HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

PROCLAMATION

WHEREAS, the General Assembly is scheduled to adjourn pursuant to Article III, Section 20(a) of the Missouri Constitution on May 30, 2025; and

WHEREAS, several severe storm systems impacted the State of Missouri over the last several months, resulting in damages associated with tornadoes, straight line winds, large hail, fires, heavy rains, flooding, flash flooding, and riverine flooding, resulting in loss of life as well as significant damage to homes, businesses, and public infrastructure; and

SECRETARY OF STATE

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

Rule Number and Name:	3 CSR 10-5.950 Hunting, Fishing, and Trapping Permit Pricing: Permit Fees; Permit Replacement Cost
Type of Rulemaking:	Proposed Rule

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of business entities which would likely be affected:	Estimated in the aggregate as to the cost of compliance with the rule by the affected entities:
1,355,192 individuals	Individuals obtaining a hunting, fishing, trapping, or other permit.	\$6,695,902.50 in new costs plus \$35,647,961 in existing costs for a total of \$42,343,863.50 in the aggregate

This proposed rule is designed to streamline all fees and costs from Chapter 5 of the *Wildlife Code of Missouri* by moving them into a single rule location. IV. ASSUMPTIONS

Sales estimates are based on an average of permit year 1999 to 2022 sales reduced by 5%.

The commission based its proposed permit price increases on information from the Federal Bureau of Labor Statistics' Consumer Price Index (CPI) related to cost-of-living increases from July 2015 to June 2024. CPI is a commonly used measurement of the average changes over time in prices paid by consumers for consumer goods and services. The commission is recommending a gradual price increase over 10 years at a CPI of 50% for resident permits and 100% for non-resident and commercial permits. Additionally, the commission is recommending an accelerated price increase for nonresident deer and nonresident turkey hunting permits to bring these permit prices more in alignment with other states. Additionally, feedback received during a public input process reflected a desire by residents to increase deer and turkey permit prices for nonresident hunters.

PROPOSED AMENDMENT

3 CSR 10-7.410 Hunting Methods. The commission is amending paragraphs (1)(B)2. and (1)(C)2.

PURPOSE: This amendment increases the number of days that allow the use of artificial light, night vision, and thermal imagery equipment when harvesting coyotes.

(1) Wildlife may be hunted and taken only in accordance with the following:

(B) Artificial Light. No person shall throw or cast the rays of a spotlight, headlight, or other artificial light on any highway or roadway, whether public or private, or in any field, woodland, or forest for the purpose of spotting, locating, or attempting to take or hunt any game animal while having in possession or control, either singly or as one (1) of a group of persons, any firearm, bow, or other implement whereby game could be killed or taken, except as follows:

1. An artificial light may be used to spot, locate, attempt to take, and hunt raccoons or other furbearing animals when treed with the aid of dogs while in possession or control of a firearm, bow, or other implement whereby any game animal could be killed or taken during the prescribed furbearer hunting season;

2. An artificial light may be used to spot, locate, attempt to take, and hunt coyotes while in possession or control of a firearm, bow, or other implement whereby any game animal could be killed or taken from **[February 1 through March 31] January 1 through September 30 (excluding the prescribed spring turkey hunting season)**, but only in conjunction with other legal hunting methods, and not from or with any motor-driven air, land, or water conveyance or from or across a public roadway;

6. For purposes of this section, eligible mortalities mean mortalities of all male cervids at least 12 months of age occurring between April 1 of the previous permit year and March 31 of the current permit year. Any new permit holder or permit holder as of July 1, 2021, that failed to test one hundred percent (100%) of all mortalities during the previous permit year shall have Tier 1 status, and shall test one hundred percent (100%) of eligible mortalities. Any permit holder as of July 1, 2021, who can demonstrate they tested one hundred percent (100%) of all mortalities during the previous permit year or any Tier 1 permit holder that submits the required valid samples of eligible mortalities during the previous year shall have Tier 2 status, and shall test fifty percent (50%) of eligible mortalities.

7. At least eighty percent (80%) of required tests as described in the previous paragraph must produce valid sample results by the diagnostic laboratory. To be considered a sample that produced a valid test result, the sample must have been suitable, testable, and not rejected by the diagnostic laboratory for any other reason. If less than eighty percent (80%) of samples are valid, then the permit holder must provide sufficient samples to achieve the eighty percent (80%) requirement. Replacement samples may consist of either post-mortem samples at a 1:1 ratio, or ante-mortem samples at a 3:1 ratio from other animal(s) of similar age and time in the facility. For purposes of this rule, an ante-mortem CWD test is not valid unless it is performed by an accredited veterinarian on retropharyngeal lymph node, rectal mucosa, or tonsillar tissue with at least six lymphoid follicles submitted within thirty (30) days of collection on an animal that is at least eighteen (18) months of age and has not been source of ante-mortem testing within the prior twenty-four (24) months.

