HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3 Department	<i>Code of State Regulations</i>	10- Agency division	4 General area regulated	115 Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the Missouri and the United States Constitutions; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the Missouri Register as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

TITLE 19 – DEPARTMENT OF HEALTH AND SENIOR SERVICES

Division 30 – Division of Regulation and Licensure Chapter 1 – Controlled Substances

EMERGENCY AMENDMENT

19 CSR 30-1.002 Schedules of Controlled Substances. The department is amending section (1).

PURPOSE: This amendment updates the Schedules of Controlled Substances to be consistent with 21 CFR Part 1308.

EMERGENCY STATEMENT: The United States Department of Justice Drug Enforcement Administration (DEA) continually evaluates substances to determine their clinical application and potential for abuse. Based on their evaluation, the DEA issues scheduling actions to place substances in the appropriate controlled substance schedules. Many of these scheduling actions consist of temporarily and permanently scheduling newly discovered illicit substances in Schedule I. Proper scheduling of these substances allows law enforcement to take action to prevent the further distribution of these substances. Scheduling substances in Schedules II-V allows practitioners to be informed about the potential for addiction/abuse of the substances and prescribe the substances appropriately. Section 195.015, RSMo charges the department with similarly controlling substances as they are controlled under federal law. Section 195.015.4 requires

*the Department of Health and Senior Services to submit emergency rules to the Secretary of State within thirty days of a federal scheduling action to allow for similar inclusion, rescheduling, or deletion of controlled substances with this schedule. While this time frame is difficult to achieve given the various approvals and reviews needed prior to the Department scheduling any rule with the Secretary of State, the Department still acts to effectuate these scheduling actions as quickly as possible. This emergency amendment includes essentially all federal scheduling actions since the last amendment of this rule in 2025. This emergency amendment is necessary to protect Missouri's governmental interest in keeping its controlled substances schedules up to date as much as practically possible in order to protect its citizens and to aid law enforcement in its prosecution of those who illegally distribute these substances. As a result, the Department of Health and Senior Services finds a compelling governmental interest, which requires this emergency action. A proposed amendment, which covers the same material, will be published in the October 15, 2026, issue of the **Missouri Register**. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the **Missouri and United States Constitutions**. The Department of Health and Senior Services believes this emergency rule is fair to all interested persons and parties under the circumstances. Subject to section 536.025, this emergency rule was filed Sept. 11, 2026, effective Sept. 25, 2026, expires March 23, 2027.*

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

Division 2010 – Missouri State Board of Accountancy Chapter 2 – General Rules

EMERGENCY AMENDMENT

20 CSR 2010-2.022 Privilege to Practice through Mobility.

The board is amending the purpose statement, sections (1) and (2), deleting section (5), and renumbering as necessary.

PURPOSE: *This amendment implements the provisions of sections 326.256 and 326.283, RSMo, and creates a temporary rule to provide clarification on mobility requirements for certified public accountant (CPAs) licensed out-of-state.*

PURPOSE: *This rule sets forth requirements for practice privilege of certified public accountants from other states who are not relocating to this state [and whose accountancy statutes are substantially equivalent to Missouri, or certified public accountants whose individual qualifications meet the requirements to be considered substantially equivalent].*

EMERGENCY STATEMENT: *Sections 326.256 and 326.283, RSMo, were passed during the 103rd General Assembly, 2026 and became effective on August 28, 2026. This piece of legislation changed the requirements for an individual CPA licensed in other jurisdictions recognized by the National State Boards of Accountancy to practice in Missouri through mobility. As the mobility requirements are effective August 28, 2026, the Missouri State Board of Accountancy believes there is a compelling interest warranting emergency action. This emergency amendment is necessary to provide clear guidance for the educational requirements of licensed CPAs who intend to practice in Missouri, which aligns with the statutory changes effective August 28, 2026.*

*As a result, the Missouri State Board of Accountancy finds there is a compelling governmental interest, which requires this emergency action. TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

Division 2010 – Missouri State Board of Accountancy Chapter 2 – General Rules

EMERGENCY AMENDMENT

20 CSR 2010-2.041 Eligibility Requirements for the CPA Examination. The board is amending the purpose statement and sections (2) and (3).

PURPOSE: This amendment implements the provisions of section 326.280, RSMo, and creates a temporary rule to include an additional licensure pathway and define accounting concentration as required in the educational pathways in statute. The accounting concentration is required for Uniform CPA Exam eligibility, and the rule defines the education coursework necessary to meet the accounting concentration required for examination eligibility.

EMERGENCY STATEMENT: Section 326.280, RSMo, was passed during the 103rd General Assembly, 2026 and became effective on August 28, 2026. This piece of legislation changed the requirements for an individual exam eligibility and certified public accountant (CPA) license by defining the educational requirements that serve as an accounting concentration, which is a requirement for exam eligibility and all licensure options. As the new licensure pathway is effective August 28, 2026, the Missouri State Board of Accountancy believes there is a compelling need to warrant emergency action. This emergency amendment is necessary to provide clear guidance on the educational requirements for applicants seeking eligibility for the Uniform CPA Examination and ultimately licensure as a CPA in Missouri and to align with the statutory changes effective August 28, 2026.

As a result, the Missouri State Board of Accountancy finds there is a compelling governmental interest, which requires this emergency action. A proposed amendment, which covers the same material, will be published in the October 15, 2026, issue of the **Missouri Register**. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the **Missouri and United States Constitutions**. The Missouri State Board of Accountancy believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed Sept. 9, 2026, becomes effective Sept. 23, 2026, and expires March 21, 2027.

PURPOSE: This rule determines the eligibility requirements an applicant shall meet in order to qualify to sit for the certified public accountant examination as a Missouri candidate **and defines the accounting concentration as required for licensure.**

(1) The applicant must comply with section 326.277, RSMo.

(2) The equivalent of a concentration in accounting shall be determined in the following manner:

[(A) For candidates whose applications for the initial examination are or were received prior to June 30, 2021, the concentration or major in accounting, or the equivalent of a concentration in accounting shall be sixty (60) semester hours of accounting and other related courses. At least thirty-three (33) semester hours shall be accounting courses with at least one (1) course in auditing and at least eighteen (18) semester hours of accounting courses taken at the upper division level. The remaining twenty-seven (27) semester hours shall be in accounting or other areas of business administration such as business law, statistics, economics, finance, marketing, management, information technology and business communications. These courses shall be taken at an accredited college or university recognized by the board.]

Schools and Programs (ACBSP).

(5) The board, or its designee, will complete a transcript review. In reviewing transcripts, the board may rely on the accreditation to assess the overall quality of the educational institutions. An applicant shall produce transcripts and any other course information as the board may request in order to determine education hours, including acceptable instructions, quality, and concentration in accounting.

(6) Quarter credit hours may be converted to semester credit hours by multiplying quarter credit hours by two-thirds (2/3). For example, thirty-six (36) quarter hours are equal to twenty-four (24) semester credit hours.

(7) The board may, in its discretion, allow any applicant to take the examination; however, approval to take the exam shall not create any presumption that the applicant is fit for licensure nor otherwise prohibit the board from exercising its discretion in considering an application for licensure as set forth in section 326.310, RSMo.

(8) The provisions of this rule are declared severable. If any provision of this rule is held invalid by a court of competent jurisdiction, the remaining provisions of this rule shall remain in full force and effect, unless otherwise determined by a court of competent jurisdiction to be invalid.

AUTHORITY: section 326.262, RSMo 2016, and sections 326.277, 326.280.1., 326.283, and 326.310, RSMo Supp. [2020] 2026. This rule originally filed as 4 CSR 10-2.041. *AUTHORITY: sections 326.262[,] and 326.268 [and 326.280], RSMo [Supp. 2003] 2016, and sections 326.277, 326.280, and 326.283, RSMo Supp. 2026. This rule originally filed as 4 CSR 10-2.135. Original rule filed Sept. 6, 1983, effective Jan. 13, 1984. For intervening history, please consult the **Code of State Regulations**. Emergency amendment was filed Sept. 9, 2026, effective Sept. 23, 2026, expires March 21, 2027.*

PUBLIC COST: This emergency amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500)) in the time the emergency is effective.

PRIVATE COST: This emergency amendment will not cost private entities more than five hundred dollars (\$500) in the time the emergency is effective.

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

PROPOSED AMENDMENT

12 CSR 10-2.017 Transient Employer Financial Assurance Instrument for Employer's Withholding Tax. The department is amending sections (2)-(4), (8), and (9).

PURPOSE: This amendment replaces a statutory reference for the definition of letter of credit, removes certified checks as means of paying a cash bond, and updates the incorporation by reference date of certain forms, among other changes.

(2) Every transient employer shall file with the director of revenue a financial assurance instrument including but not limited to a cash bond, surety bond, or an irrevocable letter of credit *[which has the same meaning as used in section 400.5-103 RSMo]*. For purposes of this rule, “letter of credit” has the meaning given in section 400.5-102, RSMo.

(3) Types of Financial Assurance Instruments. Financial assurance instruments which may be posted to secure payments of taxes by out-of-state transient employers shall be in the form of a surety bond, cash bond, an irrevocable letter of credit issued by any state or federal financial institution, an assignment of certificate of deposit, or any other financial assurance instrument which is deemed acceptable by the director of revenue. Other financial assurance instruments will be reviewed for approval on a case-by-case basis.

(A) A surety bond shall be issued by an insurance company licensed for bonding in Missouri on behalf of the applicant on the Surety Bond Form 331. The form shall bear the seal of the insurance company, the effective date, and it shall be accompanied by a power of attorney letter or form if signed by the attorney-in-fact. **The [S]surety bond form shall also contain the signature of the applicant.**

(B) A cash bond shall be paid to the director of revenue in the form of a cashier's check[,] or money order[, **or certified check**] and be accompanied by a Cash Bond Form 332.

(C) An irrevocable letter of credit issued by any state or federal financial institution may be submitted to the Department of Revenue on an Irrevocable Letter of Credit Form 2879.

1. The letter of credit shall be irrevocable and the beneficiary shall be the Department of Revenue. Payment shall be made immediately upon presentment of a demand for payment signed by the director of revenue or a designated representative.

2. All letters of credit shall conform to the Department of Revenue's required format in the Irrevocable Letter of Credit Form 2879. The letter of credit must include an authorization for release of confidential information allowing the director of revenue or a designee to release confidential tax information to the issuing bank.

3. A demand for payment upon a letter of credit shall be presented for payment only for the reason that bond proceeds are needed to satisfy any delinquencies or claims as provided for in section 285.230, RSMo.

