HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	.115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

**Title 7—MISSOURI DEPARTMENT OF
TRANSPORTATION
Division 10—Missouri Highways and Transportation
Commission
Chapter 25—Motor Carrier Operations**

PROPOSED AMENDMENT

7 CSR 10-25.020 Oversize/Overweight Permits. The Missouri Highways and Transportation Commission is amending subsections (6)(D), (8)(D), (11)(C), and (11)(E), and paragraph (6)(D)1., deleting paragraphs (6)(D)4. and (6)(D)5., adding new paragraphs (6)(B)7.-9., and renumbering paragraphs (6)(D)6.-11.

PURPOSE: This amendment relocates language regarding blanket permits of overlength public utility movements and overwide movements of sludge disposal units from the area describing multiple commodity blanket permits to the area that describes single commodity

blanket permits. It also corrects an axle-spacing distance measurement for an alternative configuration of an 8-axle load configuration. Another correction clarifies that two (2) escort vehicles are required when oversized units travel on a two- (2-) lane route off of the interstate system.

(6) Annual Blanket Permits. Blanket permits may be issued for moves up to and including twelve feet, six inches (12'6") in width and one hundred fifty feet, zero inches (150'0") in overall length. Height and weight shall be in accordance with Chapter 304 of the *Missouri Revised Statutes*. The fee schedule for blanket permits is outlined in subsection (4)(B). Separate permits are required for each power unit. To qualify for an annual blanket permit, insurance must be in force for the entire period (see section (2)) and vehicles must be properly licensed. All annual permits will expire at 12:00 a.m. on January 1 of the following year. Violation of a blanket permit shall be cause for revocation of the current blanket permit and may result in loss of the privilege of obtaining future blanket permits. Blanket permit moves shall be made in accordance with all other regulations and requirements. The permittee is required to obtain current travel restrictions prior to movement with blanket permits.

(B) Single *IC*/commodity.

1. Manufactured and sectional home units. Annual blanket permits are available for the movement of manufactured and sectional home units up to and including twelve feet, six inches (12'6") in width and one hundred fifty feet, zero inches (150'0") in overall length. Height and weight shall be legal.

2. Farm products (hay). Annual blanket permits are available for farm products (hay) up to and including twelve feet, six inches (12'6") in width. All other sizes and weight shall be legal. Farm products (hay) will not be required to comply with the reducible load requirement for width.

3. Farm implements and construction equipment. Annual blanket permits are available for these moves up to and including twelve feet, six inches (12'6") in width and/or overall length up to a maximum of one hundred fifty feet, zero inches (150'0"). Height and weight shall be legal. Farm implements or equipment not designed for towing at highway speeds must be hauled. If the equipment is designed to be towed, it shall meet all regulatory safety requirements. Farm equipment with dual tires and construction equipment with blade/bucket attached will not be required to comply with the reducible load requirement for width.

4. One hundred- (100-) mile radius blanket permits for farmers and farm implement dealers. Annual blanket permits are available to farm implement dealers and farmers for movement of farm implements up to and including fourteen feet, six inches (14'6") in width. All other dimensions and weight shall be legal. This blanket permit is only valid for moves within a one hundred- (100-) mile radius of permittee's principal place of business. All other permit regulations, including, but not limited to, times of travel, signing, and escorts, will apply. Farm implements not designed for towing at highway speeds must be hauled. If the equipment is designed to be towed, it shall meet all regulatory safety requirements.

5. Implements of husbandry and transporting vehicle. Annual blanket permits are available for movement up to and including twelve feet, six inches (12'6") in width. All other dimensions and weight shall be legal. Implements of husbandry are machines designed specifically for the application of commercial plant-food materials or agricultural chemicals and off-road usage. Such units shall not operate under their own power on the interstate system.

6. Repeated moves of like objects. Annual blanket permits for the movement of specific nonreducible commodities may be issued to a maximum width of twelve feet, six inches (12'6") and/or overall length up to a maximum of one hundred fifty feet, zero inches (150'0"). Height and weight shall be legal. The following items may be considered like objects: boats, portable buildings, wood trusses,

steel trusses, plates, beams, angles, pipe or piling, reinforcing steel mesh, rods or bars, tanks, mobile office trailers, grain carts, cotton trailers, park trailers, precast concrete panels, aluminum plates, wood beams, and concrete girders. This list is not all inclusive. The permit will describe and specify the object to be hauled. A blanket permit may be issued for the repeated movement of objects for permanent use in their transported form. Such objects may vary in size as long as the largest is within the width and/or length limit specified on the permit. Multi-piece loads must be nonreducible and nondivisible in dimension.

