No changes have been made in the text of the proposal amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Health and Senior Services (DHSS) received thirteen (13) comments regarding the proposed amendment.

COMMENT #1: Julie Gaebe commented, “Proposed requirement to document medical emergency abortions is a heinous overreach and intrusion on personal freedoms, privacy, and

professional ethics. Such requirement is abhorrent for women and their doctors.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” Section 188.017, RSMo, requires that “no abortion shall be performed or induced upon a woman, except in cases of medical emergency.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #2: Sue Gibson commented, “No one’s abortion is the state’s business.”

RESPONSE: This comment is of a general nature, without a specific change proposed to the proposed amendment/report. Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #3: Michelle Mudge commented, “I am emailing as a concerned citizen of Wright County to say that I am against 19 CSR 10-15.010, the report of the termination of pregnancy. People will die and the blood will be on this amendment’s words. The government is not a doctor and should stay out of it.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #4: Donna Ploof commented, “I am opposed to the rule/rule change 19 CSR 1015.010. This appears to infringe on people’s privacy and question or even override decisions made by medical professionals. Politicians have no place in the exam/operation/delivery room. The wording is too vague and creates confusion at the point of care, putting people’s lives in real danger. Lastly, it seems to not at all take into consideration real medical circumstances, such as ectopic pregnancies. This will cause harm and death and I oppose it full stop.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #5: Alison Dunleavy commented, “As a Missouri resident, I am writing to you to express my concerns about the latest proposed changes. If the state will provide no definition on what constitutes a ‘medical emergency’ per the law, how are doctors supposed to know whether they are following the law? The determination of a medical emergency should be made by the medical professionals without fear of retaliation from the law. Our healthcare professionals are already exhausted and overworked, they do not need to fill our more paperwork, especially when the state is being so nebulous about its requirements to meet the ‘legal’ conditions for an abortion. Leave the medical decisions to the medical professionals, not the politicians. The additional burden of testing tissue for each abortion performed is an undue tax burden. Please use my tax dollars for something more productive.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon

a woman shall be completed by the physician who performed or induced the abortion.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. Tissue testing is not included in this amendment, nor in the report. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #6: Linda Chorice commented, “I am incredibly concerned about the proposed amendment to 19 CSR 10-15.010 for many reasons. Firstly, there is no public hearing on this proposed change which is absolutely egregious. The public hearing should always be included with proposed changes, particularly one of this magnitude. This affects more than half of the population of Missouri since more than half are women. Secondly, requiring a physician’s certification that a medical emergency of the pregnant women existed is taking the medical decisions for saving lives out of the hands of a knowledgeable medical team and placing it directly in the hands of politicians who are not qualified to make medical decisions, especially one that has to be made to save the life of the mother. I recently became a grandmother to a grandchild who was wanted, prayed for, and greatly desired. When my daughter’s blood pressure spiked due to preeclampsia in her 37th week of pregnancy, I was absolutely terrified for my daughter. Would the medical team be able to put her life first or at least equal to that of a much anticipated grandchild? When I left her room just a few hours before my grandson was born, I asked the nurse who was monitoring her blood pressure how things were going. She gave me a grave, worried look as her response. I started to cry and told her to please take care of my daughter. She nodded that she would. Obviously we wanted the best for BOTH mother and baby. The mother’s life is just as important as the baby’s. Finally, having the medical team report whether the mother is a veteran and whether the patient would like information regarding veteran’s services. What on earth is that about? It sounds like an attempt to threaten a female veteran with her benefits. I can think of not other reason to ask this question. Do you follow up with the father/sperm donor to ask whether or not he is a veteran and whether he would like information regarding veteran services. Physicians in Missouri should not be required to certify a medically necessitate abortion. The physicians creed is first do no harm, and they can be trusted to make the best possible medical decision with the information they have at the time. Stop harming women and let the medical staff do their work without fear or threat of retribution.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” Section 188.017, RSMo requires that “no abortion shall be performed or induced upon a woman, except in cases of medical emergency.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. Section 42.051, RSMo, requires every agency to include veterans data questions on any form used to collect data from individuals. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #7: Elizabeth Weiner commented, “This proposal is very vague. What constitutes a medical emergency? Why does it matter if the woman is a veteran? The required report sounds like a very odd requirement. I’m not sure how you expect medical professionals to practice ethically under these conditions. They will all leave and we won’t have care for women. Is that the goal her? Please create laws and policies that protect the safety of women and babies, while allowing medical profes-

