## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system–

<b>Title</b>	<b>CSR</b>	<b>Division</b>	<b>Chapter</b>	<b>Rule</b>
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

### ***Code and Register on the Internet***

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo.

**EXECUTIVE ORDER 26-14**

WHEREAS, interruptions of public services are occurring, or anticipated to occur, as a result of the severe weather event starting on May 16, 2026, and continuing; and

WHEREAS, the severe storm systems beginning on May 16, 2026, and continuing, have the potential to create a condition of distress and hazard to the safety, welfare, and property of the people of the State of Missouri beyond the capabilities of some local jurisdictions and other established agencies; and

WHEREAS, the State of Missouri will continue to be proactive where the health and safety of the people of Missouri are concerned; and

ATTEST:

MIKE KEHOE  
GOVERNOR

  
DENNY HOSKINS  
SECRETARY OF STATE

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Division 30—Secretary of State  
Chapter 51—Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

<b>Rule number/name:</b>	<b>15 CSR 30-51.070 Minimum Net Worth Requirements for Investment Advisers</b>
<b>Type of rulemaking:</b>	Proposed Amendment

**II. SUMMARY OF FISCAL IMPACT**

Estimate of the number of entities by class that would likely be affected by adoption of the rule:	Classification by type(s) of the business entities that would likely be affected by adoption of the rule:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
217	Investment Adviser	\$0 - \$3,255,000.00 over the course of the ten-year phase-in of the minimum net worth requirement

**III. WORKSHEET**

This rule applies to approximately 217 investment adviser registered organizations (IAs) in the state, as reflected in year 2025 data provided by industry regulators. Raising the requirement for in-state IAs to have a net worth of at least \$20,000 by the year 2036 results in an incremental increase of \$15,000 over the current \$5,000 requirement. When applied to all IAs over the ten-year phase-in, the total cost could be as follows:

- Increasing an IAs net worth requirement from \$5,000 to \$20,000 over ten years = \$15,000 potential increased net worth required per IA over the ten-year phase-in period
- Approx. 217 IAs multiplied by an additional \$15,000 over ten years = \$3,255,000

As discussed in the assumptions below, it is likely that only a small percentage of IAs will be affected, but because of the potential for all IAs to be affected, the cost estimate reflects the possibility of all IAs being affected by the rule change.

#### IV. ASSUMPTIONS

The net worth requirement for IAs in this rule exists to protect Missouri investors from fraud and to assist investment professionals in maintaining financial viability while providing financial advice and investing client funds. Since 1968, Missouri has adopted some form of net worth or net capital requirement for investment professionals in order to register in this state and provide financial investment services for compensation. The first such net capital requirement imposed for certain investment professionals was \$5,000; if adjusted for inflation, that amount would equal approximately \$48,000 today.

However, the net worth requirement minimum has remained at \$5,000 since its inception. The combination of a static net worth minimum and inflation in the value of assets has created conditions that could make it easier for insolvent or nearly insolvent IAs to have access to hundreds of millions in client assets. The state of Missouri has an interest in protecting investors from investment professionals who may lack the level of financial resources necessary to adequately fulfill financial adviser duties because of the IA's own financial distress. Increasing the net worth requirement in this rule is one possible method for removing this opportunity for potential fraudulent behavior.

With its \$5,000 minimum net worth requirement that has never been adjusted or updated, Missouri lags behind almost all other states in increasing higher net worth requirements as a method of combatting the potential for fraud. Approximately half of the fifty states require a minimum net worth/net capital level of at least \$35,000 for an IA that has custody of client funds and at least \$10,000 for an IA that has discretionary authority over client funds (no custody but the authority to make decisions about the investment of the client's funds without first asking for the client's permission). Nine others require at least \$10,000 as the minimum net worth/net capital level.

The Securities Division conducted a survey in 2025 to, among other purposes, gauge the effect an increase of the net worth minimum would have on the industry. A total of 50 IAs responded, 38 of which were domiciled in Missouri. Several survey questions related to a potential net worth minimum increase to \$27,000. Some responses were as follows:

- 23 (approx. 11% of the 217 IAs in Missouri) indicated the proposed increase would result in no change to the firm;
- 21 (approx. 10%) indicated they would seek new capital or increase earnings to cover the increase;
- 25 (approx. 12%) indicated the increase would result in no economic burden; and
- 11 (approx. 5%) indicated the increase would be an economic burden.

Although only a small percentage of the total number of IAs responded to the survey, the answers indicate that the impact of increasing the net worth minimum from \$5,000 to \$27,000 would be nonexistent or minimal on the vast majority of IAs. The proposed rule potentially further decreases the impact to IAs since the increase is to only \$20,000 and will be implemented over ten years. This proposed update gradually increasing Missouri's minimum net worth requirements from \$5,000 to \$20,000 will:

- Move Missouri closer to most other states;
- Implement the increase incrementally over ten years rather than all at once;
- Still be less than what most other states require; and
- Still be less than half of what the requirement would have been if adjusted for inflation in the years since the \$5,000 minimum was imposed.

**3 CSR 10-11.115 Closings is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 16, 2026 (51 MoReg 396). SUMMARY OF COMMENTS: The Conservation Commission received comments from one (1) individual on the proposed amendment.

COMMENT #1: The commission received comments from one (1) individual who voiced opposition to proposed changes to this rule, citing concerns of added hunting pressure, conflict between hunting parties, and hunters getting stuck in the mud.

RESPONSE: The commission thanks the individual who provided input. Montrose has historically been one of the department's least-utilized intensively managed wetlands. The potential increase in pressure is expected to remain consistent with any open waterfowl area. Sediment in Montrose Lake can be challenging; however, the proposed change is not expected to alter the likelihood of being stuck in mud. No changes have been made as a result of this comment.
