NOTES—The term "Manufactures" must be understood to include not only all factories and large works, but also the mechanical trades, as blacksmithing, coopering, carpentering, &c. The word shop should not be used, provided the work be done under one management; if not, should be given. The rates of wages should be stated as they are paid. 

1. The kind of business or the character of product should be described as accurately as possible; thus, Sawing, Machinery, Carving, Foundry, Machine Shop, Cooperage, Blacksmithing, &c. 

2. The name of the person who is employed should be given in charge, if the work be done in one shop, and where the work is done in several shops should be given for each shop. 

3. The number of hands employed shall be stated as accurately as possible; thus, 10 men, 30 men; 10 men, 24; 10 men, 18; 10 men, 15; 10 men, 12; 10 men, 9; 10 men, 6; 10 men, 3; 10 men, 1. 

4. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of wood, 50 lbs. of iron, 25 lbs. of copper, &c. 

5. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

6. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

7. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

8. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

9. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

10. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

11. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

12. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

13. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

14. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

15. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

16. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

17. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

18. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

19. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

20. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

21. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

22. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

23. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

24. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

25. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

26. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

27. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

28. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

29. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

30. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

31. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

32. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

33. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

34. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

35. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

36. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

37. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

38. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

39. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

40. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

41. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

42. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

43. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

44. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

45. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

46. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

47. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

48. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

49. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

50. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

51. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c. 

52. The amount of raw materials used in each shop should be stated as accurately as possible; thus, 100 lbs. of raw material, 50 lbs. of raw material, &c. 

53. The amount of finished product finished in each shop should be stated as accurately as possible; thus, 100 lbs. of finished product, 50 lbs. of finished product, &c.

**Remarks:**
- The term "Manufacturing Industry" must be understood, in its broadest sense, to include not only all factories and large workshops, but also the manufacturing trades, such as blacksmithing, carpentry, corset-making, etc. The number of employees should not be reckoned, provided the products are marketable, including the cost of materials.
- Enumerators shall make prior to census of each production establishment, large and small, which have several branches.

**Columns:**
- Column 1: Name of Manufacturer
- Column 2: Description of Product
- Column 3: Capital (in thousand dollars)
- Column 4: Laborers Employed
- Column 5: Wages Per Month
- Column 6: Machine Laborers
- Column 7: Machine Wages
- Column 8: Other Laborers
- Column 9: Other Wages
- Column 10: Wages Paid by

**Instructions:**
- The kind of business or the name of the product should be stated as specifically as possible, e.g., Sewing Machines, Ornamental Irons, Foundry, Machine Shop, Corset Making, etc.
- In case an entry is not to be made.
- If the 12 months of the year should be measured for the same or at all the following, 12 months on half time, or 6 months on full time and 6 months on half time, as 18 months on full time and 18 months on half time.
- The kind of product, i.e., the make of each and every branch producing for a local market, to the lowest value of the price charged at the shop.

**Notes:**
- If the entries are in a very small size, they may be made by hand or by hand with a pen.
- Only numbers and names should be entered.
### Schedule 3—Manufactures

**Products of Industry in Jackson Township, in the County of St. Clair, State of Missouri** during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

**Remarks:** The term "Products of Industry" must be understood to include not only all factories and large works, but also the mechanical trades, or handicrafts, excepting, of course, the mechanics shop. The following rules must be strictly observed:

1. **Capital:** The kind of business or the character of business should be described as specifically as possible. For:书记 Maching, Carpen, Fencing, Foundry, Machine Shop, Cooperage, Brickmaking, etc.

2. **Labour:** All tools and implements to be entered, such as blacksmith, shoemaker, etc. If it is found that no tools are employed, or in the case of labourers will not be included.

3. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

4. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

5. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

6. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

7. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

8. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

9. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

10. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

11. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

12. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

13. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

14. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

15. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

16. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

17. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

18. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

19. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

20. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

21. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

22. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

23. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

24. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

25. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

26. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

27. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

28. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

29. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

30. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

31. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

32. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

33. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

34. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

35. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

36. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

37. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

38. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

39. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

40. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

41. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

42. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

43. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

44. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.

45. **Labourers:** The kind of labour or the character of labour should be entered as making the employment therein, especially in the case of small shops where both items are not kept.
## Schedule 3—Manufactures

Products of Industry in the County of St. Clair, State of Michigan, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.

**Post Office:** 

**Enumerators:**

### Table

**Notes:**

- The term "Manufacture" must be understood to include not only all factories and large works, but also the mechanical trades, as blacksmithing, carpentry, etc. The smaller shops should not be entered, provided the production reaches a mill and annually, including the cost of materials. Enumerators will take pains to include all of the productive establishments, large and small, within their several districts.

- **Column 1:** The kind of materials or the character of goods should be described as nearly as possible, e.g., Cutting-Machines, Gears, Tumblers, Forges, Moulding-Shops, Coopering, Building-Making, etc.

- **Column 2:** If many establishments are represented, an average should be given.

- **Column 3:** The length of time covered by the return must be stated in the column headed "Number of Years the Establishment has been in Operation." If the establishment has been in operation less than a year, "Not in Operation" should be entered. If it has been in operation for more than one year, the number of years should be entered.

- **Column 4:** The amount paid by the workmen is to be taken as the usual or prevailing rate, or the wages paid in the case of establishments not paid by the piece.

- **Column 5:** The cost of materials is not to be included in the value of the product. In the case of small shops producing goods or doing work, for the neighborhood only, the value of the product minus the price charged at the shop should be entered.

- **Column 6:** This column is to be filled in only where the larger vessels or river boats, 

- **Columns 7 and 8:** Only water-mills below and engines are to be reported.

- **Columns 9 and 10:** This is a matter of great importance. The best information available should be used in filling these columns.
The following classes of Manufacturing Establishments will be reported on a SPECIAL MANUFACTURING SCHEDULE, and not on this Schedule, viz:

(1.) Boot and Shoe Factories.
(2.) Cheese and Butter Factories.
(3.) Flouring and Grist Mills.
(4.) Saw Mills.
(5.) Lime Mills and Saw Mills.
(6.) Brick Yards and Tile Works.
(7.) Paper Mills.
(8.) Coal Mines.
(9.) Agricultural Implement Works.
(10.) Quarries.

SCHEDULE 3.—MANUFACTURES.—Products of Industry in [Blank], Township, in the County of St Clair, State of Illinois, during the twelve months beginning June 1, 1879, and ending May 31, 1880, as enumerated by me.