8. Samples in which the infectious CWD prion is detected will be considered CWD-suspect pending confirmation at the USDA National Veterinary Services Laboratory. Any facility with a CWD-suspect or confirmed positive sample will immediately be quarantined by the state wildlife veterinarian, and no movement certificates allowing movement into the facility will be issued except as authorized by the state wildlife veterinarian in accordance with an approved herd disease response plan. Additionally, any facility that is or has been in possession of a deer that was in a CWD-suspect or CWD-confirmed positive facility shall be quarantined, and no movement certificates allowing movement into the facility will be issued until it is determined that the facility is not epidemiologically linked to the CWD suspect or confirmed positive deer or is determined upon further testing that the suspect deer is not a confirmed positive.

9. Big game hunting preserve permittees shall report escaped animals and entry of any free-ranging cervids into the facility immediately to a conservation agent.

10. The holder of a Big Game Hunting Preserve Permit

must ensure that all CWD test results required by this section are submitted to the state wildlife veterinarian by the USDA-approved diagnostic laboratory within seven (7) days of completion of testing. In the event of confirmed positive results from a Chronic Wasting Disease test, the permit holder shall comply with a herd disease response plan approved by the department. The plan may include, but not be limited to, quarantine requirements, testing and depopulation, premises cleaning and disinfection, additional fencing requirements, and restocking guidelines. Failure to comply with an approved herd disease response plan may result in the suspension or revocation of permit privileges.

11. All Class III cervids listed on the Approved Confined Species List in 3 CSR 10-9.105 for Class III wildlife breeders acquired by a holder of a Big Game Hunting Preserve Permit must be individually identified on a Movement Certificate issued by the department. A Movement Certificate must be completed by the breeder and list the official identification, age, gender, species, complete address of both the origin and destination, and the complete name, address, and permit number of all parties to the transaction. The original form must accompany the shipment and a copy shall be maintained for at least five (5) years by the permit holders, unless otherwise documented in a department-provided database. All other cervids and ungulates acquired by a holder of a Big Game Hunting Preserve Permit must be individually identified on a Breeder's Movement Certificate issued by the Missouri Department of Agriculture. A Breeder's Movement Certificate must be completed by the breeder and contain complete and accurate information including the official identification, age, gender, species, complete address of birth, origin, and destination, and complete address and name of buyer and seller. The Breeder's Movement Certificate must accompany the shipment and a copy maintained for at least five (5) years by the permit holder. The source of all Class III cervids listed on the Approved Confined Wildlife Species List in 3 CSR 10-9.105 for Class III wildlife breeders must be a Class III breeder facility. The source of all other cervids must be a herd that is enrolled in a state of Missouri administered Chronic Wasting Disease herd certification program.

12. New permits for big game hunting preserves will not be issued for a period of five (5) years within twenty-five (25) miles of a location where Chronic Wasting Disease-positive animal(s) have been confirmed by the department except as follows:

A. New permits may be issued during this time period for the existing location of a big game hunting preserve with a valid permit; and

B. New permits may be issued during this time period for a big game hunting preserve located more than ten (10) miles and less than twenty-five (25) miles from a location where Chronic Wasting Disease-positive animal(s) have been confirmed by the department, provided –

(I) The perimeter of the preserve is enclosed by a double fence having a minimum distance of ten feet (10') between the interior and exterior fences;

(II) The interior and exterior fences are constructed and maintained in accordance with 3 CSR 10-9.220;

(III) For preserves subject to double fencing requirements as a condition of their permit, all applicable measurements for determining compliance with the minimum acreage requirements of this rule will be based on the interior fence; and

(IV) No animal may be confined, pursued, or taken in the area between the interior and exterior fences on preserves subject to double-fencing requirements as a condition of their

permit.

13. Live cervids imported into the state shall not be held in a licensed big game hunting preserve. Only cervids born inside the state of Missouri may be propagated, held in captivity, and hunted on big game hunting preserves. Prior to accepting any cervid, the big game hunting preserve must obtain evidence that the cervid was born inside the state of Missouri, such as relevant portions of the breeder's herd certification inventory and movement certificates. The big game hunting preserve shall maintain such documentation for five (5) years and provide to the department upon request.

