44	<i>Geo. A. Rhodes</i>	<i>Grain Dist</i>	<i>1675</i>																								

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.

COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.

COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.

COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.

COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto,—especially in the case of small shops where book-accounts are not kept.

[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.

[19.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.

COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.

COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.

COLUMNS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.

Received July 30, 1880.

- (1.) Boot and Shoe Factories. (2.) Cheese and Butter Factories. (3.) Flouring and Grist Mills. (4.) Salt Works. (5.) Lumber Mills and Saw Mills. (6.) Brick Yards and Tile Works. (7.) Paper Mills. (8.) Coal Mines. (9.) Agricultural Implement Works. (10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in *St. Joseph*, in the County of *Inchewan*, State of *Missouri*, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: *St. Joseph Mo.*

William W. Stenwood, Special Agent
Enumerator.

Table with 30 columns and 45 rows. Columns include Name of Corporation, Capital, Average number of hands employed, Wages and Hours of Labor, Months in Operation, and Power used in Manufacture. Rows list various businesses such as Planing Mills, Undertaker, Stone Working, and more.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. ...

Supervisor's Dist. No. 2
Enumeration Dist. No. 2

The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

- (1.) Boot and Shoe Factories. (5.) Lumber Mills and Saw Mills. (8.) Coal Mines.
(2.) Cheese and Butter Factories. (6.) Brick Yards and Tile Works. (9.) Agricultural Implement Works.
(3.) Flouring and Grist Mills. (7.) Paper Mills. (10.) Quarries.
(4.) Salt Works.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in St. Joseph, in the County of Buchanan, State of Missouri, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

Post Office: St. Joseph, Mo.

Wm. W. Shumard, Enumerator.

Table with columns: 1. Name of Corporation, Company, or Individual... 2. Name of Business... 3. Capital... 4. Greatest number of hands... 5-7. Average number of hands... 8-12. Wages and Hours of Labor... 13-17. Months in Operation... 18-19. Value of Material... 20. On what River or Stream... 21-26. Power used in Manufacture... 27-29. Number of Boilers... 30-45. Rows include: Kaening & Co. Cracker Factory, F. L. Schmitt & Co. Do, H. R. Bristol Furniture, Chauncey Barber Boots & Shoes, Saml J. Smith & Co. Manure, Wm. F. Hoas Saddle & Harness, A. Mayer & Co. Cream Factory, J. Leonard Sails, J. V. Koene Do, F. L. Wittell Photographing, Leopoldus Curtis Cabinet & Dry, A. B. Thompson Marble Works, Herald & Brinton Co. Tub & Bag Making, O. B. Smith Do, Frank Smith & Co. Mineral & Soda Water, F. J. Lewis Steam Engines, Sandus & Smith Do, Ingvitz & Handlin Curriers, P. P. Biddy Combs, D. K. Haldorin Do, John C. Boylson Do, Chris Pitzer Do, Frank & Sontag Do, Thomas Niun Do, J. Miller Do, W. Harrison Do, B. Myers Do, A. Augustine Do, M. Lett Spring Millinery, Walker & Boggs Contract Builders, Geo. W. Ruscoe Do, H. G. Hopkins Do, Patchell & Wall Do, Victor Rudolph Do, John Bell Cigars Factory, Samuel Reber Do, James A. Smith Do, Henry Honney Do, Mrs. C. J. Do, M. Kasper Do, Geo. Z. Fish Coffee & Tea, Dursh Brothers Do, W. H. Hoines Do, C. Christman & Son Do.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials.
COLUMN 2.—The kind of business or the character of product should be described as specifically as possible, thus: Sewing-Machines, Corsets, Furniture, Foundry, Machine Shop, Coopering, Blacksmithing, &c.
COLUMN 11.—In many establishments (as carpenter shops, blacksmith shops, &c.) it will be found that no ordinary laborers are employed. In this case column 11 will not be filled.
COLUMNS 13 to 17.—All the 12 months of the year should be accounted for in one or more of the columns 13 to 17, thus: 12 months on full time; or 8 months on full time and 4 months on half time; or 10 months on full time and 2 months idle.
COLUMNS 18 and 19.—These inquiries are of prime importance. Great care and judgment should be exercised in making the returns relative thereto, especially in the case of small shops where book-accounts are not kept.
[18.]—The cost of Superintendence, Rent, Freight of goods to market, and other general expenses of a manufacturing establishment are not to be included in Materials. Mill Supplies and Fuel should be included.
[19.]—The value of the product, in the case of mills and factories producing for a distant market, means the wholesale price of the goods. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product means the price charged at the shop.
COLUMN 20.—If the stream is a very small one, mention also the larger stream or river into which it flows.
COLUMNS 27 and 28.—Only serviceable boilers and engines are to be reported.
COLUMNS 26 and 29.—This is an inquiry of great importance. The best information available should be used in filling these columns.
