28 Johnson

*Notes:*
- The term "Product of Industry" must be understood in its largest significance, to include not only all factories and large works, but also the smaller trades, such as blacksmithing, gunsmithing, etc. The smallest shop should not be omitted, provided the proprietor makes a profit regularly, including the cost of material. Establishments will be taken to mean all the productive establishments, large and small, within their several limits.

**Charters:**
- The details of every establishment should be described as accurately as possible, thus: Forging, Machining, Carving, Foundry, Machine Shop, Gunsmithing, etc.

**Instructions:**
- The final results of the returns should be described as accurately as possible, thus: Forging, Machining, Carving, Foundry, Machine Shop, Gunsmithing, etc.
- The returns of the year should be submitted for inspection to the various counties of the states to which they belong. If a return is not submitted, it will be considered as not having been received.
- The returns of the year should be submitted for inspection to the various counties of the states to which they belong. If a return is not submitted, it will be considered as not having been received.
- The returns of the year should be submitted for inspection to the various counties of the states to which they belong. If a return is not submitted, it will be considered as not having been received.

**Department:**
- The returns of the year should be submitted for inspection to the various counties of the states to which they belong. If a return is not submitted, it will be considered as not having been received.
- The returns of the year should be submitted for inspection to the various counties of the states to which they belong. If a return is not submitted, it will be considered as not having been received.
