

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order or rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted which has been changed from that contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

The agency is also required to make a brief summary of the general nature and extent of comments submitted in support of or opposition to the proposed rule and a concise summary of the testimony presented at the hearing, if any, held in connection with the rulemaking, together with a concise summary of the agency's findings with respect to the merits of any such testimony or comments which are opposed in whole or in part to the proposed rule. The ninety-(90-) day period during which an agency shall file its order of rulemaking for publication in the *Missouri Register* begins either: 1) after the hearing on the proposed rulemaking is held; or 2) at the end of the time for submission of comments to the agency. During this period, the agency shall file with the secretary of state the order of rulemaking, either putting the proposed rule into effect, with or without further changes, or withdrawing the proposed rule.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions,
Sampling and Reference Methods and Air Pollution
Control Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2013, the commission amends a rule as follows:

10 CSR 10-6.210 Confidential Information is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on June 1, 2016 (41 MoReg 742-743). No changes were made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received one (1) comment from the Regulatory Environmental Group for Missouri (REGFORM).

COMMENT #1: REGFORM commented that they support the revisions to this rule. They emphasized to the commission and staff that this rule is very important for many companies, especially for companies in competitive industries. REGFORM emphasizes that these rule changes help streamline this important process for protecting confidential business information or trade secrets.

RESPONSE: The program appreciates the positive feedback. No changes were made to the rule language as a result of these comments.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions,
Sampling and Reference Methods and Air Pollution
Control Regulations for the Entire State of Missouri**

ORDER OF RULEMAKING

By the authority vested in the Missouri Air Conservation Commission under section 643.050, RSMo Supp. 2013, the commission amends a rule as follows:

**10 CSR 10-6.220 Restriction of Emission of Visible Air
Contaminants is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on May 2, 2016 (41 MoReg 555-557). No changes were made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Missouri Department of Natural Resources' Air Pollution Control Program received seven (7) comments from five (5) sources: Buzzi Unicem USA, the Boeing Company, an AECOM consultant representing the air committee of the St. Louis Regional Chamber Environmental Council, Kansas City Power and Light (KCPL), and AMEREN.

COMMENT #1: Buzzi Unicem USA commented that they operate two (2) Portland cement kilns in Missouri. The proposed changes to remove continuous opacity monitors (COMs) requirements from electric generating units (EGUs) subject to 40 Code of Federal Regulations (CFR) 63, Subpart UUUUU and boilers regulated under 40 CFR 63, Subparts DDDDD and JJJJJ also apply to Portland cement kilns regulated under 40 CFR 63, Subparts LLL and EEE. Kilns regulated under Subpart LLL do not have an opacity limit and are required to use particulate matter continuous parameter monitoring systems (CPMS) to monitor particulate matter (PM) emissions. Kilns regulated under Subpart EEE that use baghouses to control emissions do not have an opacity limit and are required to use a bag leak detection system (BLDS) to monitor PM emissions. The COMs at these plants are redundant systems for monitoring PM emissions and present additional maintenance, recordkeeping, and reporting burdens for Portland cement kilns. Buzzi Unicem USA recommends modifying 10 CSR 10-6.220 to remove the COM requirement for Portland cement kilns that meet these requirements.

RESPONSE: The Department of Natural Resources' Air Pollution Control Program appreciates this comment. In order to add an exemption for Portland cement kilns to this rule the department needs to prove that the exemption is not a relaxation of regulation in order for EPA to approve the amendment. For example, the exemption for power plants and boilers was proposed after reviewing particulate matter/opacity correlations in several compliance assurance monitoring (CAM) plans submitted to the department as part of the operating permit process. This data supported a correlation between compliance with 40 CFR Subparts UUUUU, DDDDD, and JJJJJ and compliance with opacity limitations. We do not currently have this data for cement kilns to prove the correlations between compliance with 40 CFR Subparts LLL and EEE and compliance with opacity limitations. If Buzzi Unicem, or another entity, submits the applicable information the department will review the information and may propose the

exemption in a future rule amendment. However, in order to move forward with this rule amendment in a timely manner we are not currently including this modification to the regulation. No changes were made to the rule language as a result of this comment.

