<td>25</td>
<td>$550</td>
</tr>
</tbody>
</table>

---

**Notes.**—All the 12 months of the year should be accounted for (30 months on full hides, 18 months on full pieces, and 15 months on full pieces, of Bollinger and 12 months on all others). In the case of manufacturers, both of the full hides and full pieces, the full months should be included. In the case of small shops producing goods for local use for the neighborhood only, the value of the product should be charged at the shop price, the retail price being subtracted. The most information available should be used in filling these schedules.