14. Within thirty (30) days from the revocation or expiration of a licensed Big Game Hunting Preserve Permit for any reason and prior to the removal of any fencing, the permit holder must remove all animals from the premises either by depopulation with approval by a conservation agent, or transfer to a licensed big game hunting preserve with approval by the state wildlife veterinarian. Facilities with a CWD positive within the past five (5) years must depopulate upon revocation or expiration of their permit.

Rule Number and Name:	3 CSR 10-9.950 Confined Wildlife Permit Pricing: Permit Fees; Other Fees; Permit Replacement Cost
Type of Rulemaking:	Proposed Rule

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of business entities which would likely be affected:	Estimated in the aggregate as to the cost of compliance with the rule by the affected entities:
2,032 individuals	Individuals obtaining a 2026 Confined Wildlife Permit and related items.	\$22,004 in new costs plus \$88,381 in existing costs for a total of \$110,385 in the aggregate

This proposed rule is designed to streamline all fees and costs from Chapter 9 of the *Wildlife Code of Missouri* by moving them into a single rule location. Previously, permit fees and costs were listed under each individual permit rule. With the creation of this new pricing rule, a calculation of aggregate costs for each permit type moved to this rule is required; however, these costs are not new costs as they previously existed under each individual permit rule. New costs are proposed increases to confined wildlife permit fees and other fees associated with exercising confined wildlife privileges.

IV. ASSUMPTIONS

Sales estimates are based on an average of permit year 1999 to 2022 sales reduced by 5%.

The commission based its proposed permit price increases on information from the Federal Bureau of Labor Statistics' Consumer Price Index (CPI) related to cost-of-living increases from July 2015 to June 2024. CPI is a commonly used measurement of the average changes over time in prices paid by consumers for consumer goods and services. The commission is recommending a gradual price increase over 10 years at a CPI of 50% for resident permits and 100% for non-resident and commercial permits.

IV. ASSUMPTIONS

Sales estimates are based on an average of permit year 1999 to 2022 sales reduced by 5%.

The commission based its proposed permit price increases on information from the Federal Bureau of Labor Statistics' Consumer Price Index (CPI) related to cost-of-living increases from July 2015 to June 2024. CPI is a commonly used measurement of the average changes over time in prices paid by consumers for consumer goods and services. The commission is recommending a gradual price increase over 10 years at a CPI of 50% for resident permits and 100% for non-resident and commercial permits.

TITLE 12 – DEPARTMENT OF REVENUE
Division 10 – Director of Revenue
Chapter 2 – Income Tax

PROPOSED AMENDMENT

12 CSR 10-2.155 Regulated Investment Companies. The director is amending the rule purpose and sections (1)–(4).

PURPOSE: This amendment updates certain statutory references and alters a notice requirement to include electronic communications, among other changes.

PURPOSE: This rule explains when a **corporate or individual taxpayer** may **[deduct] subtract** or must add back income from a regulated investment company on its Missouri return.

(1) The term regulated investment company[,] (RIC or mutual fund), as used in this rule, shall mean an organization which meets the qualifications of, and has made the proper election required by, Internal Revenue Code (IRC) section 851.

(2) Pass through of Exempt-Interest on United States Obligations. As used in this section, the term United States Obligations means those obligations described in section 143.121.3[(a)](1), RSMo, including those obligations described in 12 CSR 10-2.150]. An RIC having income from United States Obligations may pass the exempt character of that income through to its shareholders as state income tax exempt-interest dividends. To the extent provided in this section, this exempt-interest is allowable as a modification on the shareholder's income tax return. The modification allowed will be the amount received by the shareholder as a state income tax exempt-interest dividend, less the amounts described in subsections (2)(A) and (B). A state income tax exempt-interest dividend means any dividend or part of a dividend paid by an RIC, attributable to United States Obligations [other than] not including exempt-interest dividends as defined in Internal Revenue Code (Section 852(b)(5)) [as determined by the RIC], and designated by the RIC as a state income tax exempt-interest dividend in a written notice mailed or otherwise sent (e.g., through electronic communication) to its shareholders not later than sixty (60) days after the close of its taxable year. The notice also must

state the amount of interest paid or expense incurred by an RIC in the production of the state income tax exempt-interest dividends. The taxpayer's state income tax exempt-interest dividends shall be reduced by the amount of –

(B) Interest paid or expense incurred to produce the state tax exempt-interest dividends, to the extent that the interest paid or expense incurred equals or exceeds five hundred dollars (\$500) [pursuant to] and to the extent that such expenses would trigger a reduction in the subtraction modification under section 143.121.3[(a)](1), RSMo.

