## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system—

<b>Title</b>	<b>CSR</b>	<b>Division</b>	<b>Chapter</b>	<b>Rule</b>
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

**T**he Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo.

**EXECUTIVE ORDER  
22-08**

WHEREAS, consistent access to residential heating fuel is critical to public health and well-being; and

WHEREAS, most homes and businesses are wholly reliant on specific residential fuel sources with no way to supplement a major loss with another fuel source; and

WHEREAS, Gygr-Gas previously serviced propane to thousands of customers across forty-two counties in central Missouri; and

WHEREAS, Gygr-Gas has been unresponsive to customers for months, resulting in low or empty propane tanks for many of their customers and leaving them without the ability to heat their homes and businesses; and

WHEREAS, numerous customers paid Gygr-Gas for propane they never received; and

WHEREAS, forecasted severe winter weather risks the safety, welfare, and property of Missourians who will not have adequate heat due to Gygr-Gas's abandonment; and

WHEREAS, the Missouri Propane Safety Commission may also take action to suspend Gygr-Gas's registration due to lapsed insurance; and

WHEREAS, assistance from other propane companies is requested to ensure affected Missouri families and businesses are not negatively impacted.

NOW, THEREFORE, I, MICHAEL L. PARSON, GOVERNOR OF THE STATE OF MISSOURI, by virtue of the authority vested in me by the Constitution and the Laws of the State of Missouri, including Sections 44.100 and 44.110, RSMo, do hereby declare that a State of Emergency exists in the State of Missouri.

While in this State of Emergency, I hereby waive Section 323.030, RSMo, and 2 C.S.R. 90-10.019 to allow other entities registered to fill liquefied petroleum gas containers in this state to fill containers owned by Gygr-Gas. This waiver shall not apply to liquefied petroleum gas containers owned by providers other than Gygr-Gas.

This Order shall terminate on January 1, 2023 unless extended in whole or in part.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri, in the City of Jefferson, on this 15th day of December, 2022.

ATTEST:

  
\_\_\_\_\_  
JOHN R. ASHCROFT  
SECRETARY OF STATE

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

**Boldface text indicates new matter.**

*[Bracketed text indicates matter being deleted.]*

**TITLE 3 – DEPARTMENT OF CONSERVATION  
Division 10 – Conservation Commission  
Chapter 7 – Wildlife Code: Hunting: Seasons,  
Methods, Limits**

**PROPOSED AMENDMENT**

**3 CSR 10-7.410 Hunting Methods.** The commission proposes to add a new subsection (1)(F), re-letter subsequent subsections, and amend new subsections (1)(I) and (1)(R) of this rule.

*PURPOSE: This amendment adds the new CWD portion of firearms deer season to the Special Harvest Provision section, which restricts the use of methods allowed to hunt other wildlife and to take feral hogs in open counties. This amendment also requires hunters to wear hunter orange during the new CWD portion of firearms deer season in open counties and clarifies the use of a blood-tracking dog for the recovery of wounded black bear, deer, elk, and turkey.*

(1) Wildlife may be hunted and taken only in accordance with the following:

**(F) Dogs (Recovery of wounded black bear, deer, elk, and turkey).** A black bear, deer, elk, or turkey is wounded when a properly licensed hunter has struck an animal with a projectile fired from a legal hunting method during the open season. Leashed dogs under the direct control of a dog handler may be used to track and recover wounded black bear, deer, elk, and turkey only with prior authorization from a conservation agent and only in accordance with the instructions of such agent, including the use and possession of any hunting method by any person participating in tracking or recovery. The use of dogs in accordance with this subsection is specifically excluded from the definitions of chase, pursue, and take as defined in this Code. Dog handlers participating in the recovery of a wounded animal as prescribed in this subsection are exempt from hunting permit requirements, provided they are not the taker of the wounded animal. Dog handlers assisting in the tracking and recovery of a wounded animal may not possess a firearm, bow, or crossbow, except for concealable firearms as defined in Chapter 571, RSMo. Concealable firearms possessed under this exception may not be used to take wildlife;

*[(F)](G)* Falconry. Birds of prey of designated types may be used to pursue and take wildlife within the specified seasons and bag limits. Birds of prey may be possessed or used only by holders of a falconry permit;

*[(G)](H)* Firearms. Firearms may be used to take wildlife (except beavers, mink, muskrats, river otters, turtles, and fish) during the open seasons, with the following limitations: For hunting game birds (except crows), pistols, revolvers, and rifles may not be used. Except for hunting black bears, deer, and elk, any shotgun having a capacity of more than three (3) shells must have the magazine cut off or plugged with a device incapable of removal through the loading end, so as to reduce the capacity to not more than three (3) shells in magazine and chamber combined. Fully automatic firearms are prohibited;

*[(H)](I)* Special *[F]*firearms *[P]*provision. During the November portion and the antlerless *[portion]* and CWD portions of the firearms deer season in counties open to deer hunting, other wildlife may be hunted and feral hogs may be taken only with a pistol, revolver, or rifle firing a rimfire cartridge .22 caliber or smaller or a shotgun and shot not larger than No. 4, except that waterfowl hunters, trappers, landowners on their land may use other methods as specified in subsection (1)*[(G)](H)* of this rule;

*[(I)](J)* Bows, *[C]*crossbows, and *[A]*atlatl. Bows, crossbows, and atlatl may be used to take wildlife during the prescribed hunting seasons. Arrows, bolts, and darts containing any drug, poison, chemical, or explosive are prohibited, but illuminated sights, scopes, and quickpoint sights may be used. Hand-held string releasing mechanisms are permitted with bows;

*[(J)](K)* Slingshot. Slingshots may be used to take wildlife (except black bears, deer, elk, and turkeys) during the prescribed hunting seasons;

*[(K)](L)* Cage-*[T]*type *[T]*trap. Groundhogs, rabbits, and squirrels may be taken by cage-type trap, the opening of which may not exceed one hundred forty-four (144) square inches, during the open hunting season, at any hour, by the holder of a hunting permit. Cage-type traps shall be plainly labeled on a durable material with the user's full name and address, or Conservation Number, and shall be attended daily;

*[(L)](M)* Electronic *[C]*calls. Electronic calls may be used to pursue and take crows and furbearers, but without the aid of an artificial light or night vision, infrared, or thermal imagery equipment, except when pursuing or taking coyotes in accordance with paragraphs (1)(B)2. and (1)(C)2. of this section.

