The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:  
1. Boot and Shoe Factories.  
2. Cheese and Butter Factories.  
7. Agricultural Implement Works.  
8. Quarries.

### Schedule 3—Manufactures. Products of Industry in [State], County of [County], during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by [Name].

| Name of Corporation, Company, or Owner | Name of House, Residence, or Place of Business | First Letter of Name | Number of Hands Employed | Wages paid to Hands | Hours of Work per Day | Days per Week | Number of Weeks in which Wages were Payable | Days per annum | Hours per annum | Value of Wages in dollars and cents | Value of Goods manufactured | If under $1000 value, Describe Whence Buying Goods | If under $1000 value, Describe Whence Selling Goods | Description of Goods | If under $1000 value, Whose Property | If under $1000 value, Kind | Description of Workhouse | Number of Hands employed in Workhouse | Hours per annum | Hours per week | Days per week | Days per month | Days per annum |
|--------------------------------------|------------------------------------------------|---------------------|--------------------------|---------------------|---------------------|--------------|---------------------------------------------|----------------|----------------|----------------------------------|--------------------------|-------------------------------------------------|-------------------------------------------------|---------------------|-------------------------------------------------|------------------|-----------------|-----------------|-----------------|-----------------|
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |
|                                      |                                                |                     |                          |                     |                     |              |                                             |                |                |                                  |                          |                                                 |                                                 |                     |                                                 |                  |                |                 |                 |                 |

**Notes:**
- The term "Manufacturing Industry" must be understood, in its largest sense, to include not only all factories and large works, but also the mechanical trades, as blacksmithing, carpentry, printing, &c. The mechanic shop should not be omitted, provided the product made or repaired in it is of a value equal to the cost of wages.
- The kind of cloth or the character of the product should be described as accurately as possible, that is,旗帜, blanket, cotton, Turkey, Machine Sewing, Bookbinding, &c.
- In some establishments, the number of hands, the value of wages, &c., will be found that no ordinary returns are involved. In such cases column 31 will not be filled.
- The value of the product, in the case of mills and factories producing for a machine market, means the wholesale price of the goods. In the case of small shops producing goods for daily use, the value should be the price paid by the manufacturer for the materials.
- The value of the product, in the case of mills and factories producing for a machine market, means the wholesale price of the goods. In the case of small shops producing goods for daily use, the value should be the price paid by the manufacturer for the materials.

**Columns:**
- 1. Name of Corporation, Company, or Owner.
- 2. Name of House, Residence, or Place of Business.
- 3. First Letter of Name.
- 4. Number of Hands Employed.
- 5. Wages paid to Hands.
- 6. Hours of Work per Day.
- 7. Days per Week.
- 8. Number of Weeks in which Wages were Payable.
- 9. Days per annum.
- 10. Hours per annum.
- 13. If under $1000 value, Describe Whence Buying Goods.
- 16. If under $1000 value, Whose Property.
- 17. If under $1000 value, Kind.
- 18. Description of Workhouse.
- 19. Number of Hands employed in Workhouse.
- 20. Hours per annum.
- 21. Hours per week.
- 22. Days per week.
- 23. Days per month.
- 24. Days per annum.

I certify that I have this day completed the enumeration of the district assigned to me and that the returns have been duly and faithfully made in accordance with the rules and order of appointment.

June 30, 1880.

---

**Notes:**
- The term "Manufacturing Industry" must be understood in the largest significance, to include not only of factories and large works, but also the mechanical work, blacksmithing, coopering, ironing, &c. The measure shop shall not be included, provided the products are other than the usual trades.
- All materials and the materials of products should be described as specifically as possible. Sewing Machines, Counters, Factories, Foundry, Boiler Shop, Coopering, Blacksmithing, &c.
- "Kind of Business" is the description of products to be described as specifically as possible.
- "Average Number of Hands firearm" and "Hours and days of labor" should be estimated, keeping the returns relative to the regular hours of work in the case of small shops where bookkeepers are not kept.
- "Number of days in week" and "Number of weeks in year" should be estimated, keeping the returns relative to the regular hours of work in the case of small shops where bookkeepers are not kept.
- "Products and other description" should be estimated, keeping the returns relative to the regular hours of work in the case of small shops where bookkeepers are not kept.
- If steam power is used.
- If steam power is used in 발알.