Due to the similarity in the following three (3) comments, one (1) response is presented.

COMMENT #2: The Boeing Company commented that they support the changes to this rule. This rulemaking has been in work for several years with much collaboration among commenters in conjunction with the department's staff. This process used to gather comments for the rulemaking during the development stage was really quite good and resulted in a really helpful rule. Boeing Company particularly supports the clean fuel exemption because they have multiple stacks at their facility, only a few of which actually have any ability to generate opacity. With the rule changes, monitoring can focus on things that generate excess opacity. The monitoring schedule can be set in the operating permit or construction permit based on the unit risk of opacity violation.

COMMENT #3: The AECOM consultant, representing the air committee of the St. Louis Regional Chamber Environmental Council, commented that they support the proposed rule changes and reiterate the Boeing Company comments. To represent the entirety of the committee and point sources, area sources also appreciate the changes and support the changes that will be helpful in the day-to-day operations of members.

COMMENT #4: AMEREN commented that they are supportive of the proposed revisions to the opacity rule that recognizes that, in certain cases, opacity monitoring is unnecessary. The proposed revisions also recognize advances in technology as well as recent environmental regulations. In particular, AMEREN supports the requirement that opacity monitoring systems are not needed for facilities that are required to comply with the Mercury and Air Toxics Standards rule and have installed particulate matter continuous emissions monitoring systems on ten (10) electric generating units. They fully support the exemption for emission units burning clean fuels that will never exceed the emission limitations in the rule. In summary, AMEREN commends the Missouri Department of Natural Resources for the proposed revisions to the opacity rule and urges the State of Missouri to finalize and implement the revisions as soon as possible.

RESPONSE: The program appreciates the positive feedback. No changes were made to the rule language as a result of these comments.

COMMENT #5: KCPL suggested alternative subsection (3)(A) and (3)(B) language for a much clearer definition of the six (6)-minute block averaging period and the potential exemption of one (1) averaging period per hour up to sixty percent (60%) opacity.

RESPONSE: Section (3) of this rule establishes the requirements that applicable visible emission sources must meet. Subsections (3)(A) and (3)(B) provide the visible emission requirements and an allowable exception. Subsection (3)(E) requires that compliance determination for applicable sources must use opacity measurements taken in accordance with the test methods in section (5). The actual test method includes specific language to convey the same thoughts provided in the alternative language suggested. Therefore, no changes were made to the rule language as a result of this comment.

COMMENT #6: KCPL requested to maintain EPA Method 22 as an allowed test method as an expedient preliminary screen to identify cases where opacity is above the standard before Method 9 is applied. RESPONSE: Method 22 is being removed from the rule because it only provides qualitative measurements of visible emissions rather than quantitative measurements needed to determine compliance. Applicable sources can still use Method 22 for their own purposes or as required in their permits. No changes were made to the rule language as a result of these comments.

COMMENT #7: KCPL requested that alternative test methods not be required to be incorporated into the rule and state implementation

plan (SIP) prior to implementation. Typically, alternative test method approvals are granted on a case-by-case basis by letter to all relevant parties without rule or SIP change.

RESPONSE: The EPA requires that alternative test methods be approved by the director and EPA as well as being incorporated into the rule and the SIP. Therefore, no changes were made to the rule language as a result of this comment.

**Title 19—DEPARTMENT OF HEALTH
AND SENIOR SERVICES
Division 30—Division of Regulation and Licensure
Chapter 40—Comprehensive Emergency Medical Services
Systems Regulations**

ORDER OF RULEMAKING

By the authority vested in the Missouri Department of Health and Senior Services under sections 190.098, 190.109, 190.160, and 190.185, RSMo Supp. 2013, and sections 190.142 and 190.165, RSMo Supp. 2016, the department adopts a rule as follows:

19 CSR 30-40.800 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on June 15, 2016 (41 MoReg 782-799). Changes have been made in the text of the proposed rule, so it is reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Health and Senior Services received fifteen (15) comments.