4. Letters of credit shall have a term of one (1) year and shall be automatically renewable on an annual basis for an additional one (1) year. A letter of credit may be canceled by the issuer sixty (60) days after written notice is delivered to the Department of Revenue. Upon the notice of cancellation,

the transient employer shall be required to file a new financial assurance instrument on or before the expiration of the sixty-(60-) day period. If the required financial assurance instrument is not received within that time period, the employer commits the crime of failure to file a financial assurance instrument if the employer knowingly fails to comply.

5. If a transient employer ceases business or desires to substitute a financial assurance instrument for their letter of credit, the director of revenue shall retain the letter of credit for a period of ninety (90) days or until the director of revenue is satisfied that no claims exist against the letter of credit.

6. A transient employer shall be required to increase the amount of the letter of credit or provide an additional financial assurance instrument in any situation where the employer would be required to increase or provide an additional financial assurance instrument as provided for in section 285.230, RSMo. An increase to the amount of the letter of credit shall be deemed the submission of an additional financial assurance instrument for the amount of the increase.

(4) Amount of Financial Assurance Instrument. The amount of the financial assurance instrument shall be determined by the director of revenue. This financial assurance instrument shall not be less than the average estimated quarterly withholding tax liability of the taxpayer, but in no case less than five thousand dollars (\$5,000) nor more than twenty-five thousand dollars (\$25,000).

(A) Example 1: Mr. Kansas Contractor has been awarded a contract to renovate a building in Kansas City, Missouri. Mr. Kansas Contractor has employed ten (10) Missouri residents to assist in the renovation. The employees are *[being]* paid four hundred dollars (\$400) in wages per week. The average estimated quarterly withholding tax liability of Mr. Kansas Contractor is less than five thousand dollars (\$5,000). Mr. Kansas Contractor is required to post the minimum five thousand dollar (\$5,000) financial assurance instrument.

(8) Certification of Workers' Compensation Insurance. Every transient employer shall certify to the director of revenue that the employer has sufficient Workers' Compensation insurance either through a self-insurance program or policy of workers' compensation insurance issued by an approved workers' compensation carrier. A transient employer shall provide the Department of Revenue with a copy of its Workers' Compensation insurance policy **or completed insurance certification document indicating Missouri as a covered state for Workers' Compensation**, to be verified consistent with section 285.234.1(2), RSMo.

PROPOSED AMENDMENT

12 CSR 10-110.220 Hotels and Motels. The department is amending the purpose statement, adding subsections (3)(H)-(M) and (4)(D)–(E), and updating the authority.

PURPOSE: The rule is being updated to provide more examples of when tax is owed.

*PURPOSE: This rule explains the taxability of rooms, meals, and drinks provided by hotels, motels, and similar establishments in which these items are regularly provided to the public. It also covers purchases made by these establishments. The applicable sections are 144.010, 144.011, **144.018**, 144.020, 144.021, 144.030 and 144.080, RSMo.*

(3) Basic Application of the Tax.

(H) Fees charged for items such as roll-away beds, additional person in room, no-show fees, early departure fee, pet fee, deposit when the facility retains the deposit, cancellation fee (if the fee is compensatory in nature), lockout fees, fax fees, telephone charges, and athletic facility fees are subject to tax.

(I) Fees charged for shuttle or transportation, parking, laundry, faxing documents, cancellation fees (minimal and non-compensatory), cleaning charges, damage fees, internet charges, return check fees, and pay-per-view charges are not subject to tax.

(J) Retail sales of items from a gift shop, newsstands, minibar, or pantry are subject to tax.

(K) Vending machines sales are subject to tax at one hundred thirty-five percent (135%) of the net invoice price of the items vended. Food items that are sold through vending machines are subject to tax at one hundred thirty-five percent (135%) of the net invoice price at the reduced food tax rate.

(L) A hotel's purchases of utilities such as electricity, water, and gas are exempt to the extent that the utilities are used to provide water or power to sleeping rooms, meeting and banquet rooms, or other space rented by guests where a charge is made to the guest. Any remaining portion of these utilities consumed by the business is taxable.

(M) Hotels that sell rooms, meals, or drinks at fair market value to an unaffiliated entity for resale must collect and remit sales tax on those charges. The subsequent resale of the rooms, meals, or drinks by the unaffiliated entity is not subject to sales tax.

(4) Examples.

(D) A hotel has a vending machine which sells items such as toothbrushes, toothpaste, shampoo, soap, etc. The hotel is to remit tax on one hundred thirty-five percent (135%) of the net invoice price of the items vended.

(E) A hotel uses a third-party sales platform to solicit sales at a fair market value. The sales the hotel makes to the third-party sales platform are subject to sales tax. The subsequent sale made by the third-party platform is not subject to tax.

PROPOSED AMENDMENT

12 CSR 10-110.404 Cafeterias and Dining Halls. The department is adding section (2) and case law.

PURPOSE: This amendment adds a section to address the issue of company cafeterias.

(2) Company cafeterias tax liabilities are dependent on whether the cafeteria is open to the general public, or whether its sales are limited to company employees and guests of company employees. If the cafeteria is open to the general public, the sales of meals and beverages are subject to sales tax at the time of purchase. However, if admission to the cafeteria is limited to company employees and their guests, meals are exempt, and the cafeteria owes tax on its purchases of food and beverages.

AUTHORITY: section 144.270, RSMo [1994] 2016. This rule was previously filed as rule nos. 5 and 10, Jan. 22, 1973, effective Feb. 1, 1973. S.T. regulation 040-14 was last filed Dec. 31, 1975, effective Jan. 10, 1976. Refiled March 30, 1976. Amended: Filed Aug. 13, 1980, effective Jan. 1, 1981. This rule was previously filed as 12 CSR 10-3.404. Moved to 12 CSR 10-110.404, effective Aug. 31, 2023. Amended: Filed Sept. 10, 2026.

Great Western Dining Service, Inc. v. Director of Revenue, Mo AHC 5/4/2023. Great Western Dining (GWD) had contracts with schools to prepare and make available pre-purchased meal plans to be eaten by the students. Because GWD's

contracts were with the schools rather than the individual students, the school was the legal purchaser. The schools in turn resold the meals to the students. Therefore, GWD's sales to the schools were exempt as sales for resale.

PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with the Missouri Department of Revenue, Legislative Office, 301 West High Street, Room 218, Jefferson City, MO 65105-0475. **TITLE 20 – DEPARTMENT OF COMMERCE
AND INSURANCE**

**Division 2220 – State Board of Pharmacy
Chapter 2 – General Rules**

PROPOSED AMENDMENT

20 CSR 2220-2.020 Pharmacy Permits. The board is replacing sections (3) and (4), deleting section (8), renumbering as necessary, and amending sections (2), (5), (6), (8), (9) and (10).

PURPOSE: This amendment updates application requirements for new pharmacy permit applications and clarifies pharmacy change of ownership and change of location requirements. The amendment also updates pharmacy definitions for Class C (Long-Term Care), Class D (Non-Sterile Compounding), Class E (Radiopharmaceuticals), Class G (Medical Gas), Class H (Sterile Product Compounding), Class J (Shared Service), Class N Automated dispensing system (health care facility), and Class O Automated dispensing system (ambulatory care), and adds definitions for a Class Q (Charitable Pharmacy) and Class R (Remote Dispensing Site Pharmacy), to align with/incorporate current Missouri law and 20 CSR 2220-2 definitions.

(2) A pharmacy permit may be issued on the application of the owners. If the owner is a corporation, an officer of the corporation must sign the application as the applicant. If the owner is a partnership, a partner must sign the application as the applicant. If the owner is a limited liability partnership, a general partner must sign the application as the applicant. If the owner is a limited liability company, a member must sign the application as the applicant. In the case where a pharmacy is owned and operated by a person(s) who is a licensed pharmacist and in active charge of the pharmacy, the application for permit can be made by either party. Alternatively, a pharmacy permit application may be signed by an attorney or other person lawfully granted power of attorney to sign the application on the applicant's behalf. In such case, a representative of the applicant shall review the application for truth and accuracy prior to submitting the application to the board. Proof of a power of attorney designation shall be submitted with the application.

(B) Permit applications must include a diagram or floor plan that outlines the proposed pharmacy permitted space.

(C) A Missouri pharmacy permit is only valid for the name(s), fictitious names (dba), address, and classifications identified on the permit. The appropriate application must be filed with the accompanying fee as provided by law.

(D) Managing Officers. Pharmacies must notify the board electronically or in writing within thirty (30) days of a change of any officers identified in the pharmacy's permit application or designated with the board. The written notification must include the name of the officer, title, date of change, and official contact information as designated by the board.

[(3) When a pharmacy changes ownership, the original permit becomes void on the effective date of the change of ownership. Before any new business entity resulting from the change opens a pharmacy for business, it must obtain a new permit from the board. A temporary license shall be issued once a completed application and fee have been received by the board. The effective date of the temporary license may be the date the change of ownership is listed as effective on the application. Such license shall remain in effect until a permanent license is issued or denied by the board.]

(A) A change of ownership of a pharmacy owned by a sole proprietor is deemed to have occurred when—

- 1. The business is sold and the sale becomes final;*
- 2. The proprietor enters into a partnership with another individual or business entity; or*
- 3. The proprietor dies; provided, however, that the proprietor's estate may continue to operate the pharmacy under the licensed pharmacist in good standing in this state, but in no case for a period of more than one (1) year and only so long as appropriate pharmacy permit fees are paid.*

(B) If a corporation owns a pharmacy, it is not necessary to obtain a new license if the owners of the stock change. If a limited liability partnership or a limited liability company owns a pharmacy, it is not necessary to obtain a new license if the partners or members of the company change, as long as the partnership or company is not dissolved by that change. It is necessary to file written notice with the State Board of Pharmacy within ten (10) days after a change occurs in partners in a limited liability partnership, or in members in a limited liability company. This notification must be in writing and certified. However, when a corporation, limited liability partnership, or limited liability company begins ownership of a pharmacy or transfers ownership of a pharmacy, a new license must be obtained regardless of the relationship between the previous and subsequent owners.

(C) All individuals or business entities owning twenty-five percent (25%) or more of the ownership of any entity owning a pharmacy must notify the board within thirty (30) days of acquiring the percentage.

(4) If an individual or business entity operating a pharmacy changes the location of the pharmacy to a new facility (structure), the pharmacy shall not open for business at the new location until the board or its duly authorized agent has inspected the premises of the new location and approved it and the pharmacy as being in compliance with section 338.240, RSMo and all other provisions of the law. Upon the approval and receipt of a change of location fee, the board shall issue a permit authorizing operation of a pharmacy at the new location, and the permit shall bear the same number as the previous pharmacy permit. However, the permit remains valid if the pharmacy address changes, but not the location, and an amended permit will be issued without charge under these circumstances.

