HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system—

Title	CSR	Division	Chapter	Rule
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:
Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

PROPOSED AMENDMENT

15 CSR 30-10.010 Definitions. The secretary is amending sections (3), (4), (5), (6), (7), and (18), removing sections (11), (15), and (16), and renumbering as necessary.

PURPOSE: This amendment removes outdated terms.

(3) Automatic tabulating equipment shall mean a system consisting of a mechanical or electronic ballot *[card]* reader, or both, an electronic central processing unit and visually readable tabulated results of the voters' markings on the ballot *[card]*. Integral to the system is a capacity to determine the number of ballots processed and the votes cast on each candidate and each ballot question by precinct, jurisdiction total, and any other needed total such as ward or township. Absentee totals shall be determinable.

(4) Program shall mean the prepared election computer program or the section of the computer program that contains the information for the particular election being tabulated. Additionally, the term shall extend to all programs in the system including[,] but not limited to[,] system software, utilities software, and compilers, which may be used during the operation of the application software which tabulates the ballots. The program may be stored on *[cards, tapes, discs, integrated circuits or other]* electronic, *[magnetic,]* optical, or paper storage media **that utilizes air-gapped tabulating or**

data-processing equipment.

(5) Ballot *[card]* is a ballot which is voted by making a *[punch or sensor]* mark which can be tabulated by automatic tabulating equipment. All types of automatic or electronic system ballots shall be known as ballots *[cards]* regardless of size or stock thickness.

(6) Ballot label is the *[card,]* paper, booklet, page, or other material containing the names of all offices, candidates, and questions to be voted on.

(7) Systems which use a single unit for the ballot *[card]* and the ballot label shall conform to the rules for both.

[(11)] *Audit trail for direct recording equipment is a paper printout of votes cast, produced by direct recording electronic voting machines (DREs), which election officials may use to cross-check electronically tabulated totals.]*

[(12)](11) Ballot marking device is any approved device which will enable the votes cast on paper ballots to be counted by automatic tabulating equipment.

[(13)](12) Ballot style is the particular set of contests and issues to appear on the ballot for a particular election district, their order, the list of ballot positions for each contest or issue, and the binding of candidate names and issues to ballot positions.

[(14)](13) Cast vote record is the permanent record of all votes cast by a single voter whether in electronic, paper, or other form.

[(15)] *Counter is the register on each Direct Recording Electronic (DRE) unit which increments by one (1) each time a ballot is cast on the unit. The election counter is the register which is reset for each election and records the number of ballots cast on a DRE unit in a particular election. The system counter is the register which cannot be reset and records the number of ballots cast on a DRE unit over the course of the life of the unit.*

(16) DRE is an electronic voting system that utilizes electronic components for the functions of ballot presentation, vote capture, vote recording and tabulation, which are logically and physically integrated into a single unit. A DRE produces a tabulation of the voting data stored in a removable memory component and in printed hard copy.]

[(17)](14) Election management system is a set of processing functions and databases within a voting system that define, develop, and maintain election databases, perform election definition and setup functions, format ballots, count votes, consolidate and report results, and maintain audit trails.

[(18)](15) Electronically-*[-]*assisted ballot marking device is a device that provides assistance to voters who are visually impaired *[, who have difficulty reading English,]* or who have difficulty correctly marking by hand a preprinted paper ballot that is to be counted in optical scan systems. The device marks, or assists the voter to mark, selected choices on a previously inserted, preprinted paper ballot. The device then provides audio, tactile, or visual feedback to the voter with regard to the choices the voter has made on the ballot. The completed ballots are later tabulated on the same unit that processes other paper ballots **and provides a paper audit trail.**

~~[(19)]~~**(16)** Logic and accuracy testing is the testing of the tabulator setups of a new election definition to ensure that the content correctly reflects the election being held (i.e., contests, candidates, number to be elected, ballot styles, etc.) and that all voting positions can be voted for the maximum number of eligible candidates and that results are accurately tabulated and reported.