sionals to use their best judgment to treat us. Don’t make it impossible for people to practice medicine here. Don’t force them to go elsewhere or to give up on the profession entirely.” RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. Section 42.051, RSMo, requires every agency to include veterans data questions on any form used to collect data from individuals. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #8: Tara Anura commented, “Bureaucracy in the ER kills people.”

RESPONSE: This comment is of a general nature, without a specific change proposed to the proposed amendment/report. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #9: Kenneth and Kelly Love commented, “I am against the proposed change to 19 CSR 10-15.010 that would require doctors to report personal, and potentially, identifying information of patients receiving the health care procedure known as abortion. This proposed change is disturbing on many levels. Not the least of which seems to be the state’s desire to acquire potentially patient identifying information. This could be viewed as a blatant attempt at patient intimidation and is extremely worrisome. Additionally, it places an undue responsibility on our already taxed physicians, which leaves them open to possible liability from the state. Leaving aside the question of whether or not the procedure should be available to anyone who requests one, this change makes an already confused and nebulous set of state regulations even more burdensome to the physician. I trust doctors to provide the care appropriate to each patient, and do not want to see further interference in that process from an already far too intrusive state agency.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” Section 188.017, RSMo, requires that “no abortion shall be performed or induced upon a woman, except in cases of medical emergency.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #10: Susan Ring commented, “I am strongly opposed to 19 CSR 10-15.010. Stop trying to make it more difficult for doctors to take care of their patients. If a doctor is trying to save a patient’s life or health, how is that the business of Missouri state bureaucrats? This is purely political nonsense that hurts women and puts a cumbersome burden on doctors. If you think this is a winning political strategy and that women are going to forget about it by 2024, you are sadly mistaken.”

RESPONSE: This comment is of a general nature, without a specific change proposed to the proposed amendment/report. Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #11: Jen Tracy commented, “I’m writing in response to the proposed amendment to 19 CSR 10-15.010. As a woman who cares about bodily autonomy, this is yet another invasion into my personal privacy. Any medical procedure performed

on me by a medical professional is between me and that medical professional. Christian Nationalism is behind these outrageous requirements, and they do not belong in our political policies.”

RESPONSE: This comment is of a general nature, without a specific change proposed to the proposed amendment/report. Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #12: Alexandria S. Teagarden-Monk states, “I’m writing to express my concern with the proposed amendment to 19 CSR 10-15.010. It’s been indicated that requiring doctors to certify that an abortion was medically necessary adds clarity to the existing reporting process, but it does not. The abortion ban continues to leave dangerous room for interpretation regarding what a medical emergency is, and therefore puts pregnant people at risk to not receive the medical care they need in an emergency. The ban has undoubtedly created a chilling effect for doctors who could lose their medical license & be charged with a felony for providing life-saving care to pregnant patients. Creating additional reporting requirements makes it more likely that doctors will withhold or delay necessary medical care for pregnant people out of concern that ‘the powers that be could later claim that the situation was not a medical emergency. I implore DHSS to not create additional barriers and uncertainty in an already dangerous climate for our medical professionals and citizens seeking care in the state of Missouri.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” Section 188.017, RSMo, requires that “no abortion shall be performed or induced upon a woman, except in cases of medical emergency.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. No changes have been made to the proposed amendment/report as a result of this comment.