(A) Remodeling of a licensed pharmacy within an existing structure shall be deemed to have occurred when any change in the storage conditions of the Schedule II controlled substances is made or new connections to water/sewer resources are made

or any changes in the overall physical security of drugs stored in the pharmacy as defined in 20 CSR 2220-2.010(1)(H) are made. Remodeling as defined within this section will not require the initiation of any change of location procedures. Satisfactory evidence of plans for any remodeling of a pharmacy must be provided to the board office thirty (30) days in advance of commencing such changes along with an affidavit showing any changes to the pharmacy physical plant and the projected completion date for any remodeling.]

(3) Change of Ownership. When a pharmacy changes ownership, the original permit becomes void on the effective date of the change of ownership and a new permit must be obtained from the board before the new proprietor/entity begins operating as a pharmacy. For purposes of this rule, a change of ownership includes but is not limited to instances where a new or different sole proprietor, corporation, limited liability partnership (LLP), limited liability company (LLC), or other legal entity/structure begins ownership or transfers ownership of a pharmacy, regardless of the relationship between the previous and subsequent owners.

(A) A change of ownership of a pharmacy owned by a sole proprietor is deemed to have occurred when –

- 1. The business is sold and the sale becomes final;*
- 2. The proprietor enters into a partnership with another individual or business entity; or*
- 3. The proprietor dies, provided that the proprietor's estate may continue to operate the pharmacy under the licensed pharmacist in good standing in this state, but in no case for a period of more than one (1) year and only so long as appropriate pharmacy permit fees are paid.*

(B) Unless otherwise provided by law, a change of ownership does not include and a new pharmacy permit is not required if –

- 1. For corporations, the owners of the corporate stock change, provided notice of the stock change must be submitted to the board as required by subsection (3)(C);*
- 2. For government or tribal agencies, the trustees or governing members of the pharmacy/entity change; or*
- 3. For pharmacies owned by a LLP or a LLC, the partners or members of the entity change, as long as the LLC or LLP is not dissolved by the change. Written notification of a change in partners/members of an LLP or LLC that does not constitute a change of ownership under this rule must be submitted to the board in a manner approved by the board within ten (10) days after the change.*

(C) All individuals or business entities owning twenty-five percent (25%) or more of the ownership of any entity owning a pharmacy must notify the board in a manner approved by the board within thirty (30) days of acquiring the percentage, even if a change of ownership has not occurred as defined by this rule.

(D) A temporary license may be issued for the new proprietor/owners once a completed application and fee have been received by the board. The effective date of the temporary license may be the effective date of the change of ownership as listed on the application. A temporary license may remain in effect until a permanent license is issued or denied by the board, unless otherwise determined or restricted by the board.

(E) Notifications required by subsections (3)(B) and (3)(C) of this rule must include the name of the partner/member/individual or entity, title, date of change, and official contact information.

(4) **Change of Location.** A change of location application must be filed with the board with the required fee if a pharmacy changes the location of the pharmacy to a new facility (structure). The pharmacy shall not open for business, possess legend drugs, or operate as a pharmacy at the new location until the board or its duly authorized agent has approved the change of location application.

(A) For Missouri located pharmacies, the premises of the new location must be inspected and approved as being in compliance with section 338.240, RSMo, and all other provisions of the law. For non-resident pharmacies, the facility must provide proof of licensure in the facility's home state at the new address. If the application is approved, the board will issue a permit authorizing operation of a pharmacy at the new location on the effective date listed on the application with the same number as the previous pharmacy permit.

(B) A permit remains valid and a change of location application is not required if the pharmacy address changes but not the location. The pharmacy must notify the board electronically or in writing within five (5) days of the change and an amended permit will be issued without charge.

(C) Remodeling of a licensed pharmacy within the existing structure previously licensed and inspected by the board does not constitute a change of location. A change of location application is not required for remodeling of a licensed pharmacy as defined by this section; however, an electronic or written remodeling plan must be provided to the board office thirty (30) days prior to commencing the proposed remodeling/changes. The required remodeling plan must show the proposed remodeling and/or changes to the pharmacy's physical facility/structure and the projected remodeling completion date. For purposes of this rule, a remodel includes –

1. Any change in location or storage conditions of Schedule II controlled substances;
2. Any new connections to water/sewer resources;
3. Any physical or structural changes to the permitted pharmacy area, pharmacy access/entry points, or medication storage areas; and

(5) *[Permits, when issued, will bear an original number. Permits]* Pharmacy permits must be posted in a conspicuous place in the pharmacy to which it is issued.

(6) *[No pharmacy permit will be issued unless the pharmacy area is under the direct supervision of a licensed pharmacist in good standing with the Missouri State Board of Pharmacy who is designated as the pharmacist-in-charge and meets the requirements of 20 CSR 2220-2.090]* Except as otherwise provided for non-resident pharmacies, no pharmacy permit will be issued by the board unless the pharmacy is under the direct supervision of a pharmacist who holds a current and active Missouri pharmacist license, who is designated with the board as the pharmacist-in-charge, and meets the requirements of 20 CSR 2220-2.090.

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

Division 2220 – State Board of Pharmacy Chapter 2 – General Rules

PROPOSED AMENDMENT

20 CSR 2220-2.140 Prescription Services by Pharmacists/Pharmacies for Residents in Long-Term Care Facilities. The Board of Pharmacy is adding new sections (3) and (6), replacing sections (1), (2), and (5), deleting section (4), renumbering as necessary, and amending new section (4).

PURPOSE: This amendment clarifies licensure requirements for Class C pharmacies, updates rule definitions of a long-term care pharmacy and applicable long-term care dispensing activities, identifies allowances for long-term care emergencies kits, and clarifies prescription/medication order transfer and dispensing allowances for Class C pharmacies dispensing to long-term care residents.

[(1) **Licensure.** A pharmacist who or pharmacy which provides prescription services to a long-term care facility must be licensed to practice pharmacy in this state. A long-term care facility means a nursing home, retirement care, mental care or other facility or institution which provides extended health care to resident patients.

(2) Medication Services.

(A) Policies and procedures shall be formulated to cover all packaging and dispensing responsibilities of the pharmacist/pharmacy to the residents of the long-term care facility and shall include, at a minimum:

1. Methods used to dispense medications in a timely fashion to the facility;
2. Proper notification to the facility when a medication is not readily available;
3. Proper labeling requirements to meet the needs of the facility and which are consistent with state and federal laws; and
4. Appropriate medication destruction, return of unused medication, or both, which is consistent with state and federal laws.

(B) Container labeling, at all times, shall conform to Chapter 338, RSMo. If a label change is required to reflect a change in directions, the pharmacist personally shall affix the correct label to the container. However, direction change labels which are defined as indicator labels that notify long-term care facility personnel that a change in directions for medication has taken place, may be used and affixed to the container by nursing home personnel in a way as not to deface the original label. Labeling of unit dose packages may be distinguished from the requirements as set forth in section 338.059, RSMo by insuring that the drug name and strength, control number and expiration date and manufacturer's name appear on the package itself. A patient's name and directions may not have to appear directly on the medication container but a mechanism should exist to identify for the personnel administering medications, what medications each patient is to receive and the directions for administration.

(C) All prescription containers, including, but not limited to, single unit, unit dose and unit-of-use containers utilized for distribution within a long-term care facility shall meet minimum requirements as referenced by the United States Pharmacopoeia (USP) which is incorporated herein by reference. Where applicable, light-sensitive packaging shall be used.]

(1) Definitions. The following definitions are applicable for purposes of this rule:

(A) "Direction change labels" – Indicator labels that notify long-term care facility personnel that a change in directions for medication has taken place;

(B) "Emergency medication" – Medication that may be required to meet the immediate therapeutic needs of patients and that may not be available from any other authorized source in sufficient time to prevent risk of patient harm;

(C) "Long-term care facility" (LTCF) – A nursing home, retirement care, mental care, government penal or correctional facility, or other facility or institution which provides extended health care to resident patients; and

(D) "Prescription drug order" – An order for medication or a device originating from a LTCF that is –

1. Initiated by a prescriber and entered into the patient's medical record by the prescriber or qualified personnel for the purpose of initiating or renewing an order for the medication or device; and

2. Provided or administered to the patient by a health care practitioner or authorized LTCF staff/personnel.

(2) Licensure. A Class C: Long-Term Care pharmacy permit is required for a pharmacy as defined by Chapter 338, RSMo, that contracts, agrees, or has an arrangement to provide medication services to residents of a LTCF or that dispenses medication to or for the use of LTCF residents. A Class C permit is not required to dispense medication on a one- (1-) time basis for an existing pharmacy patient who has become a resident of a LTCF or for a pharmacy providing initial dispensing for a Class C pharmacy as described in subsection (6)(C) of this rule.

(3) Medication Services. Medication and drug-related devices must be properly and accurately prepared, packaged, dispensed, distributed, and labeled under clean and, when required, aseptic conditions.

(A) Class C: Long-Term Care pharmacies shall maintain current and written or electronic policies and procedures governing the pharmacy services provided. Policies and

procedures shall address all packaging and dispensing responsibilities of the pharmacist/pharmacy for residents of a LTCF and shall include, at a minimum –

1. Methods used to dispense medications in a timely fashion to the LTCF;

2. Proper notification to the LTCF when a medication is not readily available;

3. Proper labeling requirements to meet the needs of the LTCF that are consistent with state and federal laws;

5. Discontinuing or deactivating prescriptions/prescription drug orders to ensure prescriptions/prescription drug orders are not continued inappropriately.

(B) Container labeling must comply with Chapter 338, RSMo. If a label change is required to reflect a change in directions, the pharmacist personally shall affix the correct label to the container. However, direction change labels may be used and affixed to the container by nursing home personnel/staff in a way as not to deface the original label. Unit dose packages for long-term care residents may comply with section 338.059, RSMo, if the drug name and strength, lot number, expiration date, and manufacturer's name or the National Drug Code appear on the package itself. The patient's name and directions do not have to appear directly on the unit dose container if a mechanism exists to identify for the personnel/staff administering or delivering the medication what medication(s) each patient is to receive and the directions for administration.

(C) All medication containers including, but not limited to, single unit, unit dose, and unit-of-use containers utilized for distribution within a LTCF shall meet minimum requirements as referenced by the United States Pharmacopoeia-NF (2026) (USP-NF), which is incorporated by reference as published by the United States Pharmacopeial Convention and available at 12601 Twinbrook Parkway, Rockville, MD 20852. This rule does not incorporate any subsequent amendments or additions to the USP-NF. In the event of a conflict between USP-NF and Missouri law or board rules, Missouri law and board rules shall control. Where applicable, light-sensitive packaging shall be used. Patient med paks prepared for a specific patient comprising one (1) or more containers and containing two (2) or more prescribed solid oral dosage forms must comply with 20 CSR 2220-2.145. (E) Class C pharmacies must comply with all applicable state/federal controlled substance laws.

