**Notes:**
- The term "Manufactures" is used to indicate the following classes of establishments: metal working, printing, paper-making, etc.
- The smallest shop shall be included provided the production is $100 annually, including the cost of materials.
- The table is to be filled in with the number of employees, wages, and hours of labor for each establishment.
- Power used in Manufactures includes steam or water.
- Principal Fuel is either coal, wood, or gas.
- Principal Product is the main output of the establishment.

**Explanation:**
- **Column 1:** The name of the corporation, company, or person.
- **Column 2:** The name of the establishment, trade, or factories.
- **Column 3:** The capital (in cash).
- **Column 4:** The average number of hands employed.
- **Column 5:** The wage and hours of labor.
- **Column 6:** The monthly laboratory.
- **Column 7:** The persons employed.
- **Column 8:** The per cent. of male.
- **Column 9:** The per cent. of female.
- **Column 10:** The power used in Manufactures.
- **Column 11:** The per cent. of fuel.
- **Column 12:** The kind of fuel.
- **Column 13:** The principal product or result of manufacture.
The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

1. Iron and Steel Factories.
2. Wool and Linen Factories.
3. Leather and Leather Goods Factories.
4. Tin and Copper Factories.
5. Flouring and Milling Mills.
10. Quarries.

SCHEDULE 3.—Manufactures.—Products of industry in ..., in the County of ..., State of ..., during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.
