12	Remarks. The length of time each establishment was in operation is set down in the left hand column, under the name and the estimate of wages should be made for that time and not for 12 months.												
15	Much of the Iron used by the Blacksmiths is furnished by their Customers, and in no instance could I obtain sufficient data to justify an estimate of the amount consumed.												
17	Many of the former owners of the establishments are now in California or elsewhere out of the County, and many items contemplated in this schedule could not be obtained of their families or successors.												
18	I have made the statements of detail as full as reliable information would enable me, but have preferred blanks to random guessing.
