HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

| Title | Code of State Regulations | Division | Chapter | Rule |
|------------|---------------------------|------------------|------------------------|-------------------------|
| 1 | CSR | 10- | 1. | 010 |
| Department | | Agency, Division | General area regulated | Specific area regulated |

They are properly cited by using the full citation, i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2000. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

decreased fee. Massage therapy businesses and massage therapists with a license expiration date of January 31, 2017 will be mailed renewal information on or around November 1, 2016 and the decreased fee needs to be reflected in this information.

Without this emergency amendment the decreased fee requirement will not be effective in time for the renewal notice, and the board will collect more revenue than it is statutorily authorized to collect.

The scope of the emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. In developing this emergency amendment, the board has determined that the fee decreases are necessary to prevent funds from exceeding the maximum fund balance, thereby resulting in a transfer from the fund to general revenue as set forth in section 324.245.2, RSMo. Pursuant to section 324.001.10, RSMo, a compelling governmental interest is deemed to exist for the purposes of section 536.025, RSMo, for licensure fees to be reduced by emergency rule, if the projected fund balance of any agency assigned to the Division of Professional Registration is reasonably expected to exceed an amount that would require transfer from that fund to general revenue. The board believes this emergency amendment to be fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 2, 2016, becomes effective June 12, 2016, and expires February 23, 2017.

(5) To ensure compliance with section 324.273, RSMo, the following renewal fees shall be effective from October 13, 2016 to February 23, 2017:

| | |
|--|--------------|
| (A) Business License Renewal Fee | \$ 35 |
| (B) Massage Therapist Renewal Fee | \$ 50 |

AUTHORITY: sections 324.245, 324.247, and 324.265, RSMo Supp. [2011] 2013, and sections 324.250, 324.252, and 324.267, RSMo 2000. This rule originally filed as 4 CSR 197-1.040. Original rule filed Feb. 25, 2000, effective Sept. 30, 2000. For intervening history, please consult the Code of State Regulations. Emergency amendment filed June 2, 2016, effective June 12, 2016, expires Feb. 23, 2017.

Title 20—DEPARTMENT OF INSURANCE, FINANCIAL INSTITUTIONS AND PROFESSIONAL REGISTRATION

Division 2197—Board of Therapeutic Massage Chapter 1—General Rules

EMERGENCY AMENDMENT

20 CSR 2197-1.040 Fees. The board is proposing to add section (5).

PURPOSE: The Board of Therapeutic Massage is statutorily obligated to enforce and administer the provisions of sections 324.240 to 324.275, RSMo. Pursuant to section 324.245.1(5), RSMo, the board shall, by rule and regulation, set the amount of fees authorized by sections 324.240 to 324.275, RSMo, so that the revenue produced is sufficient, but not excessive, to cover the cost and expense to the board for administering the provisions of sections 324.240 to 324.275, RSMo.

EMERGENCY STATEMENT: This emergency amendment is necessary to preserve a compelling governmental interest requiring an early effective date of the rule by informing the public of a change in the fee required for the renewal of a license. The board is proposing to decrease the business license renewal fee from seventy-five dollars (\$75) to thirty-five dollars (\$35) and the massage therapist renewal fee from one hundred dollars (\$100) to fifty dollars (\$50). The emergency amendment is necessary to allow the board to collect the

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Health and Human Services, Public Health Service, Food and Drug Administration.

(4) It shall be unlawful for any person who, in an official capacity, obtains any information, which is entitled to protection as a trade secret (including information as to quantity, quality, source, or disposition of milk or milk products, or results of inspections or tests of milk or milk products), under the provisions of these rules, to use this information to his/her own advantage or to reveal it to any unauthorized person. The *Grade "A" Pasteurized Milk Ordinance (PMO), [2013] 2015* Revision is hereby incorporated by reference as published by the United States Department of Health and Human Services, Public Health Service, Food and Drug Administration, Division of Plant and Dairy Food (HFS-316), 5100 Paint Branch Parkway, College Park, MD 20740-3835. This rule does not incorporate any subsequent amendments or additions to the Pasteurized Milk Ordinance (PMO).

Title 2—DEPARTMENT OF AGRICULTURE Division 90—Weights and Measures Chapter 30—Petroleum Inspection

ORDER OF RULEMAKING

By the authority vested in Weights and Measures Division under section 414.142, RSMo 2000, the director amends a rule as follows:

2 CSR 90-30.040 Quality Standards for Motor Fuels is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 1, 2016 (41 MoReg 159-160). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received two (2) comments in support of the proposed amendment and one (1) comment that recommended additional labeling. No changes to the rule have been made as a result of these comments.

