Richard A. Cruz  
Enumerator.

Table with 29 columns: 1-3: Name of Corporation, Company, or Individual; 4: Name of Business; 5: Capital; 6-7: Average number of hands employed; 8-11: Wages and Hours of Labor; 12-17: Months in Operation; 18-19: Value of Material; 20-26: Power used in Manufacture; 27-29: If steam power is used.

REMARKS.—The term "Productive Industry" must be understood, in its largest significance, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The smallest shop should not be omitted, provided the production reaches \$500 annually, including the cost of materials. Enumerators will take pains to reach all of the productive establishments, large and small, within their several districts.