[(3)](4) Any drug[,] repackaged or prepacked that is dispensed into a [long-term care facility] LTCF, as defined in section (1) of this rule, in other than the manufacturer's original container, shall bear the manufacturer's expiration date or twelve (12) months, whichever is less (e.g., mm/dd/yy).

[(4) Remote dispensing systems are defined as any system of an automated or manual design that is used to provide doses of medication to patients for the immediate administration by authorized health care personnel and is not licensed under Chapter 338, RSMo as a pharmacy. Any medication obtained in excessive amounts shall constitute the practice of pharmacy

and will require adherence to all applicable licensure and drug laws.

(A) If personnel other than a pharmacist restocks a remote dispensing system, then any drugs or other items that are to be placed within a remote dispensing system must be checked and approved by a licensed pharmacist.

(B) Any products that are repackaged for use in a remote dispensing system must comply with all provisions of 4 CSR 220-2.130.

(C) Appropriate security must be maintained over any remote dispensing system and there must be policies and procedures utilized in the delivery and storage of drugs and devices that deter misuse or theft.

(5) A prescription drug order is defined for the purpose of this rule as an order originating from a long-term care facility that is initiated by a prescriber and entered into the patient's medical record by the prescriber or qualified personnel for the purpose of initiating or renewing an order for a medication or device. All prescription drug orders shall comply with 4 CSR 220-2.018.

(A) A prescription drug order may be transferred to a licensed pharmacy for the purpose of providing an order to prepare, compound or dispense a medication or for the purpose of providing drug or medical information for use by the pharmacist in providing patient care services.

(B) In order for a generic substitution as defined in section 338.056, RSMo to take place, a prescription drug order must either comply with the prescription form as defined in section 338.056.2(1), RSMo, or provide an alternate method for documenting whether a generic substitution has been authorized as determined by the long-term care medical staff. When a generic substitution is authorized and is executed by the pharmacist a clear documentation must be completed in accordance with 4 CSR 220-2.018(1)(H) and 4 CSR 220-2.080(2)(M).

(C) A pharmacy may elect to maintain a separate file system for prescription drug orders that are dispensed. When a separate file is utilized, it must comply with all applicable laws governing the maintenance and use of a prescription file by a pharmacy and the numbering system used to number prescription drug orders must be distinct from any other prescription file that is maintained.

(D) Packaging and labeling of containers shall comply with all applicable state and federal laws for any medications that leave the facility or are provided to the patient by the pharmacy for use outside the facility. Pre-prescription drug orders issued for use within the long-term care facility are not valid for refill outside the facility.]

(5) Automated dispensing systems used for continued medication therapy must comply with all applicable provisions of 20 CSR 2220-2.900 (Class N: Health Care Facility Automated Dispensing Systems).

(6) For purposes of this rule, prescriptions and prescription drug orders must comply with 20 CSR 2220-2.018 and applicable controlled substance laws.

(A) Unless otherwise required for controlled substances or designated by the prescriber, the quantity prescribed and number of refills are not required for prescription drug orders for dispensing/administration to a resident of an Assisted Living Facility, Intermediate Care Facility, or Skilled Nursing Facility licensed by the Missouri Department of Health and Senior Services (DHSS) or a Residential Care Facility licensed by DHSS that is required to have a nursing home administrator licensed pursuant

to Chapter 334, RSMo, by the Missouri Board of Nursing Home Administrators and where supervision of health care services is required by Missouri law to be under the direction of a licensed physician.

(B) Prescription drug orders issued for use within a LTCF are not valid for refill outside the facility.

(C) A Class C: Long-Term Care pharmacy may transfer a noncontrolled prescription/prescription drug order to a second pharmacy for the purpose of the initial dispensing of up to a seventy-two- (72-) hour medication supply to a LTCF patient without voiding the remaining prescription/prescription drug order. If applicable, the transferring pharmacy must deduct this amount from the remaining prescription/prescription drug order but is not required to void it. A Class J: Shared Services permit is not required for pharmacies that have an arrangement to only provide initial dispensing services for a Class C pharmacy, as allowed under this section and 20 CSR 2220-2.120(4).

(D) Generic drug or interchangeable biological product substitution must comply with section 338.056, RSMo, and 20 CSR 2220-3.011. Any change or alteration made to a prescription/prescription drug order based on contact with the prescriber must be documented in the prescription/prescription drug order record, including but not limited to a change in quantity, directions, number of refills, or authority to substitute a drug.

(E) Prescriptions/prescription drug orders shall not be filled or refilled after one (1) year from the date issued by the prescriber, except as otherwise provided in this rule. Unless otherwise prohibited by law or restricted by the prescriber, a prescription drug order for a resident of an Assisted Living Facility, Intermediate Care Facility, Residential Care Facility, or Skilled Nursing Facility referenced in subsection (6)(A) of this rule may be filled or refilled until discontinued or deactivated, provided the pharmacy has a written and current policy/procedure for –

1. Handling, deactivating, and discontinuing prescription drug orders;

2. Conducting drug utilization reviews as required by 20 CSR 2220-2.195 to review therapeutic appropriateness for ongoing therapy; and

3. Communicating with the prescriber or the prescriber's authorized designee as needed to discuss patient care/ongoing therapy.

(F) Prescriptions/prescription drug orders must be readily retrievable at the request of the board or the board's authorized designee. A pharmacy may elect to maintain a separate file system for prescriptions/prescription drug orders for LTCF patients. The separate file system must comply with all applicable laws governing the maintenance and use of a prescription file by a pharmacy and the numbering system or unique identifier used to identify prescriptions/prescription drug orders must be distinct from any other prescription file that is maintained.

(7) Emergency Kits. Class C: Long-Term Care pharmacies may store an emergency kit (E-Kit) at an LTCF to stock emergency medication for retrieval by a healthcare provider or authorized LTCF personnel/staff for administration or delivery to a long-term care resident in the event of an emergency, if health care supervision at the LTCF is under the direction of a licensed physician. Controlled substances maintained in an E-Kit must comply with applicable state and federal controlled substance laws.

(A) E-Kits must be stored in a secured area at the LTCF to

prevent unauthorized access to stored medication. Drugs must be properly stored and maintained to ensure storage within proper temperature and humidity requirements, as provided in the Food and Drug Administration approved drug product labeling or the United States Pharmacopeia (USP). No expired, adulterated, or misbranded drug/drug product may be stored in an E-Kit.

(B) Medication stored in an E-Kit must be properly labeled in accordance with state and federal law. Additionally, the exterior of the E-Kit must be clearly labeled or otherwise marked to identify that it is an emergency medication kit for use in emergencies only.

6. Reviewing and monitoring E-Kit use to ensure appropriate medication removal and compliance with this rule and applicable state/federal law.

(D) Except as otherwise provided by law or for controlled substances, medication stored in an E-Kit shall be considered under the control and ownership of the Class C pharmacy supplying the E-Kit. A current list of E-Kit contents must be readily available to LTCF staff or authorized personnel/staff. Additionally, a current list of E-Kit contents must be readily available on inspection or produced within two (2) hours of a request from the board or the board's authorized designee, that includes the name, quantity, dosage form, and strength of medication stored in the E-Kit.

(E) Only authorized individuals designated in the Class C pharmacy's written policies/procedures may obtain medication from the E-Kit, as authorized by law.

(F) If authorized by a pharmacist, an E-Kit may be stocked or restocked by a Missouri registered pharmacy technician or licensed intern pharmacist, provided the medication has been prepared and verified by a pharmacist on behalf of the Class C pharmacy. [(6)](8) Nothing in this rule shall be deemed to constitute a waiver or abrogation of any of the provisions of Chapter 338,

RSMo, or other applicable provisions of state and federal laws and rules, nor should this rule be construed as authorizing or permitting any person not licensed as a pharmacist to engage in the practice of pharmacy.

[(7)](9) The provisions of this rule are declared severable. If any portion of this rule is held invalid by a court of competent jurisdiction, the remaining provisions of this rule shall remain in full force and effect unless otherwise determined by the court.

TITLE 13 – DEPARTMENT OF SOCIAL SERVICES
Division 70 – MO HealthNet Division
Chapter 45 – Hearing Aid Program

ORDER OF RULEMAKING

By the authority vested in the Department of Social Services, MO HealthNet Division, under sections 208.201 and 660.017, RSMo 2016, and sections 208.152 and 208.153, RSMo Supp. 2026, the division amends a rule as follows:

13 CSR 70-45.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on May 15, 2026 (51 MoReg 640-642). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Social Services, MO HealthNet Division (MHD), received eight (8) comments on the proposed amendment.

COMMENT #1: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Update the Hearing Aid Manual to Reflect Current Practice. “The current MO HealthNet Hearing Aid Manual does not appear to have been comprehensively updated since enactment of the hearing aid coverage expansion and, in several areas, does not align with current audiology practice. Providers frequently receive the response that coverage decisions are based solely on existing manual language, even where that language may be outdated. We recommend a comprehensive review and update of the manual, with an associated public comment process, in consultation with practicing audiologists and hearing healthcare providers.”

RESPONSE: The Hearing Aid Manual was reviewed and updated when the new legislation was put in place. The new version was posted online December 23, 2025. Prior to posting, the manual went through internal and external stakeholder reviews and stakeholders were given the opportunity to comment. MHD routinely updates the Hearing Aid Manual as changes are made to the program. No change to the regulation is required for this comment.

COMMENT #2: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Accept Signatures from Nurse Practitioners and Physician Assistants.

“Many participants receive their primary healthcare from nurse practitioners or physician assistants rather than physicians. Requiring signatures exclusively from MDs or DOs has created substantial delays and, in some cases, prevented participants from completing the authorization process. MO HealthNet should accept documentation and medical clearance from licensed nurse practitioners and physician assistants acting within their scope of practice.”

RESPONSE AND EXPLANATION OF CHANGE: MHD has updated section (6) to add nurse practitioners and physician assistants acting within their scope of practice language. The revised language does not affect the fiscal impact of the amendment.

COMMENT #3: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Reconsider the Six-Month Medical Clearance Requirement. “Current policy requires a physician visit within six (6) months of hearing aid dispensing. Many participants, particularly adults with stable health conditions, routinely see their primary care provider only once annually. This requirement

creates unnecessary delays, additional costs, and extra appointments without a clear clinical benefit. Consider extending the timeframe or eliminating the requirement for adults unless clinically indicated.”

