Notes: All the 30 months of the year should be considered for this. If worked on full time, or 6 months on full time and 6 months on half time, or 10 months on full decreased 2 months idle.

This information is subject to the accuracy of the number of working days and hours per week. The data may not be comparable with any other schedule.

The data includes the number of full-time workers, part-time workers, and other persons engaged in the manufacturing establishments and is not to be included in calculations. All figures and totals should be rounded to the nearest whole number.

In the case of small-scale producers of goods, the number of workers and total value of materials should be considered.

Material costs are subject to the accuracy of the data. The best information available should be used in filling these columns.