~~[(20)]~~**(17)** Paper cast vote record is a paper record of all votes cast by a single voter that can be directly verified by the voter. It is the record that is created from the voter verifiable audit record after the selections are verified and the vote is cast by the voter.

~~[(21)]~~**(18)** Precinct count voting system is a voting system that tabulates ballots at the polling place. These systems typically tabulate ballots as they are cast and are capable of printing the results after the close of polling.

AUTHORITY: section 115.225, RSMo Supp. [2005] 2023. Original rule filed March 31, 1972, effective April 14, 1972. For intervening history, please consult the Code of State Regulations. Amended: Filed Nov. 29, 2023.

PROPOSED AMENDMENT

15 CSR 30-10.140 Electronic Ballot Tabulation – Counting Preparation and Logic and Accuracy Testing [(DREs and Precinct Counters)]. The secretary is amending the title, the purpose, and sections (1), (2), and (6).

PURPOSE: This amendment updates terms.

PURPOSE: This rule provides procedures in connection with the preparation of [Direct Recording Electronic voting systems (DREs) and Optical Scan Precinct Count] optical scan electronic ballot tabulation voting systems [(Precinct Counters)] for vote [recording and] tabulation, including equipment and program preparation and pre-election logic and accuracy testing and certification.

(1) Election authorities in jurisdictions in which [direct recording electronic (DREs) or Precinct Counters] **electronic ballot tabulators** are used shall be responsible for ensuring that the devices accurately record and count all proper votes cast and that the systems comply with all applicable state

statutes and rules.

(2) The election authority shall be responsible for taking all steps necessary to ensure that the [DREs and Precinct Counters] **electronic ballot tabulators** operate properly at the time of the pre-election public logic and accuracy test and during the tabulation of votes on the day of the election.

(6) Prior to election day the election authority shall supervise a public logic and accuracy test of the [DREs and Precinct Counters] **electronic ballot tabulators** conducted by the accuracy certification team(s).

(C) The election authority shall cause each [DRE and Precinct Counter] **electronic ballot tabulator** to be programmed for the ballot style for the precinct(s) at which the [DRE or Precinct Counter] **electronic ballot tabulator** will be used and the programmed memory card assigned to that unit shall be inserted. After programming the [DREs and Precinct Counters] **electronic ballot tabulator**, each unit shall have such internal diagnostic tests performed as shall be directed by the election authority. Following the completion of the diagnostic tests, all units shall have an internal logic and accuracy test performed using the programmed ballot style for the election and precinct(s) for which the unit is being prepared and shall test the conditions described in 15 CSR 30-10.040(7)(C). In addition, for [DREs and] electronically[-] assisted ballot marking devices, the test script shall include votes cast using a combination of audio and touch-screen methods.

(D) The accuracy certification team(s) shall compare the results of the electronic test to the data entered and to the results from a manual count of the paper cast vote records [for the DREs] and the results of a manual count of the [optical scan] paper ballots [for] to the [Precinct Counters] **electronic ballot tabulators**. If the results are incorrect, then changes or corrections will be made to the programming until an errorless count is made. A unit shall not be used on election day until an errorless count is made on that unit.

(E) After the team(s) is satisfied that the equipment is tabulating the votes properly, each candidate on the ballot or any representative of a group which has notified the election authority pursuant to 15 CSR 30-10.140(6)(B) may inspect the paper audit trail for the [DRE and inspect and manually recount the] optical scan test deck.

(G) The election authority shall make a certification for each [DRE and Precinct Counter] **electronic ballot tabulator** stating the serial number of the unit, the number on the system counter of the unit, the number on the seal with which the unit is sealed, and that the election counter and each vote register on the unit was set at zero. The case shall be appropriately labeled with the name of the polling location in which the unit is to be used and the serial number of the unit. The certification shall be retained with the records for such election and shall be stored for the same period of time and in the same manner as required by law for other election records.