RESPONSE: Hearing loss can result from several conditions and diseases for which a hearing aid may not be appropriate. Requiring a physician exam within six (6) months ensures that all medically treatable conditions that may affect hearing are accurately identified and properly treated before a hearing aid is dispensed. In addition, the requirement ensures Hearing Aid Program funds are being used appropriately. No change to the regulation is required for this comment.

COMMENT #4: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Align Coverage Requirements with Audiology Scope of Practice and Statutory Intent.

“Missouri licensed audiologists are qualified to evaluate hearing loss and prescribe hearing aids. The legislation authorizing hearing aid coverage specifically references hearing aids prescribed by an audiologist. Requiring routine physician medical clearance for adult hearing aid candidates appears inconsistent with both modern clinical practice and the statutory framework. This requirement is not generally imposed by Medicare, commercial insurance plans, or other payers. We encourage MO HealthNet to allow audiologist prescriptions to serve as the primary basis for hearing aid authorization except where medical concerns warrant physician involvement.”

RESPONSE: MO HealthNet requires the medical clearance requirement from a physician to ensure all medically treatable conditions that may affect hearing are accurately identified and properly treated before a hearing aid is dispensed. No change to the regulation is required for this comment.

COMMENT #5: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Clarify and Revise Binaural Hearing Aid Coverage Criteria.

“We have submitted 125 requests for binaural hearing aids and received approval in only three cases, all involving participants who were blind. An ENT signed off on twenty-one percent (21%) of the requests specifically recommending binaural hearing aids in the recommendations. (Per MHN manual that should have been enough). In many cases, physician specialists, including otolaryngologists, specifically recommended binaural amplification. Current approval patterns do not appear consistent with accepted standards of care for bilateral hearing loss. We request clarification of coverage criteria and alignment with evidence based clinical practice.”

RESPONSE: Section 2.11 of the Hearing Aid Manual states MHD pays for a second hearing aid only when special justification is documented for binaural aids, such as for educational purposes and language learning for participants under age twenty-one (21) and legally blind individuals. Any hearing aid for the purpose of binaural amplification for participants age twenty-one (21) and older is a covered service only in cases of blindness. No change to the regulation is required for this comment.

COMMENT #6: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Clarify Coverage for BiCROS and Bone-Conduction Devices.

“MO HealthNet has denied requests for BiCROS and bone-conduction hearing devices despite these devices appearing on applicable fee schedules. Appeals have also been denied. Clear guidance should be provided regarding coverage

criteria for these medically appropriate technologies to avoid confusion among providers and participants.”

RESPONSE: It is not clear if this comment is in regard to managed care participants or fee-for-service participants. MO HealthNet needs additional information regarding these cases and the procedure codes in question to further review what may be needed to provide clarification. No change to the regulation is required for this comment.

COMMENT #7: Cathy Brown, Chief Advocacy Officer, Easterseals Midwest, commented –

Evaluate Reimbursement Rates to Ensure Sustainable Provider Participation.

“Expanding coverage is only meaningful if beneficiaries have access to providers willing and able to furnish services. We encourage the department to evaluate reimbursement rates for hearing aids and related services to ensure they adequately cover both the cost of devices and the professional services required to evaluate, fit, program, verify, counsel, and provide ongoing follow-up care to participants. Hearing aid services involve substantially more than the device itself. Providers incur costs associated with comprehensive audiologic evaluations, hearing aid selection, fitting, programming, verification, follow-up visits, troubleshooting, repairs, warranty administration, and ongoing patient support. Reimbursement that does not adequately account for these costs may discourage provider participation, limit geographic access, and undermine the goals of the coverage expansion. We encourage MO HealthNet to regularly assess provider participation, beneficiary access, claim payment experience, and reimbursement adequacy to ensure that hearing aid coverage is both available and practically accessible to eligible Missourians. Expanding eligibility is an important step forward. However, our experience since implementation demonstrates that significant administrative and coverage barriers remain. We encourage the department to address these issues through updates to the Hearing Aid Manual and related policies so that eligible Missourians can obtain medically necessary hearing aids and related services without unnecessary delay.”

RESPONSE: Reimbursement rates are subject to legislative appropriations and are dependent upon the availability of funds. Rates may be adjusted as funding changes. No change to the regulation is required for this comment.

COMMENT #8: Julie Pettigrew, MHD, commented –

Accept Hearing Evaluations from Nurse Practitioners and Physician Assistants.

“Many participants receive their primary healthcare from nurse practitioners or physician assistants rather than physicians. Requiring hearing evaluations from MDs or DOs can create barriers for participants in receiving a hearing aid. MO HealthNet should allow nurse practitioners and physician assistants acting within their scope of practice to provide hearing evaluations for the purpose of obtaining a hearing aid.”

RESPONSE AND EXPLANATION OF CHANGE: MHD has updated section (4) to add nurse practitioners and physician assistants acting within their scope of practice language. The revised language does not affect the fiscal impact of the amendment.

13 CSR 70-45.010 Hearing Aid Program

(4) Hearing Evaluation Requirements. A hearing evaluation for the purpose of obtaining a hearing aid must be performed by an audiologist, hearing instrument specialist, physician (a duly licensed Doctor of Medicine (MD) or Doctor of Osteopathy (DO)

licensed in accordance with the licensing provisions of the state in which s/he practices), or nurse practitioner or physician assistant acting within their scope of practice, of which all must have a current MO HealthNet participation agreement and provider number, prior to the submission of a Prior Authorization Request form. This testing, when administered for the purpose of prescribing a hearing aid, will be reimbursed by the MO HealthNet Program. Testing performed in relation to a medical or surgical diagnosis or treatment for hearing deficits or related medical problems for purposes other than determining the need for a hearing aid is a noncovered service and is not reimbursable by the MO HealthNet Hearing Aid Program. The hearing evaluation performed for the purpose of obtaining a hearing aid must include, at a minimum, air conduction thresholds, bone conduction thresholds (with masking when necessary), speech reception thresholds, and speech discrimination scores. The results obtained from these basic hearing tests must be clear and internally consistent, and must demonstrate that a hearing aid is needed, that it will benefit the participant and will support the recommendation of which ear is to be fitted. Testing must be provided in accordance with sound professional practice and the standards under which the provider is licensed.

(6) Medical Ear Examination Requirements. The participant must receive a medical ear examination for pathology or disease by a physician, or nurse practitioner or physician assistant acting within their scope of practice. The medical ear examination must be performed within six (6) months prior to the date a hearing aid is dispensed.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.4-412(e), RSMo Supp. 2026, and 409.6-605, RSMo 2016, the division amends a rule as follows:

15 CSR 30-51.030 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 1, 2026 (51 MoReg 804–805). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received two (2) written comments on the proposed amendment.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment in favor of the automatic exam waiver for an individual who holds the Certified Financial Planner (CFP) professional designation, the Chartered Financial Analyst (CFA) professional designation, or both.

RESPONSE: The division agrees with Mr. Osborne and no changes have been made to the amendment as a result of this comment.

COMMENT #2: Gail C. Bernstein, on behalf of the Investment Adviser Association (IAA), submitted a written comment explaining that the Investment Council Association of America, Inc., is now the Investment Adviser Association (IAA) and that the Chartered Investment Counselor (CIC) professional designation was discontinued as of January 1, 2025, and is no longer valid. Therefore, the IAA requests that the reference to the CIC professional designation be removed from the rule.

RESPONSE AND EXPLANATION OF CHANGE: The division agrees with the IAA that a reference to a discontinued professional designation is unnecessary for an administrative rule that lists certain professional designations as eligible for a waiver of the examination requirement. The division agrees to change subsection (4)(A) by removing the CIC professional designation from the list in the rule.

15 CSR 30-51.030 Examination Requirement

(4) Waiver of Examination Requirement for Investment Adviser Representatives.

(A) Automatic Waiver for Specified Professional Designations. The examination requirement set out in 15 CSR 30-51.030(2)(C) is waived if the applicant for investment adviser representative currently holds one (1) of the following professional designations:

1. Certified Financial Planner (CFP) awarded by Certified Financial Planner Board of Standards, Inc.;
2. Chartered Financial Consultant (ChFC) awarded by the American College, Bryn Mawr, Pennsylvania;
3. Personal Financial Specialist (PFS) awarded by the American Institute of Certified Public Accountants;
4. Chartered Financial Analyst (CFA) awarded by the Institute of Chartered Financial Analysts;
5. Certified Investment Management Consultant (CIMC) awarded by the Institute for Certified Investment Management Consultants; or
6. Such other professional designation as the commissioner may by order recognize.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.4-411(b) and 409.6-605, RSMo 2016, the division amends a rule as follows:

15 CSR 30-51.040 Financial Statements is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 1, 2026 (51 MoReg 805–806). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received two (2) written comments from two (2) individuals on the proposed amendment.

COMMENT #1: Robert Keenan, on behalf of St. Bernard Financial

Services, Inc., submitted a written comment disputing the statement that the cost of the rule to private entities will be less than \$500.

RESPONSE: The division believes that the proposed amendment clarifies the content of the required financial statements and authorizes more options for producing a financial statement. One such option is substantially similar to the currently required verified financial statement with the additional requirement that the balance sheet be accompanied by an oath or affirmation that the information is true and correct. A financial record that is prepared in accordance with generally accepted accounting principles or another accounting basis that is generally accepted, consistently applied, ensures transparency and clarity, and reasonably presents the adviser's or person's financial condition will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

COMMENT #2: Ken Gilpin, on behalf of Sound Investments, Inc., submitted a written comment stating that he is unsure what is meant by the current rule language requiring a verified financial statement but is able, as a small registered investment adviser (RIA), to show current bank statements.

RESPONSE: The division believes that the section of the proposed amendment that applies to RIAs rather than initial applicants for RIA includes financial records that an RIA is already required to maintain under 15 CSR 30-51.140(1)(F). The proposed amendment clarifies how those financial records are to be prepared and attested to. No changes have been made to the amendment as a result of this comment.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF WITHDRAWAL

By the authority vested in the Securities Division under sections 409.4-411(h) and 409.6-605, RSMo 2016, the division withdraws a proposed rule as follows:

15 CSR 30-51.055 Continuing Education Requirement for Certain Investment Adviser Representatives is withdrawn.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on July 1, 2026 (51 MoReg 806–807). This proposed rule is withdrawn.

SUMMARY OF COMMENTS: The Securities Division received two (2) written comments from two (2) individuals on the proposed amendment.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment opposed to the continuing education (CE) requirement for re-entering investment adviser representatives (IARs) as a waste of time.

RESPONSE: The division appreciates the comment and has determined to withdraw the amendment for the reasons described in the response to comment #2; please see that response for more information.

