use EVV. Additionally, a participant flyer explaining the requirement is available on the MHD website to support the requirement.

COMMENT #6: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented on subsections (2)(E), (2)(F), and (2)(G) that clarification is needed as to whether specific documentation requirements and/or processes will be addressed in policy.

RESPONSE: MHD is uncertain as to which documentation requirements are unclear. The required justification documentation is listed in the proposed rule as follows: date and time of manual entry, reason for entry, and identification of person making the entry must be

entered into the EVV system.

COMMENT #7: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented on subsection (2)(F) that the rule does not allow for manual visit entry in cases of human error.
RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended subsection (2)(F) to clarify the entry of justification documentation due to human error. Language in subsection (2)(F) has been amended to state: Justification documentation must support any instance of human error, and such errors must be readily identifiable. Repeated instances of human error are subject to audit.

COMMENT #8: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented on the justification documentation requirements in subsections (2)(F) and (2)(G), stating that some justification entries will not be made directly into EVV systems.
RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended this final rule to address this concern. Language has been modified in subsections (2)(F) and (2)(G) to state: Any adjustment or exception requires the provider agency to enter justification documentation into the EVV system, which may include an editor program.

COMMENT #9: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented on subsection (2)(H) that clarification is needed as to whether suspected falsification of EVV data must be reported to the Missouri Medicaid Audit and Compliance Unit if the data will not be used to bill Medicaid.
RESPONSE: Provider agencies are mandated reporters of fraud, waste, and abuse within the Medicaid program. Any suspected instance, whether Medicaid is billed or not, must be reported to the Missouri Medicaid Audit and Compliance Unit.

COMMENT #10: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented regarding section (3) to express concern regarding the implementation of an aggregator solution after EVV vendors are in place.
RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended the title of section (3) to: Electronic Visit Verification Vendor Responsibilities Upon Implementation of an Aggregator Solution

COMMENT #11: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented regarding subsection (3)(I) expressing concern that the requirement to have two (2) alternative forms of recording visit data would be too costly for providers, and favoring requiring two (2) forms of recording visit data in total.
RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended subsection (3)(I) to reduce the required number of alternative forms of recording visit data to one (1), and to clarify that manual entry shall not be considered the primary means of recording visit data.

COMMENT #12: Carol Hudspeth, Executive Director of the Missouri Alliance for Home Care, commented regarding subsection (3)(J) stating fixed objects and validators should be included as stand alone methods of data collection.
RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended subsection (3)(J) to state: "When employing any form of EVV aside from the use of a designated landline telephone or a fixed object in the MO HealthNet participant's home..."

COMMENT #13: Nathan Sutenfield, Director of Residential Supports, Cole County Residential Services, Inc., commented to express concerns about the implementation of EVV occurring earlier than the establishment of an aggregator solution.
RESPONSE: The federal 21st Century CURES Act mandates the start date for EVV implementation. As Missouri initiated implemen-

tation of EVV in 2015, the MHD had numerous stakeholder meetings to ensure provider agencies and EVV vendors were aware of upcoming changes. Additionally, a website to share EVV information was created. The MHD is currently in the process of receiving bids for the aggregator solution and upon award more information will be available.

COMMENT #14: Jessie Butler, a Consumer Directed Services recipient, commented concerns about the complexity of using EVV, and a belief that using an EVV will not help to prevent abuse of the Medicaid program.
RESPONSE: The utilization of Electronic Visit Verification is a federal requirement mandated by the 21st Century CURES Act. In order to make the transition to consistent use of EVV as seamless as possible for the recipients of services, Missouri has required the provider agency to work with each individual to identify the form of EVV most appropriate for them.

COMMENT #15: Missouri Centers for Independent Living commented concern regarding the cost of EVV implementation.
RESPONSE: EVV utilization is federally mandated by the 21st Century CURES Act. The MHD has opted to allow provider agencies to select EVV vendors that best suit their needs in order to minimize the cost of implementation.

COMMENT #16: Missouri Centers for Independent Living commented to express concern about the requirements for location technology in rural areas.
RESPONSE: EVV vendors are required to have the capacity to collect information in an offline mode and upload upon access to the internet. Internet is not required for the use of fixed objects in the MO HealthNet participant's home.

COMMENT #17: Missouri Centers for Independent Living commented to express concern about individuals who may need an exception to use of EVV.
RESPONSE: The utilization of Electronic Visit Verification is a federal requirement mandated by the 21st Century CURES Act. The Centers for Medicare and Medicaid Services have stated EVV will be utilized by one hundred percent (100%) of MO HealthNet participants who receive personal care assistance.

13 CSR 70-3.320 Electronic Visit Verification (EVV)

- (1) Definitions.
 - (E) "Exception" shall mean any manual adjustment or update to an EVV record, indicated within the EVV system and passed to the aggregator solution.
- (2) Provider Agency Responsibilities regarding Electronic Visit Verification.
 - (F) Manual visit entry shall be utilized only when the EVV system is unavailable or when exigent circumstances, documented by the provider agency, make usage of the system impossible or impractical. Justification documentation must support any instance of human error and such errors must be readily identifiable. Repeated instances of human error are subject to audit. The provider agency shall enter justification documentation into the EVV system, which may include an editor program. Information shall include the date and time of the manual entry, the reason for the entry, and the identification of the person making the entry. The provider agency must pass a manual entry indicator and reason for manual entry to the aggregator solution within documentation timeframes established by the MO Medicaid Audit and Compliance Unit.
 - (G) Any adjustment or exception requires the provider agency to enter justification documentation into the EVV system, which may include an editor program, within five (5) business days of the date the service was provided. Information must include the date and time

of the entry and/or update, the reason for the entry and/or update, and the identification of the person making the entry and/or update.

(3) Electronic Visit Verification Vendor Responsibilities Upon Implementation of an Aggregator Solution.

(I) EVV systems shall have a minimum of two (2) forms of recording visit data, one (1) of which must be manual visit entry. Manual visit entry shall not be considered the primary means of recording visit data and shall only be used in the event of human error, natural disaster, system failure, or when all other forms of entry have been exhausted or are unavailable.

(J) When employing any form of EVV aside from the use of a designated landline telephone or a fixed object in the MO HealthNet participant’s home, the EVV system must use location technologies to record the location of the direct care worker at the start and stop of service delivery.