COMMENT #1: Mr. Morris Heitman, President of Missouri Corn Growers Association, supported the proposed amendment as written. He indicated this proposal allows substitute labeling of product identity, i.e. "E85" may be used for street side posting in lieu of "Ethanol Flex Fuel." The Missouri Corn Growers Association would oppose any labeling requirement that would go beyond what is currently required of retailers federally.

RESPONSE: No changes have been made to the rule as a result of these comments.

COMMENT #2: Ms. Kristy Moore, Principal Scientist of KMoore Consulting, supported the proposed amendment as written. She further stated the clear and consistent labeling of fuels is an important visual aid for consumers and Missouri's forethought of incorporating "E85" has been helpful on street sign posting.

RESPONSE: No changes have been made to the rule as a result of these comments.

COMMENT #3: Valerie Ughette, Director of Auto Alliance, recommended the following additional labeling for the proposed amendment: 1) adding fuel dispenser labels for biodiesel blends greater than five percent (5%), 2) adding fuel dispenser labels for ethanol blends greater than E10, and 3) adding minimum octane rating postings for ethanol blends E15 and greater.

RESPONSE: 1) The suggestion of a "check owner's manual" decal for B6-B20 blends was considered, but we have determined the decal required by the Federal Trade Commission is sufficient in color and dispenser placement to adequately capture consumer attention. Additionally, other fuels intended for specific vehicles do not require any such label in Missouri. As with any fuel, consumers must always consult their owner's manuals to select the appropriate fuel for their vehicle. 2) The suggestion of a "check owner's manual" decal for ethanol blends greater than E10 was considered, but we have determined the EPA and FTC labels are sufficient in color, language, and placement to adequately capture consumer attention. The federal labels are sufficient for consumers to recognize these fuels as different from the gasoline they are accustomed to purchasing, and to evaluate their purchase decisions at the pump. On many vehicles today, fuel tank caps give consumers notice as to which fuel is appropriate for their vehicle. 3) It is our belief that requiring octane decals on E15 and flex fuel dispensers will cause more misfueling of non-flex fuel vehicles. Most of the octanes of these products will be above 87 AKI and consumers may see these products as competing with or a substitute for premium grade gasoline. Additionally, distributors and retailers have no practical way of certifying the octane of these products and refineries do not certify the octane of gasoline for flex-fuel blending. Finally, ASTM octane test methods D2699 and D2700 are only applicable for gasoline containing up to twenty-five percent (25%) ethanol. For these reasons no changes have been made to the rule as a result of these comments.

Title 4—DEPARTMENT OF ECONOMIC DEVELOPMENT Division 240—Public Service Commission Chapter 13—Service and Billing Practices for Residential Customers of Electric, Gas, Sewer, and Water Utilities

ORDER OF RULEMAKING

4 CSR 240-13.020 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on March 1, 2016 (41 MoReg 307). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended April 1, 2016, and the commission held a public hearing on the proposed amendment on April 8, 2016. The commission received timely

written comments from the Office of the Public Counsel; Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company; Empower Missouri; AARP and the Consumers Council of Missouri; and the staff of the commission. The Office of the Public Counsel; Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company; AARP and the Consumers Council of Missouri; the staff of the commission; and Laclede Gas Company also appeared at the hearing and offered comments. Legal Services of Eastern Missouri, Inc. submitted untimely written comments on April 7, 2016. AARP and Consumers Council of Missouri offered those written comments into the record at the hearing and the commission accepted them into the record at that time.

COMMENT #1: Empower Missouri describes the social ills that follow from the high interest rates charged by payday-type lenders and supports the amendment as proposed.

RESPONSE: The commission thanks Empower Missouri for its comment and agrees the rule should be amended.

COMMENT #2: The Office of the Public Counsel expresses concern that the language of the proposed amendment is not detailed enough, should be tied to Missouri's statutory usury rate, and should specifically forbid the utilities from using an affiliate to avoid application of the rule. Public Counsel offered alternative language that it believes would improve the rule.

