The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

IV. **ASSUMPTIONS**

**The Department of Social Services (DSS), MO HealthNet Division (MHD):** The above impact to DSS, MHD was calculated using the following assumptions:

---

1 State Fiscal Year.
Estimated Paid Days:

Nursing Facility:

The estimated paid days for SFY 2020 for nursing facilities are based on the Medicaid days paid for nursing facility services during SFY 2019 increased by 0.5% for SFY 2020 and prorated for August 2019 – June 2020.

Hospice:

The estimated paid days for SFY 2020 for hospice are based on the actual hospice days provided in nursing facilities from January 2018 through December 2018 and prorated for August 2019 – June 2020.

Non-State Government Owned Nursing Facilities (49): This emergency amendment provides for a per diem increase to nursing facility and HIV nursing facility per diem reimbursement rates of one dollar and sixty-one cents ($1.61) effective for dates of service beginning August 1, 2019, through June 30, 2020. The per diem increase is reduced to one dollar and forty-nine cents ($1.49) effective for dates of service beginning July 1, 2020. Therefore, there are no costs of compliance to Medicaid enrolled non-state government owned nursing facilities.

Hospice: Hospice providers may be impacted by this regulation because reimbursement for hospice services provided in nursing facilities is based on the nursing facility per diem rate. MHD conducted a fiscal analysis using 13 CSR 70-50.010 to estimate the impact to hospice. Please note that this is an estimated analysis with the assumption of hospice appropriation authority.

Hospice Nursing Home Room and Board services are reimbursed 95% of the nursing facility per diem rate. The per diem increase of $1.61 to the nursing facility rate effective for dates of service beginning August 1, 2019 through June 30, 2020 computes to an increase to hospice reimbursement rates resulting from this amendment of $1.53 ($1.61 x 95%).

Impact on Home and Community Based Services (HCBS):

HCBS provided on a monthly basis are limited to a percentage of the average monthly nursing facility payment (referred to as the HCBS cost cap). The HCBS cost cap for a given SFY is based on the average monthly nursing facility payments for the 12 months ending in April of the previous SFY. Therefore, the per diem increase of $1.61 to the nursing facility rate effective for dates of service beginning August 1, 2019, through June 30, 2020, will not impact the HCBS cost cap for SFY 2020, but may impact the HCBS cost cap for SFY 2021. For SFY 2021, the HCBS cost cap is estimated to increase by approximately 3.42% as a result of this amendment. This may increase the amount of services, and the payments, for MO HealthNet participants that are at the cap.

Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES
Division 20—Division of Community and Public Health
Chapter 20—Communicable Diseases

EMERGENCY AMENDMENT

19 CSR 20-20.020 Reporting Infectious, Contagious, Communicable, or Dangerous Diseases. The department is amending section (1).

PURPOSE: This amendment adds the 2019 Novel Coronavirus (2019-nCoV) to the list of diseases or findings that must be immediately reported.

EMERGENCY STATEMENT: The Department of Health and Senior Services (“DHSS”) determined that this emergency amendment is necessary to protect the public health, safety, and welfare of Missouri residents and visitors.

This emergency amendment is necessary to ensure that the 2019 Novel Coronavirus (2019-nCoV) is reported to the local health authority or DHSS immediately upon detection. The Center for Disease Control and Prevention (CDC) is closely monitoring an outbreak of respiratory illness caused by a novel coronavirus first identified in Wuhan, Hubei Province, China. There are currently over 2,900 estimated cases with at least 82 deaths linked to this novel coronavirus (2019-nCoV). As of January 26, 2020, five cases have been confirmed in the United States (Arizona, California, Illinois, and Washington) of individuals traveling from Wuhan. Due to its severity and the rapid increase in the number of cases of this novel coronavirus, it is imperative for the local health authority or DHSS to be notified immediately upon detection in order to take appropriate measures. Finally, since 19 CSR 20-20.040 assigns duties, responsibilities, and actions to the DHSS director as well as local health authorities that are explicitly triggered by the detection of a condition listed in 19 CSR 20-20.020, the 2019 Novel Coronavirus (2019-nCoV) must be immediately added to 19 CSR 20-20.020.

DHSS finds this emergency amendment to ensure that the presence of the 2019 Novel Coronavirus (2019-nCoV) is reported to the local health authority or it immediately upon detection. This emergency amendment designates the diseases which are infectious, contagious, communicable or dangerous and must be reported to the local health authority or the Department of Health and Senior Services. It also establishes when they must be reported.

DHSS finds that there is an immediate danger to the public health, safety or welfare, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. DHSS believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed January 27, 2020, becomes effective February 10, 2020, and expires August 7, 2020.

(1) The diseases within the immediately reportable disease category pose a risk to national security because they: can be easily disseminated or transmitted from person to person; result in high mortality rates and have the potential for major public health impact; might cause public panic and social disruption; and require special action for public health preparedness. Immediately reportable diseases or findings shall be reported to the local health authority or to the Department of Health and Senior Services immediately upon knowledge or suspicion by telephone (1 800) 392-0727, facsimile, or other rapid communication. Immediately reportable diseases or findings are—

- (C) Instances, clusters, or outbreaks of unusual, novel, and/or emerging diseases or findings not otherwise named in this rule, appearing to be naturally occurring, but posing a substantial risk to public health and/or social and economic stability due to their ease of dissemination or transmittal, associated mortality rates, or the need for special public health actions to control.

PRIVATE COST: This emergency amendment will not cost private entities more than five hundred dollars ($500) in the time the emergency is effective.