7. Public utility. Blanket overlength permits not exceeding one hundred fifty feet, zero inches (150'0") in length (width, height, and weight must be legal) may be issued to a public utility company, a public agency, or their contractor to transport poles or pipe for minor construction, reconstruction, replacements, or emergency repairs. Such permits shall be issued for each power unit (truck-tractor or derrick truck) to travel from the nearest available pole or pipe storage yard. The restriction prohibiting travel in tourist areas, during curfew hours, at night, and on holidays or holiday weekend periods is waived for emergency repairs. Clearance lights in lieu of flags and reflectorized oversize load signs are required for night travel (see subsection (12)(J)).

8. Sludge disposal units. Blanket permits are available for travel on the state highway system other than the interstate and shall not exceed eleven feet, six inches (11'6") in width. All other dimensions and weight shall be legal.

(D) Blanket permits are also available for items that may be oversize or overweight as outlined in section (11), with varying operation areas and time periods. These blanket permits may be issued as explained in the following paragraphs:

1. Thirty- (30-) day [P]ublic [U]tility [or Public Works. Thirty—(30-) day blanket]. Blanket permits up to and including twelve feet, six inches (12'6") wide and/or overall length up to and including one hundred fifty feet, zero inches (150'0") covering specified travel over listed routes may be issued for a period not exceeding thirty (30) days to expedite construction or repair of public utilities or public works clearly in the public interest. Height must be legal;

2. Well-drilling blanket. Blanket permits for well-drilling rigs may be issued to a maximum width of twelve feet, six inches (12'6"), and/or overlength to a maximum of sixty feet (60') for single units and weights not to exceed twenty thousand (20,000) pounds or legal weight on a single axle, forty thousand (40,000) pounds on a tandem axle group, or sixty thousand (60,000) pounds on a triple or quadrum axle group, and a gross weight not to exceed the maximum allowable gross weight according to the number of axles and the specified axle spacings as shown on the weight table in subsection (11)(G). Equipment classified for use in well-drilling work is a single unit designed primarily to drill wells. The unit shall be reduced in size as much as practical. Drill bits and other necessary drilling tools may be carried with the drill rig provided the permitted axle and gross vehicle weight are not exceeded. The permit authorizes travel over the state highway system only and the unit must be able to maintain the posted minimum speed on the interstate system. Travel over bridge structures on which a load limit is posted for lesser weights is not allowed;

The individual treatment plan shall specify interventions and supports to be provided by ICPR staff that are separate from other CPR services (such as community support) to prevent duplication of services.

(B) ICPR in all settings (children/youth and adult) must be approved by the department prior to implementation. Written proposals shall be submitted to the department and must include the following:

1. The proposed service, setting, and timeline for implementation;
2. Method for determining eligibility for the service;
3. Staffing patterns/staff qualifications, including identification of the qualified mental health professional (QMHP) who supervises the ICPR setting;
4. Evidence that the site(s) is safe;

6. Type of documentation to be used;
7. Strategy for preventing the duplication of services and supports delivered by residential and community-based CPR staff;
8. Plan for financial separation of room and board from services; and

(F) At a minimum, quarterly treatment plan reviews shall occur to ensure individuals are receiving the appropriate level of services to meet needs and goals; and

(5) Documentation Requirements. ICPR services must be documented in accordance with 9 CSR 10-7.030(13), and as specified in this rule.

1. Each individual shall have a psychiatric evaluation at admission. For individuals discharged from inpatient hospitalization into ICPR, a psychiatric evaluation completed at the facility/hospital may be initially accepted.

2. The comprehensive assessment must be completed within thirty (30) days of admission except for individuals admitted provisionally.

3. Treatment plans shall be developed upon admission and be updated at least quarterly, or more frequently if clinically indicated.

(6) ICPR for Children and Youth. Services are medically necessary to maintain a child with a Serious Emotional Disturbance (SED) in their natural home, or maintain a child with a serious mental illness or SED in a community setting who has a history of failure in multiple community settings, and/or the presence of ongoing risk of harm to self or others, which would otherwise require long-term psychiatric hospitalization. Clinical interventions are provided by a multidisciplinary treatment team on a daily basis, and the interventions must be available twenty-four (24) hours per day, seven (7) days per week for stabilization purposes. The child's family and other natural supports may receive services when they are for the direct benefit of the child in accordance with their individual treatment plan.

5. Community Support Specialist; and

6. Individuals with a high school diploma, or equivalent certificate, under the direction and supervision of a QMHP.

(12) Children's Inpatient Diversion. A full array of intensive clinical services are provided to children/youth in a highly structured therapeutic setting. Services are designed to restore the child to a prior level of functioning, decrease risk of harm, and prevent transition to a more restrictive setting.

(F) There shall be one (1) staff person for every two (2) individuals served during waking hours. The ratio for staff to individuals served may decrease to one (1) staff to six (6) individuals during sleeping hours.