(I) After being prepared for voting, each [DRE and Precinct Counter] **electronic ballot tabulator** shall be safely and securely stored until such time as the unit is transported to the polling location in which such unit is to be used.

AUTHORITY: section 115.225, RSMo Supp. [2005] 2023. Emergency rule filed June 21, 2006, effective July 1, 2006, expired Feb. 22, 2007. Original rule filed June 21, 2006, effective Dec. 30, 2006. Amended: Filed Nov. 29, 2023.

PUBLIC COST: This proposed amendment will not cost state

agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

PURPOSE: This rule is being amended to update terms and remove outdated references.

PURPOSE: This rule provides procedures for administering and closing polling places using [Optical Scan Precinct Count voting systems (Precinct Counters) and Direct Recording Electronic voting systems (DREs)] a ballot marking device.

(1) Once one (1) vote is cast on a [DRE] ballot marking device, the poll workers shall encourage voters to cast their votes on that unit so that at least two (2) more ballots are cast on that unit, even if not by voters needing its accessibility components, in order to protect the privacy of the voter.

(2) Abandoned Ballots.

[(A) If a voter leaves the polling place after making their selections on a DRE and printing their ballot, but the voter has not cast the ballot, a bipartisan team of two (2) election judges shall cast the ballot.

(B) If a voter leaves the polling place after making their selections on a DRE, but the voter has not printed or cast their ballot, a bipartisan team of two (2) election judges shall cancel the ballot and make a corresponding notation on an Abandoned Ballot Tracking Form, initialed by both judges.]

[(C)](A) If a voter places an optical scan ballot into [a Precinct Counter] an electronic ballot tabulator and the [Precinct Counter] electronic ballot tabulator rejects the ballot after the voter has left the polling place and if the ballot is still in the [Precinct Counter] electronic ballot tabulator, a bipartisan team of election judges shall take action to ensure that the ballot is counted and deposited in the ballot box.

[(D)](B) If a voter leaves their optical scan ballot anywhere in the polling place other than in the [Precinct Counter] electronic ballot tabulator or ballot box and the voter leaves the polling place, the ballot shall not be counted. A bipartisan team of election judges shall mark the ballot “Abandoned” and place the ballot in the [S]spoiled [B]ballot [E]envelope. The judges shall make a corresponding notation on an Abandoned Ballot Tracking Form, initialed by both judges.

(3) Immediately after the polls close and the last voter has voted, the election judges shall close, or supervise the closing of, each of the [DREs] ballot marking devices and [Precinct Counters] electronic ballot tabulators in the polling location against further voting.

(4) The election judges shall cause each [DRE and Precinct Counter] ballot marking device and electronic ballot tabulator to print a minimum of one (1) tape showing the number of votes cast on [that] each unit. They shall compare the number of ballots cast as shown on the tape with the number of ballots cast as shown on the election counter of the unit and with the number of voters who signed the precinct register and for [Precinct Counters] the electronic ballot tabulator with the number of ballots marked. If these numbers are not identical, the election judges shall document the discrepancy.

[(5) The election judges shall accumulate the votes recorded in each unit onto paper audit trail records for the DREs as well as the electronic medium chosen by the election authority, as appropriate for the make, model, and version of the system in use.]

[(6)](5) After completing the procedures in sections [(3)–(5)] (3) and (4), the memory components shall be removed from any unit that will not be returned to the central location on election night or shall remain sealed in any unit that will be returned to the central location, as appropriate for the make, model, and version of the system in use. The [DREs and Precinct Counters] ballot marking device and the electronic ballot tabulator shall be turned off and secured in their cases and locked or resealed. The number of each seal shall be entered on the appropriate form along with the serial number of the unit or unit case on which it is used. The units or cases shall then be secured.

[(7)](6) Any provisional ballots, optical scan ballots, spoiled ballots, paper cast vote records, and memory components shall be secured in tamperproof containers securely sealed in such a manner that if the container is opened, the seal will be broken beyond repair.