COMMENT #1: Lynthia Andrews, with the State Advisory Council on Emergency Medical Services; Shane Lockard, with the Missouri Ambulance Association; Brad Mason, with Mid-America Regional Council Emergency Rescue; Ruby Mehrer, with the Missouri Emergency Medical Services Association; B. Scott Roy, with the Ambulance District Association of Missouri; Jennifer Cordia, with Christian Hospital; Ray Antonacci, with the Lincoln County Ambulance District; Bonnie Stegman, Brian Hendricks, Christopher Bosche, Craig Walk, and Todd Besancenez, with the Mehlville Fire Protection District; Velvet Shoults, with Mercy Hospital Springfield; Kieth Pantaleo, with the Salt River Ambulance District, Ralph Hellebusch, with the Warren County Ambulance District; Shannon Watson, with the East Central Region Committee for EMS; Terry Reese, with the Missouri Nurses Association and Terisa McGinnis, with the Central Jackson County Fire Protection District request that the department change the date in paragraph (2)(A)1. from August 28, 2013, to January 1, 2016, in order to include other community paramedic pilot programs in Missouri that have come about after the effective date of the statute.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and has made this change to 19 CSR 30-40.800 by changing the date in paragraph (2)(A)1. from August 28, 2013, which was the date that section 190.098, RSMo, became effective, to January 1, 2016.

COMMENT #2: Shannon Watson, with the East Central Region Committee on EMS, comments that the grandfathered programs for the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) in paragraph (2)(A)1. should seek accreditation with CoAEMSP by January 1, 2018.

RESPONSE: Section 190.098, RSMo, does not give the department the authority to regulate the Emergency Medical Technician-Community Paramedic training entities in Missouri. Thus, the department cannot require all Emergency Medical Technician-Community Paramedic training entities in Missouri to seek accreditation with CoAEMSP by January 1, 2018. However, paragraph

(2)(A)1. prohibits any applicant for Emergency Medical Technician-Community Paramedic certification with the department from being trained by an Emergency Medical Technician-Community Paramedic program which was not CoAEMSP accredited by January 1, 2016, and who meets the requirements in paragraphs (2)(A)2. and (2)(A)3. Therefore, Emergency Medical Technician-Community Paramedic training entities in Missouri will have had to seek and obtain CoAEMSP accreditation after January 1, 2016, in order for their Emergency Medical Technician-Community Paramedic students to get certified as Emergency Medical Technician-Community Paramedics by the department. No change has been made as a result of this comment.

COMMENT #3: Lynthia Andrews, with the State Advisory Council on Emergency Medical Services; Shane Lockard, with the Missouri Ambulance Association; Brad Mason, with Mid-America Regional Council Emergency Rescue; Ruby Mehrer, with the Missouri Emergency Medical Services Association; B. Scott Roy, with the Ambulance District Association of Missouri; Jennifer Cordia, with Christian Hospital; Ray Antonacci, with the Lincoln County Ambulance District; Bonnie Stegman, Brian Hendricks, Christopher Bosche, Craig Walk, and Todd Besancenez, with the Mehlville Fire Protection District; Velvet Shoults, with Mercy Hospital Springfield; Kieth Pantaleo, with the Salt River Ambulance District, Ralph Hellebusch, with the Warren County Ambulance District; Shannon Watson, with the East Central Region Committee for EMS; and Terisa McGinnis, with the Central Jackson County Fire Protection District request that the department change the scope of practice of Emergency Medical Technician-Community Paramedics from the *EMT-Paramedic National Standard Curriculum* to language consistent with 19 CSR 30-40.342 and section 190.142, RSMo, as the *Emergency Medical Technician- Paramedic National Standard Curriculum* is outdated and was never intended to be used as a scope of practice. Further, Terry Reese, with the Missouri Nurses Association also comments on the 1998 publication date of the *EMT-Paramedic National Standard Curriculum* and states that it is a major problem nationally for emergency medical services. Mr. Reese comments that he would like to see consistency of scope of practice. Mr. Reese also comments that the Missouri Nurses Association solidly supports the effort for meeting national credentialing requirements. Finally, Carol Hudspeth, with the Missouri Alliance for Home Care comments that although the *EMT-Paramedic National Standard Curriculum* was published in 1998, she feels strongly that by taking this reference out then it could leave the rule vague and open to interpretation by each medical director.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and has made the change. The department will change the language to require Emergency Medical Technician-Community Paramedics to be able to perform the skills consistent with section 190.142.4, RSMo, and 19 CSR 30-40.342. Emergency Medical Technician-Community Paramedic students are required to receive forty (40) hours of clinical experience in a clinical setting and sixty (60) hours of didactic training and practical and lab skills covering five (5) subject areas pursuant to paragraphs (2)(A)2. and (2)(A)3. of this proposed rule. Further, any Emergency Medical Technician-Community Paramedic program after the new date of January 1, 2016, will be required to be accredited by the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) to make sure that students in the Emergency Medical Services field meet the standards of their profession through a national accreditation process. Thus, Emergency Medical Technician-Community Paramedics will be assured of receiving training, education, and experience to practice as Community Paramedics through the educational and accreditation process.