COMMENT #2: Jennifer Lerner, on behalf of the North American Securities Administrators Association (NASAA), submitted a written comment and provided further information via videoconference indicating that the proposed rule would pose difficulties in using the NASAA system's functionalities to track CE requirements and completion and that it would be simpler if the division joined the other states that have adopted NASAA's Investment Adviser Representative Continuing Education (IAR CE) program. NASAA also notes that, while there are apparent similarities between the proposed rule and NASAA's Model Rule, the proposed rule does not require the same content credits required in the Model Rule.

RESPONSE: The division believes that an IAR who has been out of the practice of business within the securities industry for some time needs to ensure the IAR is current on industry requirements before returning to providing investment advisory services to Missouri investors. The proposed rule required such an IAR to learn about and become familiar with the changes in the industry in the years since the IAR last practiced by way of completing CE credits in the first three years after returning to the industry. The proposed rule also allowed a returning IAR to begin conducting business immediately upon return to the industry rather than waiting for several months while the IAR requalifies through the examinations process. After discussing the proposed rule's requirements and the division's intention in requiring the CE credits for returning IARs, the division believes that the aims of the proposed rule can be realized through IAR participation in NASAA's Exam Validity Extension Program (EVEP) and intends to pursue adoption of that program. Since IAR CE credits are an integral part of the EVEP program, the division also intends to pursue adoption of NASAA's IAR CE program within the next two (2) to four (4) years. Adoption of the EVEP and IAR CE programs will allow a returning IAR to begin conducting business immediately upon return to the industry rather than waiting for several months while the IAR requalifies through the examinations process and will address particular ethics and professional responsibility content and IAR products and practice content in the same way that NASAA's Model Rule does. These two rule changes planned for the future will place Missouri within the increasing number of states that have adopted IAR CE requirements and will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. Since the proposed rule has raised issues relating to feasibility of the execution of the rule, the division is withdrawing this rulemaking.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.4-411(a) and 409.6-605, RSMo 2016, the division amends a rule as follows:

15 CSR 30-51.070 Minimum Net Worth Requirements for Investment Advisers is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register*

on July 1, 2026 (51 MoReg 807–810). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received written comments from five (5) individuals on the proposed amendment.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment opposing the amendment in the belief that there is no reason for it.

RESPONSE: The division believes an update to the required minimum amount is necessary for at least two reasons: to provide Missouri investors with protections against registered investment advisers (RIAs) that could be closer to insolvency than is best for participants in the securities industry to be, and to account for the substantial growth in the industry and inflation since the inception of the required minimum amount. The division also believes the proposed amendment lessens the burden on firms in at least two ways: by making the increase gradual over the course of a decade, and by making the final minimum be less than the amount required in most other states and less than the minimum would be if adjusted in conjunction with actual inflation and industry growth. The gradual nature of the increase allows firms ample time to increase the capital necessary to comply with the proposed amendment over the years of implementation. No changes have been made to the amendment as a result of this comment.

COMMENT #2: Michael Piper submitted a written comment indicating his belief that the amendment fails to appropriately address risk to investors based on the RIAs business model and expressing his preference that the division adopt the net worth approach taken by approximately half of states, which requires an RIA to have a minimum net worth of thirty-five thousand dollars (\$35,000) for RIAs with custody of client funds, ten thousand dollars (\$10,000) for RIAs without custody but discretion over client funds, and a positive net worth for RIAs with neither custody nor discretionary authority that accepts prepayments from clients greater than five hundred dollars (\$500).

RESPONSE: The division believes the proposed amendment addresses the risks to Missouri investors by gradually increasing the minimum net worth amount for all RIAs to maintain, since the increased minimum expands the space between an RIA's net worth and insolvency. Please see the response to comment #1 for more information. No changes have been made to the amendment as a result of this comment.

COMMENT #3: Brendon Jenks, on behalf of Wealth Renovators, Inc., submitted a written comment opposing the proposed amendment as a small RIA firm since the increases to net worth minimum would require the firm to maintain more money earned by the firm in various business accounts for purposes of rule compliance, which takes money away from profits used for necessary personal expenses. This could cause the firm to find it impossible to comply with the rule and stay in business.

RESPONSE: The division believes an update to the required minimum amount is necessary for the reasons described in the response to comment #1; please see that response for more information. No changes have been made to the amendment as a result of this comment.

COMMENT #4: Tom Aylmer, on behalf of Cedarmill Financial, submitted a written comment opposing the proposed amendment, indicating his belief that the net worth rule is unnecessary for firms that do not have custody of client assets and that the securities industry is moving away from RIAs having custody of client assets toward a focus on consultation. A twenty-thousand-dollar (\$20,000) minimum may prevent small RIA firms from entering the business and would likely cause Mr. Aylmer to leave the business. Mr. Aylmer also suggested making the net worth requirement contingent on having assets under management.

RESPONSE: The division believes an update to the required minimum amount is necessary for the reasons described in the response to comment #1; please see that response for more information. No changes have been made to the amendment as a result of this comment.

COMMENT #5: Roger Rekate, on behalf of Advisor Ink Financial, submitted a written comment stating that, as a smaller RIA, Mr. Rekate appreciates having ten years to transition from the five-thousand-dollar (\$5,000) minimum to the twenty-thousand-dollar (\$20,000) minimum.

RESPONSE: The division appreciates the comment in support of the gradual increase to the minimum net worth requirement in the proposed amendment. No changes have been made to the amendment as a result of this comment.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.4-411(c) and 409.6-605, RSMo 2016, the division adopts a rule as follows:

15 CSR 30-51.155 Business Continuity and Succession Planning for Investment Advisers is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on July 1, 2026 (51 MoReg 811). No changes have been made to the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received a written comment from one (1) individual on the proposed rule.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment opposing the proposed rule on the basis that existing requirements are already sufficient.

RESPONSE: The division believes that the establishment of written continuity and succession planning by all firms is necessary for investor protection since smaller firms are vulnerable to disruptions of service to investors when natural disasters prevent contact with clients, investment advisers fall ill or suffer death, or other disruptions to service to investors occur. Protecting Missouri investors is a primary responsibility of the division; requiring firms to establish continuity and succession planning will protect investors by assuring

them that their investment adviser is prepared to have immediate assistance in continuing service to the investor if the investment adviser is unable to continue providing service. Additionally, since establishing written continuity and succession plans aligns with best practices nationally, resources to assist investment advisers in establishing such plans are widely available. No changes have been made to the amendment as a result of this comment.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.4-406, 409.4-408, 409.4-409, 409.4-411(b), and 409.6-605, RSMo 2016, the division amends a rule as follows:

15 CSR 30-51.160 Effectiveness and Post-Effective Requirements is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 1, 2026 (51 MoReg 811–812). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received a written comment from one (1) individual on the proposed amendment.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment opposing the proposed rule on the basis that existing requirements are already sufficient.

RESPONSE: The division believes that an investment adviser representative who has not provided investment advisory services to any client for six (6) consecutive years has ceased to act as an investment adviser representative. The division must still regulate such individuals by conducting costly examinations to evaluate their compliance with securities law and regulations. Terminating the registration of such individuals allows the division to allocate resources to regulating individuals who are actually providing services to Missouri investors, which will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

TITLE 15 – ELECTED OFFICIALS

Division 30 – Secretary of State

Chapter 51 – Broker-Dealers, Agents, Investment Advisers, and Investment Adviser Representatives

ORDER OF RULEMAKING

By the authority vested in the Securities Division under section 409.6-605, RSMo 2016, the division amends a rule as follows:

15 CSR 30-51.172 Dishonest or Unethical Business Practices by Investment Advisers and Investment Adviser Representatives is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 1, 2026 (51 MoReg 812). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received written comments from seven (7) individuals on the proposed amendment. Three (3) of the comments offered a short opinion on the proposed amendment. The remaining comments proposed additional language be added to the proposed amendment to allow an investment adviser (IA) or investment adviser representative (IAR) to use forms of third-party technology that allow an IA or IAR to access accounts holding a client's "held-away" assets.

COMMENT #1: Holmes Osborne, on behalf of Osborne Global Investors, submitted a written comment opposing the proposed amendment on the basis that existing requirements are already sufficient.

RESPONSE: The division believes that a system that allows someone other than a Missouri investor to gain access to the investor's accounts presents several regulatory issues related to account security, potential violations of user agreements between customers and providers, custody of funds, and recordkeeping. Implementing a rule that prohibits an IA or IAR from using technology to go beyond merely reviewing client information into managing, trading, or rebalancing an investor's "held-away" assets or altering information in the investor's account will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

COMMENT #2: Michael Piper submitted a written comment stating he would like to see guidance on how the amendment will be applied under various circumstances, but did not advocate for or against the proposed amendment.

RESPONSE: The division appreciates the comment suggesting guidance for the application of the proposed amendment. No changes have been made to the amendment as a result of this comment.

COMMENT #3: Geoffrey Valentino, on behalf of Stifel, Nicholas & Company, Incorporated, submitted a written comment expressing concerns that the proposed amendment creates uncertainty about use of client-authorized methods of accessing client account information or implementing investment instructions and suggesting that the amendment "balance investor choice, access to investment advice, and strong cybersecurity safeguards."

RESPONSE: The division appreciates the comment expressing concerns about the implementation of the proposed amendment and the effect on an IA's or IAR's interaction with client accounts and investments. The division shares the goal of facilitating good relationships between Missouri investors and their IAs or IARs and is committed to ensuring that an investor's personal identifying information and investment accounts are protected from actual and potential unauthorized access and use. No changes have been made to

the amendment as a result of this comment.

COMMENT #4: Jackson Hataway, on behalf of the Missouri Bankers Association, submitted a written comment expressing concerns with the breadth of the proposed amendment that prohibits a current practice of client-authorized access by an IAR to client accounts. The comment also provided suggestions for adding language to the proposed amendment to allow for client authorization of access to the client's accounts for specified limited purposes, with such access to be recorded by the IAR. The comment also mentions other access and security issues to consider related to account access, custody of client funds, agreements between a client and the custodian of the client's account, multi-factor authorization and credential sharing methods of accessing a client account, and records of accessing a client's account.

RESPONSE: The division appreciates the comment expressing concerns about the breadth of the proposed amendment and the effect on client-authorized access to client accounts by an investment adviser. The division shares the goal of facilitating good relationships between Missouri investors and their IAs or IARs and is committed to ensuring that an investor's personal identifying information and investment accounts are protected from actual and potential unauthorized access and use. No changes have been made to the amendment as a result of this comment.