[(8)](7) Audit trail tapes, voter access cards, supervisor’s card, ballot encoder devices, precinct binders, numbered lists of voters, voter certificates, recap sheets, and other such paperwork shall be transported to the election authority. In the event the paper cast vote record is unreadable, the audit trail tapes shall be available as an official record when a manual recount of votes is ordered.

[(9)](8) All paper cast vote records shall be preserved and secured by election judges in the same manner as paper ballots and shall be available as an official record when a manual recount of votes is ordered and for the post-election verification of the electronically tabulated vote results required by 15 CSR 30-10.060.

AUTHORITY: section 115.225, RSMo Supp. [2005]2023. Emergency rule filed June 21, 2006, effective July 1, 2006, expired Feb. 22, 2007. Original rule filed June 21, 2006, effective Dec. 30, 2006. Amended: Filed Nov. 29, 2023.

In addition, the nurse must cause his/her employer, if applicable, to submit a statement on the employer's letterhead stationery indicating whether and when the nurse ceased working as soon as he/she realized that the license was inactive and the APRN will not resume practice until duly licensed.

(D) An APRN who applies for renewal of an inactive license who answers yes to one (1) or more of the questions on the application which relate to possible grounds for

denial of renewal under section 335.066, RSMo, shall submit copies of appropriate documents and/or evidence of rehabilitation related to that answer, as requested by the MSBN, before his/her application will be considered complete. The copies shall be certified if they are records of a court or administrative government agency. If an APRN requesting reinstatement of his/her inactive license is denied by the MSBN based upon the fact that the nurse is subject to disciplinary action under any provisions of Chapter 335, RSMo, the nurse will be notified of the statutory right to file a complaint with the AHC.

(E) An uncertified APRN is not eligible to reinstate an inactive APRN license.

(7) Lapsed APRN Licenses.

(A) Pursuant to sections 335.056 and 335.061, RSMo, a license issued by the MSBN to an APRN is lapsed if the nurse fails to renew that license prior to the expiration date. A lapsed license is deemed expired. No person shall practice as an APRN or hold him/herself out as an APRN in Missouri while his/her license is lapsed.

(B) An individual wishing to reinstate a lapsed APRN license shall file an application for APRN license reinstatement containing data and documents required by the MSBN and attest that all information contained in, or referenced by, the application is complete and accurate and is not false or misleading. Any application for APRN licensure reinstatement submitted to the MSBN is valid for one (1) year from the date the application was submitted. After the expiration of one (1) year, an applicant shall submit a new application, along with the required fee. The requirements include –

1. Hold an unencumbered RN license in Missouri or hold a current multistate privilege to practice in Missouri;
2. State and federal fingerprint or other biometric criminal background checks as administered through the MSHP no earlier than two (2) months prior to the application;
3. Verification of national certification as an APRN in the role and population focus, if applicable, directly from the MSBN-approved national certifying body;

5. Evidence of United States citizenship or alien status as specified in 8 U.S.C.A. section 1621 or lawful presence as specified in section 208.009, RSMo.

(C) If an APRN did practice as an APRN while the license was lapsed, the APRN must disclose how long and where the practice of advanced practice nursing occurred. If the nurse was practicing as an APRN in Missouri at the time his/her license was lapsed, he/she also must submit a statement to the MSBN indicating whether and when he/she ceased working as soon as he/she realized that the license was lapsed. In addition, the nurse must cause his/her employer, if applicable, to submit a statement on the employer's letterhead stationery indicating whether and when the nurse ceased working as soon as he/she realized that the license was lapsed and the APRN will not resume practice until duly licensed.

(D) An APRN who applies for reinstatement of a lapsed license who answers yes to one (1) or more of the questions on the application which relate to possible grounds for denial of renewal under section 335.066, RSMo, shall submit copies of appropriate documents and/or evidence

of rehabilitation related to that answer, as requested by the MSBN, before his/her application will be considered complete. The copies shall be certified if they are records of a court or administrative government agency. If an APRN requesting reinstatement of his/her lapsed license is denied by the MSBN based upon the fact that the nurse is subject to disciplinary action under any provisions of Chapter 335, RSMo, the nurse will be notified of the statutory right to file a complaint with the AHC.