COMMENT #4: Terry Reese, with the Missouri Nurses Association, comments that he believes the Regional Advisory Committees must

be included, along with the medical directors for oversight and consistency. Mr. Reese would like to see local committee development for the various regions or entities managing the EMS systems through the state in their development of the education programs meeting the criteria presented in the rules.

RESPONSE: Section 190.098, RSMo, does not give the department the authority to create new committees specific for the Emergency Medical Technician-Community Paramedic certification program. However, there is already in existence a state advisory council on emergency medical services pursuant to section 190.101, RSMo. The purpose of this council is to make recommendations to the governor, the general assembly, and the department on policies, plans, procedures, and proposed regulations on how to improve the statewide emergency medical services system. The council also advises the governor, the general assembly, and the department on all aspects of the emergency medical services system. There are also regional EMS advisory committees already in existence pursuant to section 190.102, RSMo. These regional EMS advisory committees advise and make recommendations to the region and the department on specific topics including the improvement of public education. No changes have been made to the rule as a result of this comment.

COMMENT #5: Terry Reese, with the Missouri Nurses Association, comments that he is concerned about the lack of stringent follow-up for those individuals serviced by the Emergency Medical Technician-Community Paramedic when there is no identifiable health care provider.

RESPONSE: Section 190.098.2, RSMo, provides that a community paramedic shall provide services of a health care plan if the plan has been developed by the patient's physician or by an advanced practice registered nurse through a collaborative practice arrangement with a physician or a physician assistant through a collaborative practice arrangement with a physician and there is no duplication of services to the patient from another provider. In this situation, the medical provider will be easily identified. The department further addresses a situation in the proposed rule in subsection (6)(A) where no health care plan has been established. In this situation, the Emergency Medical Technician-Community Paramedic shall follow-up with the patient's medical provider designated by the patient to ensure transition of care. This follow-up may include at a minimum, patient assessment, patient treatment, and/or rendered services. No changes have been made to the rule as a result of this comment.

COMMENT #6: Terry Reese, with the Missouri Nurses Association, comments that with any new endeavor, an evaluation should occur within a reasonable time after implementation for each specific geographic region.

RESPONSE: The department has provided for an evaluation component in subsection (5)(B) where the medical director and the administrator of the ambulance service which utilizes Emergency Medical Technician-Community Paramedics are required to assess the needs of the community to implement an evaluation component to the community paramedic program which shall improve patient outcomes, ensure patient satisfaction, and decrease adverse outcomes. No changes have been made to the rule as a result of this comment.

COMMENT #7: Carol Hudspeth, with the Missouri Alliance for Home Care, comments that an area of concern is that the proposed regulation does not address assurance of no duplication of services with other health care providers as required by the statute.

