ORDER OF RULEMAKING

By the authority vested in the Department of Social Services, MO HealthNet Division, under sections 208.153, 208.159, 208.201, and 660.017, RSMo 2016, the division amends a rule as follows:

13 CSR 70-10.015 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on April 1, 2021 (46 MoReg 612-622). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Social Services, MO HealthNet Division (MHD) received one (1) comment regarding the proposed amendment.

COMMENT #1: Harvey Tettlebaum, Husch Blackwell, on behalf of the Missouri Health Care Association, recommends a language change to paragraph (14)(A)3. regarding the withholding of payments to out-of-state nursing facilities. The recommendation is to delete "may" and replace it with "shall." With this change, the Missouri Health Care Association supports the proposed amendment.

RESPONSE AND EXPLANATION OF CHANGE: The MHD has amended paragraph (14)(A)3. to make this recommended change.

13 CSR 70-10.015 Prospective Reimbursement Plan for Nursing Facility Services

(14) Exceptions.

(A) Requirements for Placement of MO HealthNet Participants in Out-of-State Nursing Facilities and Reimbursement for Out-of-State Nursing Facilities.

1. In order to provide nursing facility services to MO HealthNet participants when there is no Missouri nursing facility with a suitable bed available that meets the medical needs of the participant, the division may authorize placement of a MO HealthNet participant in an out-of-state facility.

2. The division will only authorize placement of a MO HealthNet participant into an out-of-state facility if—

A. No Missouri nursing facility bed is available that meets the medical needs of the participant;

B. In-state alternatives for providing services have been exhausted; and

C. Prior approval for placement into an out-of-state nursing facility is requested from and approved by the division.

3. Once a Missouri nursing facility bed meeting the medical needs of the participant is available, the participant must return to Missouri. If the participant does not return to Missouri, the division

shall withhold payments for nursing facility services, unless the participant's health would be endangered if required to travel to Missouri. Participant's physician would need to certify that the participant's health would be endangered from the travel to Missouri.

4. No fiscal year-end Missouri Medicaid cost report will be required from the out-of-state nursing facility nor will there be any requirement for Missouri-conducted periodic audits.

5. The Title XIX reimbursement rate for out-of-state providers shall be set as follows:

A. For out-of-state providers which provided services for Missouri Title XIX participants, the reimbursement rate shall be the lower of—

(I) The weighted average MO HealthNet rate for comparable services at the beginning of the state fiscal year in which the provider enters the MO HealthNet program; or

(II) The rate paid to the out-of-state nursing facility for comparable services by the state in which the provider is located. The out-of-state provider must notify the division of any reimbursement changes made by its state Medicaid agency. The provider must also include a copy of the rate letter issued by their state Medicaid agency detailing the rate and effective date. The effective date of the rate change is as follows:

(a) Rate increases—If the provider notifies the division within thirty (30) days of receipt of notification from their state of the per diem rate increase, the effective date of the rate increase for purposes of reimbursement from Missouri shall be the same date as indicated in the issuing state's rate letter. If the division does not receive written notification from the provider within thirty (30) days of the date the provider received notification from their state of the rate increase, the effective date of the rate increase for purposes of reimbursement from Missouri shall be the first day of the month following the date the division receives notification; or

(b) Rate decreases—The effective date of the rate decrease for purposes of reimbursement from Missouri shall be the same date as indicated in the issuing state's rate letter.

**Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES
Division 30—Division of Regulation and Licensure
Chapter 81—Certification**

ORDER OF RULEMAKING

By the authority vested in the Missouri Department of Health and Senior Services under sections 192.006, 192.2000, and 198.079, RSMo 2016, the department amends a rule as follows:

19 CSR 30-81.030 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 16, 2021 (46 MoReg 334-357). Those sections with changes are reprinted here. This proposed amendment becomes effective on **October 31, 2021**.

SUMMARY OF COMMENTS: The Department of Health and Senior Services received two (2) internal department comments and one (1) letter with four (4) comments on the proposed amendment.

COMMENT #1: Jessica Schaefer, a Public Health Program Supervisor for the department, commented the home and community based algorithm incorrectly identified a coding combination as nine (9) points instead of eighteen (18) points in the safety section. As published, it shows "If Safety Score of 3 AND Age 75 or greater AND Institutionalization Then LOC = 9." The "LOC" should be "Then LOC = 18 *TRIGGER." Ms. Schaefer indicated the oversight allowed for less points instead of more and while form DHSS-DRL-109 (10-20) Nursing Facility Level of Care Assessment reflects the correct points, it was not adjusted on the algorithm.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and finds this error to be an oversight and not a substantive change. The department has revised the safety section to correct the typographical error regarding the level of care point score referenced in this comment. These changes were made to the document titled "Missouri Department of Health and Senior Services Home and Community Based Services InterRAI Home Care Assessment System (HC), © InterRAI Level of Care Algorithm" included herein section (6).

