Mem - I have marked with a cross ¹⁴⁰ farms in these returns which I suppose do not produce \$100⁰⁰ worth pr. annum - However I have been informed & believe it to be the fact that corn during the last year or a half has been worth \$1⁰⁰ or more pr bushel (caused by the great demand for the California Emigration) and if this price be taken as the value then nearly or quite all these farms do produce their 100 dolls. worth - I make this statement that the department may allow the compensation for the whole number if it is thought the law warrants it - I believe the assistant Dr. Bell has taken them all in good faith as coming within the requirement of the law -

Geo. W. Twichell