COMMENT #5: Steven Boms, on behalf of Financial Data and Technology Association of North America (FDATA), submitted a written comment expressing concern that the proposed amendment may remove the ability of an IA or IAR to use some third-party technological choices for managing client investor accounts that are currently available to the industry and investors by prohibiting access to a client investor's account even with the client investor's permission. Such an amendment would fail to protect Missouri investors by depriving a client investor's adviser of the ability to "review and manage" some client assets unless those assets are held by custodians that also provide secure, client-authorized access to the advisers. Additionally, federal laws and policies point toward providing an expansion of access to investments to assist Americans in increasing their retirements accounts, which includes providing an IA or IAR with access to their accounts. Moving in the opposite direction by means of the proposed amendment would decrease access to tools used and advice given by an IA or IAR. As a result, FDATA requests the division to add language to the proposed amendment to ensure that the amendment does not apply to an IA or IAR who uses third-party technology that has been authorized by the client investor as long as the client investor has authorized account access for the IA or IAR and the IA or IAR does not use or retain the client investor's identifying information.

RESPONSE: The division appreciates the comment expressing concerns about the possible removal of an IA's or IAR's ability to use some third-party technological choices for managing investor accounts and the effect on client-authorized access to client accounts by the removal of such access. The division shares the goal of facilitating good relationships between Missouri investors and their IAs or IARs and is committed to ensuring that an investor's personal identifying information and investment accounts are protected from actual and potential unauthorized access and use. The division believes that a system that allows an IA or an IAR to have access to a Missouri investor's held-away accounts without the approval of the account custodian presents several regulatory issues related to account security, potential violations of user agreements

between customers and providers, custody of funds, and recordkeeping. Implementing a rule that prohibits an IA or IAR from using technology to go beyond merely reviewing client information into managing, trading, or rebalancing an investor's held-away assets or altering information in the investor's account will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

COMMENT #6: Penny Lee, on behalf of Financial Technology Association (FTA), submitted a written comment expressing concerns that the proposed amendment creates the unintended consequences of imposing unnecessary burdens on the industry and adversely affecting investors by removing the ability of an IA or IAR to use some third-party technological choices that are currently available to the industry and investors for managing investor accounts. FTA also believes the proposed amendment would harm the ability of a small business to compete against larger financial institutions by taking away technological tools that assist with that competition and indicates that the proposed amendment departs from the North American Securities Administrators Association (NASAA) Model Rule. Additionally, federal laws and policies point toward providing an expansion of access to investments to assist Americans in increasing their retirements accounts, which includes providing an IA or IAR with access to their accounts. Moving in the opposite direction by means of the proposed amendment would decrease access to tools used and advice given by an IA or IAR. As a result, FTA requests the division to add language to the proposed amendment to ensure that the amendment does not apply to an IA or IAR who uses third-party technology that has been authorized by the client as long as the access is read-only and the IA or IAR does not use the client's credentials.

RESPONSE: The division appreciates the comment expressing concerns about the possible removal of an IA's or IAR's ability to use some third-party technological choices for managing investor accounts and the effect on client-authorized access to client accounts by the removal of such access. The division shares the goal of facilitating good relationships between Missouri investors and their IAs or IARs and is committed to ensuring that an investor's personal identifying information and investment accounts are protected from actual and potential unauthorized access and use. The division believes that a system that allows an IA or an IAR to have access to a Missouri investor's held-away accounts without the approval of the account custodian presents several regulatory issues related to account security, potential violations of user agreements between customers and providers, custody of funds, and recordkeeping. Implementing a rule that prohibits an IA or IAR from using technology to go beyond merely reviewing client information into managing, trading, or rebalancing an investor's held-away assets or altering information in the investor's account will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

COMMENT #7: Kajal Patel, on behalf of Pontera, submitted a written comment describing its nature as a provider of technological means for IAs and IARs to "review client information and communicate their rebalancing recommendations to recordkeepers" of client accounts. The comment focused on

Pontera's belief that the proposed amendment could result in the unintended consequences of eliminating a secure method of managing investor accounts, increasing burdens on IAs, IARs, and investors, and lowering investor choices and competition within the industry. Additionally, federal and state laws and policies point toward the use of technology within the industry to facilitate greater investor access to the financial market, which includes providing an IA or IAR with access to their accounts. Moving in the opposite direction by means of the proposed amendment would decrease access to tools used and advice given by an IA or IAR. As a result, Pontera proposes adding language to the proposed amendment that will preserve the division's goal of protecting Missouri investors while allowing investors to authorize an IA or IAR to use a third-party technology platform to access client accounts. Pontera also requests the division to add language to the proposed amendment to ensure that the rule does not apply to IAs and IARs who use third-party technology that has been authorized by the client as long as the client investor has authorized account access for the IA or IAR, the client's credentials are encrypted, and the IA or IAR does not use or retain the client investor's identifying information.

RESPONSE: The division appreciates the comment expressing concerns about the possible unintended consequences the removal of an IA's or IAR's ability to use some third-party technological choices for managing investor accounts would have on Missouri investors and the industry. The division shares the goal of facilitating good relationships between Missouri investors and their IAs or IARs and is committed to ensuring that an investor's personal identifying information and investment accounts are protected from actual and potential unauthorized access and use. The division believes that a system that allows an IA or an IAR to have access to a Missouri investor's held-away accounts without the approval of the account custodian for the purpose of making changes to investments in those accounts presents several regulatory issues related to account security, potential violations of user agreements between customers and providers, custody of funds, and recordkeeping. Implementing a rule that prohibits an IA or IAR from using technology to go beyond merely reviewing client information into managing or rebalancing an investor's held-away assets will greatly assist the division in fulfilling its responsibility of protecting Missouri investors through quality regulation of participants in the securities industry. No changes have been made to the amendment as a result of this comment.

TITLE 15 – ELECTED OFFICIALS
Division 30 – Secretary of State
Chapter 52 – Registration of Securities

ORDER OF RULEMAKING

By the authority vested in the Securities Division under sections 409.3-303, 409.3-304, 409.3-305, 409.3-306, 409.3-307, 409.5-501, 409.6-605, and 409.6-608, RSMo 2016, the division amends a rule as follows:

15 CSR 30-52.030 NASAA Statements of Policy is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 1, 2026 (51 MoReg 812–813). No changes have been made to the text of the proposed amendment, so it is not reprinted

here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Securities Division received written comment from five (5) individuals on the proposed amendment. All five (5) comments opposed the proposed amendment, with four (4) of the five (5) advocating for an additional change to the proposed amendment because the existing concentration limits (the limit of no more than ten percent (10%) of an investor's liquid net worth being invested in securities such as direct participation programs (DPPs)) fail to include an exception to those limits for an accredited investor as defined in Rule 501(a) of the Securities and Exchange Commission's Regulation D (17 CFR 230.501(a)). Commenters included Holmes Osborne on behalf of Osborne Global Investors; Anya Coverman on behalf of the Institute for Portfolio Alternatives (IPA); Kim Chamberlain on behalf of the Securities Industry and Financial Markets Association (SIFMA); Mark Quinn on behalf of the Cetera Financial Group, Inc. (Cetera); and Andrew M. Hartnett on behalf of the Financial Services Institute (FSI).

COMMENT #1: The division received one written comment opposing the proposed amendment on the basis that existing requirements are already sufficient.

RESPONSE: The division believes that the existing gross income and net worth requirements need updating in terms of both inflation and similar requirements in other states. No changes have been made to the amendment as a result of this comment.

COMMENT #2: The division received four (4) written comments generally opposing the existing provision of the current rule imposing the ten percent (10%) concentration limits in paragraph (3)(A)3, because the proposed amendment contains no exemption for accredited investors. Commenters expressed their opinions that the exemption should be included in the amendment because the lack of uniformity of national investor suitability standards that arises when various states impose different standards creates difficulties for investment advisers in complying with different state standards for the same product; federal protections provide Missouri investors with protections when participating in DPP offerings; and the state would still be able to protect Missouri investors through other federal and state securities laws and regulations if investment advisers fail to fulfill their obligations under the law and a Missouri investor is harmed by such failure. Also, the division should defer action on DPP investor suitability thresholds until the SEC completes its action on its proposal to preempt state regulation of public offerings of unlisted securities.

RESPONSE: The division appreciates the comments about the proposed amendment. One of the division's primary goals is the protection of Missouri investors. The concentration limits provision exists to provide protection for investors who may not adequately comprehend the complexity, levels of substantially heightened risk, and lack of liquidity inherent with DPP offerings. Also, recent federal legislation and regulatory proposals indicate that the growing intention of the federal government seems to be in the direction of removing obstacles to broader access to capital markets. Although the division recognizes and supports the benefits to investors and the industry that come with broader access to capital markets, the division continues to believe that some obstacles to capital markets are helpful tools for protecting investors before the potential loss of money in riskier investments. Not every individual with a large net worth is a knowledgeable or sophisticated investor. An individual with

no knowledge, skills, experience, or expertise in securities or any investment vehicles at all who, on a whim, purchases a lottery ticket and wins the jackpot now has the requisite individual net worth to be deemed an "accredited investor" under Rule 501(d) of Regulation D. This individual also may be a potential investor who would find DPP offerings highly desirable because of their potential but likely has little or no comprehension of the issues with such offerings mentioned before (among other potential issues). The mere fact of having enough money to meet the mere definition of "accredited investor" does not automatically confer any knowledge of or experience with securities or other investments upon any individual. The division believes its responsibility to protect investors as they seek to manage funds and accumulate assets for their immediate and retirement needs is as worthy a pursuit as increasing access to capital markets, and the division is committed to using whatever methods are at its disposal to provide that protection. The current rule imposing the ten percent (10%) concentration limits is one method of such protection for vulnerable investors; therefore, neither an exemption for an accredited investor nor a change to that percentage was contemplated in the context of changes to other net worth requirements in the rule. The division declines to consider a change to the concentration limits that protect Missouri investors or to include an addition to the rule that would weaken that protection; as such, no changes have been made to the amendment as a result of these comments.

The commission received two (2) written comments in support of the amendment and one (1) verbal comment at the hearing suggesting support for the amendment.

COMMENT #1: J. Scott Stacey on behalf of the staff of the commission filed written comments and commented at the hearing in support of the proposed amendment. Staff noted that federal law requires the state of Missouri to take measures to adopt each applicable safety standard in order to continue to receive federal funding and federal certification for enforcement of state goals set by the Pipeline and Hazardous Materials Safety Administration (PHMSA).

RESPONSE: The commission thanks its staff for its work updating the gas safety rules. No changes were made as a result of this comment.

**Division 4240 – Public Service Commission
Chapter 40 – Gas Utilities and Gas Safety Standards**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under sections 386.250, 386.310, and 393.140, RSMo 2016, the commission amends a rule as follows:

20 CSR 4240-40.030 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 1, 2026 (51 MoReg 699-709). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended June 30, 2026, and the commission held a public hearing on the proposed amendment on July 9, 2026. The commission received two (2) written comments in support of the amendment and one (1) verbal comment at the hearing suggesting amendments due to scrivener's errors.