Electronic calls or electronically-activated calls may not be used or possessed while hunting other species of wildlife except as specifically authorized;

**[(M)](N)** No person shall place or scatter grain or other food items in a manner that subjects any hunter to violation of baiting rules, as defined by federal regulations and in 3 CSR 10-7.431, 3 CSR 10-7.455, 3 CSR 10-7.700, and CSR 10-7.900 of this Code;

**[(N)](O)** Wildlife **[R]**retrieval. Any person while hunting who kills or injures any wildlife shall make a reasonable search to retrieve the wildlife and take it into his/her possession; however, this does not authorize trespass;

**[(O)](P)** Any properly licensed person with disabilities, as defined in this Code, may hunt and take wildlife from a stationary vehicle, provided while hunting s/he carries a physician's statement provided by the department and signed by a licensed physician which certifies the person has either a permanent or temporary disability which qualifies him/her to hunt from a stationary vehicle. Printed copies of the physician's statement form can be obtained from the Missouri Department of Conservation, PO Box 180, Jefferson City, MO 65102-0180 and online at [www.missouriconservation.org](http://www.missouriconservation.org). This disabled person shall provide a copy of the signed physician's statement to the department within ten (10) days of receiving the exemption;

**[(P)](Q)** Any resident of Missouri under the age of eighteen (18) diagnosed with a terminal illness may use a firearm or approved method for the season to hunt and take one (1) deer and one (1) turkey during any portion of the fall firearms or archery seasons on privately-owned land upon receipt of a method exemption. To receive a method exemption, the person must be sponsored by and participate in a hunt organized by a nonprofit charitable organization that has within its mission to provide opportunities and experiences for terminally ill persons. For purposes of this section, "terminal illness" means an incurable or irreversible condition with a corresponding life expectancy that does not exceed twelve (12) months, which has been documented by a licensed physician. Such person must hunt in the immediate presence of a properly licensed adult hunter who is eighteen (18) years of age or older and who has in his/her possession a valid hunter education certificate card or was born before January 1, 1967. A method exemption shall be issued only once to an individual and will only be valid during the designated seasons within a twelve- (12-) month period;

**[(Q)](R)** Hunter **[O]**orange. During the **antlerless**, youth, November, **[and antlerless portions]** and **CWD portions** of the firearms deer hunting season, all hunters shall wear a cap or hat and a shirt, vest, or coat having the outermost color commonly known as hunter orange, which shall be plainly visible from all sides while being worn. Camouflage orange garments do not meet this requirement. This requirement shall not apply to migratory game bird hunters, to hunters using archery methods while hunting within municipal boundaries where discharge of firearms is prohibited, to hunters on federal or state public hunting areas where deer hunting is restricted to archery methods, or to hunters in closed counties during the antlerless **[portion]** and **CWD portions** of the firearms deer hunting season;

**[(R)](S)** Computer-**[A]**ssisted **[R]**emote **[H]**unting. Except as otherwise permitted in this Code, wildlife may be taken only in the immediate physical presence of the taker and may not be taken by use of computer-assisted remote hunting devices; and

**[(S)](T)** Wildlife may not be hunted, pursued, or taken with the use of poisons or tranquilizing drugs.

#### IV. ASSUMPTIONS

To estimate the number of items inspected annually, the Board averaged the number of items inspected in fiscal years 2020, 2021, and 2022.

The proposed fee is based on the average fee assessed by all states that regulate boilers and pressure vessels. The Board rounded down all fees to the nearest \$5 or \$10, e.g., if a fee was \$29, then this was rounded down to \$25.

The Board determined that its inspections in Fiscal Year 2022, covering July 1, 2021 to June 30, 2022 were generally representative of its inspections conducted in a given year. It then reviewed its invoices to determine the percentage of fees invoiced to each category of public entities. That percentage was then multiplied by the total estimated fee change to determine the anticipated increase for each category of public entities.

The Board does not track its invoices by type of public entity. As a result, public entities were assigned to general classifications to the extent such classifications could be readily determined. Entities that could not be determined as either public or private were classified as private entities.

**IV. ASSUMPTIONS**

To estimate the number of items inspected annually in each class of items, the Board averaged the number of items inspected in fiscal years 2020, 2021, and 2022.

The proposed fee is based on the average fee assessed by all states that regulate boilers and pressure vessels. The Board rounded down all fees to the nearest \$5 or \$10, e.g., if a fee was \$29, then this was rounded down to \$25.

The Board determined that its inspections in Fiscal Year 2022, covering July 1, 2021 to June 30, 2022 were generally representative of its inspections conducted in a given year. It reviewed its invoices from this year and determined that approximately 84.69 percent of fees invoiced were to private entities. That percentage was then multiplied by the total estimated fee change to determine the anticipated change in fees for private entities. The Board also determined that because an entity may have multiple items requiring inspection, there were approximately 3,638 private entities with objects requiring inspections during this year.

The Board does not track its invoices by type of entity. As a result, entities were assigned to classifications to the extent such classifications could be readily determined. Entities that could not be determined as public or private were classified as private entities.