(3) A taxpayer claiming state income tax exempt-interest dividends for a tax year shall attach to that tax year's Missouri income tax return a copy of the year-end statement received from the RIC identifying all United States Obligations by issuer or a summary document indicating the percentage of dividends attributable to interest on United States Obligations [must be attached to the Missouri income tax return when filed]. The percentage referred to in the preceding sentence shall be identical for every person who was a shareholder at any time during a calendar year, irrespective of whether that shareholder acquired or disposed of [his/her] their interest during that year.

(4) Amounts excluded from a taxpayer's federal adjusted gross income or, in the case of a corporation, federal taxable income [on the taxpayer's federal return] as exempt-interest dividends, as defined in IRC section 852(b)(5), must be included in determining Missouri taxable income pursuant to section 143.121.2[(b)](2), RSMo, [to the extent that the interest from which they are derived would not be exempt from Missouri income tax if held directly by a resident] subject to any reduction required by section 143.121.2(2), RSMo. The previous sentence shall not apply to the extent such exempt-interest dividends are derived from interest on obligations of the state of Missouri or any of its political subdivisions or authorities or interest described in section 143.121.3(1), RSMo.

(A) Example: An RIC with only individual shareholders declares and pays a federal exempt-interest dividend pursuant to IRC section 852(b)(5) of [100x] ten thousand dollars (\$10,000) to all of its shareholders. The dividend is therefore exempt from federal income taxation. [20x] Two thousand dollars (\$2,000) of the federal exempt-interest paid is attributable to the net interest earned by the RIC on obligations issued by Missouri and its political subdivisions. [10x] One thousand dollars (\$1,000) of the federal exempt-interest dividend is attributable to the net interest earned on obligations of the territory of Puerto Rico, the interest on which, pursuant to federal law and section 143.121.3[(a)](1), RSMo, is exempt from Missouri income taxation. The remaining [70x] seven thousand dollars (\$7,000) of the federal exempt-interest dividend is attributable to the net interest earned on obligations from other states, the interest on which is not excludable from Missouri taxable income. Assume that IRC section 265 did not prohibit any deduction related to the aforementioned interest amounts. An RIC may designate [30x] three thousand dollars (\$3,000) of the federal exempt-interest dividend as a dividend which need not be included in Missouri taxable income. Each shareholder of the RIC may exclude thirty percent (30%) of [his/her] their federal exempt-interest dividend ([20x] two thousand dollars (\$2,000) plus [10x] one thousand dollars (\$1,000) divided by [100x] ten thousand dollars (\$10,000)) from Missouri taxable income by excluding such amount from federal adjusted gross income. The remaining seventy percent (70%) of the federal exempt-interest dividend is includable in Missouri

taxable income as a **Missouri addition modification** by the shareholders of the RIC pursuant to section 143.121.2[(b)](2), RSMo.

AUTHORITY: section 143.961, RSMo [1994] 2016. Original rule filed Jan. 7, 1986, effective May 11, 1986. Emergency amendment filed Dec. 2, 1992, effective Jan. 1, 1993, expired April 30, 1993. Emergency amendment filed April 14, 1993, effective May 1, 1993, expired Aug. 28, 1993. Amended: Filed Dec. 2, 1992, effective July 8, 1993. Amended: Filed June 2, 2025.

PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

*NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with the Missouri Department of Revenue, Legislative Office, 301 W. The Report: The agency will prepare a report containing the results of the review, which will include whether the rule continues to be necessary; whether the rule is obsolete; whether the rule overlaps, duplicates, or conflicts with other rules; whether a less restrictive or more narrowly tailored rule is appropriate; whether the rule needs amendment or rescission; whether incorporated by reference materials are proper; and whether rules affecting small business are still relevant. The report will also contain an appendix with the nature of the comments the department has received on the rules and the agency responses to the comments.

Report Deadline: The report must be filed with the Joint Committee on Administrative Rules by June 30, 2026. Any rule not included in the report may become null and void. However, there is an extensive process, including multiple opportunities to correct the deficiency, in place before nullification of the rule. Such opportunities include the ability of the agency to request an extension from the Joint Committee on Administrative Rules, as well as notification to the agency and opportunity to correct the delinquency.