COMMENT #2: Travis West, Bureau Chief for the department, commented the safety category of home and community based algorithm should more closely align with the format of the other categories. As published, it shows "Age 75 or greater" and "institutionalization" as parts of the algorithm; however, for formatting consistency the associated InterRAI questions should replace the generic terms "institutionalization" and "age 75 or greater" for each applicable part of the algorithm.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and finds this change to be a formatting error and not a substantive change. The InterRAI specific questions were already present in the definitions section and are not new additions or changes to the algorithm submitted previously. The department has revised the safety section to include “B4a=1 or B4b=1 or B4c=1 or B4d=1 or B4e=1” for all areas of the algorithm published as “institutionalization” and “A3 = Age of 75 or greater” for all areas published as “Age 75 or greater”. These changes were made to the document titled “Missouri Department of Health and Senior Services Home and Community Based Services InterRAI Home Care Assessment System (HC), © InterRAI Level of Care Algorithm” included herein section (6).

COMMENT #3: Legal Services of Eastern Missouri comments that the two (2) tools used by the department to assess level of care in the home and community based population and the long term care population are not comparable. Legal Services states that the two (2) tools rely on different formats, questions, and scoring methodologies. Legal Services also states that home and community based initial assessments are performed by department staff while long term care assessments are completed by providers and approved by the department. Legal Services suggests that it is much easier to establish level of care for long term care residents than individuals attempting to establish eligibility through home and community based services which promotes institutionalization of people in long term care facilities rather than allowing people to remain in their homes.

RESPONSE: The tools used to assess the level of care for home and community based clients and long term care residents are comparable. Both of these tools assess the same twelve (12) categories (e.g. behavioral, cognition, mobility etc....); however, one (1) tool is tailored for the home and community based population and one (1) tool is tailored for the long term care population. Historically, Missouri and most other states have utilized different assessment tools for the home and community based and long term care populations. This is common practice for states to utilize separate tools in order to best meet the needs of the different populations. For example, home and community based clients are evaluated using the InterRAI HC. The InterRAI HC is not only an assessment tool to determine level of care eligibility, but it is also a means to determine unmet needs during the person centered care planning process. The InterRAI HC is specifically designed and used internationally for the home and community based/home care population. Next, the department agrees that the information for the long term care level of care assessment is gathered by another entity; however, the department disagrees that it is easier to establish eligibility for long term care residents. When necessary upon review, department staff obtain further information in order to ensure the accuracy of the level of care assessment. The department reviews each assessment conducted on long term care residents and the final determination as to level of care eligibility is made by the department. Finally, long term care residents are evaluated as to their intention and ability to reenter the community in order to prohibit institutionalization from occurring with long term care residents. In conclusion, the department disagrees that it is easier to establish level of care eligibility for long term care residents as compared to home and community based clients and that the department is promoting institutionalization for all of the reasons set forth above. No changes have been made as a result of this comment.

COMMENT #4: Legal Services of Eastern Missouri comments that the proposed amendment does not include the home and community based algorithm.

RESPONSE: The home and community based algorithm is included herein within 19 CSR 30-81.030(6) and was published in the *Missouri Register* on February 16, 2021. No changes have been made as a result of this comment.

COMMENT #5: Legal Services of Eastern Missouri comments that the implementation of this regulation prior to the end of the COVID-19 public health emergency violates maintenance of effort requirements of the Families First Coronavirus Response Act. Some participants in the Aged and Disabled Waiver receive Medicaid benefits solely as a result of their participation in the waiver because of their eligibility as a special home and community-based waiver group which allows a higher income. These changes in the proposed amendment may terminate waiver eligibility for these participants and the participants will lose their Medicaid benefits.

RESPONSE: The Centers for Medicare and Medicaid Services has clarified in their official guidance from November 2020 that closing services for participants no longer meeting functional eligibility for home and community based services does not violate the Families First Coronavirus Response Act. Disenrollment from home and community based services due to not meeting the transformed level of care would not change the individual’s Medicaid eligibility group. The department will continue to coordinate with the Department of Social Services, Family Support Division to ensure participants remain active in their existing eligibility group until the enhanced federal medical assistance period ends despite the loss of eligibility for home and community based services. No changes have been made as a result of this comment.

COMMENT #6: Legal Services of Eastern Missouri comments that analyses provided by the department show that approximately eleven thousand nine hundred twenty-three (11,923) currently eligible people will lose access to home and community based services as a result of the proposed amendment. Due to the pandemic, Legal Services does not feel this is the best time to make changes to the level of care process for the home and community based population. Legal Services of Eastern Missouri also does not feel the final draft 2.3 has been analyzed.

RESPONSE: The department is obligated to ensure home and community based services are available as an alternative to those otherwise requiring nursing facility placement. The department has conducted hundreds of in-depth case studies in addition to the Mercer data analysis. These case studies were both randomly selected from the entire participant population and also conducted on specific populations based on concerns of condition. The department also asked all stakeholders and home and community based providers to analyze the participants they serve to ensure those identified as potentially no longer eligible would not be at risk of entering a skilled nursing facility. Criteria modifications were made throughout the level of care transformation process using these participant specific examples. The department continues to encourage stakeholders to test and analyze the criteria utilizing their current participant population. The department will continue to work with these stakeholders and make future adjustments to 19 CSR 30-81.030 based on the information the department receives from these stakeholders. Further, an analysis of the final draft 2.3 was conducted by the department and no negative impact was indicated for any current populations. Finally, the department believes that the changes made to the level of care process will benefit numerous individuals that would not have previously qualified for services. No changes have been made as a result of this comment.