RESPONSE: Section 190.098.2, RSMo, states, "A community paramedic shall practice in accordance with protocols and supervisory standards established by the medical director. A community paramedic shall provide services of a health care plan if the plan has been developed by the patient's physician or by an advanced practice registered nurse through a collaborative practice arrangement with a physician or a physician assistant through a collaborative practice arrangement with a physician and there is no duplication of services

to the patient from another provider.” The statute speaks for itself and the community paramedic programs must follow the statute and only provide services if there is no duplication of services to the patient from another provider. The proposed rule does not have to restate this same statute as the statute is already the law and is enforceable in its own right. No changes have been made to the rule as a result of this comment.

COMMENT #8: Carol Hudspeth, with the Missouri Alliance for Home Care, comments that she requests that mental health program and Alzheimer’s training be added to subsection (2)(A) as required by law for other providers.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and will add mental health and Alzheimer’s training under subparagraph (2)(A)2.A. It should be noted that Emergency Medical Technician-Paramedics trained in Missouri already receive mental health training through their training programs because this concept is included in the *Emergency Medical Technician-Paramedic National Standard Curriculum* that Missouri training entities are required to train students on pursuant to 19 CSR 30-40.331.

COMMENT #9: Carol Hudspeth, with the Missouri Alliance for Home Care, comments that she would like to see subparagraph (2)(A)2.C. removed because this concept for the didactic training implies that Emergency Medical Technician-Community Paramedics participate in primary care.

RESPONSE AND EXPLANATION OF CHANGE: The department agrees and will change the didactic training requirement in subparagraph (2)(A)2.C. in the proposed rule from “The Role of the Community Paramedic in Public and Primary Care” to “The Role of the Community Paramedic in the Community.”

COMMENT #10: Carol Hudspeth, with the Missouri Alliance for Home Care, comments that she recommends that a policy manual be developed to provide guidance and clarification to the law to assist medical directors and Emergency Medical Technician-Community Paramedics in the development of the protocols and operation of the program.

RESPONSE: The department will take this under consideration in light of the definition of a “rule” in section 536.010(6), RSMo, and applicable case law. No changes have been made as a result of this comment.

COMMENT #11: Terry Reese, with the Missouri Nurses Association and Carol Hudspeth, with the Missouri Alliance for Home Care, comment that it may be best to put this proposed rule on hold until changes may be made to section 190.098, RSMo, in the upcoming legislative session or there are more discussions regarding this proposed rule.

RESPONSE: Section 190.098, RSMo, became effective on August 28, 2013. The department has worked with the Missouri Nurses Association, the Missouri Alliance for Home Care, and the emergency medical services community during the past three (3) years to draft this proposed rule. The department has made numerous changes to this proposed rule based on the suggestions from these groups. At this time, the department will move forward with this proposed rule and will address any future changes to section 190.098, RSMo, or additional suggestions from these and other groups as they occur. No changes have been made to the rule as a result of this comment.

19 CSR 30-40.800 EMT-Community Paramedic, Community Paramedic Program, and Medical Director for EMT-Community Paramedic Program

(2) EMT-Community Paramedic (EMT-CP) Certification Requirements.

(A) The applicant for EMT-CP certification shall have successfully completed a community paramedic certification program from a

college, university, or educational institution that meets the following requirements:

1. Is accredited by the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) or prior to January 1, 2016, conducted a pilot program meeting or exceeding the requirements in paragraphs (2)(A)2. and (2)(A)3. below;

2. Provides a minimum of sixty (60) hours of didactic training and practical and lab skills covering at a minimum the following subjects:

A. The Community Paramedic’s Role in the Health Care System which includes training on mental health illnesses and Alzheimer’s disease;

B. The Social Determinants of Health Model;

C. The Role of the Community Paramedic in the Community;

D. Developing Cultural Competency; and

E. Personal Safety and Wellness of the Community Paramedic; and

3. Includes at least forty (40) hours of clinical experience in a clinical setting.

(4) EMT-Community Paramedic (EMT-CP) Scope of Practice and Authority to Practice.

(A) An EMT-CP shall perform only those skills consistent with section 190.142.4, RSMo, and 19 CSR 30-40.342(3).

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs, and other items required to be published in the *Missouri Register* by law.