RESPONSE: The commission thanks Public Counsel for its comment, but will not adopt the alternative language it proposes. The commission's intent in proposing this amendment is to ensure that payday-type lenders cannot use the prestige and legitimacy afforded by a contractual relationship with a trusted utility to help market high-interest loans to utility customers. Public Counsel's proposed language would seemingly go well beyond the commission's intent. In addition to forbidding a contractual relationship between a utility and an authorized pay agent, it would forbid the utility to use any such lender as a "bill collection service or as a bill payment agent". It is not clear what those terms mean, but at the hearing, Public Counsel suggested they would forbid a utility to accept payment for a customer's utility service if payment were made through a payday-type lender, even if the utility did not have a contractual relationship with the payday-type lender.

Utilities frequently receive customer payments from what are known as unauthorized pay agents. A perfectly legitimate business may inform its customers that it will take payments for local utilities, even though it has no contractual relationship with the utility. The customer takes cash to the business and the business sends a payment by check or other means to the utility. The utility processes the payment as it would any other payment on a customer's account. In addition, churches, social welfare agencies, neighbors, and family members sometimes make utility payments on behalf of customers. It would be unduly burdensome on a utility to require it to examine every payment it receives to ensure that it has not passed through the hands of a payday-type lender.

Public Counsel is also concerned that the proposed amendment's provision that the restriction on a utility's contractual relationship would not apply to lending entities that offer loans at an effective annual percentage rate of less than thirty-six percent (36%) is vague. As an alternative, Public Counsel would link that exception to the state usury rate established in section 408.030.1, RSMo, or the market rate defined in that statute, whichever is higher. A perusal of the state's usury statute shows that it is far from a model of clarity and linking this regulation to that statute is not necessary. The commission is not attempting to regulate the interest rates charged by lenders. That is far beyond the commission's authority. Instead, the commission is attempting to limit the contractual relationship between regulated utilities and lenders who offer short-term high-interest loans. The thirty-six percent (36%) annual percentage rate specified in the regulation is based on federal law regulating the mar-

keting of loans to members of the armed services, and is sufficient to inform utilities about which lenders it may contract with for pay agent services.

Finally, there is no reason to believe that a rule is needed to prevent Missouri's utilities from using affiliate organizations to avoid application of the rule proposed by the commission. On the contrary, the large utilities that have utilized a few payday-type lenders as authorized pay agents in the past, have shown a willingness to move away from those relationships, even without this rule in place.

COMMENT #3: AARP and the Consumers Council of Missouri applaud the Commission for moving forward with this rule amendment. They contend the amendment is needed and find the legal foundation for the amendment to be solid.

RESPONSE: The commission thanks AARP and Consumers Council of Missouri for their comment and agrees the rule should be amended.

COMMENT #4: Legal Services of Eastern Missouri submitted written comments explaining the problems facing people who find themselves in a cycle of debt after taking out a short-term, high-interest loan from a payday-type lender. Legal Services supports the proposed rule amendment.

RESPONSE: The commission thanks Legal Services of Eastern Missouri for its comment and agrees the rule should be amended.

COMMENT #5: Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company, which are regulated electric service providers, express skepticism about the effectiveness of the rule. They explain that authorized pay stations in the community are a valuable customer service bill payment option for certain customers. They have used a few payday-type lenders as authorized pay stations in the past and no predatory behavior on the part of those short-term lenders have ever been reported to the utilities. They are concerned that the amendment creates uncertainties and the risk of non-compliance for a utility in that the utility must now oversee the business practices of its authorized pay agents beyond the contracted function of accepting payments. However, Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company, indicate they are sympathetic to concerns about payday-type lending. They have voluntarily found alternative locations for their pay stations and have discontinued their use of such businesses as authorized pay agents

RESPONSE: The commission thanks Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company for their comments. The commission understands the concerns they express, but believes those concerns are outweighed by the need to protect utility customers. The commission will proceed with the amendment.

COMMENT #6: Laclede Gas, which is a regulated natural gas service provider, expressed similar concerns about the effectiveness of the rule and about the enforcement burden it will impose on the utilities. Laclede points out that the rule will have no effect on unauthorized pay agents, but concedes that unauthorized pay agents are not allowed to utilize the utility's logo at their business location. Laclede is concerned that it is difficult to identify a payday-type lender simply by the name used by that business and as a result the utility is at risk of unknowingly contracting with such a lender.

RESPONSE: The commission thanks Laclede Gas for its comments. The commission understands the concerns it expresses, but believes those concerns are outweighed by the need to protect utility customers. The commission believes it is important to ensure that payday-type lenders are not afforded the legitimacy that comes with a contractual relationship with the utility. The commission will proceed with the amendment.