TITLE 19 – DEPARTMENT OF HEALTH AND SENIOR SERVICES Division 30 – Regulation and Licensure Chapter 1 – Controlled Substances

IN ADDITION

EMERGENCY WAIVER OF CONTROLLED SUBSTANCE REQUIREMENTS

WHEREAS, severe storm systems impacted the State of Missouri starting on March 14, 2025, resulting in damages associated with tornadoes, straight line winds, large hail, fires, heavy rains, flash flooding, and riverine flooding, resulting in loss of life as well as damage to homes, businesses, public infrastructure, and electrical transmission lines across the state; and

WHEREAS, Executive Order 25-19 was issued on March 14, 2025, declaring a State of Emergency within the state of Missouri; and

WHEREAS, Executive Order 25-19 was subsequently extended by Executive Order 25-22 and Executive Order 25-23; and

WHEREAS, Executive Order 25-24 was issued on May 20, 2025, vesting the Director of the Department of Health and Senior Services with discretion to temporarily waive or suspend the operation of any statutory or administrative rule or regulation currently in place under its purview in order to best serve the interests of the public health and safety during the period of the emergency and the subsequent recovery period, relating to the prescribing and dispensing of controlled substance medications; and

WHEREAS, Section 195.041, RSMo, authorizes the Department of Health and Senior Services to waive the registration and recordkeeping requirements set forth in sections 195.010 to 195.100, RSMo, and their attendant regulations if the department determines such a waiver would be in the best interest of the public health; and

WHEREAS, the Department of Health and Senior Services finds that it is in the best interest of the public health that the controlled substance requirements found in sections 195.010 to 195.100, RSMo, and their attendant regulations, and the prescription restriction found in section 195.060, RSMo, should be waived or suspended to allow pharmacists, who are otherwise properly registered with the Bureau of Narcotics and Dangerous Drugs (BNDD) and the federal Drug Enforcement Administration (DEA), to fill a controlled substance prescription without the presentation of a written prescription the extent that the registrant pharmacist otherwise complies the conditions set forth below:

1. Missouri controlled substance registrants may contact the Department's Bureau of Narcotics and Dangerous Drugs to report damages, evacuations, and make requests for delays in any required reporting such as changes of address, loss of records, or losses of medications.
2. A pharmacist shall use discretion and professional judgment in dispensing refills of controlled substance prescriptions for individuals impacted by the spring storms of March through May 2025. The dispensing may occur at any location where a pharmacist is dispensing in Missouri, whether it is a retail pharmacy, clinic, emergency shelter or any other licensed facility.
 - A. If an individual from the affected area requests a refill of medication, the pharmacist shall first make an attempt to contact the original prescriber for authorization to dispense the medication. Licensees should utilize adequate measures to prevent fraudulent prescription activity.
 - B. If the pharmacist is unable to contact the prescriber to obtain the prescriber's authorization as outlined above, the pharmacist may dispense up to a one- (1-) time thirty- (30-) day emergency refill of controlled substance

PROMOTING HEALTH AND SAFETY

The Missouri Department of Health and Senior Services' vision is optimal health and safety for all Missourians, in all communities, for life.

medication without authorization from the prescriber to the individual affected by the current disaster if, in the pharmacist's professional judgment –

- I. Dispensing the refill is essential to the individual's health and safety, the maintenance of life, or the continuation of a prescribed therapy for a chronic condition, and
 - II. An interruption of therapy might reasonably produce undesirable health consequences or may cause physical or mental discomfort.
- A. If medication is dispensed pursuant to this Emergency Waiver, a pharmacist shall create a prescription with the original prescriber designated as the prescriber. The prescriptions shall be marked "emergency prescription refill" and shall be filled and maintained as required by Missouri law for prescriptions. The prescription shall be entered into the Missouri's state prescription monitoring database.
 - B. The pharmacist shall inform the patient at the time of dispensing that the prescription refill is being provided without the prescriber's authorization and that authorization of the licensed practitioner is required for future refills.
 - C. The dispensing pharmacist shall attempt to notify the prescribing practitioner of the emergency refill within a reasonable time after such dispensing.
3. The provisions of this Emergency Waiver shall expire on June 30, 2025, unless extended in whole or in part by the Governor by further Executive Order.

Note: The Department understands that the Missouri Board of Pharmacy will be issuing separate guidance for the dispensing of prescription legend drugs that are not controlled substances. The department's authority in this waiver is limited to controlled substances only.

Having received notice that a state of emergency has been declared under Section 44.010, RSMo, the Missouri Department of Health and Senior Services waives and suspends the Missouri controlled substance requirements as described above pursuant to Executive Order 25-24 and Section 195.041, RSMo.