(E) An uncertified APRN is not eligible to reinstate a lapsed APRN license.

TITLE 9 – DEPARTMENT OF MENTAL HEALTH
Division 30 – Certification Standards
Chapter 3 – Substance Use Disorder Prevention and Treatment Programs

ORDER OF RULEMAKING

By the authority vested in the director of the Department of Mental Health under sections 630.192 and 630.193 to 630.198, RSMo 2016, the department amends a rule as follows:

9 CSR 30-3.150 Comprehensive Substance Treatment and Rehabilitation (CSTAR) is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on September 15, 2023 (48 MoReg 1685). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received one (1) comment.

COMMENT #1: Kara Mayes, MD, FAAFP, President, Missouri Academy of Family Physicians, commented as follows: The Missouri Academy of Family Physicians appreciates the department updating the rules to clarify the provision of FDA-approved medications for opioid use and other substance use disorders, and updating the address for the American

Society of Addiction Medicine (ASAM). The proposed rules incorporate the ASAM Criteria and training requirements for certified treatment programs. However, we would like to note that a newer version (4th edition) of *The ASAM Criteria: Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions*, 2013, 3rd edition, will be released later this year. Although the rules reflect the current edition, it does not allow for newer versions to be incorporated by reference and made a part of the rule. We would recommend that the department wait for the new edition to be released before fully incorporating them into the state code. On behalf of the members of the Missouri Academy of Family Physicians, we appreciate the opportunity to submit comments on the proposed Substance Use Disorder Prevention and Treatment Programs rules. RESPONSE: The department appreciates the comment from the Missouri Academy of Family Physicians. The department will not transition to *The ASAM Criteria: Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions*, 2023, 4th edition, until all Comprehensive Substance Treatment and Rehabilitation (CSTAR) programs have successfully implemented the 3rd edition of the criteria. That process is expected to be completed by the end of calendar year 2024. The regulations will be amended when CSTAR programs are determined ready to implement the criteria included in the 4th edition. As specified in 536.031.4, RSMo, incorporated by reference material included in rule must include the publisher, address, and date of the publication. No changes will be made.

Regulations.

SUMMARY OF COMMENTS: The department received one (1) comment.

COMMENT #1: Dana Maxwell, MSW, LCSW, Executive Vice President of Clinical Operations, FCC Behavioral Health, requested that the training requirements included in subparagraphs (4)(H)2.A.-C., paragraph (4)(H)3., and subparagraphs (4)(H)4.A.-D. be reduced significantly. Licensed staff do not have to meet this requirement. Fifty (50) hours of training per year is difficult for our staff to complete. Thank you for your consideration.

RESPONSE: Costs related to staff training are built into the team-based reimbursement rate for services provided in accordance with *The ASAM Criteria*. Prior to implementation, substance use disorder treatment providers submitted input on the training requirements and were in agreement that to ensure staff competency a greater level of training would be required, particularly for newly hired staff. No changes will be made.

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

IN ADDITION

Pursuant to section 537.610, RSMo, regarding the Sovereign Immunity Limits for Missouri Public Entities, the Director of the Department of Commerce and Insurance is required to calculate the new limit on awards for liability.

Using the Implicit Price Deflator (IPD) for Personal Consumption

Expenditures (PCE), as required by section 537.610, RSMo, the two new Sovereign Immunity Limits effective January 1, 2024, were established by the following calculations:

Index Based on 2017 Dollars	
Third Quarter 2022 IPD Index	116.902
Third Quarter 2023 IPD Index	120.912

New 2024 Limit = 2023 Limit x (2023 Index/2022 Index)

For all claims arising out of a single accident or occurrence:

$\$3,370,137 = \$3,258,368 \times (120.912/116.902)$

For any one person in a single accident or occurrence:

$\$505,520 = \$488,755 \times (120.912/116.902)$