COMMENT #13: Pro-Choice Missouri commented, “Pro-Choice Missouri represents membership of approximately 60,000 people across the state who support access to abortion without political interference. Under the threat of criminalization, the proposed rule requiring physicians to prove that the care they provide to patients in need of emergency abortion care is in fact emergent will only serve to further intimidate providers and their legal representation out of providing the best possible care for their patients; and at great risk to the livelihood of the pregnant person. The enactment of Missouri’s political abortion ban, section 188.017, RSMo, has already proven to intimidate physicians and hospitals out of providing emergency abortion care. According to a fact sheet on *Pregnancy and Delivery Care* in Missouri published by the Department of Health and Senior Services, much of Missouri falls within what is known as a maternity care desert, or shortage area. This means there is limited or no access to an ob/gyn or even a family physician who can provide care during pregnancy and labor. These shortages are directly linked to the high rates of maternal mortality in Missouri, a number drastically higher than the national average, which is already higher than other peer nations. Physicians who provide abortions and miscarriage management are often the very same ones who deliver babies and provide care throughout pregnancy. Threatening these providers with penalties for doing their job disregards the health and safety of all moms,

pregnant people, and families in our state. The proposed amendment also requires collection of information irrelevant to the health and wellbeing of the pregnant person seeking emergency abortion care, including their status as a veteran of the Armed Forces of the United States. There is no evidence to show requiring collection of such information impacts the safety of termination of a pregnancy. Rather, given the recent effort by the Veterans Administration of the United States to increase access to abortions for veterans living in states with bans on abortion care this seems both an underhanded effort by DHSS to collect irrelevant personal information on citizens (as was found to have happened under former DHSS Director Randal Williams) and a political ploy to target and restrict veterans accessing needed abortion care. We also want to take this time to acknowledge concerns with the existing requirements of a ‘abortion report’ including requiring marital status, patient’s education, additional factors that while broadly part of social determinants of health, under current state leadership create additional risks, both personal and legal, for the pregnant person seeking care. Both attacks on access to abortion, and Missouri’s egregious divorce law perpetuate paternalistic sentiments about the thoughtfulness, responsibility, capability, and sexuality of people capable of pregnancy. It is evident that the state of Missouri has a very low opinion of BOTH the value and capacity of pregnant people in our state. Notably, one demographic item that the abortion report does not require is gender. Transgender men, or any person with the capability for pregnancy, also need and seek abortion care. Transgender people face numerous health disparities, including stigma and discrimination in healthcare. Transgender people, and the issues they face, are under-studied because surveys often fail to collect this critical information. Excluding gender identifying language on health reporting is another form of discrimination against transgender people. Pro-choice Missouri urges DHSS to update any existing abortion reporting requirement to include men and people of all gender identities who can become pregnant and need abortions, as well as to consider this as a standard for all health data collection statewide. Too often Missouri makes national headlines for putting politics and ideology above science and citizens, and refusing to treat women and all pregnant people with the dignity and respect every Missourian deserves in accessing basic health care. Pro-Choice MO urges DHSS to take this opportunity to change direction and advance proven public health measures, rather than continue the Missouri status quo of restricting peoples’ ability to access the care they need based on the personal political views of a vocal community. Pro-Choice MO opposes this rule, and urges DHSS to commit to providing the quality of care that Missourians need and deserve, without political interference, by rejecting proposed rule change: 19 CSR 10-15.010.”

RESPONSE: Section 188.052, RSMo, requires that “an individual abortion report for each abortion performed or induced upon a woman shall be completed by the physician who performed or induced the abortion.” Section 188.017, RSMo, requires that “no abortion shall be performed or induced upon a woman, except in cases of medical emergency.” To ameliorate vagueness or ambiguity, Question 10(c) on the Abortion Report defines “medical emergency” as it is defined by section 188.015(7), RSMo. Section 42.051, RSMo, requires every agency to include veterans data questions on any form used to collect data from individuals. No changes have been made to the proposed amendment/report as a result of this comment.