COMMENT #7: The commission's staff advises the commission that it has authority to make rules regarding utility billing practices under

section 386.250, RSMo 2000, and under the “safe and adequate” and “just and reasonable” provisions of section 393.140(2), RSMo 2000. Staff concludes that the proposed amendment addresses concerns related to payday lending while recognizing the limitations on the commission’s jurisdiction.

RESPONSE: The commission thanks staff for its comments, and will proceed with the amendment.

COMMENT #8: At the hearing, the commission’s staff suggested that Laclede’s concerns about the uncertainties associated with identifying which authorized pay agents are engaged in payday-type lending could be alleviated by removing the sample list of types of short-term lenders from the rule. The rule currently speaks of any “pawnshop, auto title loan company, payday loan company, or other short-term lending entity engaged in the business of making unsecured loans ...” Staff suggests that instead of including that list of examples, the rule should just forbid a contractual relationship with “any entity engaged in the business of making unsecured loans ...” In response, Laclede expressed concern that removing the list of types of lenders would only make it more difficult for a utility to identify which businesses it may or may not contract with for pay agent services.

RESPONSE AND EXPLANATION OF CHANGE: The partial list of businesses that may be engaged in the type of short-term lending with which the rule is concerned is unnecessary to the rule and could create confusion. The commission will make the change suggested by staff.

COMMENT #9: At the hearing, a question was raised about whether the rule would require utilities to terminate existing contractual relationships with payday-type lenders, or whether it would merely forbid them from entering into new contracts with such lenders.

RESPONSE AND EXPLANATION OF CHANGE: The proposed amendment provides that “no utility may enter into” a contractual relationship with a payday-type lender. That phrase is ambiguous about what impact the rule will have on existing contractual relationships. The commission believes that existing contractual relationships between utilities and payday-type lenders should be terminated in a reasonable manner and will add a sentence at the end of the rule to explain when that must be done.

4 CSR 240-13.020 Billing and Payment Standards

(13) No utility may enter into any contractual or authorized pay agent relationship with any entity engaged in the business of making unsecured loans of five hundred dollars (\$500) or less, with original payment terms of thirty-one (31) days, or less, or where repayment of the loan is secured by the borrower’s postdated check. This restriction shall not apply if the lending entity offers such loans at an aggregate, effective annual percentage interest rate of less than thirty-six percent (36%). Any utility currently in a contractual or authorized pay agent relationship that is forbidden by this section shall terminate that relationship no later than sixty (60) days after this rule becomes effective.

ORDER OF RULEMAKING

By the authority vested in the Missouri Gaming Commission (MGC) under section 313.805, RSMo Supp. 2013, the commission amends a rule as follows:

11 CSR 45-12.090 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on February 16, 2016 (41 MoReg 241–244). Changes have been made to the text of the proposed amendment, so they are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing was held on this proposed amendment on March 29, 2016. Mike Winter, Executive Director of the Missouri Gaming Association, attended the public hearing and submitted one (1) written comment. Two (2) comments were also received from MGC staff members.

COMMENT #1: A staff member suggested adding the phrase “another person’s” behind “fondling of” to subsection (6)(C) to clarify the intent of the regulation.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with the suggestion and made the requested change.

COMMENT #2: Mike Winter submitted a comment suggesting limiting the impact of subsection (6)(C) to the gaming floor or to clearly state what is prohibited without linking it to the liquor rules. He suggested removing subsection (6)(C) or excluding ticketed events from subsection (6)(C). He alternatively proposed that the definition of improper acts and lewdness include the phrase “illegal acts prohibited by law.” He is concerned the proposed revisions in subsection (6)(C) would prohibit burlesque style entertainment which is not currently illegal.

RESPONSE AND EXPLANATION OF CHANGE: The commission understands the concerns of the industry. The language was revised to remove “buttocks” and limited the conduct to only apply to the actual or simulated touching of another person’s body parts with the change made in response to comment #1.

COMMENT #3: A staff member noted that Minimum Internal Control Standards (MICS), Chapter M section 1.06 prohibits Surveillance personnel from consuming alcoholic beverages on premises, per “11 CSR 45-12.090 and 11 CSR 45-5.030 which prohibits employees from playing any gambling game, or receiving or consuming any intoxicating liquor while on the premises.” The staff member questioned whether the commission needs to revise this standard in MICS, Chapter M based on the new liquor control regulations.

RESPONSE: The commission staff agrees. A revision to MICS, Chapter M will be submitted to address this issue.

Background

The individuals listed in this notice have recently filed applications

requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo, MoDOT may issue an SPE Certificate, for not more than a two- (2-) year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing an SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
