**Notes:**
- The term "Productive Industry" must be understood, in the largest sense, to include not only all factories and shops, but also the mechanical trades, in weaving, spinning, carpentering, &c. The smallest shop should not be excluded, provided the product made is of quality, &c.
- The kind of trade or the character of the product should be described as precisely as possible, whether it be tailoring, tailoring, boot and shoe making, shoe making, &c. The term "boots and shoes" includes all kinds of boots and shoes, and the term "shoes" includes all kinds of shoes.
- In the factory report, the word "iron" is used to denote iron, steel, copper, brass, &c., and the term "metal" includes all kinds of metal.
- In the production of the product, the word "iron" is used to denote metal, and the term "metal" includes all kinds of metal.
- The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.
- The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.
- In the production of the product, the word "iron" is used to denote metal, and the term "metal" includes all kinds of metal.
- The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 4 and 5:** Only RETURNED hands and shops are to be reported.

**Column 6 and 7:** Only RETURNED hands and shops are to be reported.

**Column 8:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 9:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 10:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 11 and 12:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 13:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 14 and 15:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 16:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 17 and 18:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 19:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 20 and 21:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 22:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 23 and 24:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 25:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 26 and 27:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 28:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 29 and 30:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 31:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 32 and 33:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 34:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 35 and 36:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 37:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 38 and 39:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 40:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 41 and 42:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.

**Column 43:** The term "iron" includes all kinds of metal, and the term "metal" includes all kinds of metal.

**Columns 44 and 45:** These are columns for the return of the products, and should be filled in with the exact figures, including all kinds of metal, and the term "metal" includes all kinds of metal.
The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

(1 & 2) Sew and Shoe Factories.
(3) Cider and Shaker Factories.
(4) Flouring and Grist Mills.
(5) Lumber Mills and Saw Mills.
(6) Brick Yards and Tile Works.
(8) Coal Mines.
(9) Agricultural Implement Works.
(10) Quarries.

**SCHEDULE 3.—MANUFACTURES.**—Products of Industry in Buffalo County, in the County of Morgan, State of Illinois, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

**Post Office:**

</tr>
</tbody>
</table>

**Examiner:**

John H. Smith.

**Note:**

- The term "Manufacturing Industry" must be understood to include not only all factories and large works, but also the smaller trades, in blacksmithing, carpentering, etc. The smallest shop should not be excluded, provided the production reaches $100 annually, including the cost of materials. Examiners will take pains to reach all of the productive establishments, large and small, within their several districts.

- Column 8.—The kind of industry or the character of the product must be described as specifically as possible: e.g., Sewing Machine, Corn, Feathers, Pewter, Machine Shop, Coopering, Brickmaking, etc.

- Column 12.—Many establishments (e.g., cooper's shops, blacksmith's shops, etc.) will be found that are ordinarily classified as manufacturing. In the case of such, it will not be deemed necessary to report separately, unless the work is of a nature to be included in this schedule. The same applies in the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product being less than $100.

- Column 17.—The value of the product, in the case of mills and factories producing for a distant market, must be estimated. In the case of small shops producing goods, or doing work, for the neighborhood only, the value of the product must be estimated.

**Received July 31, 1880.**

**Page No. 1**

**Supervisor's Dist. No. 6**

**Enumeration Dist. No. 193**

**Note:**

- The table presents data on the number of employees, machines, and power sources used in various manufacturing industries.

- Columns 1-5 detail the number of men, women, and children employed, along with the number of machines or implements.

- Columns 6-11 provide information on the type of power used, including household, horse, and steam power.

- The table is used to enumerate manufacturing establishments and assess their impact on the local economy.
The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz: 
(1.) Boot and Shoe Factories. 
(2.) Cheese and Butter Factories. 
(3.) Lumbar Mills and Saw Mills. 
(4.) Flouring and Grist Mills. 
(5.) Paper Mills. 
(6.) Coal Mines. 
(7.) Agricultural Implements Works. 
(8.) Quarries.

**SCHEDULE 3—MANUFACTURES.—Products of Industry in**

...in the County of ... , State of ... , during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

**Remarks:**
- The term "Manufacturing Industry" must be understood, in its largest sense, to include not only factories and large works, but the smallest shops, or blacksmithing, coopering, tinsmithing, etc. The smallest shop should not be omitted, provided the number of hands employed is sufficiently numerous, including the use of machinery. 
- Enumerators will take pains to mark all of the productive establishments, large and small, within their several limits.
- **Columns 1-4:** In the space allowed, insert the estimate of the number of hands employed, of the estimated capital owned, of the value of property on hand, and of the estimated monthly gain of the establishment.
- **Columns 5-7:** Mark by an X which of the above items is not applicable.

**Column 1:** Name of Manufacturer.
**Column 2:** Age.
**Column 3:** Sex.
**Column 4:** Capital and Property.
**Column 5:** General Line of Business.
**Column 6:** Number of Hands.
**Column 7:** Other Employed.
**Column 8:** Average Wages.
**Column 9:** Monthly Gain.
**Column 10:** Fuel, Power, etc.

...
The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz: 
1. Boot and Shoe Factories. 
2. Cheese and Butter Factories. 
3. Flouring and Grist Mills. 
5. Lumber Mills and Saw Mills. 
10. Quarries. 

SCHEDULE 3.—Manufactures.—Products of Industry in [Missing line], in the County of [Missing line], State of [Missing line], during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me. 

Post Office: Versailles, Mo.