COMMENT #1: J. Scott Stacey on behalf of the staff of the commission filed written comments and commented at the hearing in support of the proposed amendment with

certain changes. Staff noted that the proposed amendments were intended to update the Missouri regulations to the most current federal regulations. Staff notes that there were scrivener's errors in parts (3)(I)4.B.(III) and (3)(I)4.B.(IV), that should be corrected to be consistent with 49 CFR 192.121(d) (2). Those errors were that where part (3)(I)4.B.(III) refers to "24 inches (24")" it should have said "six inches (6")". Part (3)(I)4.B.(IV) should be corrected so that it refers to subparagraph "B" instead of subparagraph "A."

RESPONSE AND EXPLANATION OF CHANGES: The commission thanks its staff for its work updating the gas safety rules. The commission will make changes to parts (3)(I)4.B.(III) and (3)(I)4.B.(IV) as recommended in order to correct the scrivener's errors and to be consistent with 49 CFR 192.121(d)(2).

COMMENT #2: Jermaine Grubbs on behalf of Union Electric Company d/b/a Ameren Missouri submitted a written comment in support of the proposed changes and particularly supporting the incorporation of PA-11 and PA-12 materials for use in systems that can operate up to 250 psi into 20 CSR 4240-40.030.

RESPONSE: The commission thanks Ameren Missouri for its comment. No changes were made as a result of this comment.

20 CSR 4240-40.030 Safety Standards—Transportation of Gas by Pipeline

(3) Pipe Design.

(I) Design of Plastic Pipe. (192.121)

1. Design Pressure. The design pressure for plastic pipe is determined in accordance with either of the following formulas:

$$P = 2 S \frac{t}{(D-t)} \times DF$$
$$P = \frac{2 S}{(SDR-1)} \times DF$$

where –

P = Design pressure, psi (kPa) gauge;

S = For thermoplastic pipe, the hydrostatic design base (HDB) is determined in accordance with the listed specification at a temperature equal to 73 °F (23 °C), 100 °F (38 °C), 120 °F (49 °C), or 140 °F (60 °C). In the absence of an HDB established at the specified temperature, the HDB of a higher temperature may be used in determining a design pressure rating at the specified temperature by arithmetic interpolation using the procedure in Part D.2. of PPI TR-3, *HDB/PDB/SDB/MRS Policies* (incorporated by reference in 49 CFR 192.7 and adopted in subsection (I)(D));

t = Specified wall thickness, inches (mm);

D = Specified outside diameter, inches (mm);

SDR = Standard dimension ratio, the ratio of the average specified outside diameter to the minimum specified wall thickness, corresponding to a value from a common numbering system that was derived from the American National Standards Institute preferred number series 10; and

DF = Design Factor, a maximum of 0.32 unless otherwise specified for a particular material in this subsection.

2. General Requirements for Plastic Pipe and Components.

A. Except as provided in paragraphs (3)(I)4.-5., the design pressure may not exceed a gauge pressure of 100 psi (689 kPa) gauge for plastic pipe.

B. Plastic pipe may not be used where operating temperatures of the pipe will be –

(I) Below -20 °F (-29 °C), or -40 °F (-40 °C) if all pipe and pipeline components whose operating temperature will be below -20 °F (-29 °C) have a temperature rating by the manufacturer consistent with that operating temperature; or

(II) Above the temperature at which the HDB used in the design formula under this subsection is determined.

C. The wall thickness for thermoplastic pipe may not be less than 0.062 inches (1.57 mm).

D. All plastic pipe must have a listed HDB in accordance with PPI TR-4 (incorporated by reference in 49 CFR 192.7 and adopted in subsection (1)(D)).

3. Polyethylene (PE) Pipe Requirements.

A. The federal regulation at 49 CFR 192.121(c)(1) is not adopted in this rule. (This federal regulation is for PE pipe produced after July 14, 2004, but before January 22, 2019.)

B. For PE pipe produced on or after January 22, 2019, a DF of 0.40 may be used in the design formula, provided –

(I) The design pressure does not exceed 100 psig;

(II) The material designation code is PE2708 or PE4710;

(III) The pipe has a nominal size (IPS or CTS) of twenty-four inches (24") or less; and

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

Division 4240 – Public Service Commission Chapter 125 – Manufactured Home Installers

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under sections 386.250, 386.310, and 700.040, RSMo 2016, the commission amends a rule as follows:

20 CSR 4240-125.040 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 1, 2026 (51 MoReg 714–715). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended June 30, 2026, and the commission held a public hearing on the proposed amendment on July 9, 2026. The commission received thirty (30) written comments from members of the Manufactured Housing Association that were supportive of most of the proposed amendments but were in opposition to two of the proposed amendments. The commission also received one (1) comment at the hearing from its staff recommending the deletion of the two objected-to proposed amendments.

COMMENT #1: Approximately thirty (30) commenters (including Doug Sutton of Mobile Home Transport; Cody Shaver of Style Crest, Inc.; David Apple of Clayton Homes, Missouri; Jared Ray of autoMHatic Financial; Jamie Smith of Clayton Homes of Lebanon; Nathan Grant of Clayton Homes, Joplin; Blake Ware of Clayton Homes, Joplin; Jeri Cobb of Cobb Homes; Nathan Haar of Endeavor Communities; Robert Jordan of Value Homes, Inc.; Phil Parker of Parker Properties; Haley Parker of Cedar Creek Homes; J.L. Jones of Ramsey Jones Homes, Inc.; Gavin Richmond of Monty's Manufactured Homes; Brian Evans of Champion Homes; Jeramie Swanson of True Blue, LLC; John and Kim Hefner of Hefner's Mobile Home Service, Inc.; Jeremy Miles of Miles Mobile Home Moving, LLC; Eleanor Porter of Swan Lake Estates, LLC; V. Shane Farr of BonnaVilla Homes; Haley Parker of Cedar Creek Homes; Greg McDonald of Arco Distributing; Shane Harkins of Koehler Home Sales; John Kennedy of Sears Mfg Homes, Inc.; Dominic Durbin of Arco Distributing; Caitlin Gifford of Gifford Homes, Inc.; Karin Burton of Missouri Manufactured Housing Association; Timothy Donaldson of Clayton Homes; and Karin Burton of Missouri Manufactured Housing Association), mostly members of the Missouri Manufactured Housing Association, commented that the rule should not be amended to include the addition of "fuel gas supply" to the work covered by an installer licensee in paragraph (2)(A)4. The commenters stated that connection experts have become increasingly specialized to the point where gas companies are not willing to do hook-ups. They stated that as an industry, they are facing a shortage of certified installers and do not believe it is appropriate to put such a hazardous burden on installers. The commenters also said that homeowners would not want someone who is not knowledgeable to be tasked with this responsibility. All of the commenters requested this proposed amendment to paragraph (2)(A)4. not be made.

RESPONSE AND EXPLANATION OF CHANGE: The commission thanks the members of the Missouri Manufactured Housing Association and other interested commenters for their comments. The commission agrees that this change should not be made without further discussion with the association and its members. Therefore, the commission will withdraw the added language to paragraph (2)(A)4.

COMMENT #2: Approximately twenty-nine (29) commenters (including Doug Sutton of Mobile Home Transport; Cody Shaver of Style Crest, Inc.; David Apple of Clayton Homes, Missouri; Jared Ray of autoMHatic Financial; Jamie Smith of Clayton Homes of Lebanon; Nathan Grant of Clayton Homes, Joplin; Blake Ware of Clayton Homes, Joplin; Jeri Cobb of Cobb Homes; Nathan Haar of Endeavor Communities; Robert Jordan of Value Homes, Inc.; Phil Parker of Parker Properties; Haley Parker of Cedar Creek Homes; J.L. Jones of Ramsey Jones Homes, Inc.; Gavin Richmond of Monty's Manufactured Homes; Brian Evans of Champion Homes; Jeramie Swanson of True Blue, LLC; John and Kim Hefner of Hefner's Mobile Home Service, Inc.; Jeremy Miles of Miles Mobile Home Moving, LLC; Eleanor Porter of Swan Lake Estates, LLC; V. Shane Farr of BonnaVilla Homes; Haley Parker of Cedar Creek Homes; Greg McDonald of Arco Distributing; Shane Harkins of Koehler Home Sales; John Kennedy of Sears Mfg Homes, Inc.; Dominic Durbin of Arco Distributing; Caitlin Gifford of Gifford Homes, Inc.; Karin Burton of Missouri Manufactured Housing Association; and Karin Burton of Missouri Manufactured Housing Association), mostly members of the Missouri Manufactured Housing Association, commented in opposition to the addition of paragraph (2)(A)10., which would have added to the installer licensee responsibilities the requirement of assuring all exterior and interior close-up work was completed. The commenters stated that this requirement is too broad and undefined and they argued that "many items could be categorized into this ambiguous, umbrella statement that would be strictly cosmetic and wouldn't fall under the authority of the MO Public Service Commission's inspections." All of the commenters requested new paragraph (2)(A)10. be deleted.

RESPONSE AND EXPLANATION OF CHANGES: The commission thanks the Missouri Manufactured Housing Association members and other interested commenters for their comments. The commission agrees that this change should not be made without further discussion with the association and its members. Therefore, the commission will withdraw the addition of new paragraph (2)(A)10. and the accompanying amendments that were made to paragraphs (2)(A)8. and (2)(A)9. because of the new paragraph.

COMMENT #3: J. Scott Stacey on behalf of the staff of the commission filed two (2) written comments and commented at the hearing in support of the proposed amendments with certain changes. Staff noted many of the proposed amendments are to update rules and statutory citations identified as needing correction during the commission's periodic rule review. Staff noted that other amendments were additions made to clarify or update requirements of dealers and installers. Staff further submitted a supplemental comment and commented at the hearing regarding the same. Mr. Stacey stated that staff had reviewed the comments submitted by the parties and determined that there were two consistent comments that were in opposition to the proposed amendment of paragraph (2)(A)4. and the proposed addition of paragraph (2)(A)(10). Staff noted it had an internal meeting to discuss the parties' comments and determined that these specific changes should be removed from this rulemaking. Staff noted, however, that it wished to continue discussions with the Manufactured Housing Association regarding potentially incorporating similar changes as the result of a future working docket to develop a consensus on needed language.

RESPONSE AND EXPLANATION OF CHANGES: The commission thanks its staff for its work updating the manufactured housing rules. In response to the Manufactured Housing Association members' comments and the recommendation of staff, the

commission will withdraw its proposed changes to paragraph (2)(A)4. and the addition of paragraph (2)(A)10.
